THE SCHOOLBOYS' PICNIC

YES, it was a good affair. Without a doubt, everyone enjoyed himself at Carnival and made the most of the first undergraduate get-together for two years.

The Committee should be complimented on the success of the affair. Starting under a handicap of mistrust, suspicion and even active opposition, they carried the event through to a climax most satisfactory to all.

Even pessimistic opponents of the "Old Clothes Day" must agree that the undergraduate and faculty response to the plan exceeded expectations. To start the day with incentive for good-fellowship and camaraderie furnished by the informality of old clothes was to make a start in the right direction.

The activities, dormitories and fraternities vied with each other in their attempts at originality, and the result was that the booths and displays excelled other years in their attraction.

There seems no doubt that the Carnival has reestablished an old and needed tradition. Through the efforts of the committee, and the fine cooperation of the students, Carnival was carried out in a manner which cannot but cause favorable comment.

AWAY FROM THE GRIND

Due to the event of the Carnival and the Activities Tea Dance there has been a singular lack of socializing among the fraternities this week-end.

ACTIVITIES TEA DANCE
About 150 couples danced to the music of the Techtonians at the annual Activities Tea Dance held Saturday afternoon in North Hall, Walker.

LAMBDA CHI ALPHA
The members of Lambda Chi Alpha were the joyful recipients last week of a box of cigars from Akron, Ohio, where Paul Elmer Runch '28 was married to Dorothy Riblett of that city.

PHI KAPPA SIGMA
At a formal banquet given by Hugh G. Hamilton '29 at the chapter house last Saturday evening, announcement was made of his engagement to Miss Helen Ford-Smith, of Hamilton, On-

tario, Canada. Miss Ford-Smith graduates from Simmons College this June.

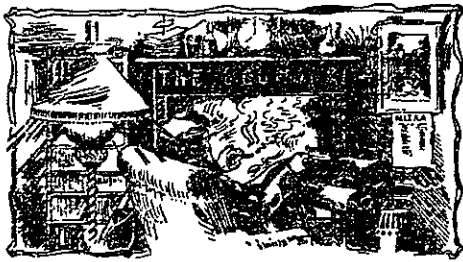

Many of the guests had attended the Activities Tea Dance in the afternoon, and the dinner did not begin until eight o'clock. Spring flowers were used as decorations for the tables and each of the ladies received a corsage bouquet from the prospective bride and groom.

Nearly sixty people were present, including a number of friends of Miss Ford-Smith. Among the guests were Professor J. Warren Barker '16 and Mrs. Barker, Captain and Mrs. Samuel G. Frierson, and Mr. William H. Coburn '11 and Mrs. Coburn. Bridge and dancing followed the banquet.

SIGMA NU
A small informal dinner was held at the house following the Activities Tea Dance Saturday evening.

TAU BETA PI
At a recent meeting of Tau Beta Pi the following men were elected to membership:

Juniors; Raymond C. Binder, Fred N. Dickerman, Joseph Harrington, Jr., William R. Jackson, Bryant F. Kenney, Allen Latham, Jr., James G. Muir, Leonard C. Peskin, William H. Spahr and Stanley C. Wells; Seniors; Owen R. Garfield and George J. Meyers, Jr. The initiation and banquet will be held at the Engineer's Club on April 30.

The Lounger arrived on the scene Friday night, prepared for the worst, and departed with new respect for his fellow-inmates—the boys carried it off in great style.

When the Lounger slid between the last pair of rain drops and shed his dripping hat and coat in THE TECH bar, he thought he had never been in for a worse brawl.

To give credit where it is due, Dick Boyer receives first mention. He was on hand the whole evening here, there and everywhere, helping to keep things running smoothly.

It was certainly a weird-looking crowd, a conglomeration that caused the outsiders present to shake their heads in wonderment.

The Open Forum

To the Editor of THE TECH:

We recently read in our most "austere" publication THE TECH an editorial in which the author proceeds to take the Freshman Prom Committee for a ride with an editorial which attempts to be downright nasty.

By making the comparison to the Junior Prom we might ask if our most noble Juniors have a monopoly on theatrical stars—especially so when apparently, the Freshman Prom girl was going to be bigger and better than the "other one."

Miss Vinton, therefore, should not be classed as a theatrical personage seeking false publicity.

(Signed) Joseph B. Paul '32
Chairman of Freshman Dance Committee. April 11, 1929.

108 Architects Out of 221 canvassed are using "Koh-i-noor" on sale at THE COOP

the final performance dragged along to a dripping conclusion.

To his dying day, the Lounger will never know what transpired inside the T. E. N. booth, but he is sure that they never hawked a better twenty-five cent's worth.

The saddest sight of the evening was John Scheuren gnashing his teeth and tearing his hair because he could not win one of those cute little elephants in the A. A. booth.

Among other things that pleased the Lounger's sense of humor: Ted Riehl steering suckers to the Phi Gam roulette game; big crew men standing about helpless while countless brown-baggers swung the mallet and rang the bell—the Lounger won't mention any names; Voo Doo's smutty attempts—invisible at a distance of thirty feet; the Deke's solicitous care for their African dodger.

The Lounger hears that Sandman Johnston assigned no prepared work to his Saturday sections. Hats off to the gentleman! The Lounger will gladly give space in these columns to any other benevolent professor who showed the proper spirit on this occasion.

And now for the awarding of prizes: Most obscene exhibition—Phi Kappa Movietone; Biggest gyp—A. T. O. birth control demonstration; Most popular attraction—T. E. N. side show; Most hilarious individual—Hugh Wallace; Most depressed individual—Willie Jackson; Most gentlemanly individual—the Lounger; ladylike individual—the calliope player.

Cramming is justified according to the statistics gathered by Dr. Glen Pease of the University of California. Tests, he held, resulted in the crammer receiving an average 11 points better than those students who study daily.

As We See the Movies

Richard Dix comes to the Metropolitan this week as another of the moving picture stars who is making his debut on the audible screen.

Another debut on the screen made in this picture is that of Helen Kane, who is undoubtedly one of the present fads as a peculiarly "cute" singer.

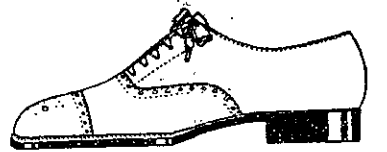

"Nothing But the Truth" tells the story of a young stock broker who wagers \$10,000 that he can tell the truth for twenty-four hours consecutively.

"Say It with Music," the stage show for the week is rather good, there being quite a collection of talent, who provide some creditable music and dancing.

And now for the awarding of prizes: Most obscene exhibition—Phi Kappa Movietone; Biggest gyp—A. T. O. birth control demonstration; Most popular attraction—T. E. N. side show; Most hilarious individual—Hugh Wallace; Most depressed individual—Willie Jackson; Most gentlemanly individual—the Lounger; ladylike individual—the calliope player.

1931 WINS INTERCLASS MEET

RIFLEMEN WIN EASTERN TITLE IN N.R.A MEET

Sophomores Win Annual Interclass Track Meet— Freshmen Place Second

In the annual Interclass track meet, held at Tech Field on Saturday afternoon, the Sophomores emerged as victors with a score of 81 1-2. The freshmen beat out the Juniors for second place, scoring 58 points against 49 1-2 for the upperclassmen. The Seniors placed fourth with a score of 34. Although the weather conditions were very poor for good running, the times made in the meet were better than usual at this time of the year.

Seniors Win Hurdles

The Senior class cleaned up a number of points in the hurdles when Burgess and Fleming placed first and second in the highs, and Lawrence and Burgess finished in the same order in the lows. Jandris won the 100 yard dash for the Juniors, beating out Broder in the slow time of 11 seconds. The Juniors got another first in the dashes when Ladd won the 220 from Hall, a freshman.

Freshman Wins 440

A big surprise came in the 440 when Jewett, a freshman find, beat out Captain Hallahan in the very good time of 51 4-5 seconds, this was one of the best races of the afternoon, and the finish was very close.

The closest race, and the most exciting of the afternoon was the half-mile which was won by Berry, a Junior, by the narrowest of margins over Bob Leadbetter, the little Sophomore star. The two men were abreast at the final turn, but Berry stepped out just enough on the stretch to cross the tape a fraction of a second ahead of his rival.

Herbert Wins Half

The mile race was featured by the usual Herbert-Baltzer rivalry, which was won this time by Herbert. The time for this race was 4 minutes and 43 seconds. In the two mile event

Smoker Tips 16 on Big Secret

Norwood, Ohio
Oct. 8, 1928

Larus & Brother Company
Richmond, Va.

Gentlemen:
In the past twenty years I have been a consistent smoker. I was always anxious to smoke a pipe; but no matter how often I tried, I soon changed my mind. I have tried all kinds of pipe tobacco, but not once was I satisfied with the taste of any of them until just recently I gave my pipe another trial.

It was my luck to choose Edgeworth this time, with the results that I am still using it and will continue to do so. I only hope that you will continue to give that same mild, high-grade quality in the future.

I have started not less than sixteen men to start or give Edgeworth a trial, and they are still using that same unequalled non-biting tobacco to this day. I can recommend Edgeworth tobacco to anybody who enjoys a cool non-biting brand of good tobacco; and as long as I enjoy same, you can rest assured that I am going to be a good ad., and many a pipe smoker will be asked to give it a fair trial, and they themselves can act as judges.

I always give praise where praise is due. After I was convinced of the wonderful quality of Edgeworth I could not help but tell you people the same as I have been telling and will in the future tell others.

Hoping that you will continue with the same quality in Edgeworth, I am

Very truly yours,
(Signed) Joseph J. Stahl

MARKSMEN DEFEAT ALL OPPONENTS IN EASTERN SECTION

Engineers' Score Will be Used in Deciding National Championship

By winning the Eastern Intercollegiate at the Commonwealth Armory last Saturday afternoon the rifle team showed itself to be the strongest outfit in the East. The team scored 1300 points out of a possible 1500 and defeated its nearest opponent, Columbia, by nineteen points. Clark of the Engineers was high scorer of the meet, getting 272 points out of a possible 300.

The team has made an excellent showing all season, losing only one meet all season, and verified everyone's expectations when it placed first Saturday. A total of ten teams, representing the pick of the Eastern colleges, were present and although they all shot well, the Institute men fired with a consistently higher target for each man.

Competition Was Strong

Columbia placed second, C. C. N. Y. third, and Syracuse fourth, and they all furnished scores sufficiently high to keep the Engineers uneasy during the afternoon. Only two perfect scores were turned in during the day and both of these were by Columbia men firing in the prone position.

By winning the Eastern section of the N. R. A. match the team score will be used in comparison with high scores of other sections in order to determine the National Champions. Despite the fact that the Engineers are high men for the East the Navy team stands a good chance of making a higher score, and so win the National championship.

Clark Wins Pen

Clark, by scoring highest, wins the fountain pen offered by Dr. Waterhouse of the Metallurgical department, for the highest scorer of the meet.

	Stand.	Kneel.	Prone	Total

Lack Of Material Hampers Progress Of Lacrosse Team

First Game Will be Played Open House Day With Boston Lacrosse Club

Lacrosse candidates are working hard to get into shape for their first game of the season with the Boston Lacrosse Club on Open House day. It seems that there is plenty of time for the preparation, but the fact that only few men are experienced players, and that the spring recess comes during that time, somewhat handicaps the team. Still more material is also needed by both the Varsity and the freshman squads, in spite of the large number of men reporting for practice each day. To have the most efficient team, it is necessary that there are several reserves so that twelve fresh players will be maintained on the field at all times.

More Men Needed

Scrimmages were held last week and served as a means for Coaches Sauerwein and Wagar to determine what kind of material they have. Both were not fully satisfied with the result, and felt strongly the need of more sturdy men to hold the positions on the defense. A goalie is also needed for the Varsity, and anyone who has had some experience in this position or wishes earnestly to learn is urged to come out.

Yearling Wrestlers Win All But Two Meets and Take New England Title

By PAUL A. ROBERT

Ending the season by winning the New England Freshman Intercollegiate Championship, the yearling grapplers have had one of the most successful years on record. With the exception of a few classes, the team was practically invincible. Their only defeat by a freshman class was at Yale, where the Eli yearlings won by the score of 19 to 6. The team also lost to the B.U. Varsity by the score of 23 to 18, in one of the hardest fought meets of the season.

Win At Tufts

Starting the season with a victory the freshman grapplers won over the Tufts team by the score of 28 to 10. Axford, who went through the season undefeated, won the 115 pound division when he pinned Daniels to the mat in 8 minutes and 37 seconds. Captain Vassolotti, the 145 pounder who lost only one match, easily took his man by pinning him to the mat in 2 minutes and 21 seconds. Negus, Ward, and Rabinowitz also scored falls over their opponents to win the first victory for Technology.

Yale Freshman Win

Going to Yale for their second meet, the wrestlers met their first defeat by the score of 19 to 6. Axford and Captain Vassolotti were the only winners, both winning over their opponents by time advantages. Rabinowitz, who won his first meet, was pinned after a hard match in 5 minutes with a half-nelson. Ward, the 165 pounder, did not wrestle the 165 pound class as it was replaced by a 158 pound class wrestled by Negus, who lost after a hard match by a time advantage.

Victory Over Harvard

Coming back from their defeat at Yale, the yearling wrestlers took Harvard by the score of 21 to 15. Axford, in the first match, won over Cook, and defeated him later for the Intercollegiate Championship, by a fall after 3 minutes and 13 seconds. Captain Vassolotti, and Negus both won decisions by time advantages of 6 minutes and 59 seconds, and 8 minutes respectively. Ward, in the 175 pound class, won easily over his opponent pinning him to mat in 7 minutes and 33 seconds. Rabinowitz finished the meet by scoring a fast

fall over his opponent, pinning him to the mat in 1 minute and 18 seconds.

Close Score At Andover

In their next meet, the yearlings won a close victory of 18 to 15 over Andover Academy. Axford started the meet by taking a time decision over his opponent for the first M.I.T. score. Captain Vassolotti, Negus, and Ward won three matches in succession to clinch the victory by falls. Pratt, who wrestled the 175 pound division, made a good showing but lacked experience, and lost by a fall. There was no unlimited match in this meet.

At Brown, the team was again victorious over their opponents, win- (Continued on Page 4)

(Continued from Page 3)

ning by the score of 30 to 10. This was one of the most decisive victories of the season, M.I.T. taking six or eight matches by falls. Axford won the first match by a fall in 7 minutes and 15 seconds over Chaset of Brown. Brown took the next two matches by falls over Knoepple and Lazar in 3 minutes and 55 seconds, and 3 minutes and 10 seconds respectively. The following five matches were won by Technology by falls. Captain Vassolotti easily threw Spiwak in 1 minute and 58 seconds, Negus threw Small with a body roll in 4 minutes and 30 seconds, Ward threw Erinaks in 3 minutes and 38 seconds, Pratt threw Morton in 8 minutes and 40 seconds, Rabinowitz threw Teitz in 9 minutes and 42 seconds.

Hard Win At Springfield
In their next meet with Springfield, the grapplers won by the close score of 18 to 16. Axford again won over his opponent by pinning him to the mat after 8 minutes and 5 seconds of hard wrestling. In the second match Springfield encountered Robbins of Springfield, winning a fall over Knoepple in 6 minutes and 30 seconds. Pafe of Springfield, took the next match by decision over Dunleavy of M.I.T. Captain Vassolotti, Ward, and Rabinowitz won their matches by falls making the score 18 to 16 in favor of the Technology yearlings. Rabinowitz's victory was one of the fastest of the season, when he threw his man in 1 minute and 30 seconds with a half-nelson.

B. U. Varsity Wins
Meeting the B. U. Varsity in the last meet of the season before the Intercollegiates, the yearlings were defeated by the narrow margin of 23

to 18. Axford took the first match by a fall, winning over his opponent in 7 minutes and 24 seconds. Knoepple lost the next match by a fall to Brackett of B. U. to even the score. Dunleavy also lost his match to Hunting by the time advantage of 6 minutes and 24 seconds. In the next match Captain Vassolotti met his first defeat, when in a careless moment Young of B. U., pinned him to the mat. Negus and Ward countered with falls over their opponents, but Pratt and Rabinowitz were unable to hold their opponents and B. U. was able to win by the score of 23 to 18.

INSTRUMENTAL CLUB

There will be a rehearsal of the Instrumental Club in the East Lounge of Walker Memorial this afternoon at 5 o'clock. All members are urged to be present.

TECHNIQUE

All group pictures ordered from the 1929 Technique are now at the office. No pictures may be taken without payment. Redemptions will be sold in the main lobby until just before vacation. The desk will be there from 12-2.

First in Intercollegiates
In the Intercollegiates, the yearlings were again victorious, Axford, Vassolotti and Ward winning the finals for the championship, Negus, the 155-pounder, won a second, when he pinned Small of Brown for the runner-up position. Rabinowitz also won a second by defeating Estok of Tufts. The yearlings won by four points over Tufts who took second with 24 points, Harvard winning third with 19, and Brown fourth with 15.

**Integrgraph To Be
Topic At Seminar**
Technology's Contributions to
Subject Described
At the Electrical Engineering Seminar Meeting to be held immediately after vacation a complete description of the Integrgraph including the story of its conception and development will be the discussion topic. The Seminar will be held in Room 10-275 at 3 o'clock on Thursday, April 25. Since the subject, because of the pioneering part the Institute has had in its development, is of general interest, the meeting will be open to all.

Sewage Disposal To Be Studied At Worcester Plant

Week's Course in Operation May
be Included as Part of
Regular Course

Through arrangements made by Professor Richard G. Tyler, the fourth year and graduate students in Sanitary and Municipal Engineering will spend the week of April 15 to 20 at the Worcester Sewage Disposal Plant. This opportunity was made possible through the cooperation of the authorities of the Sewer Department at Worcester.

Under the direction of Roy S. Lanphear, Supervising Chemist at the plant, the students will be instructed in the details of operation of Imhoff tanks, trickling filters, dosing tanks, secondary settling tanks and sludge drying beds which are used in the treatment of sewage at Worcester. They will go through the routine laboratory tests which are necessary for the operation of such a plant, and expect to carry out some research on the friction losses in pipes carrying sewage sludge.

This opportunity to study the actual operation of such a plant, and the difficulties encountered in the work, is expected to be of great benefit to the students. The students have had courses both in the theory and design of sewage disposal plants, and actual work on a plant in operation should be a valuable supplement to their training.

DRAMASHOP PRESENTS ACTS AT OPEN HOUSE

(Continued from Page 1)

of confusion and indecision when Joceaulme, the draper, discovers that the shepherd's lawyer is Patelin, Joceaulme becomes so confused that he cannot keep his mind on one thing for more than a moment. First he accuses Tibald of sheep stealing, then turns on Patelin for stealing his cloth. From then on, he swerves from one to the other, becoming more and more confused as he accuses Patelin of stealing sheep and Tibald of stealing cloth. The judge finally becomes more muddled than Joceaulme and dismisses the case in disgust.

The following cast will present the play:
Master Pierre Patelin Paul V. Keyser Jr. '29
Guillemette, his wife Constance L. Sharp '29
Guillaume Joceaulme, the draper Hunter Rouse '29
Tibald Lambkin, the shepherd Winslow V. Fitch '31
The Judge Richard S. Pollack '31

CHEMICAL SOCIETY CHOOSES OFFICERS

At a recent election of the M. I. T. Chemical Society the following officers were elected for the coming year: Herbert L. Wamper '30, president; Stanley C. Wells '30, vice-president; Alan W. Vint '30, secretary; C. Robert Ingram '31, treasurer; George E. Barker '30, trip-manager; and Sydney R. Miller '31, chairman of membership committee.

The new officers will be installed April 24th, at the Annual Banquet at the Riverbank Court Hotel. Speakers have been procured, many articles will be raffled off, and a chicken dinner will be served. The tickets are now on sale for \$1.50. Notices have been sent out to all members with reply cards attached.

T.E.N. Girl Show Nearly Starts
Riot Among Spectators

(Continued from Page 1)

side garbed in his famous or rather infamous pink silk panties.

M. I. T. A. A. sponsored a balloon game with a prize offered to the eagle eyed man who could smash a balloon with a baseball. Several of the merry-makers, although unable to smash balloon, succeeded in smashing a window behind the booth. And the crash and tinkle of broken windows helped to swell the medley of merriment. Technique erected a sledge hammer machine and all night long, laboring engineers stripped off their coats and tried to send the metal rider high into the air to ring the gong.

Dorm Bucket All Wet

The Dorms and the Phi Kappa Sigs ran in competition to each other with ducking stools. The patrons swapped their tickets for base balls to trip the trigger and send the unfortunate suspended over the buckets of water into the drink with a splash. Next to the Phi Kappa Sigs was the Deke booth with its nigger dodger. The Dekes, were using soft baseballs while next door the Phi Kappa Sigs employed a hard ball to release the catch to the stool. In the excitement one of the hard balls got mixed in with the Deke soft ones. The dodger dodged too slowly the ball caught him squarely, and it broke in two. No casualties!

Phi Sigma Kappa operated a movie-tone news and vied with Sigma Chi for popularity, but the Dorms ran a Devil's Garden consisting of a display of artistic photographs set off with examples of technical wit in the line of subtitles. Voo Doo allowed its suppressed desires to dominate and ran a news bulletin consisting of the gags which were invisible except from underneath.

Near Riot Brews

The most popular exhibit on the floor was T. E. N.'s girl show. Word went round that here was a show—and rumor was correct. The mob striving to get in grew until it assumed tremendous proportions, the pressure on the tent increased and its walls began to sag, the ropes gave way, and half the tent went down. Some one turned on a fire extinguisher and a near riot resulted. This closed the show, but later it reopened with a few guarding its walls with shovels.

Delta Upsilon, operated a gun club with cigarette packages as targets. The Beta Barn was a sell, the swimming match advertised proved to be a burned match floating in a pool of water. T. C. A. sold peanuts and hot dogs while Sigma Alpha Mu ran an exhibit designed to increase one's medical knowledge. THE TECH callope made music and the side shows yelled until closing time.

M. Richard Boyer '29, chairman of the Carnival Committee, said, "The only thing I can think of is to thank every one for their cooperation". C. Brigham Allen '29, president of the Institute Committee said, "The committee did good work. The organizations cooperated especially in the line of publicity. We had the best publicity in four years, I can vouch for that".

R. O. T. C. Band To Play For Annual Open House

Marches and Concert Pieces Will
Entertain Visitors While
Freshmen Drill

Some time during the afternoon. Open House day the R. O. T. C. band will play for the Formal Gung Mounting. Each of the five companies will be represented by a squad, and marches will be played for the various movements with a concert piece during the rifle inspection. The ceremony will be held on the great court. On each of the first three Friday in May a review of the complete O. T. C. unit will be held at which band will play. The first review will be for the reserve officers in the Faculty. At this time medals will be presented to the members of the team. It is hoped that the Healy Trophy, which was won last year again be presented. The second view will be for President Stratton and the last will be for the Corps A Commander.

ARMY RADIO SYSTEM HAS BEEN EXPANDED

Provision for new expansion of Army Amateur Radio System was made on March 1 and Captain George S. Eyester, who is in charge of signal corps unit at Technology, interested in seeing any amateur operator in regard to the revised plans. In the 1925 the Signal Corps entered into an affiliation with the transmitting radio amateurs of the United States. The value of this organization has been illustrated in several emergencies as the Vermont flood and the Florida hurricane.

Study Engineering In Cool Colorado

Golden is at the foot of the Rocky Mountain Range. Twelve miles to the east lies Denver, with 325,000 inhabitants. To the west is the great Continental Divide, with streams and forests and snow-capped peaks rising to the sky.

Engineering Summer School of the Rocky Mountain Region

Basic engineering courses in Mathematics, Chemistry, Physics, English and Design. Also Assaying, Geology, Analytical Mechanics, Graphic Statics, Strength of Materials and Surveying. Preparatory Subjects of Chemistry, Physics, Advanced Algebra and Solid Geometry offered for students deficient in entrance requirements.

July 8 to August 31, 1929

This Summer Session is given especially for students who wish to make up work or to secure additional credits. All work is conducted by the regular Faculty of the School of Mines. For catalog of the Summer Session, write to the Registrar, Box Z-1.

Colorado School of Mines Golden, Colorado
