GLASGOW L. MARSHALL
Chairman of the Department of Mechanical Engineering, said that the department was filled with students who were interested in the subject, "A Municipal Engineering Department in the United States." He described the work of the department, including the planning and design of water systems, sewerage, and street improvements. Marshall also discussed the importance of public relations in the engineering profession and the need for engineers to be good citizens.

Dr. John A. Rockwell '96, President of the Alumni Association, was received with a great deal of enthusiasm. He spoke on the history of the university and its role in the community. Rockwell emphasized the importance of education and the need for students to be well-prepared for their future careers.

Dr. E. A. Fales, Dean of the College, addressed the audience on the importance of community service. He urged the students to be active in the community and to use their skills to make a difference.

The meeting concluded with the presentation of a plaque to Dr. Rockwell as a token of appreciation for his service to the university.

PHOTO SERVICE

Taking of Pictures Will Start
First Day of November

The Institute Photographic Service has been awarded the contract for all picture taking at the 1930 Tech Show. All pictures will be taken between regular hours and on Saturdays and Sundays. Individual sittings will be in the Union from 2:00 to 6:00 on Saturdays, and from 2:00 to 5:00 on Sundays. The group pictures will be taken at 8:00 o'clock on the morning of the day of taking. All pictures will be ready to be made at the time the picture is taken.

Competition for the position of Photo Service Manager will be open. Those interested should report to Mr. Harold L. R. Walker, Memorial, any day after 3:00.

First-Year Man Held Scramble for Pennies

"Pennies, pennies everywhere" seemed to be the motto of the freshmen class at the first annual Scramble for Pennies held last Friday. The number of freshmen and new transfers arrived at the Technological School at the latest possible hour, and when all records were broken for the Tech Show it was found that the freshmen were not in the lead. However, they were still not behind, and it was the upperclassmen who were heard to say, "We'll take care of them goodbye." A feature of the scramble was a collection of scrape, which was followed by a scramble for pennies. While the freshmen were still hard at work, the upperclassmen were already in the lead. The freshmen, who were not yet quite ready to admit defeat, continued their scramble, and it was not until late afternoon that the upperclassmen were able to claim a victory. The freshmen, who had been out of work since the first of the year, were now to be found working in groups, trying to get ahead.

FRESHMAN LEADERS

News of a Social Nature

Freshman executive members will hold their second monthly meeting in the union next Monday. The meeting will be held at 2:00 o'clock in the foreground, room 11-004. Appointments may be made for the meeting by calling at the office of the Photographic Manager for Technique.

ENGINEER VARSITY WINS FIRST CREW RACE OF SEASON

Tech Show Holds Smoker Wednesday

Mass Meeting Last Chance to Hand in Skits for 1930

Tech Show 1930 will hold its annual smoker Wednesday evening at 8:30 o'clock in the North Hall of Walker Memorial. Wednesday, at 8:30 o'clock.

The affair for the purpose of acquainting interested undergraduates with the Tech Show. There will be addresses by two members of the executive committee, and several vaudeville acts and musical numbers will be presented. The Tech Show line-up will consist of the following: W. H. M. M. T.: Austin for Valley Show for Newnan.

Local Topics Feature Meeting of A. S. C. E.; Technology Represented

Many Members of Faculty and Alumni Take Part in Discussions

The position of Technology as one of the prominent schools of engineering in this section of the country, and the opportunities for students in the field of civil engineering was discussed at a meeting of the American Society of Civil Engineers which was held in Boston last week. The meeting was attended by the three day program are members of the Executive Committee of the Engineers.

There are positions open for both summer and winter assignments as well as permanent positions. Many students wishing further information are urged to fill out applications at the Tech Show office or at the office of the Department of Civil Engineering.

Three Greek Families Plundered by Robber

A professional fraternity rubber has been at work this past summer. The rubber was conducted by a group of students who were familiar with the details of the operation. The rubber was based on the idea that it is possible to sell a meeting of the rubber at a profit of 10 cents per pound. The rubber starts on Friday, and those who wish to buy are to try for it on the day.

Three Greek Families Plundered by Robber

Most of the papers presented dealt with ecological problems. Some of the papers were presented in Chinese, Japanese, and other languages. The topics covered included the effect of pollution on the environment, the role of the government in the protection of the environment, and the importance of public education in environmental protection. The papers were well-received, and many of the attendees expressed their intention to continue their research in these areas.

ROR WINS SINGLES RACE

Coming in more than a length ahead of the Union Boat Club, Ror won her first race against Union Boat Club last Friday. The number of freshmen and new transfers arrived at the Technological School at the latest possible hour, and when all records were broken for the Tech Show it was found that the freshmen were not in the lead. However, they were still not behind, and it was the upperclassmen who were heard to say, "We'll take care of them goodbye." A feature of the scramble was a collection of scrape, which was followed by a scramble for pennies. While the freshmen were still hard at work, the upperclassmen were already in the lead. The freshmen, who were not yet quite ready to admit defeat, continued their scramble, and it was not until late afternoon that the upperclassmen were able to claim a victory. The freshmen, who had been out of work since the first of the year, were now to be found working in groups, trying to get ahead.

Dr. Thomas Ingerson, Director of the Hydrologic Institute of the Technische Hochschule at Munich, discussed the problems of the San Francisco Bay and the Sacramento River valley. Ingerson emphasized the importance of understanding the hydrological processes that affect these regions. He also discussed the use of modern technologies to study these processes and to predict future changes. Ingerson's presentation was well-received, and many of the attendees expressed their intention to continue their research in these areas.
TO THE

As We Like It

THE METROPOLITAN

There is a profound lesson in the banquet given by the Academy of Music, under the direction of Director McVicker, to the freshmen. It may be an exaggerated statement, but the story has a moral, and by the end of that fact, the picture is a well

Seldom are popular movies tragedies, but this one is. The story is an attempt to resist a powerful force, and the effects are true to life. The picture is not only an entertainment, but it is a study of the human heart.

The picture tells the story of a man who has been falsely accused of murder. He is tried and convicted, and sentenced to death. The picture shows the man's struggle to prove his innocence and to find justice. It is a powerful story, and the actors do an excellent job of portraying the characters.

The picture is not only a story of a man's life, but it is also a story of the struggle for justice. It shows how the system can fail, and how a man can be wrongfully accused. It is a powerful message, and one that should be remembered.

The picture is not only a study of a man's life, but it is also a study of the human heart. It shows how love can conquer all, and how hope can keep a man going. It is a powerful story, and one that should be remembered.

The picture is not only a story of a man's life, but it is also a story of the struggle for justice. It shows how the system can fail, and how a man can be wrongfully accused. It is a powerful message, and one that should be remembered.

THE TECH

FOREIGN ENROLLMENT PRESENTS
A LESSON IN MODERN GEOGRAPHY

Practically every country in the world is represented in Tech-
school's foreign enrollment. This list of foreigners at the Institute
is incomplete as there are many who live in the United States and
had never given their home as a foreign country. The following
home addresses have been given by cataloguing foreign students:

Australia
Austria
Belgium
Brazil
Bulgaria
Canada
China
Cuba
Czechoslovakia
Denmark
Egypt
England
Estonia
Finland
France
Germany
Greece
Guatemala
Haiti
Holland
Hungary
Ireland
Italy
Japan

NOTICES - ANNOUNCEMENTS
Of General Interest
Hydraulic Turbine
Dr. Ing. D. Thomas
Monday, October 14, 2 P. M., Room 1-190
Dr. Ing. D. Thomas, Professor of Hydraulics, Power Water Management
Division of Cornell University, will lecture on "Hydraulic Turbines".
His lecture will be the "Hydraulic Turbine: The Pottery of Hydro Power"
The lecture is open to students and members of the instructing staff.

CALENDAR
Monday, October 14
6-6 P. M. - Meeting of Freshman Rules Committee, Room 10-257
6-8 P. M. - Campfire at the Dunham, Room, Walker Memorial.
Wednesday, October 16
6-8 P. M. - T. C. A. Smoker, Faculty Dining Room, Walker Memorial.
Friday, October 18
3-5 P. M. - Dean Davis, North Hall, Walker Memorial.

Undergraduate
MISSING LIBRARY BOOKS
A number of valuable books in the library are
missing and have not been returned. Among these
are: "The Adventures of Huckleberry Finn" in four
volumes; a six-inch bound book of the 1908
yearbook; a copy of "On the Hill". All
people are asked to return these books if
they have had them. The remaining
seven volumes are also missing. Those
found will be returned to the
library, as if they had been
borrowed from the reader.

DEBATERS MEET TO DISCUSS YEAR'S WORK
One Debate Already Planned
-Six to be Scheduled

For the plan of the coming year's work were outlined at the first meeting of the Debate Society, Thursday morn-
ing, Coach Don Fuller gestured. A schedule of one preliminary contest, followed by three debates at home and four away, was decided upon. The invitation to the Debatable Society Council of Columbia University for a meeting in December was accepted, Lauey State University, New York Uni-
versity, College of the City of New York and New York University are being extended promises. The sub-
ject of debates which will be used throughout the season has not yet been chosen.

Walt '76, Paddy '75, McConnell '33, Hodg '72, Byun '71, Shellard '71, Harrison '69, McCarthy '52, and Roy-
se '79, comprises the group from which the veteran debate team will be se-
lected. There will be the usual fresh-
tmen this year upon a light sched-
ule of work. Paul Fuller, a member of those of '33 who have had some experi-
ence in debate to be present at the next meeting of the society. Those
who wish to become members of the society are urged to come to the meet-
ing in order to see what an opportu-
nity it is for an excellent and satis-
factory team in the coming year.

Voo Doo Smoker Held Tomorrow
Night In Walker

Members of Managing Board To Explain Organizations
Phosphorus will hold open house for all members of the Institute this
Sunday evening at 7:30 in the North Hall of the Walker Memorial Building.
The purpose of the smoker is to acquaint the men with the activities of Phosph-
orus and its kittens around Technolog-
ical and refreshments will be available in separate rooms where Bryant F. Ken-
ney, Manager, will introduce the smoker.

Professor Walter Fremont will speak on the value of an activity to the
19th century, and Charles J. Detweiler, 33, General Manager will introduce the
smoker to the other group on the activities. Smokes and refreshments will be
served to all students attending to the smoker.

SWIMMING TEAM TO MEET THURSDAY
All students who are interested in swimming are urged to be present at a
meeting Thursday Wednesday at 3 o'clock in Room 10-257. John H. Smiley, 33, the man team this year with a light sched-
ule, is to outline what they want to know about Swimming team's swimming.
