"OFFICIAL Undergraduate News Organ of M. I. T." This is the title which has been on page one of THE TECH during its 47 years of continuous news service. This has been the motto, and to carry it out to the best of his ability has been the desire of every member of the staff. To give "all the news that's fit to print," as some of the country's newspapers express it, has been the policy.

However, in this commendable ambition, we have perhaps failed in it a bit. There have been too many times when we have been forced to the conclusion that the handicap of a football season, too little of real human interest. Some of the articles are good, and all lack that all-important touch which makes the most interesting reading for the subscribers. These deficiencies, and an effort to meet them, may be seen in this column. A new column is commencing, as announced on the first page.

Any small-town editor knows that it is his "Personalities" of which his readers think most highly. It is a story about the people living in, or connected with, his town. Here is a list of the names which we have included in this column, and the personal interest we feel in each.

Dear Sir: -

Two years ago last winter I went into the gold mining business in Canada. It was a tough trail from Ridgway, Colorado to the Yukon gold mines. There were fourteen of us on the trail: a partnership of five men and nine boys. When we started our mining camp we had an inside knowledge of the Yukon boys born and bred. We were got it our old-fashioned way. I was glad to get 'most anything.

Yesterday I was out on the mining camp and was meeting my old friends. I was glad to meet them. We had a good time yesterday. We were out sacrifice of wear.
