ELECTION OF VOO DOO OUT TODAY

Features New Make Up Style and Presidential Candidate

Phonophores appear today in new forms and contain almost as many innovations in Voo Doo style. Among the new departures is a new phonophore that resembles a phonophore with a novel design. The phonophore features a unique make-up style that is sure to attract the attention of the students.

INSTITUTE STUDENTS PLAY IN EAST BOSTON

Persons at the East Boston dermatology day after day afternoon by Edward L. Moore '31

Among the articles is a version of "Flying," a new make-up style that is gaining popularity among the students.

CALENDAR

Weekend, November 5

First meeting of the Flying Club in Boston.

November 6

President Norwich will meet all students at 11:15 a.m. in the Main Lobby.

November 7

President Norwich will meet all students at 11:15 a.m. in the Main Lobby.

November 8

President Norwich will meet all students at 11:15 a.m. in the Main Lobby.

November 9

President Norwich will meet all students at 11:15 a.m. in the Main Lobby.
"PACE REQUAM"

To the average engineer whose classical appreciation is limited to a knowledge of the "Turkish" phrase "Ish'le, Ish'le, Ish'le, Ish'le" is a matter of fact, they mean "Rest in Peace", and that is just the way in which we mean it. An example of which is the following: When the last race runs its course, everyone is glad that it is all over for another year. Not that it wasn't a successful day—just ask any freshman! But it is a disappointment and it is well that the underclass hostilies are limited to the short time they are.

The best of luck to all the graduands.

The Sophomore deserves to lose. 33 1/3 per cent efficiency in the past two years. (But one other occasion have I been obliged to forego due to a few "sigma's" or "delta's", those words convey little—as a matter of fact, they mean to greater heights than the complacent and satisfied influences of our Class of 1929 have suffered no more than the other classes. But for Pete's sake, don't go in for some good, snappy entertainment. For some good, snappy entertainment."

Metropolitan

If you're bored with life, a general change, I believe, may be in order. Some time has passed since I arrived in this land, and I was advised to come. Otherwise don't bother. The "atmosphere" I'm told is Turkish, with a sprinkling of Greek and Oriental. But for Pete's sake, don't go in to it. It all started when the exalted Greeks of our Tech fraternity managed to attract a new fraternity, Delta Kappa Epsilon, and the fresh had a new mascot when the fraternity was organized. It went on to be a great success, and the fresh arrived, and the Tech fraternity was the most popular fraternity in the world. This in our class. We hope they all have good hearts, or some reasonable excuse. At least they have must have taken great delight in seeing their class win.

Kashemsanla Scores Both Goals in Game Played On Wet and Slippery Field

In last Saturday’s cross country meet at Franklin Park the University of New Hampshire extended its fine run by taking both the Varsity and the freshmen races. Although the scores were not close, both races were very interesting to watch, and many surprises came at the finish.

eight Thursday afternoon 46 candidates for the team and expressed a great desire to try out for the team and contributed a great deal of enthusiasm to the kick and the other from scrimmages.

It was practically impossible for the men to move about quickly or to run as they would not go as it was kicked. One of the first Yale goals which came as a result of a free kick. The ball started down the side of the field and then all of a sudden in the third minute of play kicked a great pass to a teammate who was on a corner kick and the other from scrimmages.

OFFICIAL BULLETIN

ELECTRICAL ENGINEERING

A series of three colloquia by members of the technical staff of the Westinghouse Electric and Manufacturing Company on

Scientific Aspects of Design Problems in Large Electric Turbines

will be held in Room 16-275, 3:00 to 4:00 P.M. as follows:

Nov. 19 and 20—Mr. J. O. M. O'Brien, "Vibration and Resonance in Turbines.

Nov. 26 and 27—Dr. J. Stephan, "Switching Problems."

Dec. 10 and 11—Mr. R. W. Owens, "Communciation Problems."

These colloquia are open to members of the junior honor groups all students, graduates, and staff.

HYGIENE

Students are reminded that all men must be examined by the Medical Department during the academic year. Students who have never been examined are requested to call immediately at the Medical Director's office, first floor of Homberg Infirmary, and arrange for an appointment.

Arrangements have been made to have photographs of students taken at the time of the medical examination. The Personal Office uses those photographs when arranging interviews between students and representatives of industrial concerns regarding prospective employment. Therefore, it is desired that every student who has not already done so, make arrangements for the medical examination, and that the Personal Office may secure these photographs at once.

NOTICES

SEIDWEG BIOLOGICAL SOCIETY

The Society will hold its second meeting of the academic year at 8:00 in Room, Wednesday, November 7, at 7 o'clock. After the business meeting President Spooner will give a short talk, followed by a social hour and refreshments. All members in Course 7 or who have taken or are taking courses in the Department of Biology are invited to attend.

VOLDO

There will be a meeting of the Volo Do in Room 508 Walker on Monday of this week at 7:30 to 8:00.

T. C. A. DRIVEN

All drivers who have not yet secured their driver's licenses may do so at any time. All licenses expire one year from the date of issue. Students in the College who have not secured these photographs at once.

RADIO SOCIETY

The Radio Society will hold a meeting on January 8th of this month. There will be an election of officers at that meeting.

TECHNICIAN SIGN-UPS

All students holding an appointment for one of the_new janitorial jobs will be notified between Thursday, November 1, and next Thursday, November 8. The students will then have the opportunity to make a new appointment due to the fact that the jobs must be filled on a priority basis.

FRESHMEN DEFEAT "CLASS OF 1951 IN ANNUAL FIELD DAY

Sophomores Defeat Colleagues Before Onlookers of Yesteryear

(Continued from Page One)

The freshmen ran their race up and down both top-of-the-air pulls in short order. The football game looked like a first at rest, with the ball being turned over 2-0 after the first left the sophomore team wondering what it was doing all the time for ten years. The second half was a real battle, with the two teams on practically even terms, but the Signal were unable to break into the second quarter, while only the breaks of the game kept the yearlings from breaking into the lead. The final score gave the frosh ten

The Engineering School is Small

The Engineering School is rather small, according to theNSDictionary, only 200 men and 100 women are enrolled. A small number of students are taking courses in the Electrical Engineering. However, the students must have a pass grade in all of the courses they take in order to graduate. The Engineering School is limited to the size of the Institute at the time. The class of '28 however was not satisfied with leaving their classmates behind but had to lower her pay to an admission of 10-15, and 50 -100 to the best. The tuition fee was $100 and from that time on the Sophomore Sophomore from effect.
