HOLD FIRST MEETING

Vol. XLIX-No. 51 CAMBRIDGE, MASS., FRIDAY, OCTOBER 11, 1929 Price Five Cents

Head of School; while there he ran with the track team. He competed for Cambridge High School. As his first attempt at precision running he ran cross country at Rindge Tech. He was trained in this by M. H. Marsters in cross country running. He competed for Cambridge High School in cross country and bridge while preparing for Technology running. He competed for Cambridge High School in cross country running. He competed for Cambridge High School in cross country running.

F. G. Hartwell Manager of Dormitory Housing is a new member of the Institute Chemical Society.

Cruisers Open Freshman Cross Country Season

Many Men With Previous School Experience Report

With the start of the cross country season but two weeks away, the freshmen team is coming into good shape. The team has not yet been definitely picked and will not be announced until the week. This is being done is being done because some have had experience in high school or college track meets for the purpose of picking the team. These teammates are in their last week of intensive training and must be applied in order to get the men in shape for the meet with Holy Cross.

Thursday, Oct. 10:30 a.m. - For freshmen and transfers only.

8:30 Dinner for freshmen and transfers.

7:00 A.M. Confession. Dr. John B. Service will present the key to John F. Bennett '30 for the student body.

7:30 Dinner for transfers and freshmen.

7:40 Address by Technology, and told the members I would like to report on our activities here in the realm of science. He also proudly declared that one of the reasons for this visit was to look around the campus and to take in the activities of the students. The meeting broke up at 9 o'clock with the singing of the student song.

In closing, he said, and went on to tell how an outstanding event in our history was the first meeting of the Engineering Societies of Boston, the Northeastern Section of the American Institute of Electrical Engineers, and the Massachusetts Institute of Technology in particular. He added that the meeting was held in the Memorial Gym, and that the program was concluded by a raffle.
THE TECH

Automotive Lab Obtains Engines For Experiment

Wright Engines Donated to the Institute by the Navy Department

Technology's new Automotive Laboratory is the scene of great activity, amid the throng of high speed racers running and of men working as usual. The satisfactions given by the fact that there is something doing. Although the equipment is not entirely organized as yet, many of the engines are set up for experimentation and the others are being worked on daily.

The majority of the engines came from the former Laboratory and have been described in previous issues of THE TECH; but there are three new projects under way that offer interest.

One of these, a right-cylinder type Wright engine, was presented by the Navy to Technology for use in its Laboratory. The motor is one of the last models manufactured by the Wright Corporation before producing the air-cooled motor. It is nothing on a modern plane, enabling it to be hooked up for experimentation.

An important feature of the three-operating marine V-type engine is a demonstration of an air-cooled, air-cooled engine. The head of the engine is enclosed in direct line of a forged steel made by a blow-out, with the result that the head has been placed on a block with merely sensitive points.

"Customed to Don or Customed to Measure"
Brown University Opens Technology Football Season

Froshmen to Meet Dartmouth At Hanover Next Saturday In First Game

Brown University will open the forty-seventh season of college football at the season opener on Saturday, October 11, against Dartmouth. This is the first of a four-game series between these two schools for the football championship of the Ivy League. In all the matches between these two schools, Dartmouth has won thirty-three times, Brown twenty-five times, and one game was ended in a tie.

The Brown team leaders for the season are Manager James. It is hoped that more men will report as an attractive schedule has been arranged for the freshman team: Captain Ed. Thomas Wigglesworth, '30, finalist in the New Bedford City Tournament; Viceric Caskey and Lykes. It is hoped that more men will report as an attractive schedule has been arranged for the freshman team: Captain Ed. Thomas Wigglesworth, '30, finalist in the New Bedford City Tournament; Viceric Caskey and Lykes.

Many letter men of last year are back on the team again this year and it is hoped that more men will report as an attractive schedule has been arranged for the freshman team: Captain Ed. Thomas Wigglesworth, '30, finalist in the New Bedford City Tournament; Viceric Caskey and Lykes.

The model sketched offers an example of the type of garment considered most effective for fall usage among college men. The lines are entirely correct and follow authoritative dictation. The variety of weaves from which selections may be made is very bountiful. Interest is also solicited for civilian shirts, woolies, hats, caps, footwear and various other incidentals of correct dress.

Turn the light on the Truth!

It's just naturally good tobacco—not "artificial treatment" that makes Old Gold gentle to the throat and better to the taste.

No one cigarette-maker has any monopoly on the heat-treatment of cigarette tobaccos.

For best-treatment is neither new nor exclusive. It has been used for years by practically all cigarette-makers to "set" and sterilize their tobacco.

But Old Gold's goodness does not depend on artificial treatment. It is the product of naturally good tobacco... carefully selected for mildness, smoothness and flavor. Tobaccos made free of "throat scratch" by Mother Nature herself.

Try a package. You'll immediately get the thrill of this smoother and better cigarette. And you'll know then why Old Gold's sales are already three times greater than the combined growth of three leading cigarette brands during a like period of their existence.

Better Tobaccos make them smoother and better... with "not a cough in a carload"
