

## HARRIERS WILL RUN AGAINST CRUSADERS AT FRANKLIN PARK

### CARDINAL, GRAY TEAMS PRIMED FOR RACE WITH PURPLE

Crusaders Have Won and Lost Twice to Engineers in Former Meets

### BRENNAN IS H. C.'S BEST

Handicap Meet Will Be Held On Tech Field Tomorrow Afternoon

Technology cross country will start its intercollegiate season this afternoon at 3 o'clock with a freshman and Varsity meet with Holy Cross College. As the series stands now in the Varsity competitions, Holy Cross has won two meets and Technology two since the colleges first started to meet each other in 1924. The Crusader freshmen have been victorious in all three of their meets with the Engineer yearlings since they started competition in 1926.

**McNiff Will Not Run**  
McNiff, the man who took third place last year for the Engineers in the dual meet, is definitely out of the running this afternoon. His injuries to his foot have not healed sufficiently to warrant his undertaking the long grind.

Captain Thorsen will lead the Varsity men over the five mile course at Franklin Park this afternoon. Last year on this same course he led the field home with over 300 yards separating him from his nearest opponent. On that day he ran the course in 30 minutes, 19 2/5 seconds, when it was rather soggy due to rains the week previous.

**Freshmen Run Three Miles**  
The freshmen will run the usual short distance course of three miles. They are to elect a captain before the race starts, so that the team will be under organized leadership. This year the new men have been working hard to overcome the ill luck that has overtaken former Technology freshman teams in their races with Holy Cross and bid fair to do so. The Crusaders are sending a formidable team to oppose the yearlings but the work that the new men have done so far has inspired confidence in their backers.

**Handicap Meet Tomorrow**  
The second handicap meet of the fall will be held tomorrow afternoon on Tech Field. The sign-up sheets (Continued on Page 3)

### Chess Club Plans New Organization

#### Active Movement Being Made In Establishing Chess as New Diversion

Considerable movement is on foot of late to reorganize the chess club which was in existence several years ago. At one time Technology was represented by a very able team in the Metropolitan Chess League of Boston, and it was expected that chess would become a recognized and a well established extra-curricular activity at the Institute. These early hopes did not materialize, and the very next year the organization passed out of existence at Technology.

It is now planned that a system of places, comparable to the present tennis "ladder" will be chosen arbitrarily by an unbiased judge, and a player will then be permitted to challenge the man directly above him, the decision to rest upon the best two out of three games. In addition a tournament will be held for those whose ability is not known to the judge.

The meetings of the club will be held at convenient times so as not to conflict with academic work. One of the main objections to chess in the past as an organized activity, has been the lack of time on the part of the students.

All men interested are invited to attend a meeting to be held in the East Lounge of Walker Memorial at 5:00 o'clock Monday afternoon. Welcome will be extended to anyone whether he be good, bad or indifferent, in his playing. The club will offer to all a means of improvement in the game, and this is an opportunity for those lacking ability to learn from others by playing with them.

### Freshmen Meet to Discuss Plans of Field Day Sports

#### Coaches, Captains Will Outline Program at Pep Meeting This Afternoon

Meeting for the first time, the Class of 1933 will assemble in Room 10-250 at 5 o'clock to make Field Day plans. Here the freshmen will listen to speeches, cheer, sing, and generally have their class spirit aroused over the next Friday's contests.

Among the speakers will be Oscar F. Hedlund, coach of Track; "Bill" Haines, coach of Crew; Fred Ladd '30, Captain of Track, and Avery Bates, '23, captain of freshman football. Theodore A. Riehl '30, chairman of the Freshman Rules Committee, will speak on the freshman rules.

Horace S. Ford Jr., President of the Class of 1930 and freshman adviser, strongly urges every freshman to attend this meeting. He said that if the freshmen are to be successful on Field Day they must give their teams more support than they are now, especially the tug-of-war team.

If the Class of 1933 triumphs this year it will be the first time in the history of Field Day that the freshman class has won two years in succession, as the Class of 1932 defeated the Class of 1931 last year. However, Ford said that the chances of this happening seem somewhat slim, as the freshmen teams seem weak, and the Sophomores have the benefits of both their last year's experience and originally strong teams. He said, however, that if their teams are well supported the freshmen will have a fighting chance.

### FIVE EXTENSION COURSES OFFERED

#### State Department of Education Has Arranged Studies In Aviation

Five courses in aeronautics have been arranged by the Division of University Extension of the State Department of Education, three of which will be given at Technology. The entire program is the work of the state department of education, in co-operation with Prof. Daniel C. Sayre of the Institute.

Elementary aeronautics, the first of these classes to begin, and the first course in a three year aeronautic program, started two weeks ago. This study which is designed for beginners, includes those subjects given in the usual ground school, will take up the theory of flight, control and performance, construction and maintenance, engine cycles and aeroplane types, instruments, navigation, and practical flying.

Myron S. Huckle, a graduate of Washington State College, will cover in his lectures materials of construction, fabrication of wood members, types of glue, methods of gluing, glued joints, characteristics of fabrics, methods of covering surfaces, doping, patching, fabrication of metal assemblies, riveting, field and factory repairs on metal and wood, inspection before and after flights, replacement of parts, and crashes.

Professor Sayre will be in charge of a course in air transportation, which held its first meeting last Friday night. Among the topics to be discussed are characteristics of mail, express, and passenger planes; operating costs; reliability and endurance; status in the United States and Europe; organization of an airline; technical, economic, and legal operating problems; insurance and depreciation; customs regulations; location, preparation, and equipment of airports and landing fields, and illumination.

### EMERSON TO ADDRESS ARCHITECTURAL CLUB

Members of the Architectural Society, holding their first important meeting of the year, will hear Professor William Emerson, head of the Department of Architecture, speak on the topic, "The Aim and Purpose of the Architectural Society." This meeting will be held next Tuesday afternoon, October 29, in Huntington Hall, Rogers Building and will start at 3:30 o'clock. The plans for the future activities of the society will be discussed at this time. A drive for new members will be launched and prospective members are asked to be present.

## ROWING SEASON FOR VARSITY PROVIDES STIFF COMPETITION

### Events Scheduled For Handicap Meet Saturday

- 75-yard dash
- 300-yard dash
- 1/4-mile run
- Pole Vault
- Broad jump
- Javelin Throw

### Soccer Team Plays Against Worcester

#### Snow Elected Captain of Frosh Eleven—Riehl to Play In W. P. I. Game

Tomorrow afternoon the Engineer booters will play their third game of the season against Worcester Polytech in Worcester field. The Engineers tied their first game with Brown 1 to 1, losing the game last Saturday to the Dartmouth eleven 7 to 3, after a hard fought battle. Worcester Polytech has won both of its opening games, and will undoubtedly put a strong team on the field tomorrow.

Riehl, who was forced to stop practice in the early part of the week is back in the Varsity line-up, and will probably play in the game tomorrow. Whether Fragicomo will be able to play in the W. P. I. game is still in doubt, and will probably be decided tomorrow morning before the team goes to Worcester. Cooper probably will take the center halfback position if Fragicomo is unable to play.

While the Varsity is playing Worcester Polytech in Worcester, the yearling booters will have a game tomorrow afternoon at 1:45 o'clock with the Harvard freshmen on the Harvard Field. The frosh lost their first game to Dartmouth yearlings last Saturday 2 to 0, but have improved with the extra week of practice, and will give the Crimson booters a hard battle tomorrow in their second game of the season.

Sinkervic, who plays center forward, on the freshman team played a good game last Saturday and is expected to make a good showing against the Crimson. Bateman, and Snow are also expected to lead the offense in tomorrow's game.

At a meeting of the team held last night, Snow was elected captain to lead the freshman booters this season. He is a graduate of Moses and Brown Prep School, having been captain of their soccer team last year. He was appointed acting captain before the Dartmouth game last Saturday, and was one of the outstanding players in the game.

### CREW PROGRAM FOR 1930 IS DRAWN UP AT A.R.A. MEETING

#### Schedule Includes Four Meets With Prominent Crews Of the East

### COLUMBIA IS INCLUDED

#### One Triangular and One Quadrangular Regatta Will Be Features

Technology's crew schedule for the spring season of 1930 has just been arranged at a meeting of the American Rowing Association at New York. The Engineer Varsity has a tough program mapped out for it, one of the best in a long time, with two dual meets, one triangular, and one quadrangular regatta. This includes some of the best rowing colleges in the country.

The schedule in complete form is as follows:

- April 14. Technology vs. Navy vs. Columbia on the Severn.
- April 26. Technology vs. Harvard on the Charles.
- May 3. Technology vs. Princeton on Lake Carnegie.
- May 17. Technology vs. Navy vs. Pennsylvania vs. Harvard on the Charles.

### Columbia Will Row

The annual race with the Navy Varsity is customarily a dual meet. This year Columbia will send down their crack Varsity crew to give the Engineers and the Midshipmen something to worry about. The winners of last year's Poughkeepsie Regatta are expected to make a good showing this season, and they hope to get off to a good start at that time. Navy also has an enviable record in rowing, so that M. I. T. will have plenty to think about for their opening event.

### Engineers Go to Princeton

Due to the fact that the Princeton Tigers came to the Charles to race Technology last spring, the M. I. T. eight will go to Lake Carnegie for the return meet. Princeton won here in a close race and Bill Haines' oarsmen are waiting for the chance to avenge the defeat.

In the final event of the schedule, Technology will meet Navy and Harvard for the second time of the year, together with the crew from the (Continued on Page 4)

## Dr. Tryon To Leave For Lecture Tour Through South and Southwest

### Will Lecture in Twenty-Seven Schools and Colleges On Trip

Dr. James L. Tryon, Director of Admissions of the Institute, leaves tonight on a lecture tour of the south and southwest during which he will address the students of twenty-seven schools and colleges in seven states. Dr. Tryon, who has gained a wide reputation as a speaker of unusual interest, will discuss the "Education of the Engineer," a subject in which he reveals the human as well as the technical aspects of the engineering profession. Dr. Tryon is known to students in all parts of the world and in his travels meets many of his former pupils.

On November 1, Dr. Tryon will arrive in New Orleans to speak before the student body of Tulane University, and on the following day he will be the guest speaker of the Technology Club of the South. He will be at Louisiana State University at Baton Rouge on November 4, and at Southwestern Louisiana Institute at Lafayette on the next day.

In Texas Dr. Tryon will speak at Houston to the Technology Club of Southern Texas. Other places in the state he will visit are the Rice Institute in Houston, The University of

Texas in Austin, The Westmoorland Junior College at San Antonio, the Baylor University in Waco, the Southern Methodist University in Dallas.

Dr. Tryon will then work up through Oklahoma, Kansas and Colorado, beginning on November 15. He will address groups at the Oklahoma City University, the University of Oklahoma at Norman, the Oklahoma Agricultural College at Stillwater, the Municipal University at Wichita, Colorado College, and the Colorado School of Mines.

Returning to Kansas, Dr. Tryon will visit Washburn College at Topeka on December 2, leaving there for Lawrence to lecture at the University of Kansas on the following day. He will speak at the Army School at Fort Leavenworth on December 4.

In Missouri Dr. Tryon will be the guest speaker at a meeting of the Southern Technology Association at Kansas City on December 5, and he will speak to the students of the Junior Colleges of Kansas City on the following day.

On homeward journey to the east, Dr. Tryon will stop at St. Louis for a lecture before the Technology Club of St. Louis, where he will speak on December 9, and at Chicago, where he is to address a meeting of the Technology Club of Chicago on December 12. He is expected to arrive in Cambridge about the middle of December.

## Technology Listed Among Colleges Which Do Not Subsidize Athletics

### Only 28 of 112 Schools Acquired in Carnegie Report On Athletics

A clean record for Technology with regard to the recruiting and subsidizing of athletes was included in the final report of the Carnegie Foundation which was published in yesterday's morning papers. This long-awaited report, the result of three and one half years of investigation on the part of a committee headed by Doctor Howard J. Savage, a Tufts graduate, deals with the activities of 112 colleges and universities in a chapter entitled "The Recruiting and Subsidizing of Athletes". Only 28 colleges, seven of them Canadian, are on the "pure list" compiled by the committee.

In New England the only colleges besides Technology which are acquitted of the practice of offering scholarships to their athletes or otherwise giving them financial remuneration are the following: Bates, Bowdoin, Massachusetts Aggies, Trinity, Tufts, Wesleyan, Williams, and Yale. Those not listed among the "tily whites" include Boston College, Harvard, Amherst, Brown, Dartmouth, Holy Cross, Middlebury, Vermont, and Springfield.

The charges vary in intensity, from the actual issuance of pay checks and the fostering of a complicated sys-

tem of scouting for football material, to milder forms of subsidy and recruiting. Brown, Dartmouth, New York University, and Princeton, among others are accused of supporting promising athletes in preparatory schools. Washington and Jefferson is said to have issued "pay checks". It is said to be a widespread practice among large numbers of colleges to employ athletes to do work which could be accomplished by a much smaller group of men and at a much smaller expenditure than under the present system. "Certain American institutions", says the report, "award scholarships upon what is termed an all-around basis, including in addition to scholastic excellence, 'qualities of leadership'."

The factor of subsidization of athletes was touched upon by Coach Dean at the recent first meeting of candidates for the swimming team, at which he said that Technology cannot be considered to be competing on the same ground with a college (Brown) which furnishes financial aid to its athletes in return for services on various teams. He said that in view of this he considered that Technology won at least a moral victory in the New England swimming meet in spite of the 46 to 38 victory of Brown. He added that Technology had never sponsored such a practice and had no intention of doing so in the future.

As We Like It

"THE AGE OF INNOCENCE"—THE WILBUR

Boston is being given a two weeks' treat in the form of excellent drama while "The Age of Innocence" is playing at the Wilbur Theatre.

Miss Cornell played the lead in the New York Company of "The Green Hat" and her role in this production is somewhat the same.

New York of the 'seventies is the scene of the play, and in it move characters typical of the times.

The story centers around the deep passion of "Newland Archer," a part capably played by John John Marston, for the Countess.

Katherine Stewart, as "Mrs. Mingott" the Countess' grandmother, is a delightful dowager, and furnishes brilliant satire to relieve the tense moments.

"The Age of Innocence" is not light drama, for it presents in the costumes of the last century a complex modern problem.

Seats for this play and other theatrical attractions at box office prices may be obtained from the T. C. A. office, Walker Memorial.

Intercollegiates

The first instance of highly organized politics in American colleges that has come to our attention is in connection with the recent freshman class election at Ohio State University.

After a campaign marked by deep secrecy and the absence of old time political tactics, the Wig political party unanimously carried the freshman elections Wednesday.

A professor at the University of Minnesota recently declared that the courses of study should be continued throughout the twelve months of the year.

COMPLETELY ABSOLVED

IN the bulletin just published on the recruiting and subsidizing of athletes in the colleges of the country, it is notable that Technology holds her head high and claims absolution from all guilt.

Among the colleges in the so-called "not-so-pure" list, most of those who rate high in the world of sports are evident. Harvard, Dartmouth, Michigan, and Brown are accused of helping the athletes through school, by one means or another.

Perhaps as a gauge of the special consideration given athletes, the spirit of the school might be taken into account. At Technology, the spirit is notably that of hard work, and sports are not deemed so important as to demand that the authorities of the school should make special concessions to those excelling in athletics.

That a policy of special consideration to these men is dangerous to the morality of the school involved can easily be seen. Yet the alumni of the schools and even the undergraduates express neither surprise nor consternation at the revelation of the state of affairs.

On the other hand, the bulletin classes among those of the "Not-so-pure", all colleges which in any way encourage the attendance of athletes at their schools, as distinguished from non-athletes.

AFTER WE HAVE FORGOTTEN

RECENTLY President Hibben of Princeton cited this as a definition of education furnished by "an Oxford man": 'Education is what we have left after we have forgotten all we have learned.'

Yet education of the right sort may of course contribute to culture. It is, in fact, one of its strongest adjuncts. But much more is needed. There are scores of highly cultured men and women who have had very little formal "book learning".

Education must have a foundation on which to build. It is worthwhile as a contribution to culture or anything else just in proportion to the qualities of the person who receives it.

## ENGINEERS READY FOR HOLY CROSS

### Crimson Harriers Defeat Holy Cross in First Meet Of the Year

(Continued from page 1)

for this meet have been in the track office but so far the entries have not been many, due in great part to the dual meet this afternoon at Franklin Park. The entry sheets are being kept open until the time for the meet to start, in order that all men may compete if they feel qualified to do so.

#### Purple Defeated by Harvard

The Crusader teams have a slight edge on the Engineers due to the fact that they have already participated in Intercollegiate competition this fall. Two weeks ago they met and were defeated by the Crimson squad of Harvard in Cambridge. In this meet Brennan showed up the best for the visitors. Last year he placed first among the Holy Cross runners in their meet with the Cardinal and Gray harriers when he came in second to Captain Thorsen. He may be considered as the greatest threat among the Catholic college entrants.

## RELAY TEAMS TO BE ANNOUNCED MONDAY

### Fourteen Men Will Be Picked From Those Who Qualify

Based on the results of the time trials held last week, the Sophomore and freshman relay teams are picked for their annual race on Field Day next Friday. The names of the men making the team are not to be released until next Monday but they will be printed in the Monday issue of THE TECH. All men who have taken time trials are to report on Monday afternoon for practice in passing the baton.

Fourteen men will be picked from each class to make up the relay teams. The times in the trials this year are considerably slower than those of last year. The present Sophomore class members are much faster on an average than they were last year. The incoming freshman class seems to have a slight edge on their opponents and a close race may be expected.

## INELIGIBLES ISSUE CALL FOR COXSWAINS

### Enthusiasm Among Transferring Students Commendable

Several crew enthusiasts who are ineligible because of previous attendance at other colleges have formed a crew of their own which rows at 5 o'clock every afternoon. In past years similar groups of men have showed as much interest and spirit as the eligible oarsmen, and valuable Varsity material for the following years has come from such crews.

These men are badly in need of a coxswain who will be present at their practice sessions and guide the shell for them. Any lightweights who are ineligible and would like to enter crew activities in this manner will be welcomed at the boathouse.

Along with their call for a coxswain, the men also extend their invitation to other eligibles who have not been out for crew as yet this year. They would like to have enough men in their ranks to build up a crew that will be comparable with the regular Varsity. Such men will gain valuable experience and receive coaching when time permits.

### "Interference?"

IT looks like it, but are you sure? What do the new rules say? The New York Herald Tribune is paying special attention to the new rules in its football news these days. Do you read the Herald Tribune? It's a clearing house for football news—dispatches from the "camps" about players and coaches—graphic, pulsating stories of every important game, including those of your college, written by men like Granddand Rice, W. O. McGeehan, Fred Hawthorne, Don Skene, W. B. Hanna, Richards Vidmer, and many more. They write football as the good teams play it—with fire and dash and careful attention to detail.

You needn't limit your football enjoyment to Saturdays if you ask the newsdealer in your town to see that a copy of the Sunday New York Herald Tribune is reserved in your name. And if the day to day "dope" between games interests you as well, you'll find that, too, every weekday in the

### Prom Nominations to Appear in Next Issue

The list of men who were nominated for the Junior Prom Committee will appear in the next issue of THE TECH. Nineteen men were named this year which is nine less than last year. Elections are scheduled for next Wednesday at which time five men will be chosen to serve with the President of the Junior Class on Technology's chief social committee.

### CREW SCHEDULE FOR 1930 IS ANNOUNCED

#### Richard's Cup Race Will Take Place Saturday, May 10

(Continued from page 1)  
University of Pennsylvania. Four good crews will be lined up at the starting point, and the race should be full of thrills. Seldom do the students and rowing fans of Boston see such an array of prominent crews on the Charles in a single race. The fact that the big colleges want to come here speaks well for the growing success of rowing at the Institute.

#### Richards' Cup Race

A tentative date for the annual Richards' Cup Race has been set for May 10, since there is no Varsity race scheduled for that time. On May 14 the second freshman crew and the 150 pound freshmen will meet the corresponding crews of Harvard.

At present there are three heavy Varsity crews, three freshman eights, and one shell of 150's working out every morning at 7 o'clock. In addition to this, there are four crews of 150-pound freshmen who practice daily in the afternoon.

### Notices—Announcements

#### CREW NOTICE

All freshmen who intend to substitute crew for P. T. are again reminded that the zero hour for sign-ups is 12 o'clock this noon. Register for this sport at Henry P. McCarthy's office at the rear of Walker Gym.

#### AERONAUTICAL ENGINEERING SOCIETY

All persons who are interested in joining the Aeronautical Engineering Society are asked to sign up as soon as possible in the Main Lobby.

#### SOCCER NOTICE

All freshmen who are out for soccer are requested to report at the Coop Field every morning at 7 o'clock.

#### PHOTOGRAPHIC SOCIETY

The Photographic Society will hold a meeting at 5 o'clock Friday afternoon, in Room 5-130. One of the members will briefly explain the fundamental principles of photography. All others are urged to be present.

#### P. T. SUBSTITUTIONS

All freshmen who intend to substitute any form of athletics for P. T. must do so before 12 o'clock today.

#### LIBERAL CLUB MEETING

There will be a meeting of the M. I. T. Liberal Club next Tuesday in Room 4-270 at 4 o'clock. Prof. Doten of the M. I. T. Economics Department will speak on the subject "Is the New Tariff a Menace."

#### STUDENT DIRECTORY PROOFS

Tomorrow is the last day on which the Student Directory Proofs will be on display. Every student is asked to look at the proofs and to make any necessary corrections on the cards provided for that purpose.

#### FRESHMAN RULES COMMITTEE

There will be a meeting of the Freshman Rules Committee next Monday at 5 o'clock. The meeting will be held in the Institute Committee Room in the Basement of Walker Memorial.

#### FRESHMAN FOOTBALL

All men who have reported for the freshman football team at any time this fall are requested to be present at Coop Field today at 4:15. This call includes those men who have not attended all the regular practice sessions, as well as those who have turned out every day.

The Store for Men **Jordan Marsh Company** A Separate Store in a Separate Building

## Raccoon Coats

\$395

—only a limited number of these superb coats at this price.

—we can not duplicate this special purchase.

—Last year we sold identically the same grade and value for \$500. When these are gone we shall probably not be able to sell a raccoon coat for less than \$550.

—Dark well matched fur—an average of 30 skins to each coat—The wholesale price of the fur alone is \$12 per skin.
