

Victorious Sophomore Field Day Crew. Left to right: Woodbury, Priggen, Murphy, Cantor, Joel, Moomaw, Lidoff, Gordon and Manager Lister with Woodhall, coxswain, in front.

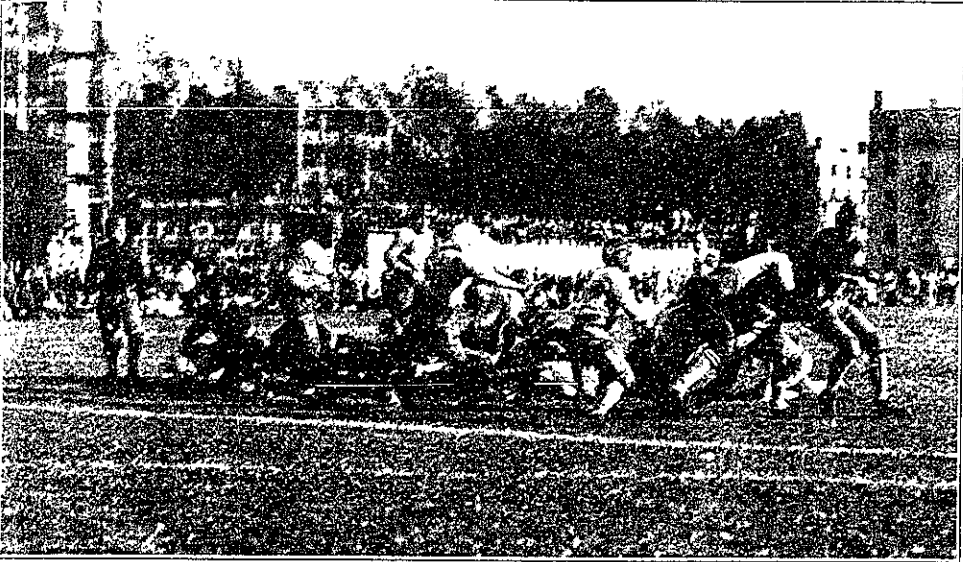

1934 WINS AGAIN

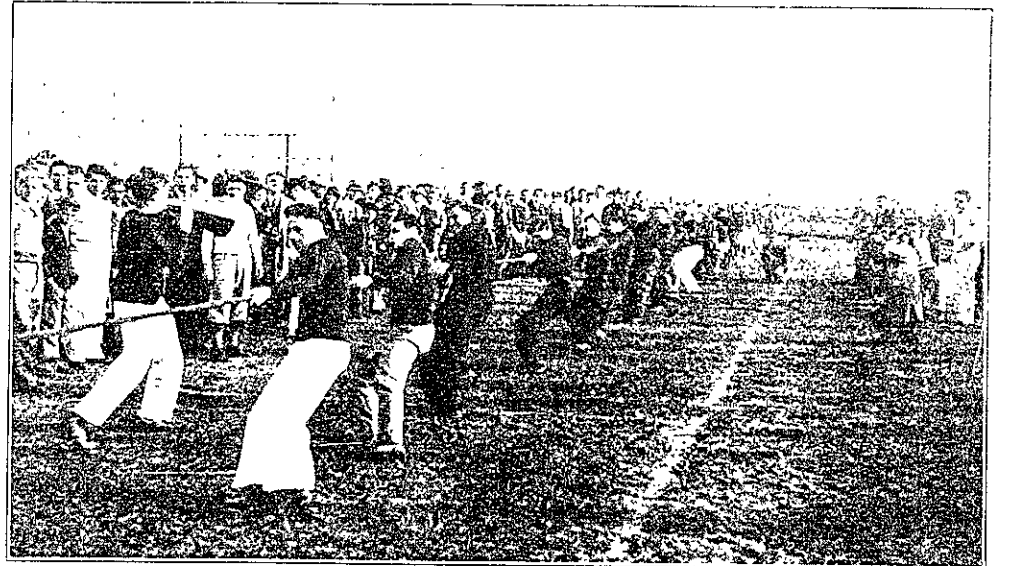

Record Breaking (1934) Relay Team. First row, left to right: Allan, Wrigley, Capt. Bell, Holladay, Timmerman, Clark. Second row: Fentress, Sousa, Doten, Rimbach, Ball, Lockart, Emonds, Schwarz.

No victory without its loss.

The Sophomore ball carrier at the extreme right seems to be taking some rough handling from a Freshman tackler. 1934 won 7-0.

The Sophomore tug-o-war team tugs away to a quick victory over Freshmen beef in two straight pulls. Note the facial expressions.

Morris

In a Field Day marked for its docility the Glove Fight brought one of the fiercest encounters in years. This is a fair cross section of what was going on all over.

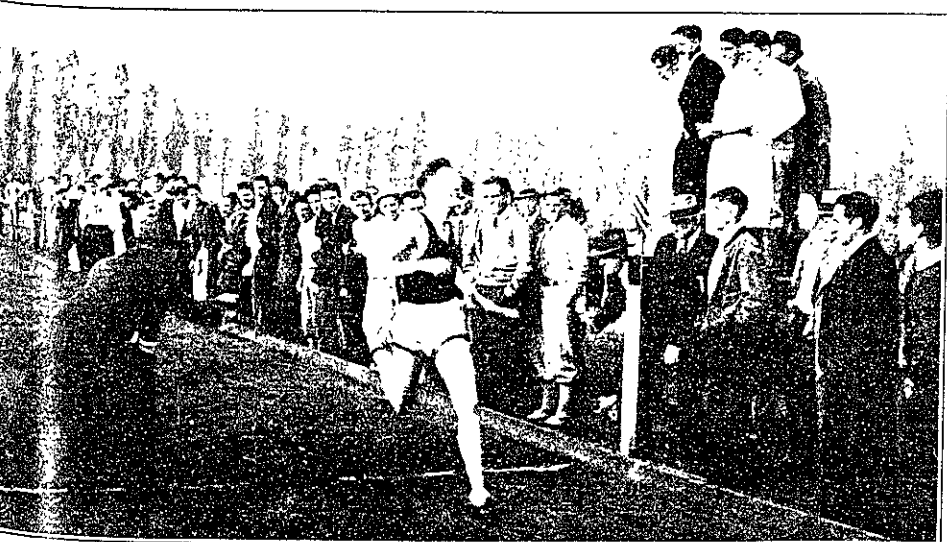

It's cold, but it's customary. The winning cox takes his annual dousing.

Morris

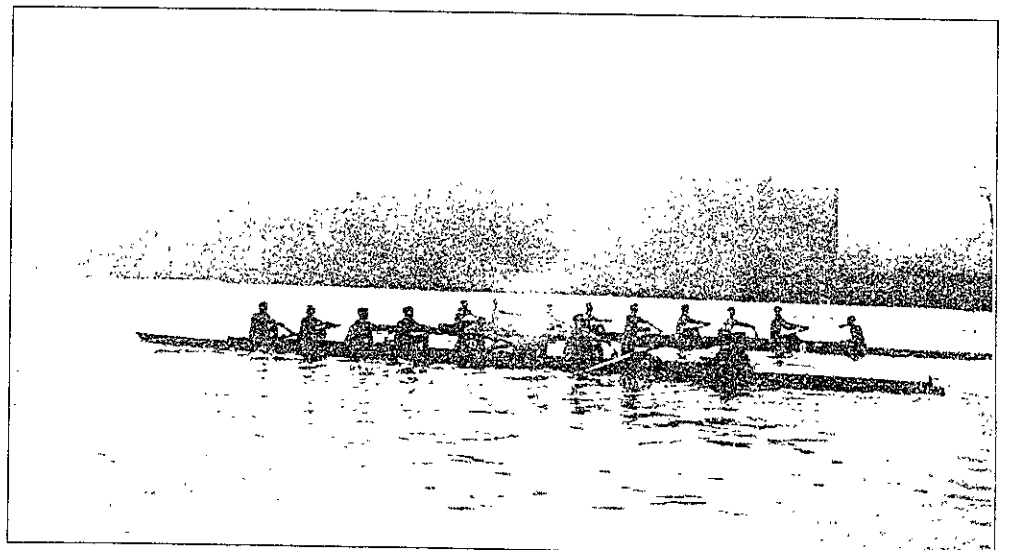

See the expression on that annoyed person lying prone in the left foreground. The Sophomores won the glove fight for the first time since its inauguration.

Captain Bell breasts the tape almost a half a lap ahead of his opponent and completes a record run for Field Day relay teams.

An interested spectator, President Compton.

The Freshmen and Sophomore crews on the starting line provide a novel silhouette against the morning sun.

CALENDAR

Wednesday, November 4

- 2.00 p.m. — A.I.E.E. inspection tour starts from Main Lobby.
- 5.00 p.m. — Freshman Tea at President Compton's home.
- 5.00 p.m. — Tech Boat Club meeting in West Lounge.
- 6.00 p.m. — Alpha Phi Delta business meeting in Grill Room.
- 6.15 p.m. — Steel Treater's dinner in North Hall.
- 7.30 p.m. — Sleepy Hollow Boys orchestra rehearsal in East Lounge.

Thursday, November 5

- 5.00 p.m. — Beaver Society meeting in West Lounge.
- 5.00 p.m. — Banjo Club rehearsal in East Lounge.
- 6.00 p.m. — Instrumental Club rehearsal in East Lounge.
- 6.00 p.m. — Biological Department dinner meeting in Grill Room.
- 8.00 p.m. — Tau Beta Pi smoker in Faculty Dining Room.
- 8.00 p.m. — Menorah Society dance in North Hall.

Friday, November 6

- 5.00 p.m. — Radio Society meeting in Room 10-275.
- 5.00 p.m. — Freshman Tea at President's home.
- 8.00 p.m. — Combined Musical Clubs concert and dance in Main Hall.

Saturday, November 7

- 9.00 p.m. — Catholic Club dance in Main Hall.

T. C. A. DRIVE NETS \$2,000 FOR START

(Continued from Page One)

those who commute will have greatly increased by that time. Buttons bearing the letters "TCA" are being given to those who contribute, to save them the annoyance of being approached after they have given, and to reduce the work of the drive workers. This is the first time in four years that the buttons have been used.

Members of the Faculty may contribute at this time if they so desire, but another drive among the Faculty members will be conducted in February.

The Columbia Spectator, daily student publication at Columbia University, published in its first issue this year a welcome to new students in Yiddish, Italian, Latin, Spanish, German, French and incidentally English.

THE TECH Publishes

Field Day Pictures Friday

Don't fail to secure the Field Day rotogravure supplement which will be given complimentary with the regular edition of THE TECH on Friday. This pictorial section will contain pictures of Field Day teams and events as well as several remembrances of freshman Camp activities.

SEDGWICK BIOLOGICAL SOCIETY

There will be a meeting of the Sedgwick Biological Society in the Emma Rogers Room of the Institute on Wednesday, November 4, 1931, at 7.30 o'clock in the evening. There will be a short business meeting, followed by a talk by Professor Prescott, on "William Thompson Sedgwick." A social hour will follow.

FRESHMAN TRACK

Freshmen who have signed up for track in place of P. T. 1, must report three times this week. Report to Oscar Hedlund in the track house, and come prepared with roll cards.

TAU BETA PI SMOKER

Tau Beta Pi will give a smoker in the Faculty Dining Room of Walker Memorial on Thursday at 8 o'clock for all eligible men. Invitations have already been mailed on Tuesday. Professor Edward F. Miller will be the speaker of the evening.

As We Like It

Plymouth

In three acts of wonderfully-staged drama, the Professional Players opened a month's engagement of "The House Beautiful" at the Plymouth, Monday evening. Depicting the married life of Archibald and Jennifer Davis from the beginning of the twentieth century down to the present, the play shows the Golden Rule integrity of Archibald during the gradual growth of his ideal and the small town he has chosen as a home.

Presented on a revolving stage that operated more smoothly and with less noise than any one it has been our privilege to see before, the scenes were changed with a rapidity that added much to the pleasure of watching the play.

The patient Jennifer, after the death of Archie, which occurs in the last act, realizes that his passing is a mere transition and that she, too, will soon pass to her idealized lover and their ideals.

James Bell, as Archie, gives a fine interpretation of the modern Galahad, while Mary Phillips ably backs him as Jennifer, his wife. They are supported by an excellent cast. D. H. C.

Colonial

"Tomorrow and Tomorrow," at the Colonial, provides an evening's entertainment of good acting of what seemed to be a rather mediocre play. Taking the part of the professor who visits at the home of the Redmans, recognizes that he and Mrs. Redman "are made for each other," and then returns in the last act to cure the child born of their love, Glenn Anders gives the best performance.

Zita Johann, as Eve, the wife of Gail Redman, closely follows him and gives a good rendering of the childless wife who lacks something to keep her interested in life. The better part of her work was in the first act. Harvey Stephens, playing the part of Gail, conveys the enthusiasm of the young business man who is intensely interested in some to him very enjoyable hobby. It may be difficult to give good interpretations of children, but even so, we thought the part of Christian Redman poorly done. B. W.

"It's a Truly Modern Cigarette"

"I'm certainly grateful for Lucky Strike. It's a truly modern cigarette for it gives me modern throat protection. And your improved Cellophane wrapper is wonderfully modern, too. It opens without any coaxing — a flip of the little tab and there are my Luckies."

Loretta Young

A famous and beloved picture star while still in her 'teens—blessed with breathtaking girlish beauty—could fate have been kinder to Loretta Young? She's the very incarnation of young loveliness. If you have not seen her in First National's "Ruling Voice," do so.

That LUCKY tab! Moisture-Proof Cellophane. Sealed tight—Ever right. The Unique Humidor Package. Zip — And it's open! See the new notched tab on the top of the package. Hold down one half with your thumb. Tear off the other half. Simple. Quick. Zip! That's all. Unique! Wrapped in dust-proof, moisture-proof, germ-proof Cellophane. Clean, protected, neat, FRESH!—what could be more modern than LUCKIES' improved Humidor package—so easy to open! Ladies — the LUCKY TAB is — your finger nail protection.

"It's toasted"

Your Throat Protection — against irritation — against cough

And Moisture-Proof Cellophane Keeps that "Toasted" Flavor Ever Fresh

TUNE IN—The Lucky Strike Dance Hour, every Tuesday, Thursday and Saturday evening over N.B.C. networks

* Is Miss Young's Statement Paid For?

You may be interested in knowing that not one cent was paid to Miss Young to make the above statement. Miss Young has been a smoker of LUCKY STRIKE cigarettes for 4 years. We hope the publicity herewith given will be as beneficial to her and to First National, her producers, as her endorsement of LUCKIES is to you and to us.

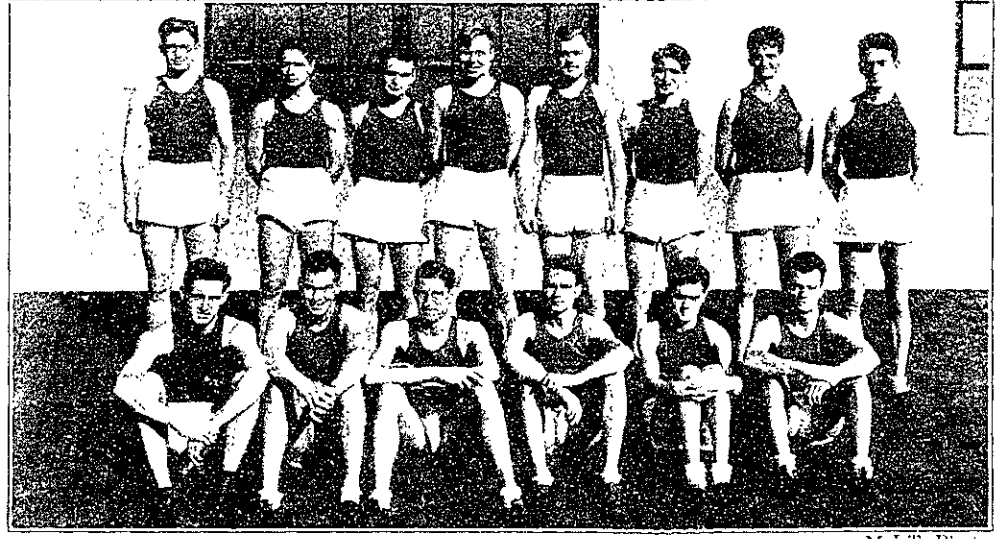

Copyright, 1931, The American Tobacco Co.

Made of the finest tobaccos—the Cream of many Crops—LUCKY STRIKE alone offers the throat protection of the exclusive "TOASTING" Process which includes the use of modern Ultra Violet Rays—the process that expels certain harsh, biting irritants naturally present in every tobacco leaf. These expelled irritants are not present in your LUCKY STRIKE. "They're out — so they can't be in!" No wonder LUCKIES are always kind to your throat.

N.E.I.C.C. CHAMPION MEET TO BE RUN IN FRANKLIN PARK

Last Leg on Trophy for Either
Bates or Maine. Home
Team Strong

ELEVEN TEAMS ENTERED

Monday afternoon, the Technology harrriers, with men from ten other colleges in New England, will compete for the New England Intercollegiate Cross-Country championship, running over the Franklin Park course. Seventy-seven men are entered, seven men comprising the team from each school.

Don Gilman, the leading runner of the Institute, finished third in the same race last year, but he doesn't seem to be in the old form this year, and will have to recover a good deal of his old flash and verve if he is to place as high again. Prominent among the entries is De Moulpied of New Hampshire, who will probably compete for first honors with Whitten of Bates and Raduao of New Hampshire, who was first in the freshman race last year, and broke the standing record.

Sophomores Make Team

Strong in the ranks of the Technology runners this year, is Charley Hall, record miler of last year's freshman team, and well up with his freshman cross-country team; Barrett and Mann, also Sophomores this year, have been finishing up in front, and were the other scorers with Hall in the last year freshman race.

Kearns, who has been running at the Institute for three years, and is now on his last lap, has been beating Don Gilman regularly, and is a strong contender for the high honors of the race.

Runners On Home Course

Varsity men will line up at 2.15 o'clock, one-half hour after the start of the freshman race. There is a good deal of assurance afforded the men in the fact that they are familiar with the course, as it is their home field. Few of the entries in

Catholic Club to Hold Annual Fall Dance at Walker

Art Marshall's Orchestra Will
Play At Club's First
Dance Saturday

To the music of Art Marshall's orchestra, the members of the Technology Catholic Club will hold their Twenty-Fifth Annual Fall Dance in the Main Hall of Walker next Saturday evening at 9 o'clock.

At this affair, which is the Club's first informal dance of the year, it is customary for the Club to act as host to members of other Catholic Clubs in local colleges. As a result, many new acquaintances are formed and the dance has come to be known as an "Acquaintance Dance."

Tickets to Members Only

Tickets, at 75 cents each, will be sold only to members of the Technology Catholic Club or other Federation Catholic Clubs, or to those who can be vouched for by a member of the Club. The purpose of this rule is not to exclude Technology students but to prevent strangers from attending.

The dance was originally intended to be the first Technology dance of the year, to be held October 23, but the death of Dr. Samuel W. Stratton made it necessary to postpone the event. Nothing will be lost as a result of the delay, however, as the committee has had more time to complete the arrangements.

PHYSICIST TALKS TO PHYSICAL SOCIETY

Professor Nottingham, of the Physics Department, gave a lecture entitled "The Vacuum Tube Electrometer," at a meeting of the Physical Society Tuesday afternoon at 5 o'clock, in Room 4-270. The talk commenced with an explanation of the theory of the vacuum tube. Then the speaker showed the application of this form of electrometer to delicate photoelectric measurements.

Returns in T. C. A. Drive Shows Fraternities Ahead

BOSTON GIRLS HEAR THE MUSICAL CLUBS

Franklin Square House Likes
Fall Concert Program

At a concert in the auditorium of the Franklin Square House, the Combined Musical Clubs last Tuesday night presented the complete program which they will give Friday at their concert in Walker Memorial. The three-hundred-odd young women who live at the House received the recital with the greatest enthusiasm.

A special banjo duet by Warren H. Pease '32 and Arthur L. Conn '34 was an added feature of the program which was substituted for a vocal solo by John Sloat '33. At the Friday concert, Sloat's solo is to be included as originally planned, however. The banjo duet will be made a part of a floor show which has been arranged to fill in the intermission during the dance at 12 o'clock.

NEW VOLUME GIVEN INSTITUTE LIBRARY

The Institute Library has just received through George L. Gilmore '90 an unusual volume entitled "A History of English Wallpaper, 1509-1914." The authors of the profusely-illustrated volume are Alan Victor Sugden and John Ludlam Edmondson, who have recorded in remarkable detail the story of wallpaper from its introduction in the early sixteenth century down to the present.

Commander Hotel Scene of Scabbard and Blade Ball

It has been announced by the committee in charge that the Military Ball under the auspices of the Scabbard and Blade Society has been transferred to the Commander Hotel, Cambridge, instead of Walker Memorial, as originally planned. This dance will be held on next Tuesday night as scheduled, beginning at 9 o'clock in the evening, but due to the Cambridge ordinance, it will end at 2 o'clock instead of at 3. The pledging ceremony remains on the program, and the price of tickets have not been altered.

Benefit Show to be Held to Raise Funds for Relief

Chinese Students Sponsoring
Program To Aid Flood
Sufferers

Final arrangements for the benefit show for the China Flood Relief Fund have been completed. The affair, which is the outstanding Chinese student enterprise ever attempted in this section, will be presented in Jordan Hall, Boston, at 8 o'clock this evening.

Governor and Mrs. Joseph B. Ely have kindly consented to act as patrons, and President and Mrs. Karl T. Compton of Technology and President and Mrs. Daniel L. Marsh of Boston University will also be present. These are the most prominent of many celebrities who have been invited to attend. Many persons who will be unable to attend the performance have made contributions to the fund.

Many Specialty Numbers

Some exceptionally fine talent has been gathered for the evening's entertainment. These artists will present solos and individual dances which form the backbone of a well-arranged program, the remainder of which will consist of group dances and a variety of numbers in Chinese.

Tickets for the entertainment may be obtained at the T.C.A. office or from members of the Chinese Students' Club. Arrangements have been made by the management to have tickets on sale at the

(Continued on Page Four)

RADIO SOCIETY WILL TEST NEW MEMBERS

New members of the Radio Society will be tested tomorrow in their code proficiency and knowledge of station procedure. The men will be required to send and receive code at various speeds and will be graded according to their ability. Those taking the test should report to Room 3-305 at 1.45 o'clock tomorrow.

\$1500 NEEDED IN DRIVE TO SECURE FUNDS FOR T.C.A.

Solicitors Are Urged to Make
Extra Effort to Make
Drive Success

CAMPAIGN ENDS AT 6 P.M.

With only twenty-four hours to go, the drive to secure funds for the Technology Christian Association lacked over \$1500 of making its goal of \$5100 at 5 o'clock last night.

At that time the total turned in by solicitors was \$3576.50. As in past years members of fraternities have given more than the other students. The Phi Beta Epsilon men have given an average of \$11.40 per man.

No Mail Solicitation This Year

At this time a year ago the amount collected was \$3460, which was \$1700 short of the budget. The deficit was made up largely by mail contribution which came in late. Because of the expense involved, mail solicitation was not employed this year and as a result it is believed that many students who would contribute to the drive have not been approached. The only means available for reaching the students who do not live in the dormitories or the fraternities is through the Free Lancers.

Solicitors in the dormitories and the Free Lancers are being urged to make every effort to obtain contributions today in order to make the drive a success. Students who desire to help the drive but have not been personally approached may make their contributions at the table in the Main Lobby or at the T.C.A. office.

Underpass in Front of Institute Takes Shape as Winter Approaches

Services of Diver Are Required
When Excavations Are
Inundated

With the constant traffic of Massachusetts Avenue and Memorial Drive above his head, as well as several feet of water, and the roar of the metropolitan district about him, a diver equipped in the regular underseas paraphernalia of his kind worked for a few hours several consecutive days, engaged in the unromantic pastime of connecting sewer pipes, beneath the roadway of the new automobile underpass directly in front of the Institute.

The underpass, the lowest portion of which when completed will be exactly five feet below the level of the river, rests upon two large concrete caissons, which in turn are supported by a stratum of gravel, sixteen feet below the river level. Considerable difficulty was had in the excavation of space for the caissons, as the water of the Charles refused to be confined strictly to the Charles, and seeped into the pit.

Consists of Two One-Way Roads

The underpass is being built for the purpose of permitting through traffic along Memorial Drive to be "through." It will consist of two 21-foot roadways, which will be one-way, and reserved for the purpose of handling traffic bound in opposite directions. Rising from beneath Massachusetts Avenue between the two roadways that are between Technology and the Charles, it will be joined to both of them at either side of the bridge. Con-

siderable traffic will be handled, and very much trouble and danger to automobile drivers and pedestrians will be eliminated by the underpass, which will facilitate traffic matters about the Institute to a great extent, besides lending the road a unique appearance of modernism.

The underpass is being built at a cost of about \$180,000 by Coleman Bros., Inc. Work was begun July 20, and is expected to be completed by December 15. Four hundred and eighty thousand pounds of reinforcing steel is being used about the arch and roadway, not to mention 214,000 pounds of structural steel, which will be designated to serve as beams and girders. For the concrete work, 25,000 bags of cement were required. The interior of the pass will be all waterproofed at the expense of considerable trouble, money, and 17,000 square yards of membrane asphalt waterproofing. Ninety-nine thousand square feet of granite casing line the underpass and the roadways leading into it, making it an impressive sight. Three hundred and seventy feet of eight-inch granite facing are also employed in this task.

As considerable difficulty with water is anticipated, the precautions taken in the construction are many. Two large automatic pumps take care of the drainage near the two caissons, pumping the errant waters of the Charles back into the mother waters whence they sprung. The inundating influence of the high waters of the Charles are not feared, as gates further down the river control very well the rise and fall of the waters.

Opinions on Mahatma Gandhi Given By New Matron of Walker Memorial

Miss Amy P. Row Has Interview
With Indian Liberator
During Summer

Should a course in international anecdotes be established at Technology, Miss Amy P. Row, newcomer to the staff of Walker Memorial, might well be asked to take the chair. Hearing her relate, with the inimitable knack of the traveled Englishwoman, a few of her extraordinary experiences in odd corners of the world, ranging from bullfights and earthquakes to chats with cannibals and Mahatma Gandhi, leads one to believe that she will make many new friends in her duties at the Institute.

Miss Row comes to Technology to take up the work carried on for so long and with such great understanding by Mrs. Ellen A. King, known to generations of Institute students whose friend and counselor she was, and to whom her retirement this year because of ill health was a cause for keen regret. To the vacancy she left, Miss Row brings a cosmopolitan background and a remarkable breadth of experience.

A diminutive, blue-eyed person with a fluff of white hair, Miss Row sat at her desk in Walker Memorial the other day and, with a British accent uneffaced by seventeen years of American residence, genially commented on her visit to Gandhi last month in London.

As an American friend of Gandhi's hostess, Miss Muriel Lester, she was invited to the latter's famous settlement house,

Kingsley Hall, located in one of the most poverty-stricken sections of East London. Here, in a small, partially glassed-in shed-house on the roof, often overhung and obscured by smoke from the encroaching chimneys of tenements and factories, Gandhi sat cross-legged on his mat talking animatedly with a Hindu friend. He greets one with a simple gesture. Near the Mahatma is a large vase of flowers. Otherwise, the room is almost bare of furnishings, and guests must squat on the floor. During Miss Row's visit interest centered around the Home for Indian Seamen which was founded by her father near the British India docks in London and has long been a haven for Lascars and the "untouchables," India's despised caste.

"Gandhi is a nice shade of mahogany," Miss Row said in describing the scene in Kingsley Hall, "though his heavy white Khaddar robes and the cowl about his head left very little of him visible. No, he doesn't go about London in nothing but a loincloth—neither did he bring a goat with him from India! An English goat supplies his daily diet of milk."

In similar quarters sat Miss Slade, Gandhi's disciple, a picturesque figure in her flowing sari robes. She was busily engaged at her spinning-wheel.

"She prepares all food eaten by the Mahatma," explained Miss Row, "washes his clothes, cleans his room and arranges his bed. Her quiet dignity possesses one, as does her transparent nobleness of character."

HEALTH AUTHORITY SPEAKS AT M. I. T.

Miss Edna A. Gerken, specialist in health education in the Philippine Islands, is visiting the Institute today and will speak to the students on various phases of her work in the Philippines.

Miss Gerken received her training in the department of Biology and Public Health at the Institute, graduating in the Class of 1926. Since that time she has been successfully engaged in health education work in Manila, where she expects to return to her duties within a short time.

OPEN FORUM

A FRESHMAN SEES

To the Editor of THE TECH:
 This letter is written merely to give a few impressions of Technology gained by a freshman who had, previous to registration day, never seen the buildings themselves.

I was immensely surprised to find that the dormitories, instead of being the attractive ivy-covered buildings ("Among the finest in the country") pictured in some of the circulars of the Institute, were merely long, drab structures resembling cheap tenement houses in a large city. Even the architect's naive attempt to add pseudo-chimneys and vases to the roofs of the buildings failed to relieve this drabness and utter lack of any esthetic qualities.

Walker Memorial, despite the fairly imposing facade shown in photographs, had the appearance of a huge barn from the rear and sides. The crude decorations conceived by the puerile imagination of the architect completely and miserably fail to impart any semblance of beauty to the building, when viewed from any side but the front. It also almost completely fails to harmonize with the other buildings.

Of all the buildings, the main group came nearest to meeting my expectations and illusions. The colonnade and courts were fully as stimulating architecturally as pictured views of the Institute. But in this case also, only the front had been made metriculously attractive, while the rear possessed the same factory-like ugliness so characteristic of Walker Memorial and the dormitories. In the rear, further heightening this effect, was a group of ramshackle structures which should long since have been razed.

The expanse of ground (euphemistically known as a campus), as arid and dry as a desert, between the dormitories and the educational group, I was surprised to discover freely used for parking, whereas a portion of the "Coop" field, now used for nothing but drill and soccer, could easily be employed for this purpose with but little inconvenience.

And, paradoxically enough, the foregoing conditions exist in the "greatest engineering school in the world" and the foremost school of architecture in the country. Yet the student body seems to be curiously apathetic in its attitude toward these conditions. Is it because they are so smugly and complacently content with the fame the Institute has as a scientific school that they ignore its defects, or is it because they are just as indifferent to esthetic qualities in anything as they are to culture and sophistication?

Sarcastically yours, G. D. F.

"Wandering Greeks" Are Requested To Sign Up
 "Wandering Greeks" who have not already signed their names in the books distributed about the Institute by Technique should do so at once. These books will be taken down Friday. The object of the sign-up is to get the names of unattached fraternity men and their fraternity letters so that the latter may be placed after the names of their owners in the Year Book.

Senior Ring Sign-Ups To Be Sold Next Week
Three Styles of Standard Ring To Be Used; Delivered In December

Under the supervision of Edwin B. Powell, Jr. '32, orders for the standard ring of the Institute will be taken all day in the Main Lobby next Monday, and every day until Friday. The ring will be similar to those used during the last three years and which are manufactured by Mason and Flintz. There will be three rings to choose from, and with each sign-up, a deposit of five dollars is required. The rings will be ready for redemption the second week in December.

IMPROMPTU GAME OF LACROSSE PROPOSED

An unscheduled game of lacrosse has been arranged for Saturday, November 7, on the Coop Field at 2.30 o'clock. The freshman team of last year will represent the Institute against one of the teams of the Springfield Y.M.C.A. College.

Stepping Out?
THEN COME TO THE
SALLE MODEERNE

HOTEL STATLER

TO WHAT LIMITS?

OUR imaginations very frequently run rampant when we attempt to express our dislike for something. We find it very easy to tear down, but difficult to construct, to rebuild, and even more difficult to change our attitude. The Open Forum contains today a letter from a member of the freshman class, commenting upon the grounds and the general external appearances of the Institute, voicing his own disappointments, and complaining that there has been a tendency to misrepresent facts in Technology literature. His plea is that as "the greatest engineering school in the world," and as the "foremost school of architecture in the country," Technology should present as striking appearance as any structure in the world might.

We are faced with a rather interesting question in discussing such an attitude. If the Institute is to be an engineering school, proverbially "hard-boiled" and gruff, does it seem feasible that its buildings and layout shall appeal to the fanciful mob? Is it not more appropriate that what funds there are to be expended in improving the instructing facilities, building new laboratories, financing valuable research, and like projects which contribute to the tangible value of the school to Engineering and Science? Is not this the more proper procedure, the more apropos in an institution which emphasizes practicability above all else?

We do not suggest that the Institute ignores the arts entirely. We have at present in the General Studies a means for enlightenment in fields other than those of strictly engineering qualities. Many courses in themselves, English, Economics, and the like, may not be classed as synonymous with materialism. The Institute is not necessarily so "hard-boiled" as it appears to be, nor as much a false front as this freshman would have it.

We have in this column voiced opinions of a somewhat similar nature, but not with such boundless enthusiasm to rebuild the entire plant. Some years ago we petitioned for grass in the then gravel Great Court; we have since begged for a few coats of paint on the hangars and on the track house. Here is presented a problem worthy of some discussion: as representative of the greater accomplishments in science and research, how far should Technology exemplify other great things?

FALL CONCERT AGAIN

TONIGHT, after a lapse of many years, the Combined Musical Clubs of the Institute are presenting their Fall Concert and Dance. Dropped from the list of Musical Club activities eight years ago, the Fall Concert appears again this year as the response to a plea made by Professor Robert E. Rogers that the Clubs again have such a concert to build up a closer relationship between the students and the Institute in a recreational way.

For many years the undergraduate body at Technology has had a chance to see and hear the Musical Clubs only twice during the academic term, on the occasions of the annual Christmas Concert and Dance and the regular Spring Concert and Dance. The combined group regularly makes appearances outside the Institute, last year five such appearances were made, some of which were with musical organizations from other colleges in the vicinity of Boston. This year the number of activities has been increased to include the Fall Concert and Dance tonight, as well as the two regular appearances that have been made before the students in previous years.

The Musical Clubs offer at its concerts a form of entertainment that differs from the usual evening's recreation. During the earlier part of the evening the various constituent members of the combined group render selections, and later the Techtonians play for dancing. In a single evening one attends the concert of the musical organization at Technology and a dance at which the well-known Technology dance orchestra plays.

The revival of the Fall Concert and Dance this evening deserves the support of the students, not from a feeling of charity, although the Combined Clubs as a self-supporting organization depends on the proceeds from its concerts to meet expenses, but because it offers an evening of enjoyable entertainment at a Technology function.

THREE MORE GAMES FOR VARSITY AND FRESHMEN SOCCER

Varsity Plays Bridgewater At Coop Field, Freshmen Play Andover

SEASON DRAWS TO CLOSE

Both the varsity and the freshman soccer teams, having gained victories last week, are looking eagerly forward to games on tomorrow. The varsity plays Bridgewater College at the Coop Field, and as nothing is known of the Bridgewater team, there are no predictions to be made as to the outcome of the contest.

Capt. Nick Velez, Schulze, Kron, and Cosentino, of the varsity, have all been playing fine soccer this season and may be expected to give good accounts of themselves in tomorrow's game. Kron, captain of last year's freshman team, and Cosentino, also a member of last year's freshman team, are among the leading scorers on the team, and Newman has been holding up his end with his strong kicking in the backfield. Next Wednesday, Armistice Day, the varsity is scheduled to play Army at West Point. Their last game will be with Harvard, one week from tomorrow.

Freshmen Play Andover

In another away-from-home game the freshmen play at Andover tomorrow. Against Exeter last week they played a fine defensive game throughout the contest. Their offense was not weak because they kept the ball in their opponent's territory during most of the game, but until the second half it was ineffective. They

CREWS CONTINUE TO PRACTICE ON RIVER

Work on Machines Scheduled For Winter Training

Unless forced by inclement weather to remain indoors, all the crews will continue to practise on the Charles River each morning before breakfast for the next week or ten days, according to the Head Coach, Bill Haines. This late fall practice is kept up as long as possible in order that all new men may get the feel of the boats before they set in for a long siege on the machines.

When regular rowing is given up for the winter, the upperclassmen will report at the boat house as often as possible during the week for a workout. Freshmen, on the other hand, must report three times a week as is required of them if they substitute Crew for Physical Training.

Winter practice for crew consists of regular workouts on the rowing machines. The boat house has enough machines to accommodate about three crews at once. It is in this manner that the men are able to keep in trim throughout the months when the river is not very enticing to even the hardiest of Bill Haines's crew aspirants.

are slow in getting started, all their goals this year having been scored in last periods.

Early in the season Andover beat Harvard Freshmen, Harvard Freshmen have beaten Exeter 6-1, while the Tech freshmen beat Exeter last week by a score of 2-0. If scores meant anything, Andover would be favored to beat the freshmen by about three goals. However, it is apparent that the freshmen will have to get started in the first period, as soon as the whistle is blown, if they are to make a creditable showing tomorrow. If the forward line functions in the same manner that it did in the second period of the Exeter game, Andover's best will not be too good.

Ballard Does Scoring

It rained during the second period of the Exeter game last week, but the players seemed only to be refreshed by rain and played their best game on the muddy field. Capt. Jack Ballard led the scoring, making his first tally unassisted,

(Continued on Page Four)

FRANKLIN PARK WILL BE SCENE OF MEET

(Continued from Page One)

the meet Monday have this advantage with them, and it is likely to make a difference in the final standing of the men, particularly as to the early finishers.

Saturday afternoon, the men from both the track and cross-country teams will meet on Tech Field and engage in a handicap meet. This is the third affair of this kind to be run off this year, the other two being a good deal earlier in the season. Entries for this meet were slow in starting, but in the last two days, there has been a sudden rush of men, and it now looks as though the major portion of the two teams would be on the field Saturday.

Handicap Meet Tomorrow

Events for this meet, of which there are eleven, were outlined in THE TECH of last Wednesday. They are arranged to cover every department of the sports, to give all men a good workout. Instead of running off the more usual lengths in the running events, odd distances are being featured in all of these meets, in order to give the men a broader working field. At these affairs it is the custom of the men to enter as many events as there is time for, and to develop as much skill as is possible in events other than their own specialties.

OPEN FORUM

SCABBARD AND BLADE

To the Editor of THE TECH:

This letter is to explain the change in location of the Scabbard and Blade Military Ball scheduled for this approaching Tuesday evening, and it is intended to exonerate that organization's dance committee from any responsibility which may be involved as a result of this change.

I am the Junior Member of the Walker Memorial Committee in charge of dance assignments. Acting in that capacity, I assigned the Main Hall to the Lowell Institute Organization for a dance on Tuesday, November 10. Several days later three men came into the office purporting to be from the Lowell Institute Dance Committee, requesting that their date be moved ahead to November 11, the holiday, giving the reason that classes for them were being held that night. Since the date was open, the assignment was made. Shortly afterward, the Scabbard and Blade request for the tenth was received and approved. Last Monday afternoon a call came from Professor Park saying that he has received an invitation to both dances in the same hall on the same night and wanting to know where the conflict was.

Immediately I got in touch with the Lowell Institute dance chairman, only to be informed that the cancellation was not authorized by any of his committee and that neither he nor any of his associates knew anything at all about it. That mixed us up in a beautiful mess right away, and after numerous conferences, and more numerous headaches among the parties concerned, it was found that both organizations had made complete arrangements which would not permit being cancelled or postponed and that each planned to stage an affair much too large to allow for either being transferred to the North Hall and Faculty Dining Room upstairs, and finally that the Walker Memorial Committee has been made the butt of a costly practical joke by the three men who pretended to be Lowell Institute officials. The Lowell Institute, having the prior assignment for the night, was assigned the hall, as a result of which the Scabbard and Blade has had to secure a ballroom outside the Institute.

The whole incident was most unfortunate and as the man who made the assignment and cancellation which brought on the subsequent mixup, I am willing to accept any responsibility which may be

Hockey Meeting Attracts Large Candidate Group

Captain Regan and Coach Bill Stewart Discuss New Season

Sixty-five men attended the hockey mass meeting Monday afternoon, to hear Coach Bill Stewart and Capt. Tommy Regan expound the virtues of the game of ice hockey. Both these spoke to a mass of candidates, about half of whom are out for the varsity, with the other thirty out for the yearling squad.

Regan, captain of the team this season, spoke a bit of the past season, which, incidentally, was not so successful from the point of the scores. He showed that the main weakness of last season, the goalie, would be remedied by the replacements from last year's frosh team.

He also expounded on a plan to get the players in shape before the season begins. He plans to have all the men out at the track house every day before practice begins to get themselves in shape by jogging around the track. Coach Hedlund has agreed to cooperate with the hockey players to give them pointers on running. Both varsity and freshmen are to get this early practice.

Coach Bill Stewart did his share in backing up Regan. He also spoke a bit of last season and of the prospects for the coming year. He was pleased to have a large group of men from which to pick his squad.

Practice for the varsity is expected to start sometime the latter part of next week, possibly Friday. Freshman practice does not start so early, with all probability of not starting until the first of December.

Roger Congden, the manager of the sport, spoke a bit of the incidentals concerning the squad. He announced that there was some equipment available for the players. He also told of some of the possibilities for freshman managers.

attached to the affair. It is my sincere hope that neither of the organizations concerned will suffer any loss of reputation as a result of any lack of foresight which may have been exhibited. Let me say in closing that a repetition of the affair will not occur.

Very truly yours,
(Signed) JACK T. TURNER '33.

THIRTY MEN TURN OUT FOR FRESHMAN BASKETBALL TEAM

Coach Henry P. McCarthy Will Make Cut After Drill In Gym Today

Basket ball practice got under way last Monday in the Hangar Gym with twenty freshmen out. On Wednesday this number was increased to thirty. Coach Henry P. McCarthy seemed pleased with the general calibre of the candidates, but stated that he would be forced to make a large cut this Friday in order to have room for adequate practice. Since there are only three baskets in the Gymnasium, the most that can be retained, including both varsity and freshmen, is about thirty.

The freshman schedule consists of twelve games, the last of which, with Dummer Academy, will probably be dropped from the schedule owing to a lack of funds. Another game has already been cancelled. The schedule follows:

Sat., Dec. 12	Wentworth	Home
Tues., Dec. 15	Rhode Island	Away
Sat., Dec. 19	Harvard	Away
Sat., Jan. 9	Dean	Away
Wed., Jan. 13	Boston Boys' Club	Home
Sat., Jan. 16	Brown	Home
Wed., Feb. 17	Andover	Away
Sat., Feb. 20	Taber	Away
Wed., Feb. 24	Worcester	Away
Sat., Feb. 27	Tilton	Home
Wed., March 2	Tufts	Away
Sat., March 5	Dummer	Away

GIRLS Do Not Smoke Pipes

THE GIRLS haven't left us many of our masculine rights. They fly our airplanes, drive our cars, smoke our cigarettes — but they don't smoke our pipes! They've left us this one manly right, anyway.

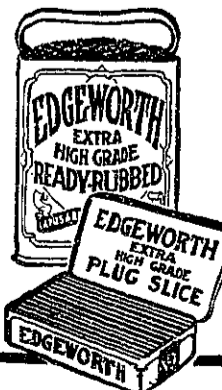

You'll never see her smoking a pipe.

A man almost has to smoke a pipe nowadays. A pleasant necessity! For a pipe filled with good tobacco is just about the best smoke a man could want.

And if you're troubled about selecting a tobacco, remember that Edgeworth is the popular favorite in 42 out of 54 colleges. It somehow seems to fit the college man's taste. Edgeworth is cut especially for pipes, it burns slowly, it gives a cool smoke. You can buy Edgeworth wherever good tobacco is sold. Or, for a special sample packet, write to Larus & Bro. Co., 100 S. 22d St., Richmond, Va.

EDGEWORTH SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive and exclusive elevation process. Buy Edgeworth anywhere in two forms — Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ pocket package to \$1.50 pound humidior tin.

VOO DOO WILL BE ON THE STANDS MONDAY

"Faculty Issue" Promises Many Interesting Remarks

Voo Doo's widely discussed and much publicized "Faculty Issue" will be on the stands for undergraduate consumption next Monday. Promising a real live issue, with lots and lots of "hot stuff" on the professors, a member of the Voo Doo staff told this reporter last night that he seriously believed the latest offering to be the best yet.

The cover is so good in the opinion of the staff that they refused even to describe it, much less exhibit an actual copy thereof. Beneath this masterpiece of art and humor, the avid reader will find much to soothe his "Professorial Complex." The editorial page will carry a short, sincere article on the late Chairman's death, and will be faced by a full-page picture of Dr. Stratton. Aside from this, there is nothing between the covers which will ever give any member of the staff a reputation for serious thought.

What makes China seem so uncivilized to us is the fact that she carries on her wars without borrowing from other countries.

T.C.A. DRIVE

Students who have not been asked to contribute to the T.C.A. Drive and would like to contribute, may do so at the T.C.A. office or at the table in the main lobby.

THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY

CAMBRIDGE

THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY offers Courses in Engineering and Science, each of four years' duration, leading to the degree of Bachelor of Science in:

- Aeronautical Engineering
- Architectural Engineering
- Biology and Public Health
- Building Construction
- Chemical Engineering
- Chemical Engineering Practice
- Chemistry
- Civil Engineering
- Electrical Engineering
- Electrochemical Engineering
- Engineering Administration
- General Science
- General Engineering
- Industrial Biology
- Mathematics
- Mechanical Engineering
- Metallurgy
- Military Engineering
- Mineral Engineering
- Naval Architecture and Marine Engineering
- Physics
- Sanitary and Municipal Engineering

The Course in Architecture is of five years' duration, and leads to the degree of Bachelor in Architecture. Five-year Cooperative Courses in Electrical Engineering and Railroad Operation leading to the degrees of Bachelor of Science and Master of Science are also offered.

Graduate Courses leading to the degrees of Master of Science, Master of Architecture, Doctor of Philosophy, Doctor of Science, and Doctor of Public Health are offered. The Courses leading to the degree of Master of Science include Cooperative Courses in Chemical Engineering Practice and Fuel and Gas Engineering.

The better high schools and other preparatory schools in the United States offer adequate preparation for the required entrance examinations given by the College Entrance Examination Board in June, or by the Institute in September.

Graduates of colleges or scientific schools of collegiate grade, and in general all applicants presenting satisfactory certificates showing work done at another college corresponding approximately to at least one year's work at the Institute, are admitted to such advanced standing as is warranted by their previous training, and are given credit for our required subjects, including the entrance requirements, so far as they have been satisfactorily completed.

The Summer Session extending from June to September includes most of the subjects given during the academic year and in addition special courses for teachers.

Any of the following publications will be sent free upon request:

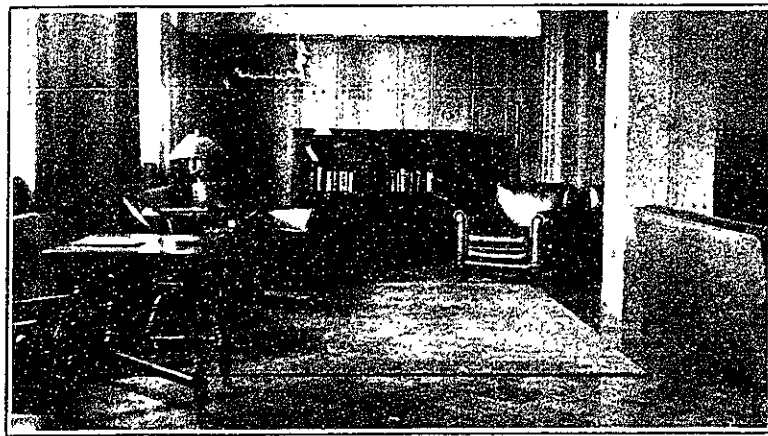

- Catalogue for the Academic Year (which includes the admission requirements).
- Summer Session Catalogue.
- Graduate Study and Research.
