NETTLETON, SIMS AND CONKLIN TO MANAGE '30 SHOW

Three Seniors Selected to Take Charge of Next Year's Stage Production

JUNIOR BOARD OF 6 MEN

Elections Announced at Banquet Held in Engineers' Club

Senior Committee Head
Dodges Clutches of Law

A "mile is as good as a mile," with words of such wisdom from Benjamin Franklin, Delphic maxim Committee, after his completion of his studies of law in New York City and his return to his forefathers' home in Connecticut, established to appear before the Board of Directors for the Combined Musical Clubs for an consideration of an admission to the real estate firm. Thus the City Insurance Company after having been initiated into the actuarial art, now holds its first annuity in the Food Insurance Company after his graduation from Mansfield, Ohio, the history society of Tech Show, and of the Phi Delta cardinals. He was Publicity Manager of Tech Show '27.

W. W. Simms '30, the new General Manager, is a native of Alachua County, Florida, and is a student of Chemical Engineering. His career in the Institute has been one of prominence, and he is a member of Phi Kappa Sigma Fraternity.

Frank P. Stetson '30, the new Business Manager, is a native of Easton, Massachusetts, and is a student of Electrical Engineering. He has been a member of the Management Committee of Tech Show '28 and will continue to be so this year. He is an active member of the Engineers' Club.

Six men will complete the Junior Board of 6 men. They are pictured below: Paul P. Hrynek '30, Company Manager, William W. Freeland '30, Treasurer, Fred W. Bullard '30, Publicity Manager, Frederick G. High '30, Promotions Manager, and Hamilton L. Davis '31, Treasurer.

These elections were announced at a banquet held at the Engineer's Club last night. At this banquet, 21 men were inducted into the Junior Board of 6 men. The new Management Committee will hold its first meeting this winter, and the new management for Tech Show '30 will be announced at a meeting held yesterday afternoon.

A CAPACITY AUDIENCE HEARS GIPSY SMITH, FAMOUS REVIVIST

Internationally Known Preacher is Introduced by Prof. James L. Tryon

PIANIST OPENS MEETING

"This is always liked weak things," said Gipsy Smith, famous revivalist, as he spoke to the large group of women by the recently auditorium yesterday afternoon. The world famous evangelist brought his message to the Institute for the first time, and he was received with tremendous applause by the people. Gipsy Smith's pianist opened the meeting by playing "Old Black Jack," which he played by reproducing the same chords that he used at Tech. Smith introduced the revivalist, and said that "vocalists, like other men, need some time from time to time to have their homes of some comfort and return to their homes." He asked the audience to begin to ask for the message which was on his heart.

He then introduced a famous personality that has been in the world of music and has been known as a vocal artist. He is known as the master of the voice, and has been in the world of music for many years. He is a singer of many songs, and has been known to sing in any language you please.

He then introduced the world famous Gipsy Smith, and said that "this is the man who has been in the world of music for many years, and has been known as a vocal artist." He then introduced the famous person who has been in the world of music for many years, and has been known as a vocal artist. He is known as the master of the voice, and has been in the world of music for many years. He is a singer of many songs, and has been known to sing in any language you please.

NOTHING TO WORRY ABOUT

No, we are not getting into the days, when one man who said what he believed was giving a check. Nor are we in any danger of the excise tax; even if we talk against the excise tax, so long as we discuss the cause of the excise tax, we are in no danger of the excise tax. No one has suggested an infringement of the present law or any other law. It is our duty to talk about the cause of the excise tax. The right to talk about the cause of the excise tax is a right which is acknowledged by all. We are all free to talk about the cause of the excise tax. It is our duty to talk about the cause of the excise tax.

Many students feel that the Liberal Club has taken an unpopular position. This is not true. The Liberal Club is attempting to educate the student body and to give them an understanding of the cause of the excise tax. It is the duty of the Liberal Club to give the student body an understanding of the cause of the excise tax. The Liberal Club is attempting to give the student body an understanding of the cause of the excise tax.

SKEPTICS

Well, the intellectual has heard of Gypsy Smith, heard him in their own technical lecture room with its peculiar motors on the roof. And the intellectual’s mind was stirred, violed, except for those of Gypsy himself—visibly, we say. And not a soul, except for the T. C. A. cabinet and certain of the Faculty, would ever admit that he had heard of Gypsy Smith and his peculiar motors. Yes, well, the intelligence thanks for itself; no sudden emotional stress can affect the mind of the intellectualistic engineer.

Last year we heard Darrow, and scoffed for all my mental preparation, though his arguments were invincible. Yes, very definitely, the man was too sincere. Believe? Well, that’s different, we’re embarrassed. The man has matured; we see life from a different point of view; could we admit that an evangelist of the masses—for all his personality and goodwill—had changed our course of living?

Yes, we went from half-filled E350, where a group of scientists from Germany kept his audience eager for more, fully an hour over time. The lecture period, 20-260 packed with the usual crowd, Sophomores, a goodly number of upper classmen, and secretaries from the President’s office, the Longfellow’s. We heard a genuine, heart-to-heart talk for technical boys, a piano and a vocal solo, a Faculty talk on God and the Engineer. Were we affected? Will we admit it? See you at Tremont Temple.
Many New Records Stand As Track Squad Closes Brilliant Winter Season

By Charles Chapman

All the indoor track season this year has been a huge success. One National Junior Championship has been won, and two Varsity, four freshman, and five interclass meet records have been broken, all this being done in the short season of eight meets. Technology track men have conducted themselves very satisfactorily, extramural and intermural competition, and have done much to enhance the athletic prestige of the Institute.

On January 26 the Varsity Relay team competed in their first meet of the indoor season when they took part in the Eighth Annual Princeton vs. Boston University meet held in the Boston Arena under the auspices of the Boston Athletic Club. In this meet they were won from their old opponents, the University of Maine, in the 2:14.1 mile relay, and 1000 yard events, with a hand full of 25 yards, of which the third placed team was the Boston Athletic Club.

Good Races in R. A. A. Games

February 22 brought the R. A. A. games in which the Tech team was in the E. A. A. games, held in the Boston Auditorium in Washington St. In this meet the only notable races were held by Matt Phibbs in the 220 yard dash, and by Dick Danforth in the high jump at six feet and six inches.

This past February, 9, the New York meet was held in the annual Milford Regatta in which the men's track team represented the United States by a single man.

The next meet, February 16, in

Free Trial "Sells" Man This Smoke

Chicago, Illinois, July 13, 1929

Loran & Br. Co.,
Rutland, Vt.

Georgetown:

Requesting to your discerning letter of Loran, accompanying your sample packages were received. With them I was pleased to obey reading because there was not a single suggestive line in the entire sales talk which made the recipient of a sample package feel obliged or uncomfortable.

By careful study of your letter of giving your sample a proper and then of the whole letter and the way it was put together I am convinced that will the usual would much sooner come to the point. It is a great handicap to them in the face of a man who can do the opposite. And if in the business you are engaged in you have to compete on quality you are asking for the impossible.

As a result of your letter of giving your sample a proper and then of the whole letter and the way it was put together I am convinced that will the usual would much sooner come to the point. It is a great handicap to them in the face of a man who can do the opposite. And if in the business you are engaged in you have to compete on quality you are asking for the impossible.

NOTICES and ANNOUNCEMENTS

Of General Interest

The Helium Spectrum
Prof. W. Heisenberg
Friday, March 22, 4 P.M., Room 10-250

Professor W. Heisenberg, Director of the Institute of Theoretical Physics of the University of Leoben, will lecture on "The Helium Spectrum." The subject of the lecture will be "The Helium Spectrum." The lecture is open to students and members of the instruction staff.

Hydraulic Experimental
Dr. Ing. Theodor Reehbok
March 22, 2 P.M., Room 8-330

Dr. Ing. Theodor Reehbok, Professor of Hydraulic at the Technische Hochschule of Karlsruhe, Germany, will deliver a lecture on "Hydraulic Experiments." The lecture will be given in English. The lecture is to be illustrated by moving and still pictures.

Evolution
Prof. Kirtley M. F. Mathews
March 22, 9 and 12 o'clock, Room 5-330

Professor Kirtley M. F. Mathews will give a talk on "Evolution" at 9 and 12 o'clock.

Meetings of Eastern College Personnel Officers
Friday, March 22 and Saturday, March 23

Guest Speaker: In Maschrold Problems. Full information regarding time, place and plans of meetings may be had at the Personnel Office of the University of Pennsylvania.

Poetry Reading
Professor M. R. Copithorne
March 24, 5 P.M., Walker Library

Professor M. R. Copithorne, the Right Honorable Professor of English at the University of Cambridge, will present the lecture on "Poetry Reading" at 5 P.M. in Walker Library.

Undergraduate

SUNDAY mode to the Executive Committee of the Eastern College Personnel Officers will be held 10 of the lecture. The lecture is open to students and members of the instruction staff.

Poetry Reading
Professor M. R. Copithorne
March 24, 5 P.M., Walker Library

Professor M. R. Copithorne, the Right Honorable Professor of English at the University of Cambridge, will present the lecture on "Poetry Reading" at 5 P.M. in Walker Library.

CARNIVAL COMMITTEE CONSIDERS PROTEST

At a meeting of the Carnival Committee last evening in Walker Room, Mr. J. A. T. A. Meeting, Room 10-250. The meeting was held to consider a protest against the carnival committee's decision to exclude certain students from the carnival.

SAE WILL MEET DR. JOHN F. DUBY

Mr. John F. Duby, of the J. F. Duby Co., manufacturers of wheel shoes, will be the guest speaker at the SAE meeting on Tuesday, April 1. Duby will discuss the problems of shoe design and manufacturing.

GREAT REVIVALIST THRILLS AUDIENCE

(Continued from Page 1)

Kellers's "Evolution" at the T. E. N. The T. E. N. will be located in the main lobby and at the Sun Room.
