NEW YORK TRIP OF CORPORATION XV IS ARRANGED

Business Students Will Spend First Day at Industries in Hartford

MANY SHOWS TO BE SEEN

Mid-Term Trip to Begin January 27 and End in New York January 30

Corporation XV has planned its annual trip for January 27 to visit the industries and factories which are of special interest to the students. The trip will last three days, commencing on Sunday evening. The students will arrive in Hartford, Connecticut, on Wednesday afternoon, January 30, and return to New York or meet the train after their visit on Monday morning, the group will be divided into five parts, and the members will be located at one of the following addresses: Mr. John S. Newell, 15 Club Street; Mr. William F. Newell, 9 Club Street; Mr. John W. Newell, 113 Church Street; Mr. William R. Newell, 15 Club Street; Mr. John W. Newell, 113 Church Street.

HEAD OF MEDICAL DEPARTMENT GIVES OUT FLU WARNING

DISEASE TRAVELING EAST

In an effort to prevent an influenza epidemic at the Institute the Medical Department has been active in prescribing measures for control of the disease. All students have received a copy of the following letter by Dr. George F. Morse, Medical Department, dated January 9:

"In view of the impending danger of influenza epidemic following the return of students from Christmas vacations, I feel that it is in our interest to take the matter up with the heads of the various fraternity organizations, where the danger of an epidemic may be greater than in the dormitories or the hospital. It is essential that any boy who develops a cough at once to see the Medical Department at 108 John Street. Keep in close proximity with other students with colds or fever. It is essential that the head of each dormitory take the matter up with all students and be advised of any case of flu in the dormitory.

I trust that any such danger of an epidemic will be held to a minimum."

DAVIS AND COLEMAN DIRECT COLOQUOY

Elections to Theta Tau Came Thursday

Theta Tau, the national honorary engineering fraternity, will elect the 90th delegation of junior members as a result of the bi-annual meeting held in the Joe Colloquy Room on January 9. The order of election is by chapter, with the inactive chapters eliminated. The new delegation will consist of 90 members, representing 40 chapters across the country. The new delegation will be announced in the next issue of THE TECH.

HINDUSTAN SOCIETY PRESENTS OLD PLAY

Drama of Sixth Century Given—Dr. Stratton is Patron

The Little Clay Chest, an ancient tragic comedy, written in India in 1460 years ago, was presented before a large audience at the outdoor stage in Jordan Hall on Saturday evening. The play was presented by the Hinds and was directed by the Hinds and Professor Barker, who is the patron of the society.

The play was translated from the Sanskrit by Dr. Arthur William Ryder of the Massachusetts Institute of Technology, and was presented in cooperation with the Indian National Emergency Association. The play was received by the students with enthusiasm, and the Hinds and other students present were greatly impressed with the quality of the performance.

MUSICAL CLUBS TO GIVE TWO CONCERTS

Will Entertain at Edison Light Plant This Evening

Two concerts, one tonight and one Friday evening, will be given by the musical clubs of the musical clubs for this week. Tonight's concert is to be given by the members of the musical clubs at the Audubon Building of the Edison Club at 8 p.m., and will be followed by a dinner at the work table.

Tonight's program is as follows:

1. (a) Bach–Thunder and Blazes
2. (b) Protestant
3. Popular Selections
4. (b) Jerusalem
5. (a) Cover telephone mouthpieces with tissue paper, date with rubber stamp change daily.
6. Avoid covering your nose and mouth with handkerchiefs.
7. Cover telephone mouthpieces with tissue paper, date with rubber stamp change daily.
8. Keep in close proximity with other students with colds or fever.
9. Avoid covering your nose and mouth with handkerchiefs.
10. Avoid covering your nose and mouth with handkerchiefs.

MUSIC AND DRAMA ARE IMPORTANT

Realizing how serious the situation would grow if such an epidemic were to break out, Professor George Morse, head of the Medical Department, has issued the following precautions:

1. Keep in well ventilated rooms.
2. Eat plenty of nourishing food, and be sure to wash your hands before eating.
3. Avoid crowded audiences such as motion picture houses and public conveyances.
4. Dress warmly, keep feet dry, get plenty of rest and sleep in close proximity with other students with colds or fever.
5. Avoid conjested audiences such as motion picture houses and public conveyances.
6. Avoid covering your nose and mouth with handkerchiefs.
7. Cover telephone mouthpieces with tissue paper, date with rubber stamp change daily.
8. Avoid covering your nose and mouth with handkerchiefs.
9. Avoid covering your nose and mouth with handkerchiefs.

EMIL JANNINGS AGAIN — and what a man! A different character from any he has played, but hardly better. For we can see little room for improvement. His "Film of the Father," how the feature at the Max, is really a superb piece of work. His acting somewhat the splendor of his past, but more than that it is the sum total of his standards of supreme characterization.

As Willy Spengler, American spirit, in the New Brunswick and manner, Jannings first appears as a winsome dandy, existing somehow in American society through the stages of saloon-keeper, 

Do not intend to mislead others, but are simply endeavoring to insincerity? Is it partially caused by the advertisement era in which we live? How much of what you say do you really believe and mean? 

Can we feel assured that to anyone else. When he has practiced his art on himself that the average presentation. All in all, 

Today there seems to be a trend in every form of society to wariness of failure and not a dislike for the cause of this trend toward vocal and written 

BARTER interesting indeed is this Circus situation as it now appears, as the undergraduate body has 

No matter what profession or business you choose, you'll meet undoubtedly in your work, the undergraduate body has participated in the total sum of five such affairs, the last of such breadth. TendencieS that the idea of similar ventures in the future was strongly voted by the Institute Committee in 1927, which apparently the same adverse sentiment existing throughout the student body.

NEARLY two years passed since that last ignominious failure. Then approximately a month ago the idea was revived by certain optimistic members of this year's Institute Committee who felt that the Circus could play a great part in the social, extra-curricular life of the undergraduates at large, and could be a real success with proper management. An investigating committee was appointed. A test vote was taken in the dormitories and the Interfraternity Conference. In spite of the attitude of the Dorm Committee, the vote was unanimous in favor of continuing the event; fraternity approval as well was shown by a majority vote in the Conference,—a vote, however, that displayed considerable apprehension lest the affair revert to the despicable condition of that other two years back. 

Last Thursday the sub-committee submitted its report, 

Plainly, no one wishes to repeat the affair that brought about the temporary downfall of this activity. We do not doubt that a great majority would support the idea, even if the success was insured that it is primarily a warning of failure and not a dislike for the real motive that is causing the controversy. We are firmly convinced that a Carnival can be of enormous advantage to the Institute as a whole—but only with thorough planning, capable control, and graduates who are behind it in effect as well as in spirit. It is the idea basis of the House that we can feel assured of this planning, this control, and above all this effort and spirit!

AVAST, YE BUNKSTERS

Do you know a Bunkster? When you talk to your fellow students, to your instructors, or otherwise express your thoughts, how well do they meet your views? 

Today there seems to be a trend in every form of society to put forward ideas which the speakers do not and cannot stand behind. What will be the effect of this trend towards weak and written 

Certainly it is true that a large number of these Bunksters do not intend to mislead others, but are simply endeavoring to keep up "their "end." Perhaps also it is a distorted idea of preservation, or even know as "feeble."

Regardless of the cause or ability the "bunkster" should exert every effort to overcome the habit. He is doing more harm to himself than to others. He has practiced his art of others and has become proficient in its use, he turns it on himself and can make himself hard ideas that he cannot honestly believe.

Bunk-slinging is a habit which can be checked in its first growth. The attitude is simple and accessible to all. Let the student remember that if he has nothing to say, to keep it to himself; and to have something to say only when he is in time behind it.

REFERENCES

The Lounger wishes to extend its Aesthetic congratulations to the Technology Christian Association for the successful psychology session in rendering service of a certain little group.

Today we had the pleasure of seeing the "Man Who Knew Too Much," a film which has reached its farthest limits with great emotion, upon receipt of its organization material. For with his own handwriting staring him in the face, failings of his own John Henry, that ten dollar bill he has been cherishing so honestly, will not stop him from getting out of it visibly. It's a very good piece of Technicolor. The Lounger thinks he'll open a pawn shop.

As an exhaustive search of all available and unavailable material, the Lounger is prepared to write a treatise on, "The College Fraternity, Why There Isn't Any Whiners Among Us." This work is not completed yet, but as a preliminaries, The Lounger has kindly permitted to PER THE TECH TO publish the outline of his document. It follows:

1. The death of social activity sounds frivolities at the first of each year, including last year, to the Lounger. 

2. The revolution is some of the most characteristic features, the Lounger has kindly permitted to PER THE TECH TO publish his outline of the document.

3. The Lounger has kindly permitted to PER THE TECH TO publish the outline of his document. It follows:

4. The fact that the house is in fit condition for show purposes, what with New Year's Eve being so close, etc., etc.

COMMENCEMENT day is coming — sooner than you ever thought possible. Soon you will have received your college award—your degree. It will have been worth working for, not just for possession of the sheepskin, but because it stands for four years of accomplishment.

When you leave college, you will hear of the Charles A. Coffin Award, the highest gift in the utilities industry for excellence of operation. During the six years of the Coffin Foundation, three of the Gold Medals symbolizing first place have been won by companies under Stone & Webster executive management.

No matter what profession or business you choose, you'll meet Stone & Webster men—financing utilities, operating gas, electric, and transportation companies, building power and industrial plants. They're wide awake, alert, progressive. You'll find the Stone & Webster organization is worth knowing and worth doing business with.
