CIRCUS
WILL NOT BE HELD THIS YEAR

PROPOSAL TO REPLACE CIRCUS WITH CARNIVAL
DEFEATED AT MEETING

Betas' Toonerville Trolley Which Was
Prize-Winning Float at Last Circus

NEW PLAN CAUSES MUCH DISCUSSION
TO RENEW CIRCUS

Hamlin, Boyer Head Opposing
Family of President of Holding Carnival

RECOUNT IS NECESSARY

No Circus will be held at the insti-
tution this summer, it was decided upon at the Institute Committee
meeting. The North Hall of Walker Memorial, yesterday after-
noon, was packed with enthusiastic students who re-
quested that the Bioscience Carnival be held this year.

The Roosevelt and the Institute Committee had made its report to
the members of the Committee that an Alt-
ernative to the Circus, which was to be held on March 28, would
be a Biological Carnival. This would take place in the Post Hall, which
was to be used for the Circus.

For a period of two weeks, the students of the University, including
the freshmen and sophomores, were given an opportunity to particip-
te in the planning of the Carnival.

As the Carnival came to a close, the students were given the oppor-
tunity to choose the final plan.

The final plan was approved by the students, and the Carnival was
held on March 28.

development of the project, and the students were given the opportu-
nity to participate in the planning of the Carnival.

BLESSED are the innocents of M.I.T., though they realize it not. They areMonad school boys of the modern age, for whom the "normal" modern times, if honestly accepted as fact. For they have an Infirmary and all its attendant pleasures and procedures. In charge of the Unlimited.

Were you ever particularly happy when the appositeness year brought you to a sickbed, when there are plans for it all to stay just to preserve the delights of convalescence! Foolish question. Did you ever cherish the longing to enter a hospital for pleasant associations and a long-needed rest? Again a very negative answer. Undoubtedly the health of the group was thought of, and the infirmary might have a slight touch of this or that just badly enough to be sent to the Homberg Memorial for a few days. Nowhere was any of these plans in their Tech careers.

On the contrary, at M.I.T., colleges have removed or less rightfully the reputations they now bear—false, cheerless places keeps the student body at M.I.T. Just as a bit of proof let it be realized that very few who have had the good fortune to be confined within its pleasant walls have failed to return later on purely social calls, just out of tribute to its excellence. The staff is exceptional for its ability to make one feel at home; the treatment leaves nothing to be desired; the rooms are beautiful; the food is great; the atmosphere is far more conducive to recuperation and study than to the atmosphere created by the fundamen-

tudes of receptive contemplation; the minds of the European faculties main-

The final course of these three is a chance to learn about the arts, the sciences, and others as well as the traditions of the American men and women. The programs of famous universities as well as the traditions of the American men and women. The programs of famous universities as well as the traditions of the American men and women.

HOCKEY SIXTEET MEETS NEW HAMPSHIRE

**Pucksters Confident of Victory Over Wild Cats In Durham Game Tomorrow**

On Saturday, the Varsity sextet will meet New Hampshire at Durham, at 7:45 o'clock, and if capable of turning a favorable result, will probably start at 9 o'clock. The starting lineup in as follows, White, I. W.; Crocker, E.; Cullinan, J. M.; Hardy, L. A.; Beale, H., and Peene as substitutes.

While the Cats are looking for a Head-on battle against the Cardinal and Gray, one of their main prospects is to be the inroads made into the scoring of the game. The Cats have been playing diligently all season long, and tied the Bulldogs of Boston in a game that has been played between them.

The Cats, however, expect to give the Wildcats a good game tomorrow, and if they should be able to get the better of the game, they will be in the position of being able to make a successful bid for the champion in the state.

**FRESHMEN SWIM IN OPENING MEET WITH MALDEN TOMORROW**

The freshmen swimming team is rapidly getting back into shape, and with the help of their fellow students, will probably be able to make a success of their first game.

**Hockey Sixteen - Expect Victory In Harvard Meet**

Meeting Harvard in their first meet, on Saturday, at 7 o'clock in Harvard Gym, the sixteen are counting on a big game, and hope for a vic-

**DEBATING SOCIETY TO PLAN SCHEDULE**

The debating society is planning a schedule for the next season, and will probably be able to make a good showing.

**Ticket Agency is Planned by T.C.A.**

Due to the fact that numerous students are interested in taking a trip to Boston, a ticket agency is being planned by the students. The agency will be known as the "T.C.A." and will be available to all students.

**Simplex Wires and Cables**

Simplex Wires and Cables is rapidly getting back into shape, and with the help of their fellow students, will probably be able to make a success of their first game.
Department of Interior Issues New Map, Showing Classification of Plains

A Part of Government Program

In Particular Areas

Involving Land, Forestry, and Power Survey

According to a report issued by the Department of the Interior, preliminary to final publication in cooperation with the United States Geological Survey, certain agricultural classifications of lands in the United States will be published. This classification includes the identification of land types and the determination of their economic and social values. The reports will provide information on the characteristics and yields of crops, the potential for livestock grazing, and the suitability for tillage, irrigation, and forest management.

Barometric readings by the National Bureau of Standards indicate that the weather on the plains today will be perfect for the issuance of this report. The predictions indicate that there will be no precipitation, and the temperature will remain steady throughout the day.
