

N. E. MEET WILL BE HELD HERE

PLANS READY FOR GRADUATION AT SYMPHONY HALL

Announce Information in Regard to Cap Etiquette and Correct Dress

ALLOW SENIORS 5 TICKETS

Final plans have been made for the graduation exercises that will be held in Symphony Hall on Tuesday, June 4, at 11 o'clock. Senator Hiram Bingham of Connecticut will be the speaker. Professor William S. Hutchinson, chairman of the Faculty Committee on Graduation, wishes to present the following information regarding correct academic dress and etiquette of the cap.

Candidates for Doctor's degree shall present themselves at the graduation exercises wearing the Doctor's cap and gown with no hood. Candidates for Master's degree shall present themselves at the graduation exercises wearing Master's cap and gown with no hood. Candidates for Bachelor's degree shall present themselves wearing the Bachelor's cap and gown with no hood.

Officers Wear Uniforms

Candidates for commissions in the R. O. T. C. shall present themselves at the graduation exercises wearing their uniforms under the cap and gown corresponding to the degree to be conferred. Students will wear caps during the exercises, removing them only during the invocation. Women students need not remove their caps during the invocation unless they so desire. Tassels should be worn on the right side front before taking degrees and changed to the left front after receiving diplomas.

Each Senior will be provided with ten announcements of graduation and five tickets for the Graduation Exercises. Last year only three tickets were given to each member of the graduating class, the extra two this year being provided by a new arrangement in seating.

Tickets Available Now

Approximately 100 seats were formerly reserved for faculty members and guests of the Institute and since many of these seats were never used, the tickets are this year being given to the Seniors. These tickets and announcements are now ready for distribution and may be obtained at the Information Office.

Caps and gowns are in order for Class Day exercises and Baccalaureate services as well as Commencement and the Committee wishes to urge all Seniors to secure them as soon as possible. Orders will be taken at the Coop, or Read and White.

Those Seniors who desire their marks early should have a self-addressed envelope with a special delivery stamp in the Records Office before May 31. This will insure the Seniors getting their marks at the earliest possible moment.

All Regular Classes Will Close Tomorrow

All Senior classes of the year will come to a close today, and tomorrow will be the last regular school day for the remainder of the student body. This year's final exams will commence on Friday, May 24, and will continue throughout the following week with the exception of Memorial Day which comes on Thursday, May 30. Although the last regular class of the term will come tomorrow, many fortunate or unfortunate students, as the case may be, will continue their studies during the summer school which begins on Monday, June 3, directly after the end of the exams.

Lowell Institute Presents Diplomas To 200 Graduates

G. K. Masson, Chief Engineer of N. E. T. and T. Co., Is Chief Speaker

At the Lowell Institute commencement ceremonies last night in Room 10-250, approximately two hundred graduates received their diplomas from President A. Lawrence Lowell of Harvard. George K. Masson, chief engineer of the New England Telephone and Telegraph Company, delivered the commencement address, and President Samuel W. Stratton spoke as the Technology representative of Lowell Institute.

Coming from all manner of occupations and representing such far-away parts of the world as Italy and Australia, over seven hundred students are registered in this evening school. The courses vary very little from those offered in the day curriculum at Technology and the regular day instructors teach the Lowell Institute students as well.

The Institute is supported by the Lowell Fund left by John Lowell, Jr., and is now in its twenty-sixth year of existence. Free tuition as a result of the Lowell Fund has been a great attraction for business people who work during the day and wish to improve their education in their spare time. Salaries of men who have been graduated from Lowell Institute over twelve years have increased more than 500 per cent, according to Professor C. F. Park of the Mechanical Engineering department.

Students at the Institute spend three or four nights per week at Technology in their courses. Completion of the course requires a minimum of two years.

UPPERCLASS BAND PLANNED NEXT FALL

President S. W. Stratton Active in Band Organization

Plans are being made by President Samuel W. Stratton for the organization of an upperclass band in the fall, and all who would care to take part in such an organization, or to offer suggestions as to the tentative make up of the Band, are requested to see Lieutenant Colonel Robert Eddy at his office in Room 3-310 as soon as possible.

The proposed band will be entirely separate from the present freshman band, and somewhat along the lines of the school bands conducted at other universities and colleges. It will not be under the strict supervision of the Military Science Department, and its members will not necessarily have to be members of the R. O. T. C.

If sufficient enthusiasm is shown by the students of the Institute in regard to such a band, it is felt that the Committee on General Studies would consider making it a general study, on the same basis as the Choral Society is—a credit of one hour per week. In order that President Samuel W. Stratton may determine student opinion on the matter an immediate response would be welcomed.

FACULTY ADVISORS FOR LIBERAL CLUB

Starting their work without delay the newly elected officers of the Liberal Club have adopted for the second year the policy of faculty advisors. Professor Richard G. Tyler '10 of the Civil Engineering Department and Professor Robert E. Rogers of the English Department have been appointed to act in this capacity for the coming year. Their positions as advisors will be constructive only.

Continuing their policy of securing men connected with the Institute whenever possible in addition to the outside speakers who have been secured, the Club has arranged to have Professor Rogers address the first meeting of next year.

Cross Country Runners Meet in Hangar Today

All men who are interested in cross country running and the plans for next fall are requested to notice that the meeting which was to be held tomorrow will be held in the Hangar Gym today at five o'clock. This change has been found convenient and advisable by those in charge.

It is important that everyone attend this meeting, as it offers the only chance for the men to organize in advance of the coming season which will start as early as possible in September.

T.C.A. TO BE OPEN ALL DURING SUMMER

Freshman Camp Capacity Will be Increased to 300 Men

All the services of the T. C. A. will be open during the entire summer. Closing time will be at four o'clock, whereas now for the benefit of those buying theatre tickets it is 5:30 o'clock. Employment, Book Exchange, and Room Registry will continue as is the custom, so that students may make early plans for next year if necessary. Books are now being turned in rapidly for sale to other students.

The two T. C. A. publications, the blotter and the handbook, are well on their way to completion and the work will be continued through the summer to have everything ready for next fall.

At a meeting yesterday it was decided that there would be 300 men at the Freshman Camp. Twenty-eight upperclassmen who are prominent in the activities at the Institute are being asked to attend. John Waters will again be the Camp Director and he has been assisted this year by Theodore A. Riehl '30, Bursar Horace S. Ford, Henry O. Pattison '30, and Wallace M. Ross.

Reginald W. Tarr '30 has been selected chairman of the delegation to the annual Northfield Student Conference this summer. The T. C. A. will help pay the expenses of any needy students who wish to attend this student gathering at Northfield, Mass., from June 14 to June 22. The Technology delegation consisted of twelve men last year.

SENIOR WEEK PROGRAM

THURSDAY, MAY 30

8:15 P.M.—Pops Concert, "Tech Night." Symphony Hall—Informal. Faculty and members of all classes invited.

FRIDAY, MAY 31

10:00 A.M.—Senior Picnic, Rainsford Island. Class assembles on the boat at "T" wharf (For Class of 1929 only.)

SATURDAY, JUNE 1

3:30 P.M.—Class meets in Rogers to don cap and gown and form procession.
4:00 P.M.—Baccalaureate Service, New Old South Church. Cap and Gown required.

MONDAY, JUNE 3

2:00 P.M.—Class Day exercises, Walker Memorial. Cap and Gown required.
3:00 P.M.—Tea Dance, Walker Memorial, Music by the Tunesters.

TUESDAY, JUNE 4

11:00 A.M.—Graduation Exercises, Symphony Hall. Cap and Gown.
3:00 P.M.—Reception by President Samuel W. Stratton, Walker Memorial.
10:00 P.M.—Senior Prom, Main Ballrooms of Hotel Statler, Music by Bob Whittemore's Orchestra—Formal.

Freshmen Plant Traditional Tree East of Walker

President Stratton Commends Growing Class Spirit at Technology

President Samuel W. Stratton reviewed the freshman R. O. T. C. Battalion at their final drill of the year last Monday afternoon. Following the inspection the companies marched over to Walker Memorial where a picture of the battalion was taken. The tree dedicated to the Class of 1932 was then planted on the side of Walker near the tennis courts. President Stratton spoke a few words in which he compared the growing tree to the spirit of the class. Joe Paul, president of freshman class for the past year, concluded the ceremonies with a short talk. Thomas H. Jenkins recently elected president of the class, presided at the exercise.

In his address Dr. Samuel W. Stratton congratulated the class on carrying out the custom established last year in reference to the freshman ties and the tree planting. He stated, "Both of these customs may be classed as the beginning of traditions growing up at the Institute. The adoption of the freshman tie has done much toward bringing about an early organization of the class and consequently earlier acquaintances with each other and with the instructing staff."

Due to the mistaken impression that they were dismissed from the steps of Walker Memorial after their pictures had been taken, the men scattered to put away their rifles. After confused attempts by the company officers to gather their men together again, the half-filled companies began marching back to Walker only to meet the few who had remained for the tree-planting ceremony returning with word that the battalion was finally dismissed.

TECH SHOW ISSUES CALL FOR WRITERS

Skit and Lyric Contest Open to All Undergraduates

All skits for next year's Tech Show to be turned in this spring must be in the hands of the management before June 1 according to the publicity manager. As in former years the Skit Writers' Contest will continue throughout the summer and the names of the prize winners along with the winners of the Lyric Writers' Contest will be announced at the Tech Show Smoker next fall.

The contest for lyrics will be run again this year with the hope that some of the music for the 1930 Show may be written by the students. Last year this was not possible, but with the cooperation of the undergraduates it is hoped that the attempt this year will be successful. In almost all the past shows the scores were written by students of the Institute so it is highly desirable, according to the management of the Show, to have the lyrics this year written by them as usual.

Letters have been sent to many prospective writers already and the publicity manager would appreciate it if all those interested in either of the contests would leave their names and summer mailing address at the Tech Show office so that they can keep in touch with the work going on doing the summer.

TRACK MEN TO HOLD BANQUET ON MAY 25

All track men are invited to attend the annual track banquet which will be held in the Charles V. Warmuth restaurant, 280 Devonshire Street, Boston, on Saturday, May 25 at 6 o'clock. Tickets for the dinner will be \$1.50. Coaches, captains, and managers of the various branches of track will speak and the new captains and managers will probably be announced.

MAINE PICKED TO RETAIN TITLE ON TRACK AND FIELD

Northeastern U. is Only Other Contender for First Place Honors

BLACK IS MAINE'S STAR

With an imposing list of entrants to represent them, eighteen colleges will be the guests of the Engineer track team on Friday and Saturday afternoons in the annual New England Intercollegiate track and field championships. The University of Maine, winners last year, head the list with practically the same point scorers entered again this year. Samuel Thompson, winner of the shot put last year, is the only man who has been lost to the Maine team this season.

Record Broken By Maine

In the Maine state championships held last Saturday Maine scored more points than the other three colleges combined. Two records were tied by the Maine runners and one broken. Thus it seems that Maine will have an edge on winning the meet next Saturday. Northeastern is a strong contender for the honors, as is Amherst. Amherst captured the Little Three track title last Saturday when the team defeated Wesleyan 79 1-3 to 56 2-3. Northeastern retained the Eastern Intercollegiate championship title last Saturday when six other colleges were defeated.

Ladd Qualifies Last Year

In the 100 yard dash, Quinn, of Holy Cross, winner last year, is not with the Purple team this year. Running in his place as the favorite is the second place winner of last year, James Daley, a junior at Holy Cross. Fifteen colleges are represented in this event. Shaw of Wesleyan and L. W. Beals and K. W. Straw of Williams are entered in this event for Saturday. All three of these men qualified in the trials last year but failed to place in the finals.

In the dashes Technology has entered one qualifier of last year in Fred Ladd. He placed in the trials of the 220 but failed to score in the final heats. Quinn of Holy Cross won this event last year. In the 440 yard run there are a number of stellar performers entered. Captain Hallahan will represent Technology, along with Burrows and Gonzalez. Bates has entered last year's winner in the 880 yard run in Russell Chapman. Chapman is now a Sophomore having won the event last year as a freshman. Berry, Hallahan, and Leadbetter will represent Technology.

Richardson in Two Mile Again

Richardson of Maine, winner of the two mile run last year, is again entered this year. In the Maine state meet he won this event in 9 minutes 46 1-5 seconds. Thorsen is entered for Technology and last week won this event against the University of New Hampshire in 9 minutes 48 3-5 seconds.

Maine Has Edge on Field

Last year the field events were all for Maine. This year, although

(Continued on Page 3)

Senior Week Tickets on Sale Until May 30

Tickets for the Senior Week events will be on sale in the Main Lobby from 11:30 to 1:30 o'clock everyday except Friday, May 24 and Monday, May 27. A desk will be maintained until Thursday, May 30. Tickets also may be secured from Bernard B. Brockleman, 66 Bay State Road, Boston; telephone B. B. 5907, or from Fisher Hills, 255 St. Paul St., Brookline; telephone Reg. 8172.

LUCK—OR BRAINS

TO most of us, it's "all over but the shouting." Classes are nearly finished—the "shouting" will for the present be confined to curses at everything and everybody during the long sessions of midnight oil burning.

Nor will our hope for luck end with these exams. It is an important factor in our success, whether we try to do well in a summer job, or whether we are fortunate enough to be looking forward to a permanent career.

From the current issue of "What the Colleges are Doing", a symposium of articles on the subject published by Ginn and Company, we take the following quotation, "Luck may be, variously, a happy man's slogan, or a lazy man's alibi; a self-made man's sanction of divine favor, or the invidious excuse for a rival's good fortune."

Your use of luck, and your dependence on it, will mean a great deal in your success or failure. Avail yourself wisely of every opportunity, and you will find that all the luck you crave will come your way.

As We See the Movies

LOEW'S STATE

"Alibi," the current picture at Loew's State, is a thrilling melodrama of the underworld, and is made more vivid by the addition of sound effects.

Starting out with the release of a man after he had served a jail sentence for a crime he claims he did not commit, the story follows his desperate battle to get revenge on the police.

The characters are a typical all-star cast, but there is no outstanding acting, even in the leading roles.

This week, the vaudeville is really exceptional. Van and Schenck sustain their good reputations as movie-tone artists, and then there is a revue, "Palm Beach Nights," which although it presents the same stuff that usually goes into that sort of thing, is much more pleasing than the majority of vaudeville entertainments.

was a wild stampede and 1932 raced back to put their guns away, instead of attending the annual tree planting ceremony.

The joke was on the freshmen finally and the Lounger enjoyed seeing them assemble again and march back to Walker only in time to see others returning from the ceremony.

The Lounger resents Tubby Roger's dirty cracks at THE TECH and its (Continued on Page 4)

Students at Hau College in China don't have to take any back talk from any of the professors, for they rule the college, regardless of what instructors think about it.

College students are being given free aeroplane rides through the courtesy of the Parker Pen Company which is sending its monoplane, the "Parker Duofold", on a tour of southern colleges from Purdue.

COMMENCEMENT day is coming—sooner than you ever thought possible. Soon you will have received your college award—your degree. It will have been worth working for, not just for possession of the sheepskin, but because it stands for four years of accomplishment.

When you leave college, you will hear of the Charles A. Coffin Award, the highest gift in the utilities industry for excellence of operation. During the six years of the Coffin Foundation, three of the Gold Medals symbolizing first place have been won by companies under Stone & Webster executive management.

No matter what profession or business you choose, you'll meet Stone & Webster men—financing utilities, operating gas, electric, and transportation companies, building power and industrial plants. They're wide awake, alert, progressive. You'll find the Stone & Webster organization is worth knowing and worth doing business with.

18 TRACK TEAMS MEET AT M.I.T.

MAINE HAS EDGE ON N. E. LAURELS

Technology Enters Full Team in Meet, With Chance for Few First Places

(Continued from Page 1)

Maine has lost only one man, the winning of the majority of the field events will be a harder job. In the shot put Maine has lost her stellar performer, Samuel Thompson. To take his place Webster, Black and Gowell have been sent. Last week Grondal, the Technology entrant, won this event at New Hampshire with a put of 42 feet 9 inches.

In the high jump the first name to appear is that of Phil Benjamin. Representing the Institute, he has been successful in winning this event in almost every dual meet participated in this season. Last week he tied the Institute record by jumping 6 feet 1-2 inches. Russell of Brown is the defending champion in this event. Last year he won with a jump of 5 feet 11 7-8 inches.

Medley Relay To Be Run

In connection with the meet there will be a freshman Medley Relay held. Eight teams are entered in the event which is run by four men. The men run the following distances in the following order: 440-220-220-880 yards. The final makeup of the Technology team has not been determined but the team will be chosen from the following men—Hall, Wayne, Jewett, Milliken, Ellis, Rogers, Gilman.

The trial heats for the meet are to be held Friday afternoon while the finals will be held on Saturday afternoon on Tech Field. The colleges entered in the meet are as follows: Amherst, Bates, Boston College, Boston University, Bowdoin, Brown, Colby, Holy Cross, Mass. Agricultural College, M. I. T., New Hampshire, Northeastern, Rhode Island State, Tufts, University of Maine, Wesleyan, Williams, and Worcester Polytechnic.

TENNIS TEAM LOSES IN LONGWOOD MEET

Wigglesworth Wins First Match But Loses in Second

Dame and Ferrer put up the best exhibition for Technology in the New England tennis Intercollegiate. The two men played together in the doubles against Hayes and Bowditch of Amherst, and the Amherst pair won the match by 6-4, 6-4, but only after a hard struggle. The Engineers led in both sets at 4-3, but were unable to maintain their lead, losing the three final games in both sets. The matches have been in progress at the Longwood Tennis Club at Chestnut Hill.

In the singles matches, Frank Dame lost the Engineers' first match to Henry L. Johnson, Jr. of Dartmouth. Dame gave him a hard fight but was beaten out by a score of 6-3, 6-4. Wigglesworth was the second Technology man to play in the singles, winning his first match against H. Richardson of Bates, 6-1, 6-0. In the second round he lost out to S. P. Hayes of Amherst, 6-3, 6-2. This put the final Technology repre-

sentative out of the tournament for this year.

At the meeting of the New England Intercollegiate Tennis Association last week two of the members of the Technology team were elected to offices for the coming year. Frank Dame was elected Vice President of the association and Thomas Wigglesworth was elected secretary-treasurer. Theodore MacDonald of Dartmouth was elected to the presidency of the association.

University of Washington sophomores have been letting their beards grow for over a month. It's a class distinction, they say, but the frosh think it a joke. Recently a group of freshmen raided a fraternity house and shaved two sophomores. War immediately broke out, and was ended only by an official inter-class armistice.

INTERCOLLEGIATE

Wesleyan University has acquired the original manuscript of Prof. Albert Einstein's new theory combining the laws of mechanics and the laws of electricity. The treatise is described as the most remarkable mathematical document that has ever found lodgment in American college archives. This document represents the mathematical statement of a scientific theory which it has been said that not more than 12 men understand at the present time.

George Washington University recently received one hundred thousand dollars for the establishment of a public speaking course with special instruction for future political men.

Several American colleges have now made arrangements whereby students may travel abroad during their Junior year and receive credit for it, according to an article in the "Lafayette". The cost from July to July is about \$1500.

THE LOUNGER

(Continued from Page 2)

inefficiency as a news-gatherer. It's Tubby himself who was absent-minded this time. (His privilege as a literary professor.) When he did not read the winners of the Boit contest in last week's issues, he kept his Saturday morning English class awake with all sorts of deprecatory remarks at the expense of the news organ. And now the Lounger finds that he did not release the news until Friday anyway!

* * * *

Man and boy, the Lounger has

been about the Institute for countless years; in all that time he has yet to find any reason why a professor should assign advance preparation for the last recitation of the term. Unless, perhaps, the mimeograph machine was not operating of a satisfactory production schedule.

* * * *

To those fortunates who depart

home to enter college next Fall, the Lounger's regards—lucky dogs! To those who depart with a diploma in their trunks, thanks for the old problems and exam papers. To those who will return to take up the weary struggle, the best of luck and all the fun commensurate with a social standing of an "intellectual Bostonian engineer," to phrase a well-known New York paper.

New York,
March 13, 1928

Larus & Bro. Co.,
Richmond, Va.

Gentlemen:
I have used Edgeworth Smoking Tobacco for the past twenty-five years. Two years ago I took my trusty briar along on a trip abroad, intending to revel in the delights of the famous mixtures in London. I confess that I did not carry along with me any of the little blue tins of Edgeworth. But the joke was on me. I went back to Edgeworth, only this time I had to pay 45c for a 15c tin of Edgeworth!
Incidentally, on a trip through England and later through Ireland, I was surprised to find the wide distribution and ready sale of Edgeworth in Great Britain. A frequent and familiar sign in Dublin, Cork and other cities in Ireland was a white streamer announcing a new shipment of Edgeworth. To make such a conquest must be very gratifying to your house.

Sincerely,
J. B. Kelly

Style No. 3505

It's TRAFFIC FILM
that hides the lustre of your car

THAT dull, dirty coating which accumulates on the finish of your car is Traffic Film—a result of modern highway and traffic conditions. There is only one sure and harmless way to combat Traffic Film, to retain the original lustre of the finish, or to bring that lustre from under the dull coating which sometimes covers it.

**An Auto Polish Made to
Combat Traffic Film**

No. 7 Duco Polish is made by du Pont, the makers of Duco. It is made specifically to combat Traffic Film, which soap and water cannot remove. It is a neutral polish, with no harmful abrasives. It quickly penetrates and loosens the Traffic Film—"puts the skids under" the dirt particles—and, almost without effort, you wipe away the dull coating which formerly resisted the most strenuous scrubbing.

No. 7 Duco Polish revives the color, restores the lustre, and leaves a dry, hard surface which sheds dust. Once again the finish glistens, the high lights gleam, and your car looks as new as when you bought it.

Film. Minute particles of oily, sticky dirt are constantly settling on your car—in the city streets, on the country roads, and even in your own garage. These particles collect dust, and, baked by the sun and the heat, are cemented together to form a hard, dull film on the finish. This Traffic Film is forming on your car today.

Buy a can of No. 7 Duco Polish and use a little every week or two. If you prefer to have your car polished by the garage man, ask him to use No. 7 Duco Polish to restore the beauty of the finish. No. 7 Duco Polish will not only protect the finish against Traffic Film, but will keep it new and gleaming, season after season.

Leading automobile manufacturers recommend No. 7 Duco Polish and many of them put samples in all their new cars. Look for the sample can in your auto tool kit.

Du Pont, the makers of Duco, have developed two other products to make your car more beautiful. No. 7 Auto Top Finish will waterproof the top and bring back its original lustre. It is also an excellent dressing for spare tires, and tire covers. No. 7 Nickel Polish cleans and brightens radiators and lamps. . . . it is also an ideal polish for metal surfaces of all kinds in the home.

Traffic Film is
Forming on Your
Car Today

Modern Motoring conditions have created Traffic
