

PAY DR. STRATTON LAST TRIBUTE

RECEIVE MESSAGES OF CONDOLENCE FROM ALL PARTS OF THE NATION

PRESIDENT HOOVER EXTENDS PERSONAL NOTE OF SYMPATHY

Alumni and Dignitaries Join
In Many Expressions
Of Sorrow

MRS. EDISON WIRES NOTE

Hundreds of messages of condolence from graduates of the Institute all over the country and men prominent in the affairs of the nation have been received by the Institute. President and Mrs. Herbert Hoover, personal friends of Dr. Stratton's for many years, immediately on receiving word of his untimely death, sent a personal message of sympathy.

From Mrs. Thomas A. Edison the following message was received by the Stratton family: "We send our deepest and most heartfelt sympathy and we share in your sorrow. We take comfort in the fact that Dr. Stratton's influence will always live."

Many Others Express Sympathy To Family

Among hundreds of others, words of condolence were received from the following men of eminence: Gerard Swope '95, Member of the Corporation and President of the General Electric Company; Godfrey L. Cabot '81, Member of the Corporation; John E. Aldred, Financier and Member of the Corporation; John R. Freeman '76, Member of the Corporation; Frank B. Jewett '03, Member of the Corporation and head of the Bell Telephone

(Continued on Page Four)

Institute Schedule

11.00 a.m. All class exercises will be suspended for the remainder of the day.

12.00 m. All members of Faculty and Instructing Staff will assemble in 10-250 for memorial services to pay tribute to the late Dr. Stratton. At this hour members of the Faculty and Instructing Staff are requested to draw their shades.

1.30 p.m. Members of the Institute Committee will gather in the West Lounge of Walker Memorial, for the purpose of attending the funeral services for Dr. Stratton at Trinity Church this afternoon.

S. A. E. MEMBERSHIP DRIVE IS LAUNCHED

Enrollment Expected to Exceed
That of Last Season

Trips to various factories, including a visit to the assembly plant of the Ford Motor Company at Somerville, will be features of the Society of Automotive Engineers' season.

Students should have little difficulty in recalling the events that made last year quite successful. The meetings on free wheeling, automatic manufacture of auto frames, and many others, were of especial interest. The annual membership campaign is now on, and it is expected that last year's enrollment will be exceeded.

Dues of the Society are \$4.00 a year, including the fees for student enrollment in the national organization and a subscription to the S.A.E. Journal, which is issued monthly.

BOARD DECIDES TO DISCONTINUE TECH SHOW THIS SEASON

Deficit and Lack of Student
Support and Interest
Forces Action

REVIVAL IS DOUBTED

Institute Owned Auditorium to
Cut Overhead Costs Is
Only Possibility

A faded glory of a bygone age, Tech Show, the Institute theatrical company which played to the plaudits of Technology men since the Gay Nineties, mournfully passed out of existence at the Tech Show Board meeting yesterday afternoon.

Immediately following the meeting, William D. Corder '32, who was to have been general manager of this year's production, issued the following statement exclusively to THE TECH: "It was decided at a meeting of Tech Show on October 20 not to present any production this year. This decision was based on the apparent lack of interest and support displayed by the student body during the last few years."

Advisory Board Present

The meeting, which took place in the office of Deibert L. Rhind, assistant bursar, was attended by the Senior Board of Tech Show and the Advisory Board, which consists of general managers of previous Tech Shows.

The action is said to have been brought primarily by the comparatively large deficit of last year's show. The activity has not yet handed in its official financial statement to the budget committee of the Institute Committee, which is long overdue and was condemned on that account at a recent Institute Committee meeting. Conservative estimates, however, place the total indebtedness of Tech Show at about \$1500.

Must Be Approved By Institute Committee

The decision has yet to be passed by the Institute Committee before it becomes official. It will probably be brought before the body at its next session. There is apparently no reason to believe that the Institute Committee will fail to approve the action.

In a special interview late last evening, Corder, this year's general manager, stated that he believed there would be no possibility of reviving Tech Show for the next few years. "Until the Institute builds an auditorium of its own, which Tech Show might use and thereby eliminate its greatest expense, there is very little chance of its revival," he said.

The show by this action has put down all rumors and speculation which has been surrounding its future since the opening of school. A smoker for new candidates announced during the first few days of school indicated that the Show was planning to continue. However this affair was suddenly cancelled, without reason given, just a few days before it was to be held. Since then, no statement to indicate future plans had been made by the management until last night's statement.

Electrical Society To Hear Prominent Business Executive

Meeting Planned to Aid New
Men In Choosing Courses
At Technology

Gen. R. I. Rees, assistant vice-president of the American Telephone and Telegraph Company, will address the members and guests of the student branch of the American Society of Electrical Engineers at their first dinner meeting of the year. The address will be held in Room 10-250 at 5.15 o'clock. After the speech a roast duck dinner will be served in the North Hall of Walker Memorial.

HOLD LAST BOSTON RITES FOR MOURNED LEADER IN TRINITY CHURCH TODAY

Funeral Schedule

The funeral of Dr. Samuel Wesley Stratton will be held in Trinity Church, Copley Square, this afternoon at 2.30 o'clock. The officiating clergymen will be Bishop William A. Lawrence, Rev. Arthur Lee Kinsolving, Rector of Trinity, Rev. J. S. Moses, Rector of the Church of the Redeemer.

Sections of the church will be reserved for members of the Faculty, the Corporation, representatives of the students, the New England colleges, the City of Boston, City of Cambridge, State of Massachusetts, and members of the student body.

The body of Dr. Stratton will lie in state from 3.30 until 5 o'clock in the Church, when an opportunity will be given to pay final respects to the departed Chairman.

FRESHMAN PRACTICE IN REGULAR SHELLS

Get New Experience in Rowing
Lighter Racing Boats

Some of the freshman crew candidates are now experiencing the real thing in rowing. For several days two crews made up of Assistant Coach A) Dunning's best pupils have been practising in the regulation racing shells. These two shells account for only about one-third of the first-year men who are trying to win a position on the crew which will race against the Sophomores on Field Day.

Big Fleet

Every morning the Technology fleet is quite a sizeable one. The major part of it consists of six boats and one barge filled with freshmen. Besides these there is one varsity shell, one boat with men in the 150-pound class, one jayvee crew, and one Sophomore crew. All these boats go out each day and present a formidable array. Accompanying these there are also three launches from which the coaches direct the maneuvers.

PROMINENT ALUMNI CIVIC DIGNITARIES WILL BE PRESENT

Members of Student Body Are
Cordially Invited to
Attend Services

BODY GOES TO PASADENA

Members of the Faculty, the Corporation and student body, prominent alumni, and civic dignitaries will gather to pay their last respects to the late Chairman of the Corporation this afternoon at the funeral of Dr. Samuel Wesley Stratton in Trinity Church. Services will begin at 2.30 o'clock. His body will lie in state in the Church from 3.30 until 5 o'clock, when friends of the former Institute Head will have their final opportunity to view the great physicist.

Dr. Stratton's sisters, Mrs. C. S. Newcomb and Miss M. E. Stratton, Pasadena, and Mrs. G. M. Hobbs of Chicago, arrived yesterday and will accompany the body back to California where it will be buried in the family plot.

Officiating Clergymen

Clergymen of Boston who will officiate at the services are Bishop William A. Lawrence, Rev. Arthur Lee Kinsolving, Rector of Trinity, and Rev. J. S. Moses, Rector of the Church of the Redeemer.

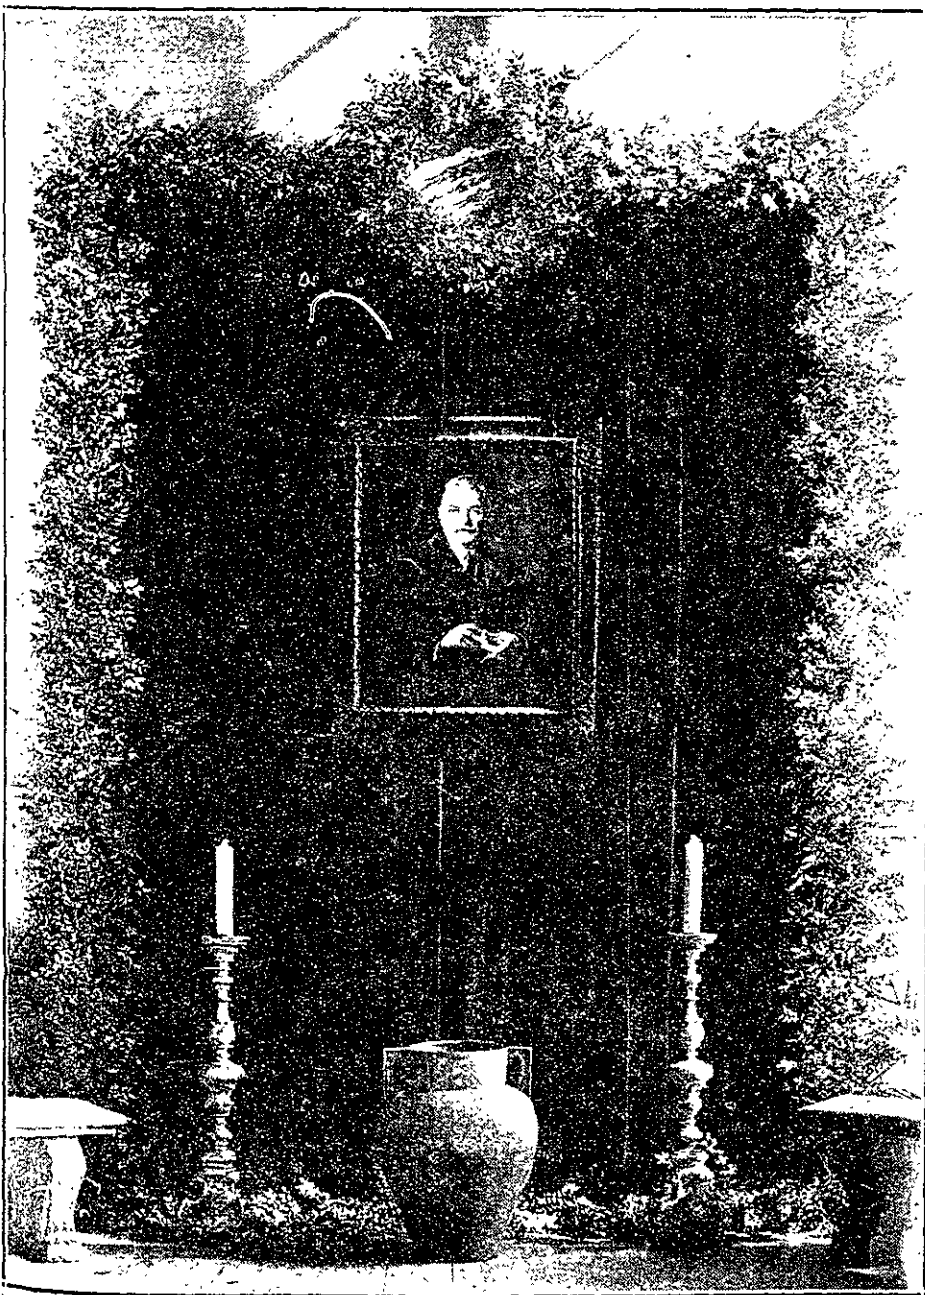

Sections of the Church will be reserved for members of the Faculty, the Corporation, representatives of the students, the New England colleges, the City of Boston, City of Cambridge, State of Massachusetts, and societies and organizations. Students of the Institute are cordially invited to the services. This invitation is also extended to employees of Technology.

Honorary Pallbearers

The honorary pallbearers at the funeral of Dr. Stratton will be Mr. Francis R. Hart '89, Mr. Charles T. Main '76, Mr. Everett Morss '85, Mr. Gerard Swope '95, Dr. Elihu Thomson, Mr. Edwin S. Web-

(Continued on Page Two)

His Work is Done

A TRIBUTE

THE undergraduates of the Massachusetts Institute of Technology have suffered an irreparable loss in the death of their esteemed Chairman and former President, Dr. Samuel Wesley Stratton. During his entire career at the Institute he showed an unflagging interest in the affairs of the student body, and his official responsibilities were never too heavy nor the business of his office too pressing to prevent him from receiving anyone of us who sought his help, advice or counsel.

It was his custom to entertain in his home each year our student governing body, the Institute Committee, as well as the entire freshman class, the occupants of the dormitories, the foreign student group, and many other organizations. Indeed, few were denied the opportunity of meeting him informally.

Because of his enthusiastic support and sympathetic cooperation, our undergraduate activities prospered under his regime as never before, and our extra-curricular life was deeply enriched. In his official capacity as President of the Institute he acted as friend and counselor of the undergraduate body in a manner that commanded the admiration and won the hearts of all those who came in contact with him.

I speak for the entire student body in expressing the sorrow that prevails throughout our ranks.

(Signed) DONALD B. GILMAN, President,
Institute Committee of the Massachusetts Institute of Technology
Undergraduate Association

YELLOW JOURNALISM

WHILE it has not been the policy of this paper to enter into the never-ceasing controversy over intercollegiate football, we feel it our duty to rise to the occasion today in answer to an editorial appearing in last evening's *Boston Traveler*, vulgarly commenting upon another editorial appearing in Monday's *Harvard Crimson*.

The *Crimson* editorial is aimed against the Harvard-Army game, which, it contests, should be dropped from the schedule. The reasons stated are fundamentally sound, the primary argument being that the question of eligibility puts West Point to such an advantage as to make the contest decidedly overbalanced in its favor. In addition, it is asserted, there is no common interest between the two schools, no median meeting-place for such rivalry.

Here is a cry against the ever-increasing tendency of football to become the bonanza of sports, and of school authorities to plan schedules for no apparent reason other than to bring the maximum of financial return. Football is becoming a contest between capitalists and money-grabbers, and any plea for "sport for the love of sport" should not be voiced down.

The *Boston Traveler*, in its typical crude editorial manner, styled to appeal to the masses, decries this *Crimson* agitation, and dubs it nothing more than the desire of youth "to stir up things." Not content with cheapening the publication's arguments, the article continues to ridicule the student newspaper itself with entire lack of taste and ethics, apparently for no further reason than to destroy for love of destruction.

We do not feel competent to support to any great degree the arguments of our contemporary student publication, but it becomes our obligation to bring to attention their unjust rebut at the hands of the *Boston Traveler*. Newspaper ethics, as intangible as they necessarily are, call for a considerable respect for others. We believe the *Traveler's* action entirely out of order, utterly unjust, and wholly contemptible.

IS IT WORTH WHILE?

YOUNG graduates of technical schools seeing men without their training obtaining positions with higher salaries than their own may question the value of the training they have received. To obtain authentic information on the incomes of graduates and non-graduates engaged in engineering work, the American Society of Mechanical Engineers conducted a survey of the 1930 incomes of nine thousand mechanical engineers engaged in many fields.

The tabulation of incomes shows that between the ages of 25 and 35 the graduate engineer earns \$500 more a year than the non-graduate. The difference increases with age, and between the ages of 45 and 55 the college man earns an average of \$1000 more per year. In this class there are, however, certain college men who do not come up to the average of their technically-educated colleagues. After 55, the survey shows that the men who took only the regular engineering courses forge ahead of those who engaged in graduate study.

This last fact the committee making the survey attributes to the fact that men engaging in graduate study and research tend to stay in the strictly research positions, while the others tend to become executives. The exception in the 45-55 class noted above is the man, who in the words of the committee, does not "Combine with technical skill a generous capacity to deal with and manage men and affairs." In other words, the man with executive ability forges ahead during both the 45-55 period and the period after that time. This would indicate that undergraduates should make an effort to develop what leadership they possess, if in later years they wish to be among those receiving the higher salaries.

There is danger, however, that a higher income may be accepted as an infallible symbol of greater success. Far more than mere monetary gain enters into any calculation of the success a man achieves, and to a great extent the answer lies within himself. Associations made, enjoyment of work, and a feeling of accomplishment weigh heavy in the balance of success. If a technical education enables one to obtain these things it has been worth the price paid, regardless of the income it earns.

It seems a strange trick of destiny that Technology's leaders should always die in harness. With gigantic capacities for work, and abilities sharpened and tested by years of active and valuable service, they are arrested in their work and stilled by the swiftly-moving hand of death. The last call which every man must answer and must answer alone and unaided, found Dr. Stratton at the threshold of his new and greater duties as Chairman of the Corporation.

William Barton Rogers, our first president, died addressing the graduating class of '82. Gen. Francis Amasa Walker, his successor, died in office in 1897. Dr. Richard C. MacLaurin was elected president in 1908 and died, still at his duties, in 1920. With these men of the past, we now place Dr. Samuel Wesley Stratton. What General Walker stated of Rogers may be applied as aptly to the General himself, to Dr. MacLaurin, and to Dr. Stratton: "All his life he had borne himself faithfully and heroically, and he died in harness, at his post, and in the very part and act of public duty."

This genial, quiet, and capable gentleman, who directed the destinies of the Institute for the last decade, takes his place with the leaders of old. Technology, founded by Rogers; strengthened by Walker; enriched by MacLaurin; under Dr. Stratton burst forth into the fullness of its powers, until today its influence is heavy upon the scientific world.

Ever it seems the Lounger's part to play the critic, to search out the cracks and faults in our smug complacency and to hold them up to the light with a coating of extravagant jesting. This sad occasion of Technology's loss is no exception, and exhibits one of the greatest of our faults—that of cold inhumanity. Not one of the instructors in all the Lounger's classes took even a brief thirty seconds to render a few words on the Doctor's death and Technology's loss. Not one! We are engrossed too much in our formulae, machines and slip sticks; the human side is stifled, perhaps even deliberately neglected. As the Lounger has emphasized repeatedly, it is not the engineer, but the man who has made the Institute great; the man, with his sensibilities, shadings of faith and cowardice, his character, his soul, and not his steam tables, entropy diagrams, and stray power losses. Our science is too much with us! . . .

The Doctor has gone on, but Technology remains as great as ever. There continues the intangible influence, unmeasurable, unseen, but real and vital, of the lost leader's spirit. It is that which has made Technology great; it is that which will keep Technology great. Other men will come from whom the Institute will demand the same faith and courage, strength and hope, yes, even life itself. But while we wait, let us mourn the passing of a man who was one of us.

Universities Show Higher Enrollment in Business Studies

Present Depression Cuts Down Enrollment in Cultural Arts Courses

College youth does not seem to think that the present depression is in any way permanent. Statistics compiled from this year's enrollment at various schools and colleges show a definite trend toward business administration courses. Evidently, the college student is planning to be ready to grasp the wheels of industry when business does begin to hit on all four again. Vocational studies and those tending to fit the student for a certain job also showed an increase. The strictly cultural arts and sciences appeared to be losing ground along with highly-specialized studies.

The course in Engineering and Business Administration at Technology showed an increase of 34 over the previous year's enrollment. The Harvard Business School enrolled 20 more students on the first day of registration than were registered at the same time last year. Harvard's Theological School lost 25, or more than 38 per cent of its 1930 enrollment.

Educational Courses Show Gain

Teacher's colleges were well attended and educational courses in general attracted more students. With few exceptions, the heads of universities attributed changes, whether loss or gain, in total registration to economic conditions. The Rev. Patrick J. Mahan, president of Creighton University in Omaha, said increased enrollment there was due to the fact "that competition in the business world is keen, and the unskilled, uneducated man faces almost insurmountable obstacles."

On the whole, economic conditions caused no marked change in the total enrollment of the hundred odd colleges surveyed. Students tend this year to enroll at nearby colleges rather than travel to other cities. Some colleges allow payment of tuition in produce this year. More than 2000 of the 6600 students at the University of Pennsylvania planned to work their way through, and a third of the applicants at the University of Oklahoma failed to appear on registration day because they lacked funds.

HOLD FUNERAL OF DR. STRATTON AT TRINITY

(Continued from Page One)

ster '88, and Pres. Karl T. Compton, all of whom are members of the Executive Committee of the Corporation of Technology; Mr. J. E. Aldred, Mr. F. Wright Fabyan, Mr. William S. Forbes '93, Mr. John R. Freeman '76, Pres. A. Lawrence Lowell of Harvard University, Mr. Charles A. Stone '88, all members of the Corporation; Capt. W. S. Anderson '23, Dr. George K. Burgess '96, Director of the Bureau of Standards; Mr. Bradley Dewey '09, president of the Technology Alumni Association; Professors J. R. Jack, S. C. Prescott '94 and F. S. Woods, Chairman of the Faculty; Mr. DeWitt C. DeWolf, representing Governor Ely; Gen. Allston

Hamilton, War Department; and Admiral L. M. Nulton, Navy Department.

The active pallbearers at the funeral of Dr. Stratton will be twelve prominent undergraduates. They are Donald B. Gilman, president of the Class of 1932; Clarence M. Chase '32, general manager of The Tech Engineering News; T. B. Rhines '32, president of the M. I. T. Athletic Association; H. D. Humphries, president of the Sophomore Class; R. G. McKay, president of the Junior Class; L. P. Leino '32, chairman of the Dormitory Committee; F. M. Moss '32, president of the Architectural Student Council; R. R. Hall '32, president of the Technology Christian Association; W. H. Barker '32, president of the Interfraternity Council; C. M. Thayer '32, general manager of THE TECH; J. E. Harper '32, general manager of Voo Doo; and T. R. Heim '32, general manager of Technique.

The chief usher will be Professor Ralph G. Hudson '07. Faculty ushers who will aid him are Professors George E. Russell '00, Miles S. Sherrill '99, Robert S. Williams '02, Donald S. Tucker, John W. M. Bunker, George Owen '94, Gordon B. Wilkes '11, Murray P. Horwood '16, Fairfield E. Raymond '21 and Mr. J. Rhyne Killian '26. Two student ushers will be John M. Kimble '32 and Carroll L. Wilson '32.

Pi Delta Epsilon Considers Holding December Banquet

Will Investigate Possibility of Inviting Delegates from New England

Two business matters of importance were transacted at the meeting of Pi Delta Epsilon held yesterday afternoon. A committee was appointed to investigate the possibilities of holding a banquet meeting in December to which other New England chapters of the national journalistic fraternity would be invited to send delegates, and a decision was reached to devote each of the next four meetings to impartial discussions of the various Technology publications represented in the group.

After a suggestion by James R. Killian, Jr. '26, editor of the Technology Review, the committee, consisting of Addison S. Ellis '32, editor of THE TECH, Theodore R. Heim '32, general manager of Technique, and Frederick M. Moss '32, was appointed. This committee is to report at the next meeting which will be held November 3.

To Discuss Publications

At this meeting it was also decided that the next four meetings of the group will be devoted to discussions of the four publications whose members make up the Technology chapter of the fraternity. Tech Engineering News will be the subject of discussion at the next meeting. It is the purpose of these discussions to give the men responsible for the publications the views of outsiders and the help of any suggestions that may be made.

The sequence in which the other publications will be discussed was not announced, but Technique, Voo Doo, and THE TECH will each be the subject of one meeting.

SQUASH TEAM COACH SPEAKS TO FRESHMEN

Squash Worthy As Substitute For Physical Training

At a meeting held Tuesday night at 5 o'clock in Room 10-267, Coach Jack Summers of the squash team urged all freshmen to come out for the team and offer squash as a substitute for Physical Training. Mr. Summers also stressed the fact that squash is a game which can be played in one's later life.

Free coaching is offered to the seven top men; but even this method is fairer than the one offered at Harvard, where all the candidates are required to pay for the use of the squash courts and also for instruction in learning the game. Even though the candidates are required to pay for their recreation, the Harvard recruit squad is composed of more than five hundred men.

If any men have had any experience in the art of squash playing and would like to join the squad, they should sign up before Friday at noon in the track house. Coach Summers will produce from any candidate showing any ability, a Division A man, and he will arrange games for the freshman team with some of the better prep schools and with freshman teams of other colleges. Men that make the squad will receive class numerals.

TENNIS TOURNAMENT PROGRESSES SLOWLY

Seeded players came through with their expected victories in the third round of the fall tennis tournament. All of these men who had matches won them with comparative ease. The exception was Jim Eder, who was forced to three sets in his match with S. Spragens. The game scores for the sets were 4-6, 6-2, 6-2.

Fred Feustel, captain of the team, won his match after a bit of difficulty from H. J. Lidoff, by the scores of 6-2, 9-7. Tommy Regan was also the winner in his third round match.

Charley Feuchter, of the frosh team last season, had no trouble in disposing of Tyburski. Dick Hanley, seeded four in the tournament, won from Treadwell. Fourth round matches are due to finish shortly. This will leave only the last three rounds to be played before the winner is decided.

An annual Sunburn Party is held each spring at Whittier College. In order to make the day a complete success, all classes are forgotten.

Issue Last Call to Frosh For P. T. Substitution

Substitution or sports for Physical Training is urged for all freshmen as the rateful deadline for all, Friday noon, approaches at Mr. McCarthy's office in Walker Memorial. The small number of men already signed up shows without a doubt that a last-minute rush is impending, and that many unfortunates will be forced to suffer through at least a half-year of body-wracking antics in Walker Gym.

BOYS' WORKERS TO HOLD GET-TOGETHER

The first meeting of the freshmen and transfer students who intend to do boys' work in connection with the Technology Christian Association will be held in the Faculty Dining Room of Walker Memorial, tomorrow afternoon.

Mr. W. Duncan Russell, Community Service Boy's Work Secretary of Greater Boston, Wallie Ross, and some of the upperclass men who have been connected with this branch of the T.C.A., will be present between 3.30 and 5 o'clock.

These men will explain to the new members the purpose of the organization and the nature of the work carried on. All men who are interested should be present at tomorrow's meeting.

FENCING TEAM WILL POSTPONE MEETING

On account of the death of Dr. Stratton the smoker to be held by the fencing team in order to interest new men is to be put off. The date for which it has been set has not as yet been announced.

All new men who are interested in fencing are urged by Coach Roth and the managers of the fencing team to come to this smoker, where schedules and meets will be discussed. It will be noticed by the freshmen that but a few days are left before the deadline of sports substitution for Physical Training. October 23 is the last day on which men may sign up in order to avoid taking the required series of calisthenics exercises.

DANCE OF CATHOLIC CLUB IS POSTPONED

The Technology Catholic Club announced yesterday that out of respect for the late Dr. Samuel W. Stratton the Annual Fall Acquaintance Dance has been cancelled. The dance was to be held next Friday evening at Walker, but it is now planned to hold it on Saturday, November 7.

SIX T. E. N. OFFICERS ATTEND CONVENTION

Six members of the Managing Board of T. E. N. comprised the largest visiting delegation which attended the annual convention of the engineering college magazines held last Friday and Saturday at Penn State University. These were Clarence M. Chase '32, E. Harold Anderson '32, Alfred B. Berghell '32, Charles E. Buchanan '33, Wilbur B. Huston '33, and Donald G. Fink '33.

Although no decided changes were made in the policy of the Association, a number of new features in both editorial writing and advertising were suggested, and these will be incorporated in the next number of T. E. N., which will be on sale November 16. At the conclusion of the convention, T. E. N. was awarded third prize for the best illustrations of feature articles.

TUG-O-WAR MEN ARE READY FOR FIELD DAY

An Average of Thirty Men Are Practicing Daily

Showing unusual cooperation in the formation of tug-o-war teams, the Sophomore and freshman groups are each looking forward to a victory over the other on Field Day. Coach Freeman W. Prain '32 and Coach Pierre S. DuPont 3d, '33, of the Sophomore and freshman teams respectively, have had more than thirty men trying out for each group. For the present, the coaches will retain all candidates, and will do so until a few days before Field Day.

Sophomores, who on the average weigh about 150 pounds each, are tugging to the lusty yells of their counter, at a segment of a one-time telegraph pole in the lot at the furthest end of the trackhouse. The freshman team, which averages about ten pounds lighter a man than their more experienced rivals, seems to make up for their lack of weight by additional enthusiasm. This group practices off the Tech Field in rear of Wood Dormitory, on a similar segment of a telegraph pole, to the slow, rhythmic chirping of their novice counter.

Practice is to be held each night hereafter, and if any Sophomore or freshman feels that he would like to participate in the tug-o-war event on Field Day, he should see or get in touch with any of the officials of his respective class team immediately.

Required Freshman English courses at the University of Minnesota are likely to be eliminated.

Freshman Section Leaders Making Field Day Plans

The following men have been elected section leaders of the freshman class:

Sec. 1	W. H. Loomis
Sec. 2	J. Hossfeld
Sec. 3	F. Lovering
Sec. 4	J. K. Raes
Sec. 5	W. C. Corcoran
Sec. 6	E. J. Collins
Sec. 7	R. S. Brookman
Sec. 8	J. H. Briefer
Sec. 9	W. H. Marshall
Sec. 10	H. W. Ruane
Sec. 12	J. Farmer
Sec. 13	S. F. Redfield
Sec. 16	P. W. Daley
Sec. 18	K. Finlayson
Sec. 19	J. D. Loomis
Sec. 20	C. J. Williams
Sec. 21	B. S. Morgan
Sec. 22	Dixon
Sec. 23	A. E. MacAdam
Sec. 24	H. F. King
Sec. 26	Dolton
Sec. 27	J. H. Eakin
Sec. 28	Farr
Sec. 29	H. W. Holmes

MANY TURN OUT AT GYM TEAM MEETING

Forty five varsity and freshman candidates for the gym team turned out at a mass meeting held Tuesday afternoon at 5 o'clock in the Walker Gymnasium. A series of talks were given to acquaint all the new men with the details of the team. Coach Hans Neudorf gave a speech on the value of training and the rules for working on the apparatus.

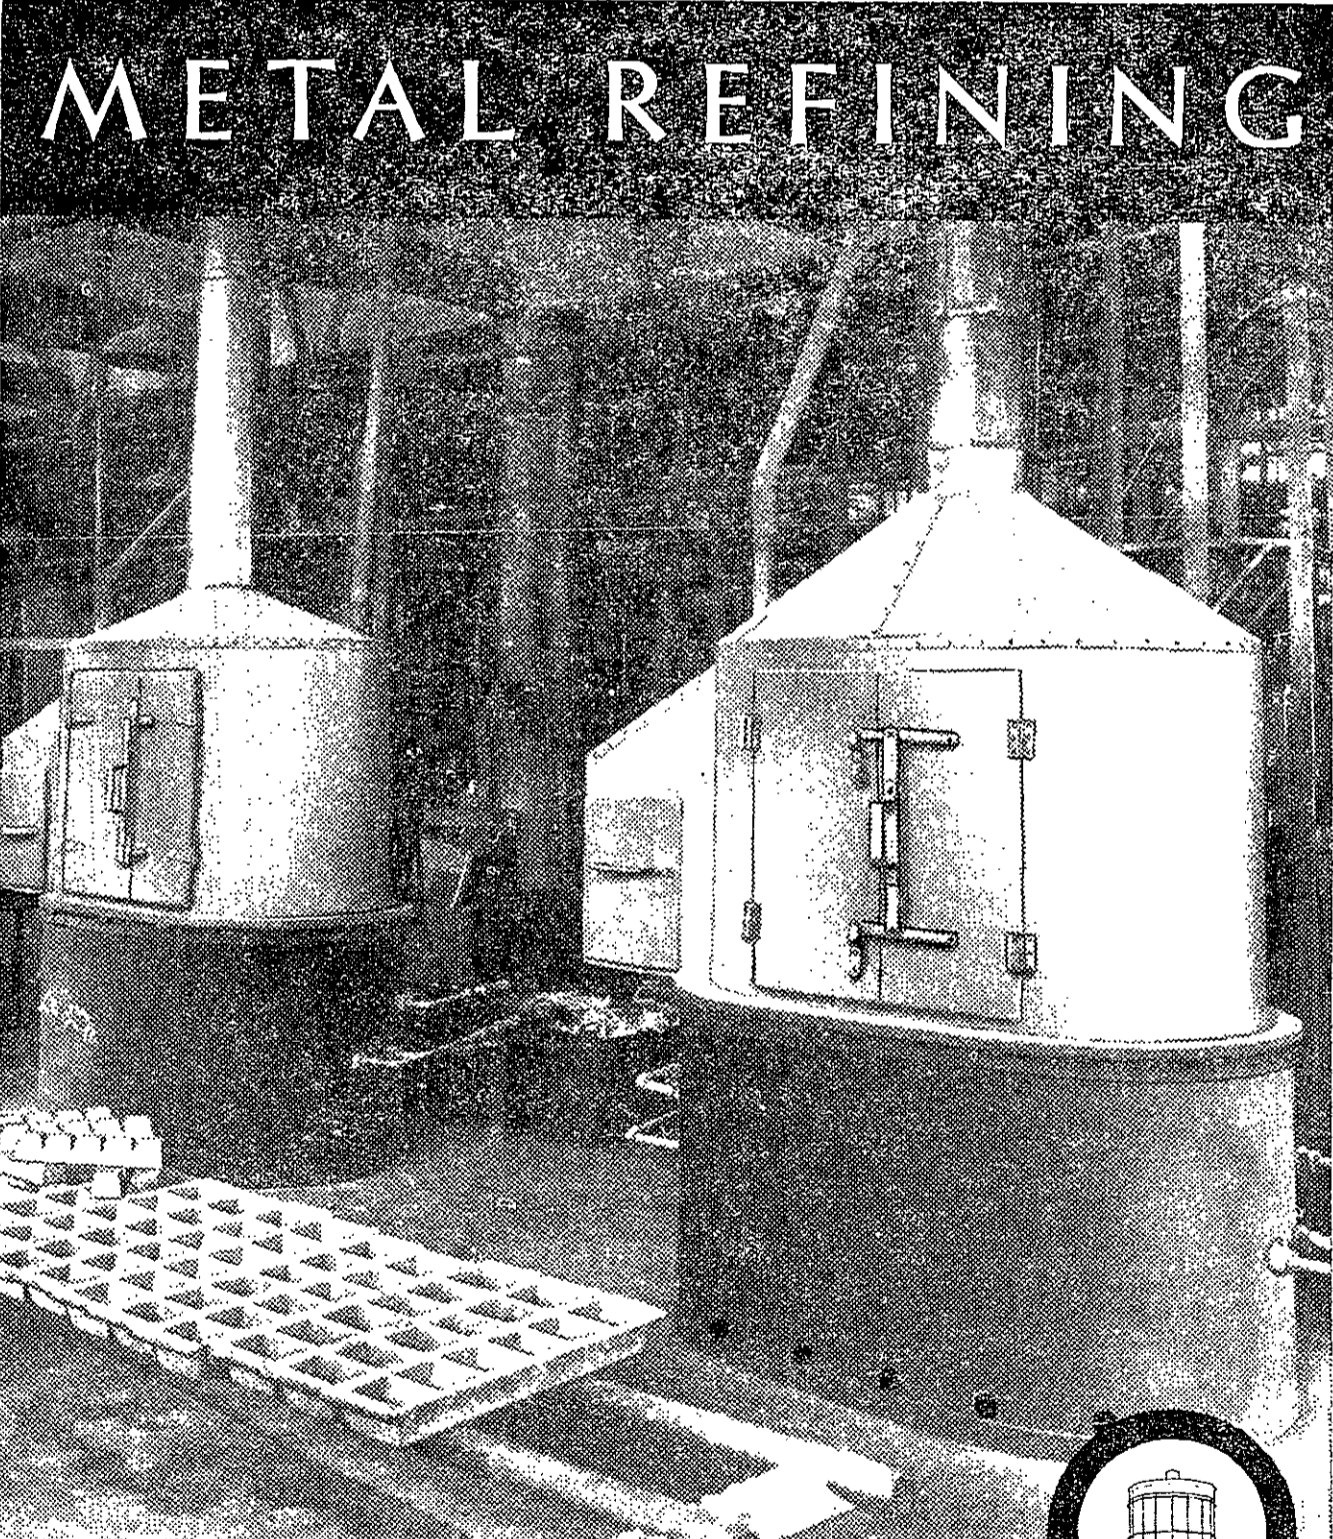

Then various members of last year's team spoke in behalf of their respective events. James Abbott '32 talked about tumbling. Ivan Getting '33 the high bar, and Leo Lawsine '32 the rings and side-horse. Short speeches were also made by James J. Robson '32, last year's manager, and the present manager, Calvin H. Mohr '33.

Any freshman gym team candidate who has not yet signed up in the P.T. office on the third floor of Walker Memorial must do so before noon this Friday, October 23.

METAL REFINING

Gas is acknowledged the best fuel for metal refining. Temperature is accurately controlled. Gas promotes longer pot life; there are no combustion products to interfere chemically; and the recent development of new equipment makes for increased economy. Send for the new book "Gas Heat in Industry".

CALENDAR

Wednesday, October 21

1.30 p.m. — Institute Committee meeting in West Lounge.

Thursday, October 22

3.30 p.m. — T.C.A. Boys' Work meeting in Faculty Dining Room.
6.00 p.m. — Instrumental Club rehearsal in East Lounge.
6.30 p.m. — Massachusetts Safety Council dinner meeting in North Hall.

Friday, October 23

5.00 p.m. — Banjo Club rehearsal in East Lounge.
5.00 p.m. — Radio Society meeting in Room 10-275.
6.30 p.m. — A.I.E.E. Branch supper meeting in Faculty Dining Room.
7.00 p.m. — Alpha Phi Delta acquaintance meeting in Grill Room.

SWIMMING TEAM

The swimming team mass meeting has been postponed. It will be held tomorrow at 5 o'clock in Room 1-190. Coach M. Untersee '19 urges all freshman and varsity candidates to attend this meeting. Freshmen planning to substitute this sport for Physical Training should sign up at the Physical Director's office on the third floor in Walker before Friday noon, October 23.

SECTION LEADERS' MEETING

There will be a Section Leaders' meeting in Room 4-138 at 5 o'clock, Friday, October 23. Field Day plans will be discussed.

FROSH CREW

All freshmen crew candidates who wish to substitute rowing for P.T. must sign up in the office of H. P. McCarthy, in Walker, before noon on October 23. Students must have their Physical Fitness cards with them at the time.

FRESHMAN COXSWAINS

There are still three openings for freshman coxswains. Freshmen who are interested and who weigh less than 120 pounds should report at the boathouse tomorrow morning at 7 o'clock.

FRESHMAN RALLY

There will be a freshman rally in Room 5-330 at 5 o'clock, Thursday, October 22.

INFIRMARY LIST

Elliot, Robert '34
Paul, Samuel '35
Fish, Charles

TRACK

There is an opening for two freshmen as freshman managers for track. Those interested should report to the track house at 5 o'clock on Thursday.

ARTILLERY SOCIETY TO NAME NEW MEN

Mortar and Ball, the Coast Artillery honorary fraternity, will hold its first meeting Friday at 4 o'clock in Room 3-310. The purpose of this meeting is to decide on the initiates who will be admitted on Friday, November 13. On that evening a dance will be held in North Hall, Walker Memorial, during which the initiation ceremony will take place.

MANY MESSAGES OF SYMPATHY RECEIVED

(Continued from Page One)

Laboratories; Redfield Proctor '02, Member of the Corporation and a former Governor of Vermont; Theodore M. Edison '23, a son of Thomas A. Edison; R. P. Lamont, Secretary of Commerce; Hon. William C. Redfield, former Secretary of Commerce; Alfred P. Sloan '95, President of the General Motors Corporation; Samuel M. Vauclain, President of the Baldwin Locomotive Works; Maj.-Gen. George O. Squier; Harvey H. Davis, President of Stevens Institute of Technology; Thomas S. Baker, President of Carnegie Institute of Technology; John Hays Hammond widely-known inventor and engineer; Judge Robert Grant, of the Superior Court and James M. Curley, Mayor of Boston.

MECHANICAL SOCIETY ADDRESS POSTPONED

Out of respect for the late Dr. Samuel W. Stratton, the address of Mr. Roy V. Wright, which was to be given tomorrow, has been postponed until Thursday, October 29.

The Mechanical Engineering Society, which arranged the address, announced yesterday that the noted engineer would be present next Thursday to speak to the members of the Society and others who may be interested on the subject, "Opportunities of the Engineer."

'35 FOOTBALL TEAM TO PLAY THURSDAY

The freshman football team will play their first game this Thursday afternoon at 3 o'clock when they meet a team composed of Harvard Sophomores at Harvard. They will probably line up as follows: Brosnahan, l.e.; Lovering, l.t.; Fletcher; l.g.; Gwiada, c.; Hunt, r.g.; Kennedy, r.t.; Reed, r.e.; Sieminski, q.b.; Peterson, l.h.b.; Cooper, r.h.b.; Farmer or Prestwich, f.b.

All members of the squad must meet at the track house at 2 o'clock sharp with their uniforms.

HONORARY FRATERNITY ELECTIONS NOVEMBER 5

At a smoker on November 5, all the men eligible for Tau Beta Pi will meet the present members. Nominations for the new members will take place on the next day with the elections being run off the following week. These plans were decided upon and a discussion was held on proposed social events for the coming year at a meeting yesterday afternoon of the honorary society in the West Lounge of Walker Memorial.

"Give me Lucky Strike Every Time"

"My throat is all important to me. No harsh irritants for yours truly. Give me Lucky Strike every time. And pat yourself on the back for your new Cellophane wrapper with that tab which makes the package so easy to open."

Dorothy Mackaill

Dorothy Mackaill is the same fascinating, rollicking personality in real life as the parts she plays. Watch for Dorothy in her next First National Picture, "Safe In Hell." There is never a dull moment in any of First National's pictures starring that Mackaill girl.

That LUCKY tab! Moisture-Proof Cellophane. Sealed tight—Ever right. The Unique Humidor Package. Zip—And it's open! See the new notched tab on the top of the package. Hold down one half with your thumb. Tear off the other half. Simple. Quick. Zip! That's all. Unique! Wrapped in dust-proof, moisture-proof, germ-proof Cellophane. Clean, protected, neat, FRESH!—what could be more modern than LUCKIES' improved Humidor package—so easy to open! Ladies—the LUCKY TAB is—your finger nail protection.

"It's toasted"

Your Throat Protection—against irritation—against cough

And Moisture-Proof Cellophane Keeps that "Toasted" Flavor Ever Fresh

TUNE IN—The Lucky Strike Dance Orchestra, every Tuesday, Thursday and Saturday evening over N.B.C. networks.

* Is Miss Mackaill's Statement Paid For?

You may be interested in knowing that not one cent was paid to Miss Mackaill to make the above statement. Miss Mackaill has been a smoker of LUCKY STRIKE cigarettes for 6 years. We hope the publicity herewith given will be as beneficial to her and to First National, her producers, as her endorsement of LUCKIES is to you and to us.

Copyright, 1931, The American Tobacco Co.

Made of the finest tobaccos—the Cream of many Crops—LUCKY STRIKE alone offers the throat protection of the exclusive "TOASTING" Process which includes the use of modern Ultra Violet Rays—the process that expels certain harsh, biting irritants naturally present in every tobacco leaf. These expelled irritants are not present in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.
