MAJOR SOCIAL EVENT OF YEAR FEATURES REISMAN IN PROM AT THE STATLER

CORPORATION TÉA DANCE COMES AS CLIMAX TO PROM

Reisman's Orchestra Will Play at Annual Reception to Junior Class

Coming as a climax to the Junior Prom, the annual Corporation Tea Dance will be held at Walter Memorial on Friday, February 23 from 3 until 6 o'clock. This reception, as usual, will be held in a room different from the regular current season. It will be situated at a four-page spread of activity around the Institute, and pictures of the pages will be presented in place of the regular front page. A picture of the Prom held at 11:30 Saturday night from the windows of the Statler Hotel will be on the second flf

CLUBS GIVE RADIO CONCERT SATURDAY

To Broadcast One Hour Program of Music of Off to College

Radio enthusiasts of Boston and vicinity will have an opportunity to listen to a one hour broadcast program in Boston on Saturday evening, February 23, at 10 o'clock when the Technology's Glee Club, under the direction of Charles C. Greene Jr., Unc., "Action" (played at the Statler Hotel last Monday night) will appear. The broadcast will be heard over the station WMCA, and will sell THE TECH in the corridors of the Institute and will be presented in place of the regular front page.

BRIGHTENING PROSPECTS

If no conclusions whatever had been reached at the meeting Monday afternoon of the Liberal Club, thinking students and friends of Harvard, the whole business would have been discarded.

If there had only been an informal discussion among the students themselves, it is possible that the real interest in Technology was swelling to center on "Engineering Methods," but—such a limited preceding was not too much.

This group listened attentively when Dr. L. C. Littlefield '30, the new head of the Mechanical Engineering Department, spoke.

He said a student could attend classes in a subject after passing a preliminary test, but that the student might be discouraged. If there had only been an informal discussion among the students themselves, it is possible that the real interest in Technology was swelling to center on "Engineering Methods," but—such a limited preceding was not too much.

Sixty two men were necessary to frame up a suitable excuse.

"It was with increasing alarm that the Society for the Promotion of Engineering Education has at last been forced to recognize the existence of the economies of the Educational System. This fact is going to be known as the 'Tunnel Effect'." Prof. Barker, Keyes, and F. H. Shrewsbery, of Harvard, brought the roll call safely in their proper places, and many others were deprived of their classes to seem less vital and less interested in their classes.

"A result is being a smoking trick (The Loomer himself was a heavy smoker) and a way of smoking without yield to the usual tobacco. It takes about eight hours to smoke two cigarettes. It looks about one-third the size of a regular cigarette, but takes a more smooth and regular firing.

SACRIFICE

He was a freshman. One of those who had assumed his class and grades during the Engineering Department. It was a stormy period for him. He had learned to be disciplined.

His studies demanded much time and effort. He had stayed home and studied, often to the detriment of his health. He had been forced to cut down his hours of study, but he had tried to keep up with the class as well as possible.

"We are now at the stage where the隧道 effect is most prevalent. In its most obvious form, the tunnel effect is observed in the formation of a tunnel in the earth's crust. The tunnel is caused by the movement of large masses of underground water, which erode and erode until a passage is formed."

This explanation is used by many here who have been interested in the subject.

BOXERS MEET NEW HAMPSHIRE
Cagemen Will Compete With Maine and Aggies

Varsity and Yearling Bag
Punchers Meet Wild Cats
Tonight in Hangar at 7:30

Tonight the Engineers meet the New Hampshire Wildcates in the Hangar at 7:30 o'clock in the first of a series of games to be played against the New Hampshire team. The Engineers have had several meeting with the team from the New Hampshire state university, such as in the two-night series of meetings at New Hampshire University and at the University of Pennsylvania, each team capturing the other last year at New Hampshire. The Engineers have won the May Apple of the last three seasons, and are expected to defeat their opponent tonight. The Engineers have won the May Apple three of the last four years, and have had several victories over the New Hampshire team, including a 14-10 win over them last year.

Gym Team Starts Season with Even Marks
Two Weekend Games Are Scheduled for Varsity, Quintet in Hangar Gym

With a determination to make up for the defeat that Yale handed them, the Cardinal and Gray basketball team meets the University of Maine and the Massachusetts Agricultural College in the Hangar gym on Thursday and Friday nights respectively. Both Maine and St. C. are supposed to have strong teams, with the Engineers having the slight edge over the Maine woodsmen.

During the past few days the Engineers have had several visits from their opponents and are looking good. B. A. Allen is making shots from all parts of the floor. All of the team members are eager to make up for the Yale defeat and as a result are working pretty hard.

Aggies Have Strong Team
Of the two teams that the Engineers meet this week, the Maine Aggies are to be by far the strongest team. They succeeded in defeating Harvard (12-4) in the first week, and since then have been one of the outstanding teams in New England. The team is considered a front-running team in the New England conference, and the Engineers will be required to play an exciting game against them.

Frost Baskets
Down Rivers 43-18
Carlson and Johnson Star For Cardinal and Grey Team

Continuing their winning streak, the Engineers defeated the Bowdoin College team by a score of 43-18. The team was led by Carlson and Johnson, who scored 26 and 17 points respectively. The game was played in the hangar gym and was a close contest throughout. The Engineers emerged victorious, and the next game is scheduled for Saturday, with the Engineers hosting Bates College.

The student body at the University of Maine and the Massachusetts Agricultural College is expected to field strong teams this year, and the Engineers will have their work cut out for them.

Boys meet New Hampshires in hangar tonight for annual meet with the Wildcates. New Hampshires have defeated the Engineers the last two games by scores of 14-10 and 13-12 respectively.

Tuesday's game is expected to be a close contest, with both teams showing a good deal of enthusiasm.
NOTICES and ANNOUNCEMENTS
From the Faculty
Lectures by
PROFESSOR REINHOLD RUDENBERG
Chief Electrical Engineer of the Siemens-Schuckert Works, Berlin on
Earth-Currents and Interference
Monday, February 25, 3 P.M.
Room 10-275
Travelling Waves on Transmission Networks
Tuesday, February 26, 3 P.M.
Room 10-275
Open to all students and instructing staff
CALENDAR
Wednesday, February 20
7:30—Boxing meet at New Haven, Hanger Gym.
Friday, February 22
1:00—All Senior nominations due.
7:30—Basketball team, players E. of Maine, Hanger Gym.
9:00—Tech Show at Electric Fence Finance.
10:30—Senior Tea at Hotel Stratton.
10:00—12:00—Corporation Tax Day, Walker Memorial Library.
12:00—Luncheon for Varsity and Freshman lacrosse.
February 23
8:00—Gym team leaves for Penn in Walker Gym.
February 24
12:00—Module readings for Freshman and Sophomores, Walker Memorial Library.
February 25
8:00—Corporation XF. and Tech Show office, Walker Grill.
UNDERTAKEN
NOTICE
There are still a number of tickets on the same events for the Tech Show. The opportunity for a number of valuable meals in the Tech Show may get something to be interesting and helpful. Men who are considering taking some sport for P. E. will find that the opportunity for the Tech team to play will be the same. The Tech team is interested in making the best of the opportunity.
February 21
11:00 a.m.—In the office any afternoon.
The attention of students who are interested in participating in the Tech Show will be held in the office any afternoon.
T.C.A. PREPARES FOR COLLEGE MEETING
300 Representatives Expected at Mid-Winter Conference
The Eastern New England Student Conference will hold its annual meeting at the Mansion House in Springfield, Mass. on March 4. This is the fourth year that a mid-winter gathering will be held and the colleges of Eastern New England will have the opportunity of sending more representatives to this conference.
Dr. Charles G. Wille of Chicago, president of the New England Student Federation, will be the speaker of the evening in the Mansion House. The conference will hold its annual meeting on March 4. During the discussion many important questions will be raised on the agenda, including the future of the conference, the constitution and the rules of the conference.
The discussion continues even after the business meeting. The Eastern New England Student Conference has arranged the program for this year.
Expenses for the trip are about $9 and the opportunity to pay for a few more meals in the conference is a great improvement in the annual meeting of the conference.
"The examinations are formidable to the even the best prepared, for the prepared meal may not be the wisest man can answer."—Colossus.
