First Rehearsal
Of Cast Of Tech Show On Tuesday

All Men Who Have Tried Out
Or Any Desiring To Do So
Must Be Present

Tech Show will hold its first full rehearsal tomorrow afternoon in the Walker Theatre of Walker Hall at 4 o'clock. At this time all the men who have studied or are studying for the show should be present. Any men who as yet have not had the advantage of studying the script should also be at the rehearsal.

As Tech Show this year contains only a short scene that does not open into a full-length part, the parts to be taken by the players can be learned in a few days. It is advisable that the men who are interested in the show should study the script immediately and take part in the rehearsal. The coaching given by Professor L. C. downtown will be of greatest assistance to any who desire to study the script.

Other musical numbers will also be taught at the rehearsal. Particular attention will be given to the study of parts and to the way in which music should be written. The show will begin at the time of the regular opening of the show and will run until 7 o'clock. The rehearsal will be held in the Walker Theatre.

MEN PLEDGED TO MILITARY CLUB

New Members of Scabbard and Blade at Framingham

Purposing are the men who werehipped during the intermission at the Mat! the Pageant to be shown at the Longwood Towers Friday at notification of theoretical relations to the Royal Naval Society. The chairman of the committee is Maj. E. W. B. Walker, president of the university. The meeting of the committee was held at the Walker Memorial. There are still plenty of open seats available to those who wish to attend.

With this thought in mind, let the Athletic Association weigh its affirmative desire in this matter.

For no one wishes to start school oll time. Why shouldn’t they want an extra day after the New Year festivities begin. Even those who live nearby must forf eit its affirmative desire in this matter.

POLIO CLUB STARTS CLASSES IN RIDING

Instruction Will Be Given at Commonwealth Armoury

The Polio Club will start classes in riding instruction at Commonwealth Armoury. The Polio Club is working with the riding school to provide instruction in riding for those who are interested.

AUTUMN INTERCLASS MEET IS CANCELLED

Due to the recent rainstorm, the Polio Club meet was cancelled last Saturday afternoon by the University of Maine. The Polio Club hopes to reschedule the meet for a future date.

donnie

We are a group of students who are interested in riding and would like to receive instruction in riding. The Polio Club hopes to start classes in riding instruction at Commonwealth Armoury if the weather permits.

Can He Keep Them All Going at Once?

Bunyan’s Burden

Bunyan’s Burden is a popular metaphor used to describe the weight of responsibilities that fall on individuals.

The burden of responsibilities can be overwhelming, but it is important to remember that we all have a duty to fulfill our obligations.

CHESS CLUB

Well at last the party is over, and what a party it was! The music added to the success of the Tech show. The students got there early and were waiting in the lobby before the time was up. We had a wonderful time and everyone was so happy to be there. We had a lot of fun playing chess and the atmosphere was electric. We played until late into the night and everyone had a great time. We hope to have more parties like this in the future.

The structure of the game

The Allies reigned supreme on the board, as they always do in these tournaments. The black army fought with great courage and skill, but it was no match for the reds. The reds were able to control the center of the board and gain the upper hand. The black pieces were unable to create any real threats and the reds were able to bring them all to a successful conclusion. The game ended with the reds winning a clear and decisive victory.

The rules of the game

The standard rules of chess were followed, with no alterations or exceptions. The players were required to move their pieces according to the established rules and regulations. No tricks or underhanded moves were allowed.

The outcome of the game

The reds emerged victorious, demonstrating their skill and experience. The black pieces were unable to withstand the pressure and were outplayed by the reds' superior strategy.

The next steps

The parties were adjourned with the reds having a slight lead, but the game was far from over. The players will continue to battle it out in the next round of the tournament, and the outcome remains uncertain. The audience was thrilled by the high level of play and the intense competition.

The conclusions

The chess community was pleased with the quality of play and the competitive spirit displayed by the participants. The event was a success and served as a testament to the strength and depth of the chess community at the university.

The impact

The tournament had a positive impact on the chess community, providing a platform for players to showcase their skills and engage in healthy competition.

The future of the game

The chess community is looking forward to the next round of the tournament and the promise of exciting matches. The players will continue to hone their skills and prepare for the challenges ahead.

The chess community

The chess community was grateful for the opportunity to participate in such a high level tournament. They were encourages by the experience and the desire to improve and grow.
