New Members admitted to Student Ruling Body Installed

Dean Lobdell, congratulated the Old Institute Committee on its work.

COMMITTEES ARE NAMED

New members were installed and the old members were re-elected at the special meeting of the Institute Committee, which was held in the President's room last Monday afternoon.

The business of the committee was concluded with the election of a new executive committee to replace the old one, which served for the past two years.

President Karl T. Compton, in charge of the Institute Committee, said:

"I congratulate the new members of the Institute Committee and wish them success in their work. The committee has been very active and has accomplished much in the past two years. I am sure that the new members will continue this work and that the institution will benefit by their efforts."

Elections for the vacant offices of the committee were held, and Thomas B. Shilling '34, now the third vice-president, was elected president, Eugene A. Hall, '33, secretary, and Richard L. Hall, '32, treasurer.

Dean Lobdell Speaks to Committee

Dean Hobart D. Lobdell gave the farewell address to the departing members of the committee, congratulating them on the work and urging the new members to continue the good work.

He said that during his lifetime they had served the school admirably, and that he had had the pleasure of working with each of them. He wished them success in their new duties.

"I congratulate the new members of the committee and wish them success in their work," he said. "I have had the pleasure of working with each of you, and I am sure that you will continue the good work of your predecessors."

The meeting was adjourned at the request of the chairman of the Institute Committee.

TRACK MEN MEET TWO SATURDAYS

New Members Elected To Govern Benchmark

Recently the men who will guide the student government of the Carnegie Institute of Technology were elected. The new officers are President William S. Hapgood '33, General Secretary, Richard L. Hall, '32, Business Manager; Nathaniel J. Williams, '33, Treasurer; John G. Bowman, '33, Circulation Manager; Frank L. Bursley '33, Jr., Advertising Manager; and John G. Miller, '33, Photographer Manager.

The "Benchmark" is the paper put out by the Civil Engineering Summer Camp.

One Fifth of Institute Members Relinquish Religion

According to the religious survey made by T. C. O. C. this year the number of students who gave up their religious affiliations was surprising. It was estimated that the number of members who gave up their affiliations was about 12 per cent.

When the business of the committee was concluded, the president called the attention of the members to the fact that the Institute Committee had been given the responsibility of the maintenance of the old organization, and therefore the new organization.

In conclusion, the president expressed his appreciation of the work done by the old members of the committee and wished the new members success in their work.

Spring Weather Brings Pandemonium to Dorms

An annual habit which is carried on by the fifth floor of Wheaton returned to its usual activity, challenging the indolent missing. After a diligent search, the willful dormitory members found them in the town beneath his window. Two other wheatonians found not the indolent missing, but the unused frame gone. The lost, or perhaps unused, members were found resting sides by side in an unused room in 95.

Still another dorm man, whose name is not the first, carried on the same manner as those before them. He became fully aware that his frame had been dug up during the week by the indolent missing. He decided that the best way to have his frame back was to have it put in through one window and find it put back in the right place. The indolent, however, was cleverly outwitted, and the search was in vain.

In her last meeting,主力军 was badly shaken by the loss of an individual star, who made good attempts to prove that a dorm man is not infallible. A month man from raising up a big store against him, the主力军 man has run the 180 in 10.9 seconds on one occasion. Being a 300-pound man, he undoubtedly inveigled the institute spirit into the dormitory.

MEN TO CLAIRE VAILLENCE

Final Issue of T. E. N.

The final issue of T. E. N. will be published on Wednesday, May 10, at 9 o'clock. The subscription price is $1.00 per year. Subscriptions may be had at the office of the magazine, 222 Pitman Hall, or through the departmental officers.

Summary of the game:

"The T. E. N. Freshman lacrosse team held a lead at the end of the first half, which was made a property of the Tech team this year. The Tech team won the final period by 9-1, and this was their second victory in three attempts. The next game will be played on Tuesday, April 30, at 3 p.m."

Richards Cup Race Lineups

The final game in the Richards Cup series will be played on Saturday, June 3, at 3 p.m. at the Carnegie Institute of Technology. The teams will be

NEW VOICES

All that is typical of the Institute's student power and government policy is found in the installation of the new Institute Committee, its Executive Committee, and its officers at the meeting yesterday afternoon. The changing of the po"wes which guard and instruct student affairs carries with it a sense of change, of some new blood, new methods of approach to the gravest student problems, and new stimulants to effective and active action.

Not only the retiring committee has in any way neglected to carry out to its utmost capabilities the purposes and powers which vested in it a large time ago upon the general conduct of this particular group. In no way have we altered our opinion. However, it is ours which are vested in this body. Wae commented forcibly some time ago upon the general conduct of this particular group.

Robert E. Naumberg '16, Inventor of Machine to Aid Blind in Reading

Robert E. Naumberg '16, Inventor of Machine to Aid Blind in Reading

With the new buildings under construction and plans being made for further additions to the Institute plant it will soon be necessary for the Soapstone students who are parking cars behind the Riverbank Court Hotel, much to the discomfiture of the proprietor, and in the small lot next to the Library Annex. Walker Memorial and Building 2 there is ample space for a number of cars, but the question of location has been brought to the Institute's grounds at that point.

NEW PARKING?

A Y day during the week one hour may see the rear of the old school, the Electrical Engineering and Building 2 a large enough number of automobiles to indicate that Technology has long been car-minded. Yet, with each increase in the number of cars there is a corresponding decrease in the space available for parking. How soon may we expect the situation to reach the saturation point?

With an eye to correct the condition, some time ago Major Smith marked out special sections for parking space available only to "Faculty members and members of the Staff." Now and again the complaint is voiced that the student body is usurping this space. However, an investigation will show as many Faculty members in the space allowed to those who are in their space is occupied, but more probably because the total space is deplorably small.

New Hampshire Predicted an Easy Win as Much as a Week in Advance

Freshmen Should do Well

The New Hampshire team will have to earn its reputation as soon as it is ready to work in equal to the efforts of the Tradition. The present team is a well-trained team. It is a well-trained team.

In the west, Max Wingert and his friends will meet Temple of New Hampshire. Tompkins has been running in the slot in as far back as we can remember. He is a tall, lean fellow, and will give any team something in the way of a solid defense. He is a good runner in the backfield, and a wonderful back in the middle of the line, where he can use his speed and strength to the best possible advantage.

MOVIES OF BUILDING CONSTRUCTION SHOWN

Recent pictures showing the making of a building will be shown for the benefit of all. They will be shown at the beginning of the meeting, and will be continued throughout the evening.

8:00 P.M., Alpha Phi Delta business meeting, Faculty Dining Room, Walker Memorial.

UNDERGRADUATE NOTICE

All Graduate students having examinations scheduled later than Friday, June 1, and All Seniors having examinations scheduled later than "Thursday, A. M., June 1, should apply for special examinations on the required forms, signed by the instructor, and return to the Office of Registration, sometime prior to the last day of the week in which the special examination is to be given. Please note that a special examination is not given when the student has been given an "F" mark. The instructor who grants a special examination will be notified of the student's repeating the course at the beginning of the next term. No special examination will be given to a student of the Class of 1930 who has not taken the examination for graduation.

NOTICE

Seniors desiring a photograph of their complete academic records at the institution should go to the Records Office, Rooms 3-148 and 3-149, for a check of your record. The cost is 25 cents. If you wish your photograph taken prior to graduation, your photograph will be taken during the Senior Assembly on Tuesday, May 19.

November 27, 1926.
