FACULTY ADVISORS FOR LIBRARY

Starting their work without delay the newly elected officers of the Undergraduate Library Society will devote the second year of the policy of faculty members of the Library Society to studies of the appropriate problems that are being handled. The society is not a business organization, but is rather a group of students interested in the problem of academic work. The society is composed of all students enrolled in the library science course. It is organized under the direction of the dean of the college and the faculty advisor. The students have been working on this project for the past two years.
