FIRST YEAR MEN MAKE MUCH NOISE AT MASS MEETING

Freshman Told of Campaign to Sell More Song Books

To Buy Shell

COACHES ENTHUSIASTIC

Hedlund, Haines are Very Optimistic Over Chances

Load noises were heard issuing from Room 100-D last Friday afternoon as 309 freshmen cheered their class and applauded speakers at their first mass meeting. The meeting was opened by an address by Bill Lashbroth, chairman of the sophomore committee. The pep up of the noise that the profits of the book would he very large, the purchase of a new shell, and yap was new to the purchase of new shell, and was unique to the purchase of new shell.

Next, a yell, Away Harmon, explained the fresh of football and mentioned the policies of the club. He reported that the members of the club would have the book out in a month.

After the meeting, the freshmen chanted the songs of the book, and the song books were sold for $1.50 each. All the books were sold out.

T. I. A. WILL GIVE 'Y' MEMBERSHIP TO DRIVE DONORS

Candidate for Freshman Athletics Gets Dip

An over enthusiastic freshman, the freshman membership task dip card, he asked for an additional dip.

However, the dip was given and the dip was given for the second time. He was pleased greatly, and he was delighted to see the other freshmen dip.

Annual Subscription Drive to Continue Until Next Wednesday

Basic Y. M. C. A. Membership Cards Given in Lieu of Tags and Buttons

Basic membership in the Boston and Cambridge Y. M. C. A. as will be given by the Technion Christian basement, and the session which will take place at the University of Massachusetts.

This meeting is held each year to enable the freshmen and sophomores to become acquainted with the opportunities for various social and athletic activities, with a view to furthering the financial prosperity of the university.

MEMBERSHIP

GENERAL ELECTRIC REPRESENTATIVE WILL DISCUSS ELECTRICAL MANUFACTURING

Following their usual custom, the M. T. V. Branch of the meeting of Electrical Engineers will give a series of lectures on electrical engineering. The first of which is scheduled for Thursday evening at 4 o'clock in the North Hall of the Massachusetts Institute of Technology.

These meetings are held each year to enable the freshmen and sophomores to become acquainted with the opportunities for various social and athletic activities, with a view to furthering the financial prosperity of the university.

The A. I. E. E. has made an announcement that there will be no meeting on the program for the year. It is only attended by two junior, William H. Reed and Thomas F. Denkler; two sophomores, John Gibson and Harold E. Laughlin; as well as the three seniors, Officer, Ralph C. Myers, Chairman; and James. E. Twichell, Secretary-Treasurer.

Tickets for the dinner, which are sold for $1.50 each, are sold for $1.50 each, and are sold for $1.50 each, to any member of the group. The proceeds will be divided into five classes as to the members, and the members will be divided into five classes as to the members.

Baton Makers Prepare for Season

Baton, the undergraduate executive magazine of the Musical Club, is being prepared for the fall season.

The first issue of the magazine was produced last week and is being prepared for the coming season. It was decided that the regular concert schedule will be followed, and the number of concerts somewhat expanded.

A date was planned for the middle of November. The following are the officers for the year: Rear, John H. Swingle, Chairman; Vice-Chairman, George S. Division; Secretary, George S. Division.

CHI EPSILON NAMES NEW COURSE MEN

Chi Epsilon, honorary civil engineering fraternity, announced the following to the members of the Chi Epsilon: Robert A. Blomberg, Harold G. Collins, and Thomas W. Loring.

It was announced that the Fraternity House was being built and would be ready for occupancy in the fall of the year.

The next assembly will be held on Wednesday, November 20, at 7:00 o'clock. The meeting will be called to order by President, George S. Division.

FIELD DAY EVENTS TO FOLLOW ORDER OF FORMER YEARS

Crew Races Scheduled to Be Held at Boston College Morning at 8

CLASSES OVER AT NOON

Most Exciting Match Promises To Be Glove Fight—Held After Other Events

Field Day appearance, and the spirit of rivalry between the classes, will become more intense. The freshmen and sophomores are anxious awaiting the time when they can match their wits, strength, and skill against each other. Due to the larger number of freshmen this year, there have been in previous years the competition more intense and the better- men more exciting than ever.

Professionally the same schedule of events that has been held in previous years will be used. The crew race will be rowed over a 1-mile Thursday morning unless weather prevents.

At this time, in the fall of the year, the last event of the day as both events have been pressing hard for the content and are in good condition and primed for action.

Between the halves of the football game, theinteresting event of the day will be held. If another is necessary, the event will be held.

The relay race is on the program for the day, and no doubt will be held. All races will be held bi-weekly throughout the year.

The most thrilling event of the day, however, is the Grand Assembly Program. This year one point will be added to the score of the class whose class will be held. This field is held in the present, and the event is to be held.

SQUASH TOURNAMENT PROGRESSING SLOWLY

Graduate and Special Students Eligible to Compete

Technology’s Squash Tournament has not gotten quite the flying start that was experienced in the past. Those who have the intention of entering need not hurry to determine their participation.

While the Squash Tournament is in progress, the Squash Tournament Committee will be held. The Squash Tournament Committee will be held.

The Squash Tournament Committee is to hold a meeting to select the student from foreign countries to be present on the court.

The President is also giving a reception to the students from foreign countries for the week of November 20th, being received on a court.

CLASS OF 1930 TO CHOOSE PROM COMMITTEE FROM THESE NOMINEES

The following men have been nominated for the Junior Prom Committee:

SHELL FOR A SONG

SUCCESs from an unexpected quarter has come to the age-old quest of the world whole for "something for nothing." A few weeks ago we pointed out that there was something of interest in the Tech Songbooks, and a few students have rained in for that. Now in spite of the "conservation of energy" principles inculcated everlastingly in every student's life, the Concept of a Songbook is undoubtedly a great deal for practically nothing.

To approach the matter in that proverbially cold, calculating frame of mind, the f orte of the engineer, would open the floodgates to an instant financial emergency. Thus it is seen that the funds of the Tech are spent in order to provide the students with the opportunity of buying a book thru the school at a price a little lower than the retail value. Then arises the question: why not sell the book for the cost of production and have no profit? For this is the constant refrain from the students: "We don't want to make money on this; we just want a chance to buy the book." But the fact is that the profit is the most important part. If the book were sold at cost, the students would have no incentive to sell their books, and the money which is to be used for the production of the Tech's next issue would be non-existent.

Aside from the contributions to science and its general development in the Tech Songbooks, the students are given the opportunity to engage in a variety of activities. Football, baseball, basketball, and track are just a few of the sports which are offered. The students are encouraged to participate in these activities, as well as in other extracurricular activities. The students are given the opportunity to develop their talents and to make new friends. The students are also given the opportunity to contribute to the Tech's pageant, "The Lounger." This pageant is held every year and is considered to be one of the most important events of the year.

As We See the Movies

THE METROPOLITAN

Of the picture at the Metropolitan this week, we dare not say much, as we have not seen it. However, we believe that it has an ever so slight advantage over the other pictures we have seen. It is a fine picture, and the acting is excellent. We are not sure that it is worth the price, but we believe that it is. The acting is excellent, the pictures are good, and the story is interesting. We believe that it is a picture that is worth seeing.

To Mr. Arturo himself goes most of the credit for bringing about "The Metropolitan." He has a fine eye for pictures, and he knows how to pick the right actors for the right parts. He has a fine sense of direction, and he knows how to make the audience feel as if they are actually there.

There is a certain amount of apparatus in the picture which is a little too much for our taste, but we believe that it is a picture that is worth seeing. We believe that it is a picture that is worth the price, and we believe that it is a picture that is worth the price.

But the laurels go to one Professor Gill, M. I., 1941. This unassuming tech of his does not waste his time and energy in trying to duplicate the work of others. He has found his own way of doing things, and he has succeeded in making his work something more than a mere copy of what has been done before.

The picture is a fine one, and the acting is excellent. We believe that it is a picture that is worth seeing. We believe that it is a picture that is worth the price, and we believe that it is a picture that is worth the price.
Engineer Booters Lose Third Game to Worcester 2-0

By a most unexpected upset, the second team was defeated Saturday afternoon, losing to Worcester Polytechnic by the score of 2-0. The Engineers were knocked out of the tournament and were out after the first period. The Engineers played well, but failed to score. Although this loss was not unexpected the Engineers went out with good grace, and the Worcester team was the winner with a score by a small margin.

In the first period, both teams played hard, and the Engineers made several scoring attempts, but failed to score. In the second period the Worcester team took first place in 4 seconds flat with a handicap of six seconds. Grondal was placed in the second place. He and Ladd were never far apart to make the outcome of the game seem a certainty. The Engineers turned the contest in the last period. Blake took second place in 28 seconds flat, and Blakes took first in a fast time of 23.07 seconds. Blake was placed number 1 in the entire field.

In the third period, the Worcester team scored again, and the Engineers moved up a notch in the standings. They were placed in the second place, and the Worcester team was placed in the first place.

The Engineers played well, but failed to score. In the second period the Engineers were placed in the second place, and the Worcester team was placed in the first place.

Field Day Relay Teams Announced

At the end of the tournament, the following list of teams has been formed:

1. Maine Maritime
2. Columbia
3. Washington
4. Massachusetts
5. Yale

The six teams were selected by the students at that institution. The six teams are asked to leave their names at the M.I.T. A. office.

The Meet of the Season Held Saturday

Ladd, Hazeltine, Brown, McNiff, take First Places With No Handicaps

For the second time this fall, a handicap meet was held at the Eastern. Six events were held in the meet, three before handicap and three after handicap. The first event was the first heat of the 400 meter hurdles. Hazeltine won the events with small handicaps.

The first event of the afternoon was a handicap meet. Three races were run and then a final heat. In the first trial Kreuscamp took first place in 10 seconds flat with a handicap of nine seconds. Grondal was placed in the second place. He and Ladd were never far apart to make the outcome of the race seem a certainty. The Engineers turned the contest in the last period. Blake took second place in 28 seconds flat, and Blakes took first in a fast time of 23.07 seconds. Blake was placed number 1 in the entire field.

In the third period, the Worcester team scored again, and the Engineers moved up a notch in the standings. They were placed in the second place, and the Worcester team was placed in the first place.

The Engineers played well, but failed to score. In the second period the Engineers were placed in the second place, and the Worcester team was placed in the first place.

The four inch bend in a 167 foot well which was recently drilled at the University of Purdue accumulated quite unusual. As the pipe was boring into the ground the well was 22 feet from the shaft extending from the bottom to the top, the under error was serious. The result is that the entire 167 feet of twelve inch pipe is almost 22 feet long in the well. It was four inches out when plumbed, and the four inch bend was to be operated by a series of propellers placed at intervals along.

Blame On Pilots For Majority Of Aerial Fatalities

Improved Safety is Great Need In Commercial States

PROF. TAYLOR

"Most airplane fatalities are due to the pilot," said Prof. Charles F. Taylor, present head of the School of Aeronautics in the Massachusetts Institute of Technology, in a recent interview. "This is the reason that the Engineers thoroughly train students as pilots. The idea is not to make a man running for individual honors but rather for team honors. The team man has more chance to stick out even when he makes a mistake. The Engineer pilots have overcome the wrong idea of being God and they know when to back off. They have learned that in this they had been defeated in the past, but when they look in their rear view mirrors with the engineer pilots they are learning that the engineers have been brilliant in their methods of giving the team their part in the past six years.

SOCCER TEAM LOSES TO WORCESTER TECH

Freshmen Take 3-0 Defeat From Harvard Tearing Team

(Continued From Page 3) Freshmen entered the game with the Towson University, and lost a hard game the first quarter. The Towson team succeeded in putting one past Wyman on the Polytech team, as soon as the lineups of the teams were as follows:

**Field Day Banner**

The annual Field Day banner will be unveiled on Monday, October 29, at North Hall of Walker Memorial at six o'clock. Members of teams and officials are invited.

FRESHMAN NOTICE

There will be a meeting of all freshman footballers, on Tuesday, October 29, at 5:30 o'clock, in Walker Memorial, to receive the Field Day banner.

ARCHITECTURAL SOCIETY

A meeting of the Architectural Society was held in Walker Memorial on Tuesday, October 29, at 5:30 o'clock. Members of the society are invited to attend.

A. A. AWARDS

The following men will have varsity awards for the season at the A. A. office:

* Thomas A. Pearson '31
* Warren H. Harwood '31
* William F. Haid '31
* William W. McDowell '31
* John W. Coffin '31
* David W. Mott '31
* Richard W. Benedict '31
* Winfield Wexler, Jr. '31
* Ira M. Halsey '31
* Irving P. Deshautel '31
* Charles P. Bostock '31
* John H. Abbott '31
* W. H. Jr. '31
* Richard W. Coffin '31
* William G. Hall '31
* Robert E. Levy '31
* William E. Dougherty '31
* John H. Halsey '31
* Stephen G. Gardiner '31

The following men have been selected as members of the A. A. society:

**Simplex Wires and Cables**

In The Lyceum

Simplex Wires and Cables Inc. invites all its customers and all those interested in the electrical trade to attend our annual meeting to be held in the Lyceum. The meeting will be held on Thursday, November 1, at 2:30 p.m. The program will consist of an address by the President of the company, which will be followed by a discussion of the present status of the electrical industry. The meeting will be open to the public, and all are invited to attend.

Handicap Meet Held on Saturday

Hammer Throw - Scratch

(Hannie)

To Height of 12 ft. 3 in.

(Continued From Page 3) The men who were only six inches over the ground were not allowed to compete, but were allowed to scratch. The men who had six inches in excess of the height set were allowed to compete. The time for the distance was 3 minutes 30 seconds.

Brown Wins Javelin

In the javelin throw, Brown scored, throwing from scratch, took first place with a distance of 186 feet. His technique was perfect, and he was the only man to start from scratch. He was the only man to start from scratch. The time for the distance was 3 minutes 30 seconds.

In the long jump, Brown scored, throwing from scratch, took first place with a distance of 186 feet. His technique was perfect, and he was the only man to start from scratch. He was the only man to start from scratch. The time for the distance was 3 minutes 30 seconds.
