PRESIDENT WILL ADVISE FRESHMEN AT MASS MEETING
Will Assist Entering Class to Adjust to Institute Life at Institute

ALL FRESHMEN TO ATTEND
Student-Faculty Relations and Rules to be Explained

President Stratton will address the freshmen in Room 10-250 at eleven o’clock Thursday. It is very important that every freshman take this meeting. It forms part of the two-hour period set aside in the past for the President to ask the freshmen questions and, to speak on subjects incident to the helping the freshmen to be adjusted to the life at Massachusetts Institute of Technology.

The system of student government at the Institute is described, and questions as to the selection of the freshmen class are answered. Several of the selecting classes do not get the proper credit for the work they are doing, and the student government really does not get the credit it deserves.

Everyone is asked to be present at this meeting, and the freshmen are directed to look for the students of the class who are to be introduced to them, and to present their class for the first time to the Institute at much more pleasant.

TUG-OF-WAR TEAMS START ROPE HAULING
Seven Sturdy Sophs Show Life and Appeal for Action

With Field Day just two weeks off this week, a rope hauling team had a busy day, as they put in practice some of their tactics for the races on Wednesday. Ross Grindley and his men, working at the rate of six pounds per team member, were the winners. The races are planned to take place at noon Wednesday.

Football Games Heard Saturdays in Walker
Edgar Pungg is still "beating the deck" and others are expected to do the same so far as the game being played in Walker Hall is concerned. The year draws to a close, but football is still in the air.

FRESHERN BEATEN BY THE CRUSADERS AT FRANKLIN PARK
McNutt ‘31 Surprises Onlookers by Winning a Close Race in Context

FRESHERN RACE IS CLOSE
In their first performance of the season, the M.I.T. Yacht Club from Elyot Cross at Franklin Park, Mass., carried the trophy by a narrow advantage of less time, and even though the M.I.T. was very well equipped with the best men entering the regatta, there is the opinion that this year’s team is due for a second successive championship. The M.I.T. also did some excellent running until they lost by a score of 22 to 21.

Leon Thornton made himself the hero of the day by running a leading race almost throughout the event, and winning by a margin of more than 300 yards. He ran with the Van kwargs last season and also ran the infamous Long Island regatta last summer. Thornton was 11 miles out of the way, which was given a score of 38 miles by the regatta in the year’s course.

\n
That engineers are a boon to humanity through their service to mankind and their immensely invaluable "cold-shoulder thinking" is hardly doubted by anyone here—he be professor or nearest relation, but it is wiser for the greater good of all mankind, that an engineer in doing his job gives not a particle of attention to the human element concerned, but confines his efforts to the business of it all—to the satisfaction of building a greater bridge than ever before; to the joy that comes from "plowing the fields they do directly serve, the financiers.

It is needless to say that such pecuniary, self-satisfying ideals may be most commendable, but not a step do they take toward humanising the engineer, toward making his work a joy that of a hearted man. What is that what is that? Have we our new Hamleys come a complete panacea? That is hardly possible, though it may go far in the Institute's sincere attempt to train the ordinary engineer as a character. The ordinary student has done as a parvenu to emigrate to least two years of a liberal college education, so far risen to the standards and quality with the present four-year pressure system of technical study, this alone can -ive

Thorsen and McNiff Shine for Engineers Varsity in 25-30 Win

(Continued from page one)

The weather was warm and sunny, very bad for cross-country running. McNiff Finished Third.

Next to the fine running of Thorsen the most noteworthy exhibition was the thrilling finish by Johnny McNiff of last year's freshman team. He ran the second mile after the first mile by McNiff and сразу on the third mile. Ginter, in blocking or tackling. The Technology runners led the field for the first two miles but their fast finish training and experience had its effect and the Holy Cross men began to pull ahead. Although McNiff won second place he followed his second freshman season very well.

Frost Gridsters Lose to Jumbos

Heavy and Faster Brown and Blue Team Scores at Will—Score 31-0

Zafie yearlings had little difficulty in disposing of the youthful Dartmouths at Tuffs last Friday afternoon. The Technology team, a much stronger and faster team than the Central and the most valuable players is working through the Technology line. At the first quarter break Brown and Blue showed their heads and in spite of 9 points being scored by the Tech team under the jumpping of 15 points. Not satisfied with this the Jumbos scored 2 more touchdowns in the third period.

Teching Is Poor

Neither team showed much ability on Monday afternoon. The Technology ends were the only men who were successful in escaping the reach of the Brown and Blue. However the Johnny's have discovered some leaks in the weak points of the team and they are going to use these in order to defeat Tech. With the 31 point lead the game was out of reach and the Technology was unable to score any points.

WRESTLING MEETING HELD AT HANGAR GYM

More Candidates Are Urged to Come Out for Practice

A mass meeting for all men interested in wrestling was held in the Hangar Gym last Friday. There were several falls given, most of which were caused by a lack of concern regarding the wrestling team. A few of the boys were fairly good the Varsity having only lost four matches. Hanrahan and McGinty. There are several members from last year's freshman team, among whom are Budlong, Skidmore, and Eliot. Last year's Varsity was ratched up by the freshmen this year's Varsity was ratched up by the seniors and the underclassmen this year's Varsity was ratched up by the sophomores and the juniors. The team is made up of the following:

Walking, which always ought to be a pleasure, is a serious matter when it's done on old-fashioned hard heels. The jolts and bumps and shocks that come with every step gradually pile up fatigue and take the spring out of your stride. Moreover, it's unkindness to your entire neighborhood.

Cushion and quiet are two of the best reasons for the popularity of rubber heels. Rubber gives and lifts and helps. Especially long-wearing, deep-cushioning and stylish Goodyear Wingfoot Heels. Preferred by 64% of all shoe dealers; more people walk on Wingfoot Heels than on any other kind.

Three words to the college shoe repairman, and in less case than it takes to wind the flivver, you're on Goodyear Wingfoot Heels today!
Course I Geology Class Sees M. D. C. Water Tunnel Project Near Worcester

Spending Day at Construction Camp: Plans to Build Water Supply

Reconstructing an old-glacial lagoon that Boston may have a water supply coming from it. This lagoon, known as the "muckers," will be excavated and the water stored in a reservoir. The excavation will be done by electric drills, and the water will be carried to the city by a tunnel. The project is under the direction of the Massachusetts Department of Public Works.

Aviation is Topic Before Course XV

Airplane Managers to Address Corporation XV Dinner

At the first session of this year's Course XV, which is devoted to aviation, George E. Marsh, president of the United States Aircraft, Inc., was one of the speakers. He discussed the problems involved in the design and construction of airplanes.

British Critic Learns That "Yeah" No Longer Means "Yes" in American Slang

Campaign to Abolish the Use of "Yeah" and "Yea" Has Begun

Professor Smith, a British literary critic, has been in the United States for several weeks, studying our language and customs. He has recently published an article in which he criticizes the use of "yeah" and "yea" in American speech.

HARRIERS WIN OVER CRUSADERS BY 25-30

(Congratulations to Page Three)

Crosse & Blackwell, Inc.

The Harrizers defeated the Crusaders by a score of 25-30 in a hard-fought game. The Harrizers were led by their captain, who scored 10 points, and the Crusaders were led by their quarterback, who scored 8 points. The game was played in front of a capacity crowd.

Tryouts for Relay Events to Begin This Afternoon

(Continued from Page Three)

As in previous years, the tryouts will be held at the Harvard Stadium. The details of the tryouts will be announced later.

The Athlete's Friend

Tucked away in a small corner of the campus, the Remington Portable is the perfect companion for anyone who needs a portable typewriter. Its compact size and lightweight design make it ideal for students, writers, and anyone who needs to type on the go.
