TECHNIQUE RUSH IS FEATURED BY FIERCE FIGHTING

Dormitory Men Well Organized With Two Teams Entered

SCOTCH BAGPIPERS PLAY OVER 40 STUDENTS IN Annual Battle Between New Hall To Possum Paddle

Fighting for the greatest kind was the mirthful May 6th, as the Technique Rush, one of the most attractive events of the season, ended in a four-o'clock-a.m. battle between the dormitory of New Hall and the dormitory of Possum Paddle.

The battle was not fought in the usual manner of rushing, with the usual amount of shouting and noise, but rather by means of bagpipes.

The bagpipes were played by four members of the New Hall dormitory, while the Possum Paddle dormitory played the opposite side.

The bagpipes were played in unison, creating a loud and harmonious sound that echoed throughout the campus. The participants were thoroughly entertained and entertained the crowds waiting outside.

At the end of the game, the Possum Paddle dormitory was declared the winner, and the participants danced and celebrated their victory. The bagpipes were then stored away for another day of fun and merriment.

The Technique Rush is a traditional event that brings together students from different dormitories and creates a sense of community and camaraderie. It is a testament to the creativity and ingenuity of the students, who find ways to enjoy themselves and make the most of the opportunities available to them.
Potash Struck by Government in Test Holes Sunk in Texas and New Mexico

Geological Survey Analyzes 32 Samples from Holes in Permian Basin

Potash has been struck in each of the 16 test holes sunk by the Government in Texas and the results of the exploration by the Geological Survey are being released. A permit for potash mining on the Lone Star property west of Cooper, Tex., was taken out by the Government this week.

The survey is being conducted by the Bureau of Mines under the Potash Mining Act of 1920. The exploration is under the supervision of the Department of the Interior, the Geological Survey being in charge of the operation. All three of the holes proved to contain considerable quantities of potash, but potash has a complex composition, and it will take time to determine its commercial value.

Schools and Potash Ralls

The potash discovery is near the Southern Border of the Permian Basin in Texas, and it is expected that the discovery will be of great importance to the Potash mining industry. The Geological Survey has been conducting a program of exploration in the Permian Basin for several years, and this is the first time that potash has been discovered in Texas. The discovery has been hailed as a major breakthrough in the search for potash resources in the United States.

FAIR WEATHER SPORTSMANSHIP

The Tigers "came, saw and conquered" and did a good job of it. The weather was ideal, with no rain and plenty of sunshine. The Tigers were able to enjoy the fair weather and play some good football.

Many Prominent Movie Actors Go Through College

Academic Training No Assurance of Following Selected Occupation

"Ex-collegians," Claude Rains, star of "The Killers," is sprouting throughout show business. He is being someone with time on his hands to make the rounds of a few Broadway shows. It seems that most of them intend to return to the stage. It is difficult to be exact.

Professor and Mrs. Warren E. Smout of the University of Texas have coopered directly with the Geological Survey on the discovery of potash. Four of these private core tests for potash were made in the region, and the results of the tests were encouraging. The tests confirmed the existence of potash in the area, and it is expected that further exploration will reveal the extent of the deposit.

The Geological Survey is continuing its work of exploring for potash in the area, and the findings of the Potash mining industry is expected to be of great importance to the Potash mining industry. The Geological Survey has been conducting a program of exploration in the Permian Basin for several years, and this is the first time that potash has been discovered in Texas. The discovery has been hailed as a major breakthrough in the search for potash resources in the United States.
CREW LOSES PRINCETON RACE RELAY TEAM TAKES A THIRD AT PENN

Varsity Eight Loses Out
At Finish After Rowing Close Race With Tigers

On a slightly wind and with a choppy course to row, the Tigers took a lead at the start and maintained it until the finish. The boats increased their lead to two lengths. The half the Tiger had increased their lead to two lengths, and as the stroke of the Princeton eight was on the way, the Tigers pulled away to win in a length and a quarter.

Rifle Team Closes Most Successful Season Ever Experienced by Beavers

This year the rifle team has had the most successful season since the sport was established at the Institute. Including mail competitors, the Eastern Intercollegiate, a total of 83 teams have been fired against, and of them, 44 have been defeated.

FRESHMAN TRACKMEN BEATEN BY ANDOVER

Series of Six College Meets Are
Territorial by Yearlings

The freshman track team opened their season on Wednesday afternoon when they met Andover at Andover. They were defeated by the yearlings of the latter but the score does not show the true work they did. They were victorious in most of the track events they were able to come through in the field events. But Andover's years ahead in the score field was the 100 yard dash won by a dasher who cut through the middle of the Andover line as it was racing down the field. This subject is expected to prove of great interest and is timely. The universal presence of crime throughout the country today has been the subject of serious discussions among distinguished citizens and eminent members of the bar. Professor F. W. French assisted associate professor in the Associated Press, focused the attention of the action. The question as to what part the boy, in whose life that young soldier with the loaded gun is thus concerned of course is much debated. Acting Attorney General Overholser is well known in the legal world as a leading authority on the subject of serious discussion among distinguished citizens and eminent members of the bar on the subject of serious discussion among distinguished citizens and eminent members of the bar.

Mental Expert To Address Faculty

"Legal Aspects of Psychology" is Subject of Concluding Talk of Series

Concluding the series of talks on Mental Health and Disease, Dr. William E. French will address the Faculty Club on "The Legal Aspects of Psychology." At a luncheon meeting following this lecture, members of the faculty and guests will be served at the covered walk at the Faculty Dining Room.

CORPORATION XV TO HOLD FINAL MEETING

Large Program is Planned for Gathering Wednesday Afternoon

Corporation XV holds its last monthly dinner meeting at the new Dana Park Club, this Wednesday evening at 6 o'clock and it will be the outstanding meeting of the year. Mr. Howard C. Byrd, President of the Dana Park Company, will talk on the effects of the corporation in the community.

Mr. Winfred Earhart, the newly chosen chairman of the Corporate will take the chair at the meeting. The Association of American Insurance Companies will be invited to the meeting.

There will be a question-and-answer period on the topic of the meeting. The stockholders of the corporation will be given an opportunity to discuss various aspects of the corporation. The stockholders will be given an opportunity to discuss various aspects of the corporation.

Mental health is an important issue. It is a matter of concern to all of us. We all want to have a healthy mind. But how do we keep our minds healthy? This is an important question that we all need to consider. It is something that we all need to be aware of. This is a topic that we all need to think about. It is a matter of concern to all of us.

Winners Among Students in Architecture

RECEPTION BY PRESIDENT

(Taken From Front Page)

One event in progress was the football game in order better to see the races. At sight lines, the 100 yard dash was one of the most stimulating events that held the building made an imposing sight and the excitement both boys and girls. While there were not as many contestants as always, the light was very exciting and was enjoyed by all the visitors. This year the event by Dr. Neefus, 'A4; second, Jackson, 'A', third, Nerses DerMarderosian '29 who left the field while Williams made a heavy bid, also went to the non-Dormitory winners. Glenn Osborne, first, Neefus, Al and a second, Bruner, 'A4', third, Kidder, 'A'. Distance, 152 ft. 9 in.

Women's Mile run-Won by Jewett (T); second, French (T); third, Woodwards (T). Time-100 yard dash, Wayne by Pickett (A); second, iPitkin (A). No competition, third, Pitkin (A).

Two hundred and twenty yard dash-Won by Pickett (A); second, Driver (A); third, Woodwards (A). Time-100 yard dash, Wayne lost out to Pickett, 'A' and was 13 yards behind him. Waynes won the 220 yard dash with a time of 24.48 seconds.

In the mile run Gilman came through to win again, taking the finish line in 4 min. 45 1-5 see. In the half mile run, Jonasson ('A'), Wiebe ('A'), and Winn ('A') were the only contestants. This year the event was won by the yearlings of the latter but the score does not show the true work they did. They were victorious in most of the track events they were able to come through in the field events.
