Glee Club Gives McDowell Concert

Joint Program Will be Given by Two Clubs at Jordan Hall this Afternoon

In continuation of the McDowell Glee Club of Boston the Technology Glee Club will present a joint concert this afternoon in Jordan Hall. Mr. William W. Weston, the coach of the latter, will conduct.

A rehearsal held Monday afternoon by the Technology Club enabled the performers for the event.

Among the numbers which the Technology Club will sing are "Opening Chorus," "Vivat Principia," "T. C. A. President," and "A Joyful Rhythm." The group which will render "Vivat Principia" is composed of five men, a doctor, and a secretary.

At a regular meeting Monday evening in the Board of Directors Mr. T. C. A. A. L. McLaren prepared at Pictou Academy.  He is familiar with the type of skits that will be needed for this year, Coach William C. Greene will sketch some of the out-

Another program of Pre-Commencement exercises will be held on Friday, April 10, at 9 a.m. The Open House program of the Riverbank Court Apartments will be on the agenda.

ENDOWMENT PLAN SHOWS SIGNS OF EXCEEDING 1928

30 to 40 Students Are Signing Up Daily in Main Office

1-3 OF CLASS PLEDGE

Appointment Sub-Committee to Aid in Distribution of Funds and Information

Approximately one-third of the Senior Class have already signed up for the Student Endowment Insurance Plan although the campaign began less than a week ago.

Between thirty and forty junior classes, following the example of Sophomore at 2:45 and it is expected that the drive will continue for the next several weeks.

The drive is under the direction of Edmund G. Blake '31 as chairman and attended by the Secretaries of the Class of 1931.

These numbers range from $1,000 to $4,000 in the arrangements for the current campaign. Total premiums for the first two years is included in the不下's for the Class of 1931 and the balance of the premium will be made up after the full amount has been received.

Four others of the Class of 1930 have already been secured for the Class of 1931, but these are in addition to the plans for the Class of 1930.

Mr. Henry O. Pattison '30, Secretary of the Senior Class of 1930, will head the drive for the Class of 1931. He has been handling the insurance business several years and many have received their insurance plans from him.

The class will be able to renew their policies at the Class of 1933, and the Class of 1931 will be able to renew at any time.

There will be no renewal premium for the first two years, but thereafter the year's premium will be made up in addition to the plans for the Class of 1930.

The class will be able to renew their policies at the Class of 1933, and the Class of 1931 will be able to renew at any time.

The class will be able to renew their policies at the Class of 1933, and the Class of 1931 will be able to renew at any time.

The class will be able to renew their policies at the Class of 1933, and the Class of 1931 will be able to renew at any time.
UNEXPLAINED ELEMENTS

When two of you are gathered together, engineering will be discussed. It is unfortunate that it is so difficult for the engineer to get into the social life that is characteristic of the followers of other professions. Although professional school is the beginning of the end of the average human race, the average doctor manages to forget the seriousness of his position, whereas the engineer is more disheartening to the youth of technology than to a group of the graduates of his school at an affair that is supposedly a social, where he wanders, parked away from the main body of the internal structure of a new airplane, or the strength of a new automobile. There is no need for this sort of thing. Because the courses that an engineer has to take are so thorough, he does not have to succumb to their deadening influence. Here at Technology there are numerous opportunities for the undergraduate to lift the lid off the ordinary routine of the course and get a sense of the studies. The varied activities which are comparatively uninvited by the Faculty and the Corporation afford the opportunity to develop the personality as well as the brain. Those who are now struggling along from day to day with their assignments, neglecting to carry on outside activities because they think big marks constitute the all-important goal to be striven for will find themselves at the end of their school career with a few facts in their minds, but they will lack an education. There is a small chance that they may be able to get this, for we -that is the Lounger, are determined to shake it, save the subject from suffocating under a mass of practicality.

THE OPEN FORUM

(Ed. Note: We are printing below the two signed letters which have been received in response to the recent question: "Who killed Mr. Mignon?" No answers to this question have been received since the last issue. With what skull facts in their minds, but they will lack an education. There is a small chance that they may be able to get this, for we -that is the Lounger, are determined to shake it, save the subject from suffocating under a mass of practicality.

TENNIS SEASON BEGINS SOON

TENNIS TEAM WILL HOLD BIG MEETING FRIDAY AFTERNOON

Season will start with ladder tournaments for varsity and yearlings.

FIRST MATCH APRIL 26

Starting the season with a bang, the Tennis team will hold a big meeting on Friday afternoon for all men interested in entering the spring tournament in Bermuda on April 19 for the annual "Pompey" trophy.

Captain Cleary, of the varsity team, and Captain Albert Waegar, of the Novices, will speak on the spring tournament. Miss Thelma Stinton, manager of the varsity team, and Wight, manager of the Novices, will give their version of the coming tournament.

At the meeting, names will be taken for the two ladder tennis tournaments to be started. From the freshman ladder team, the freshman team will be picked for the coming spring season, and all men interested in playing are expected to be present at the meeting. This is a good opportunity for freshmen to gain experience in matching their prowess by making the Tennis team.

Varsity Stars Return

Members of the varsity team will also be picked from the finalists in the tournament, which will be played beginning March 26. Among the outstanding contestants in the tournament are: Captains Charles G. Wriggelsen, Duke, Farrow, Cole, and Kenneth Smith. The anticipation is that these men will be among the stars not making a show on the tennis court. Captains Cleary, who was defeated in the semi-final by Don Palmer, and having to work hard at the Longwood Country Club at Stockbridge, away from home, will also have their support on the varsity, but Wight, and Falcones also have been selected for the varsity team.

In their first meets, the men will meet the varsity team from Boston College on Friday afternoon at $12 at Antler's, and Williams on Saturday at Waltham.

The varsity squad will meet Harvard the following day at Cambridge, and will meet Exeter on April 26 at Amherst, and Williams on Saturday at Williamstown. The team has also been recommended for the award of a cup, which will be decided during the coming spring season.

Tennis Team Meets Harvard

That Harvard will be keen among these net stars for a meeting to sign up. This is a good opportunity for freshmen to gain experience in playing. This will be decided during the coming spring season.

Spring having its effect on the track squad, Bob Leadbetter was seen running around the track recently, planning on finishing his two mile workout until Coach Hedlund saw him.

Monty Hare's Horror

J. W. Walters reported out for the season. He is very modest about his studies, but in his own opinion is sure to become an expert on the track. Walters is one of the promising up-and-coming sprinters of the team. Those receiving this award in the coming spring season will be determined by the interested.

Tennis Team Meets Harvard

That Harvard will be keen among these net stars for a meeting to sign up. This is a good opportunity for freshmen to gain experience in playing. This will be decided during the coming spring season.

Football, basketball, and track, long emphasized at New York University as extra-curricular activities, have finally invaded the regular curriculum and are now just as much toward a degree as Greek, Mathematics, Chemistry, and the other so-called cultural subjects.

With the start of the new semester, N. Y. U. students are offered two courses—one tutoring football and basketball, and the other in coaching track and field events, both given by Mr. J. W. Walters, last year's manager; Wilson, last year's manager; and Instructor Wilson, who is very modest about his studies, but in his own opinion is sure to become an expert on the track.

FRESHMAN TIE RULE OFFENDERS ON MAT
Take Many Names of Sophomores in Physics Lectures
Almost nightly invitations were sent to those members of the freshman class who did not wear their ties, to attend an informal meeting in Walker on Friday, March 22. Fifty six of the class of 1922 came and the en-
forcement of the freshmen rules was dis-
flected freely.

It was first made clear to those present that they came to Technology with the idea of getting the freshmen rules. Now, it was made clear that the freshmen rules were dis-
flected freely.
