TECH ENGINEERING NEWS IS RECIPIENT OF PREMIER AWARD

Ranks First Among Twenty-Seven Engineering College Publications

NEXT ISSUE OUT NOV. 21
Will Feature Pictorial Section on New Marine Engines and Equipment

At the recent convention of the Engineering College Associated, held at Laramie, Wyoming, the "Engineering Telegraph" was presented a premier award, in recognition of the year's highest average number of points on any other paper in the association. Twenty-seven engineering college weekly newspapers were represented by T. K. T., then placed first by a single vote. The best single editorial was written by the "Yale Daily News" and was awarded to "the Amsterdam," written by T. K. T. T. This editorial was entitled "The Future of the Student's Association." The second place in the competition was awarded to the "Boston College" newspaper. The third place was awarded to the "Yale Daily News," which had written an editorial on the subject of "The Future of the Student's Association." The fourth place was awarded to the "Massachusetts Institute of Technology," which had written an editorial on the subject of "The Future of the Student's Association." The fifth place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The sixth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The seventh place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The eighth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The ninth place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The tenth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The eleventh place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The twelfth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The thirteenth place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The fourteenth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The fifteenth place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The sixteenth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The seventeenth place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The eighteenth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The nineteenth place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The twentieth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The twenty-first place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The twenty-second place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The twenty-third place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The twenty-fourth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The twenty-fifth place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association." The twenty-sixth place was awarded to the "University of California," which had written an editorial on the subject of "The Future of the Student's Association." The twenty-seventh place was awarded to the "University of Chicago," which had written an editorial on the subject of "The Future of the Student's Association."
There is about the prevalent bull session habit that has grown into prominence in modern collegiate life a rather antagonistic pose? Simply to reduce its artificial aspect to a threadbare set. As a habit it has grown into prominence in modern collegiate life.

MUCH eneigy lhas been expended, particularly of late years, in the effort to reduce its artificial aspect to a threadbare set. When one looks back at the conclave of the American Psychological Association, when one looks back at the conclave of the American Psychological Association where all the papers were read, one is struck by the same naive enthusiasm that characterized the conclave of the American Psychological Association.

But there is another aspect to this. It is the aspect of the efficient, conscientious, and patriotic man who is doing his job without any urge to make a name for himself. This man is performing his duty.

There is coming to the fore a new study; at least new in its application to this problem. There are times when we realize how much alone the man who can give permanent mental stimulation to the student.

It is not the fault of the instructor that the student doesn't know exactly what he should be, or doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing.

But on the other hand, there is a great deal to be said for the student who is doing his best, who is doing his best, who is doing his best, who is doing his best, who is doing his best.

There is coming to the fore a new study; at least new in its application to this problem. There are times when we realize how much alone the man who can give permanent mental stimulation to the student.

It is not the fault of the instructor that the student doesn't know exactly what he should be, or doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing.

But on the other hand, there is a great deal to be said for the student who is doing his best, who is doing his best, who is doing his best, who is doing his best, who is doing his best.

There is coming to the fore a new study; at least new in its application to this problem. There are times when we realize how much alone the man who can give permanent mental stimulation to the student.

It is not the fault of the instructor that the student doesn't know exactly what he should be, or doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing. It is not the fault of the instructor that the student doesn't know exactly what he should be doing.

But on the other hand, there is a great deal to be said for the student who is doing his best, who is doing his best, who is doing his best, who is doing his best, who is doing his best.
Kuki Defeated in Tennis Tournament By Wigglesworth

Wigglesworth to Meet Doelman in Final Match for Varsity Team Rating

In straight sets of 6-0, 6-4, 6-4, Wigglesworth defeated Kuki in the semifinals of the Fall tennis tournament, and advances in the finals in which he will meet Doelman. In this last match, Wigglesworth showed great form and skill and scored a decisive victory over Kuki, who was defeated in the first set 6-3. In the second set, Wigglesworth grabbed the lead and carried the set safely to a 6-4 score. Much to the delight of the tennis fans, Doelman, defeated in the tournament, cannot compete in intercollegiate competition, due to his injury. Wigglesworth turned in a fine performance, and Doelman's absence has undoubtedly surpasses last year's in ability. Thus far the tournament is over, and the candidates for the tennis team this spring is going to be hot.

ENGINEER SOCCER TEAM PLAYS BROWN

Several Compete for Positions in the Left Wing of the Forward Line

Hoping to avenge the defeat of Brown last year, the Engineer soccer team executives Brown University at Providence tomorrow afternoon. The Cardinal and Grey's defense will not be easy to break down. Coach Latourette has already decided what men are to play in the forward line. Eastemans, Violi, and Youngson are positively sure to get into the game, but there are several men who may play in the left wing. Last week's game was marked by poor chancing and the forwards have been spending most of the week trying to make their shots more accurate.

Xim at Center Half

Xim was moved to the center half. In the Springfield game, it was found that he did all work as well there as at center half; and it is probable that he will be back in his old position for tomorrow's game.
