FRESHMAN RE-VOTE FOR INSTITUTE COMMITTEES IS TODAY

DEDICATION EXERCISES OF NEW INFIRMARY ARE HELD
Dr. Emerson, in Dedication Address, Stresses Need For Participation In Protecting Individual Health

"The modern hospital is the expression of a new ambition, as a center of protection and information, a link in what has been described as the foundation for common health," declared Dr. Havem Emerson, Professor of Public Health at Columbia University, in his address at the dedication of the Richard M. Homberg Memorial Infirmary yesterday afternoon.

William Renzeald "Bill" Hauser, rector of the infirmary which was dedicated yesterday, stated that the construction of the infirmary was due in large part to the efforts of the United States, who, in good faith, have given a pioneer in safeguarding the health of the nation a right to live in his own house, and who have sought to make effective the principles of the Health and Sanitary Code of the United States.

The infirmary is the heart of the hospital, and the advisory council on Club are now under way and will no longer be

FLYING CLUB WILL MAKE FINAL PLANS
Club Plans to be Ready for Use of Members in the Next Two Weeks

More than 20 men signed their intention of joining the Flying Club at a meeting held at the club house yesterday afternoon. This is a sign that the flying club will be able to secure funds to operate the flying club, and that the flying club will be ready in the next two weeks.

Plans for incorporating the Flying Club are now being completed. The club will meet in Room 418 of the Old Buildings, and will start its program at a later date.

"FRESHMAN RESEARCH" ANNOUNCED BY T.C.A.
Harry Bone Will Lead Discussion at New Undertaking

According to an announcement that has been received from the T.C.A., the association for research work, a new fellowship in physics, the first to be established in the field of physics at the institute, has been created.

Dr. Henry Bone, who is now at work on his senior thesis, will be the chairman of the committee that is to be appointed to select the students who are to be given the fellowship.

"I believe that it is the duty of the student body to recognize the importance of this work, and to support it in every way possible," Dr. Bone said. "I am confident that the work will be done in a spirit of cooperation and friendship, and that it will be profitable to all who take part in it."

T.C.A. FINANCIAL DRIVE EXCEEDS QUOTA BY $800
Most Successful Campaign In Four Years—Many Contributions Of 25c Are Mailed
By Undergraduates

According to an announcement made by the T.C.A., the financial drive of the T.C.A. has exceeded the quota by $800. A total sum of $642.25 was contributed to the financial drive, averaging over $1.00 a question.

T.E.N. TO APPEAR WEEK OF NOV. 15

Article on "Holland Veined Tunic" Is Made Favorite Of Month's Issue

An article on the Holland Veined Tunic, which was made popular by the T.E.N. magazine, will be featured in the next issue. The article will be followed by an interesting interview with the author of the article, who will discuss the history and significance of the Holland Veined Tunic.

"The Holland Veined Tunic is a type of clothing that has been popular for many years," the author said. "It is a type of clothing that is comfortable and practical, and that is suitable for all occasions."

A Record of Homberg Memorial Infirmary

Dr. George W. Morse, head of the Department of Hygiene and Medical Sciences, spoke yesterday on the opening of the infirmary and the advisory council on Club are now under way and will no longer be

A AY FROM THE GRIND
Kappa Sigma
The Kappa Sigma band had their first dance on the University grounds in the evening, November sixth. The good music was furnished by Tynes' Orchestra. A novel decorative effect was obtained by a series of gauze curtains hung from beam overhead and suspended from the ceiling. The men had been aerated, and the women had been girded high up on the walls. Red and white bunting decorated the windows. An unusual balcony was also set up over the orchestra where the ladies were seated, but not only to the general effect but also to the amusement of the occasion.

Lambda Chi Alpha
The first of a contemplated series of formal dances in the year, a Lambda Chi house on Friday night, November sixth. The members of this house were most previously present. The theme was a decided success, and was followed by two other. The members have decided to hold a similar one every two weeks throughout the term.

T A N K S THE LOUD
"Thank the loud," said most of us on Monday morning after we had luxuriously crawled out of bed in the first rays of sleep, "that Massachusetts legislators have at least agreed that war is over and that we may celebrate its end. For now we'll always have a special reason for an extra long weekend. It means we could go on a party Sunday evening with not the slightest conscience.

Sentiments like these are as close as most of us came to any spirit of reverence on Armistice Day. It furnished us merely an opportunity for an extra long, week-end. It meant we could look back on those tragic days of the Great War. Not thought of those days-are on those tragic days of the Great War. Not thought of those days-the last and greatest of the world wars that shaped all our lives. Not thought of those days-the last and greatest of the world wars that shaped all our lives. Not thought of those days-are on those tragic days of the Great War. Not thought of those days-the last and greatest of the world wars that shaped all our lives.

It is fitting that we incorporate in our picture of the day.

Springfield Soccer Team Defeats the Engineers 5-0

In Hard Fought Contest

Continual pressure plus the fact that the Springfield Soccer team was playing on their own ground made the difference. Neilts of the games were played and the tide had swung for the Engineers. It was a long battle for Springfield to get the upper hand and the final score was 5-0. Springfield was the clear leader in all phases of the game, but the Engineers showed a lot of fighting spirit and determination. The game was played in spite of poor weather conditions and the score was 5-0.

ELCALS HEAR OF TELEPHONE WORK

About four hundred were present at the meeting of the Telephone Branch of the A. L. J. B. Friday night.

The Massachusetts Telephone Company gave the students some ideas about the types of work to be found in the communication field of electrical engineering.

Mr. O. W. Bakke, the speaker of the evening, was appointed by Mr. R. S. Thomas of the Laboratories and by Mr. R. E. Bigelow of the Eastern Telephone Company. Mr. Bigelow replaced Mr. Davis, who was unable to be present.

These meetings are arranged primarily to be of assistance to the men who are interested in the telephone field and to strengthen their determination to help them decide upon the type of work they would like to go in. They have been rather far in advance of the schedule of the meeting to provide for it.

Mr. Bigelow has shown the boys how to prepare for it.
