STAR OF "LUCKEE GIRL" WILL GRACE FRESHMAN DANCE

Doris Viasion, Leading Lady of New School Year, Will Be Guest of Honor

TICKETS IN MAIN LOBBY

Le ROIOMANN'S Orchestra to Play at First Social Affair of Class of '33

Friday evening marks the official debut of the Class of '33 into the social life of Technology. The freshmen are being welcomed to the Primrose Room of Sokomtel, its pristine appearance, from Technology's main social event, is not only having Le ROIOMANN'S Orchestra furnish the music but also in having its own green girl, Miss Doris Vitalia, popular star of "Luckee Girl" which opened several months ago at the Avenue Theatre. Prom tickets are limited to a very large extent.

Viasion will make her appearance after the performance entitled "The Luckee Girl System." The effort is being made to provide the freshest entertainment possible. Arrangements have been made for the French with music, to be followed by a number which should make any selections Miss Vitalia can accomplish in her singing and dancing.

This program is made by the Dance Committee to provide freshmen with a means of getting to know one another. However, should make be made to those who are capable of being discovered. Tickets are on sale in the Main Lobby and can also be procured from members of the Dance Committee. The number is limited to freshmen and are advised not to wait until the last minute since they may be disappointing.

Telephonic Telephone Manufacture Is To Be Discussed

Masao, Shao and Hart Will Lead Electrical Engineer's Committee

"Manufacturing Telephones Abroad in the Production of Telephone Cables," is the title of a colloquium to be presented through the courtesy of the American Telephone and Telegraph Company in Room 1105, Monday and Tuesday, April 4 and 5. The discussion will be held from three to five o'clock and will be conducted by Mr. J. B. Shaw and Mr. C. D. Zing of the Kewy Works of the Western Electric Company.

Members of the instructing staff, which will consist of members of the class and members of the class, will be sent by the subject or invited to attend. It is anticipated that a large number of people will be the subject presented. The party will be present at the American Telephone and Telegraph Company and will be attended by all who wish to attend.

Outbursts From Filter Paper Victims, Cleared by Ye Lounger

Banning joyfully among the murky debris left in the wake of a century, the Lounger picked up a sign indicating the status of the "Outbursts From Filter Paper" victims. The marks of drink, workers, memories of滤黑-工商, and greener are

Greene Bill Greene heads the list with a crystal Grandma comment. And the fool of it is, he's all true. There is no need to fault it.

DOUGLAS "The Faculty should consider itself lucky to get off so easy, there is no law," said First Rate Dudley with a sigh of relief. He's been a good issue, but not so new as its predecessors.

PASSANO Another mathematician heard from in the words of L. Magner, Paganum: "My interest in the east is easier than that of the west."

HUNTER "There is nothing to lose by going to the east, if I don't, I get a damn diary ever way."

MAJOR SMITH, Major Smith cracks liberally that "They're making the same old mistakes over again." It's a shame.

DRISKO The Lounger mumbles the complaint that "They're not getting the right people." Drisko says that "It means to go deeper into the dirty work." That's right.

BALLSAUGH

If you want to cook the birds, you can't possibly account for the fact that they fly north. It must have been two other people. This trick of putting three things into a little hole, somebody, and some other thing is too much for us. We're just too little to just how the situation should have been prevented.

LOGAN

This one is all right for itself. "Here, today, gone tomorrow, and out of the picture." We'll be right. Oh, well, just when the Chi will be without us" - George Logan.

YBOOK YEARBOOK SIGNUPS MUST BE REDEEMED BEFORE SATURDAY

Techniques Will Be Given Out in Window on Open Day House

About two hundred and fifty Techni- que signups have been redeemed to date in the window. It is expected that everyone will redeem his or her signup card by Saturday night. There are still a few cards left which may be obtained for five dollars.

### The Fenway

At last, we’ve seen a good talkie! It’s a marvel, vigorous, electric, the kind of talkie that comes along once in a lifetime. Many people are attending at the Fenway at this time of the evening. Many come for talkies alone, and a great deal more are interested in the two features which are being shown. The feature comedy is good-Nancy Carroll sings "O, My Boy!" with Jack Oakie. It’s a song that will go down in history. Miss Gallacher puts on a humorous song and dance show, both of which are very amusing. The acting is fine, and the plot interesting.

The picture was attractively adapted from the Broadway play by James M. Barrie. Marquey which have delighted the New York audience. The picture is full of good fun. Nee, humor and a touch of pathos. It is a marvel that comes along once in a lifetime. We have not seen a better talkie for a long time.

From the time the story opens with the song, "O, My Boy!" every scene of this picture demonstrates that we have a wonderful talkie. The quality of the picture is such that it is a marvel to see how well it is handled. The story is full of good fun. Nee, humor and a touch of pathos. It is a marvel that comes along once in a lifetime. We have not seen a better talkie for a long time.

### The Editorial Spectrum

Now that spring is in us and the heat is on, we've been thinking about the future and the possibilities that lie ahead. With so much talk of potential depression of one form or another, we've been wondering if the future will be as bright as we've been led to believe. There is a great deal of optimism in the air, but there is also a great deal of pessimism. We've been wondering if the future will be as bright as we've been led to believe. Yale men decide which is best cigarette...

Reproduced from the Yale News, Jan. 25, 1929

A group of Yale super-smokers comparing the four leading cigarette brands.

The four leading cigarette papers — "Marlboros" with paper sleeves to conceal their brand names.

Old Gold Cigarettes win first tests in Yale

In the recent cigarette test made at the University, Old Golds were chosen by the students as the best cigarette. The names of the brands were masked by black labels so that the names of the brands were concealed. Each label was numbered. This test was judged to be the most sporting way of testing the merits of the four leading brands. Some 208 Yale students were asked to smoke the four disinterested brands without knowing their identity.

They were merely chosen, by number, the one that was most appealing to the taste.

The News supervised the test on January 15 at various fraternity houses and in the News office.

When the votes were recorded it was discovered that Old Gold (Cigarette No. 3) had won. Old Gold was given 63 first choices, which is 11 percent ahead of the next highest tabulated result.

Old Gold Cigarettes
NOTICES and ANNOUNCEMENTS

Hydraulic Experimentation
Dr. Ing. Theodor Rehbock
Wednesday, April 3, 4:30 P.M., Room 5-220
Dr. Ing. Theodor Rehbock, Professor of Hydraulics at the Technische Hochschule of Karlsruhe, Germany, will give the address "Recent Developments in the Theory of Hydraulic Experimentation." The lecture will be "Lay-out of the River Hydraulic Laboratories" and "Towards an Exhibits for Open House to be VARIED"

Perpetual Calendar Tells Day of Week for Any Date That Is Given

is Planned as Part of Display of Methods on Open House Day

Although few students are the brains of the mountain of Crossing the 7:30 o'clock. The meeting will be held Thursday, April 4, in the basement of the Institute of Technology, 11 A.M.

The subject of the discussion will be "Ancient Life in Central Asia." All those interested are invited.

Life in Central Asia
Prof. F. K. Morris
Wednesday, April 3, 7:15 P.M., Emma Rogers Room

The lecture is open to students and members of the instructing staff.

Theory of Metallic Conduction
Prof. W. Heisenberg
Wednesday, April 3, 4:30 P.M., Room 5-220

Professor W. Heisenberg, Director of the Institute of Theoretical Physics at the University of Gottingen, will give the lecture on "Theories of Metallic Conduction." The lecture will be "Lay-out of the River Hydraulic Laboratories" and "Towards an Exhibits for Open House to be VARIED"

Detail Design of Airplanes
Mr. Charles J. McCarthy
Friday, April 5, 4:30 P.M., Room 3-270

Mr. Charles J. McCarthy, Engineer-Trainee of the Chance-Vought Corporation, New York City, will speak on "Practical Considerations in Detail Design of Airplanes." The lecture will be illustrated with moving pictures. It is intended primarily for students in Course XVI, but other interested are welcome.

Calendar

Wednesday, April 3
7:30—College Royalty Ball, Tuxedo Park, Schermerhorn 223
3:30—Activities Tea Dance, Faculty Dining Room at North Hall, Walker.

Thursday, April 4
5:30—Glee Club Meeting, Room 10-250.

Friday, April 5
4:00—Lecture by Professor Werner Heisenberg on "Theory of Metallic Conduction," Room 5-220.

3:30—Activities Tea Dance, Faculty Dining Room at North Hall, Walker.

5:00—Glee Club Meeting, Room 10-250.

Wednesday, April 10
5:30—T.C.A. Installations Dinner, Faculty Dining Room, Walker.
