ANNUAL ALL-TECHNOLOGY SMOKE TO TAKE PLACE IN WALKER MEMORIAL FRIDAY

First Sophomore Mass Meeting Is Scheduled Today

Plans for Field Day Will Be Discussed by Leaders of Sports

PROGRAM STARTS WITH FREE MEAL FOR ALL NEW MEN

Sports Exhibition and Vaudeville Acts Included in Events

FREE SMOKES FOR ALL

Technique Cup to be Awarded to Track Point Scorer of Track Team

Pops and peanuts, nickel vaudeville acts, audience-pleasing speeches, and invaluable prizes are provided for the annual Winter Carnival opening ceremony on Friday, occasion of this annual event, which always places an exciting feature in Walker Memorial. The plans for the Carnival, which is arranged and a distinct program and entertainment features, are being completed.

As is usual, the smoker will start promptly at 8 o'clock in the Skin Dining Rooms for the freshmen and transfers. The transfer classes and other older classes will begin in the Skin Dining Rooms. Free popcorn will be available for the freshmen, and other classes will enjoy the sports program in the gymnasium.

Those interested in sports (Continued on Page 3)

PLAN TO HOLD FIELD DAY SATURDAY, OCTOBER 19

Committee Appointed to Take Charge of Struggle

Field Day, the day on whichSophomores will take the reverse of the Senior, the superior of the Junior, and the average of the Freshman, will take place this Saturday, October 19. This year, Field Day is opened by a crew race which is wildly practiced in the morning. This is followed, after classes are dismissed at noon, by a muddy, foot-ball, and touch-down. The day’s events continue until approximately three o’clock, when the smokers will begin and when all members of the various classes are given an opportunity to take part in the sports.

At the meeting of the Institute Committee held Thursday, the following committee was appointed to take charge of the arrangements:

James J. Gilman, chairman; Ronald M. Johnson, Robert D. FTC, J. E. B. Rockwell, Harold W. Tressler, and Charles H. Barlow are the members of the committee. The date was chosen because it is the first official sports day for the Institute and the event makes for a great opportunity to entertain a large number of people. The committee is working on various projects for the day, including organizing a series of events and activities, and making sure that all necessary arrangements are in place.

Students Chosen to Represent Science Clubs

The members of the Science Clubs are as follows:

A. S. C. E. Hold Meeting at Stater

Student members of the American Society of Civil Engineers met in the Stater Building last Monday afternoon. The meeting was attended by a number of students who are interested in the field of civil engineering. The students discussed various topics related to their field of study and shared their experiences and knowledge. The meeting was a great opportunity for the students to network and learn from each other.

Tech Show Plans Smoker For New Men at Institute

Meeting on October 16 is Final Date to Hand in Shrubs For Production

Tech Show for 130 will be launched at the smoker on October 24 which will be held in Walker Memorial, October 26. At this time the smoker for the show will begin, and all work on arts and crafts is due by October 24 as soon as possible. At the smoker a number of shrubs will be announced, as well as an outline of arts and arts that are available to members. The shrubs will be announced in the next issue of the Review.

At this time only a limited number of shrubs have been accepted. It is hoped that more students will enter this year than was entered last year. All shrubs will be accepted for the show until October 24. At this time the shrubs will be judged and awards will be given to the winners.

In addition to the shrubs, the smoker will feature a number of other art and craft projects. These will include paintings, sculptures, and other works of art. The smoker will also feature a number of exhibits, including a collection of student projects from various departments.

Large Number of Improvements in Central Library

Rubber Tipped Chairs and Paired Floor Installed to Improve Student Reading Facilities

During the past summer months $6,000 was spent for alterations and improvements in the Institute Library. As a result of this work the Library is now ready for the students to use.

The Library has been thoroughly cleaned and the floors have been painted. The windows have been cleaned and the light fixtures have been replaced. The shelves have been renovated and the books have been reclassified.

In addition to these improvements the Library has been provided with new chairs. These chairs are of the rubber-tipped variety and are designed to prevent damage to the bookshelves. The chairs are also designed to be comfortable for long periods of reading.

The Library is now open to the students and they are invited to use the facilities.

OLDUS JUBILEE TO BE OBSERVED HERE

Technological Society will hold in the native city of the nation its annual meeting at 8:30 o'clock on Monday, October 21, in the Marriott Inn. The meeting will be held in the Marriott Inn and will feature a number of speakers and discussions on various topics of interest to the technical community.

The meeting will open with a talk by Dr. A. S. C. E. on the history of the society and its contributions to the field of technology. There will also be a presentation by Dr. J. E. B. Rockwell on the future prospects of the field.

Throughout the meeting, the attendees will be provided with refreshments and a buffet lunch. The meeting will conclude with a closing address by Dr. A. S. C. E. and a reception for all attendees.

EDISON JUBILEE TO BE CELEBRATED

Technological Society will hold its 100th anniversary celebration at 8:30 o'clock on Monday, October 21, in the Marriott Inn. The celebration will feature a number of speakers and discussions on various topics of interest to the technical community.

The celebration will open with a talk by Dr. J. E. B. Rockwell on the history of the society and its contributions to the field of technology. There will also be a presentation by Dr. A. S. C. E. on the future prospects of the field.

Throughout the celebration, the attendees will be provided with refreshments and a buffet lunch. The celebration will conclude with a closing address by Dr. J. E. B. Rockwell and a reception for all attendees.

TRACK SEASON OPENS WITH MEETING TODAY

Coach Hodgson and Hoyle To Address New Candidates

Although a number of men have been made members of the track team, the order of the squad still remains the same. This is because there is still some man who can perform better than men who have been dropped.

The members of the track team discussed their strategy and divided their workloads. The members expressed their desire to become better and to be able to compete in future meets. The team members also discussed the importance of hard work and dedication in order to achieve success in their field.

The team will take place on this date.
MASCULINITY'S REFUGE

In recent years there was an abundance of social activities at Tech which were attended in great numbers by the male students. Nightly, at all events, was in pre-war days, one of the high lights of the school year; the old traditions of the "Cane Rush" and the parade across the bridge after Field Day activities were preserved as a part of Tech as Applied Mechanics.

The old traditions have come down to us intact, preserving all the elements that have made them famous through the years. One of the most famous, the "Meal Ticket," is an annual, a dispute at the University of females was not so necessary for a man to enjoy himself.

The harmfulness of automobiles during the college year, with memory of the olden days, when steins were raised to the balcony. It is up to the student body to keep up the traditions.

Technology has always been boastful of its attendance at these affairs, as a survival of the good old days; when the necessity of females was not so necessary for a man to enjoy himself. It is natural that he should reason in this vein. It is an error of logic.

Technology has always been boastful of its attendance at these affairs, as a survival of the good old days; when the necessity of females was not so necessary for a man to enjoy himself. It is natural that he should reason in this vein. It is an error of logic.

The stage production is good. Pauline, with a dash and a stroke of the old shoulder, mother's sacrifices, the daughter is unappreciative — every man's own song. It was successful from many recent musical shows.

It was successfully designed back drop, a group of the vocalists inside the same old line. Thle troupers include Hal Sherman, eccentric and at times detected even at a "Smoker," usually taking refuge in the balcony. It is up to the student body to keep up the traditions.

one of the past few years, and he has
took in the high jump and weight

events respectively. He has had much experience in coaching, and will do his best to hold them together.

Chesterfield

FINE TURKISH and DOMESTIC tobacco, not only BLENDED but CROSS-BLENDED

"STICKIN' to our instincts" — never forgetting that Chesterfield's popularity depends on Chesterfield's note...

But what is taste? Aroma, for one thing — keen and spicy fragrance. For another, that something—something—aura, mellowness tobacco goodness—which we can only call "character." Taste is what smokers want, taste is what Chesterfield offers—

"TAKE above everything"

University World Cruise Arrives

At Glasgow for Purpose of Study

One hundred students and professors, comprising the Third World University Cruise to Scotland of the Institute of Public Administration, have arrived in Glasgow for the purpose of studying Scottish rural conditions. They recently commenced a college year of seven months, during which they will cultivate the mind. This year, the program includes stops in the cities of Edinburgh, Glasgow, and Manchester. The tour of Great Britain and the continent is scheduled to include visits to nine countries and seventy old-world towns and cities.

Long stays will be made at Oxford, London, and Kuala Lumpur, and occasional excursions will be made to the places in the vicinity. Lectures, field trips, and excursions will be arranged, and the program includes visits to the Universities of Oxford and Cambridge, and the London School of Economics. The cruises will be at sea for six months, during which time the students will have the opportunity to study the social, economic, and political conditions of the countries visited.

The Executive Deck in charge of the Third World University Cruise is under the direction of George L. Rabinow, widely known as the collector of the Institute of Public Administration. He is assisted by Dean William F. O'Connor, who is the Director of the Academic Department, and by George R. B. Hines, who is the Director of the Institute of Public Administration. The students will be housed in the first-class cabins of the ship, and the program includes visits to the University of Oxford, the University of Cambridge, and the London School of Economics. The students will have the opportunity to study the social, economic, and political conditions of the countries visited.

One of the main objectives of the cruise is to study the social, economic, and political conditions of the countries visited. The students will have the opportunity to study the social, economic, and political conditions of the countries visited.

WALKER MEMORIAL
BUILT IN 1917 BY INSTITUTE ALUMNI

Building Erected in Memory of Ex-President Francis Walker Memorial

CONTAINS RESTAURANT

In 1917, Francis Walker, the second President of the Institute, inaugurated the Memorial Building. The building contains a large restaurant, which is open to the public.
