It is interesting to note that the Tech team's top three finishes were under 3:30 this year. Gilman took 3rd place with a time of 3:16, the same time that gave him 5th place last year, and just a little more than the 3:20 mark. McKay took 1st place with a time of 2:57, and finished under the Tech record of the past years.

This year the game will be played at the Hangar, and it is expected to be a very fast game. The Tech team will be out of the game after this, and will not be seen again until the next year.

Clearing Hurdle

The clearing hurdle is one of the most difficult obstacles in the Technology Freshman Fifth Meet. It is a test of the agility of the runner, and requires a good deal of practice to master.

The clearing hurdle is a fence, which is used to clear the runner's way. The runner must jump over the fence, and then jump back over it again. The runner must clear both hurdles in a single bound, and then run around the track.

The clearing hurdle is a difficult obstacle, but it is not impossible to master. A runner must practice hard, and must be able to jump over the fence with ease. The runner must also be able to clear the second hurdle in a single bound, and must be able to run around the track with ease.
