Try a fresh Cigarette!

THAT LITTLE STRUGGLING down in the end of the day's work and the cigarette is a cause of the day's work and the cigarette is the cause of the day's work.

It looms large in their lives

The telephone has a big place in the daily lives of most people today, but its place will be even bigger tomorrow.

Its importance has been fostered by the work of men in all phases of the telephone business and no little part has been taken by those engaged in selling. They have helped to effect an increase of more than three and a half million Bell telephones in the last five years. In the same period they have been instrumental in making the public realize the telephone's usefulness. Results: an increase from 4,000,000 calls per day to 6,000,000.

Men with a leaning toward sales promotion will always play an important part in Bell System growth.
