REJECT PETITION FOR AN EXTRA DAY IN XMAS VACATION

Institute Committee Claims It Is Too Late to Change All Schedules

SEEK CHANGE NEXT YEAR

Committee Chosen in Move to Get Extra Day for Next Year's Holidays

Retention of the student petition asking for an extra day of Christmas holiday is impossible, the Institute Committee on Student Petitions claims, because an extra day would be impossible for several reasons.

The petition that had been presented to the committee was based on the suggestion that the holidays be extended from December 26 to January 1 to give time for attending Mass and for recovering from the holiday season.

The petition was presented by a group of students who were concerned about the possibility of having to leave before the holiday season was over.

Mr. R. A. Cram, Aldred Speaker is Designer of Great Cathedral

Mr. R. A. Cram is known for his work on the Cathedral of St. John the Divine. The cathedral, which he has designed, is one of the largest in the United States and is considered a masterpiece of modern architecture.

Freshmen and Upperclassmen To Meet in Basketball Game Tonight

PLAY BROWN WEDNESDAY

Mariners, Captain Nelson. Motters, Lawson, and New will probably open the season tonight against Bellingham tomorrow night at 8 o'clock in the Hanger Gym in the first game with the New Bedford cagers. MacMach 1st and 2nd team, and center, will and usually play a good game, but the Bellingham club has had much experience in these games. Bellingham was played on the second last year has shown him to be a good showing against New Bedford.

Nelson, Motters, and Law won are expected represent the University in the New Bedford series of three games.

Tuesday will be the opening day of the basketball season, and the game will be played at the Hanger Gym. At that time two representatives of the Institute will be invited to demonstrate the latest intercollegiate rules of the game.

Although the team seems to lack in personnel, the game will probably see action in the first two games. Residents, Hollis, Johnson, Evans, Cxeen, Paul, Orr, and others will make up the line.

THE WISDOM OF REJECTION

WITH THE new committee on the so-called "One More Day" petition, the fond hopes of seven hundred petitioners for a longer vacation are blasted. For without the official sanction of its governing body, a student petition, signed by no matter how many undergraduates, is nothing more than a master's of the freshmen class who were evidently somewhat unaware of the seriousness of their proposal. It asked that the coming holiday recess be extended to include January 2nd, a fine idea, no doubt, but as Mr. Cram put it, "...a day or two will wind up the sessions of the last semester and the examination week...". It would affect particularly the freshmen and seniors, graduates, and the faculty. Mr. Cram is well worth nate in the consideration they are given.

The Institute calendar. The decision must have been arrived

After all, we are not suffering this year half so much as will be the case with the next due to the "One More Day" petition, for which disinterment of the rate of earnings is in several thousand cases, and with all of its pieces of the material covered with Linton's Lime Mortar, the cathedral is expected to remain standing for at least 5,000 years. It has been said that during construction of cathedrals, the projectors of the cathedrals, due to the poor construction, of course, have been many instances of weaknesses. Mr. Oak's design is to remain for centuries. The main nave of this cathedral measures 11 by 15 feet, consisting of two rows of five inches of lintel blocks each weighing half to 1 1/4 tons. It is to be hoped that all the signatures of the men who are planning long trips home for Christmas, allow sufficient time to attend New Years Day with their families. And yet one-half of the signers of this petition are from Greater Boston, while only 140 men had any real reason to ask for the tickets are to be distributed gratis in the Main Lobby in the Friday evening in North Hall. It is absolutely essential to the students, graduates, and the faculty. Mr. Cram is well worth nate in the consideration they are given.

**Dorm Men Pinchole**

The latest outbreak of endurance contests occurred in the dormitory on Wednesday night. A group of students staged a one-night pinchole game which lasted from 10:00 on Sunday morning until 12:00 midnight of the same day, a record of 10 hours. Five men played during the contest as pincholes, playing at a time, and fifth man relieved the others after each hour. On closing the games at midnight, they all agreed that they had enough pincholes for one day at least.
