

FRESHMEN SWAMP NORTHEASTERN U. IN CLOSING MEET

Win Ten First Places To Score
91-35—Reamore, Wrigley
Make Spectacular Marks

ANNOUNCE MEN IN N. E.'S

Northeastern fell an easy prey to the Beaver freshman track team last Wednesday, when they were defeated by the Institute men, 91 to 35. Ten of the possible fourteen first places were taken by the Engineers, one of them being the now familiar tie between Hall and Mann in the mile.

Crosby and Lockhart started the winning by capturing first and second, respectively, in the high hurdles. Bell and Holladay entered the century dash and took first and third. A wind was against the men in all the dashes and hurdle races, and this cut down their chances of making better times than they did.

Mann and Hall Tie in Mile

Mann and Hall, again together in the mile, came in a finish that was declared a dead heat. They were about twenty yards ahead of the nearest runner, a man from Northeastern, and were able to take the last part of the race easily.

J. G. Smith ran the quarter, instead of the half, which is his usual race and won it by a slight edge over Schwarz, whose duty is usually to lead the Institute field in the quarter. These two men were yards ahead of the nearest Northeastern runner at the finish.

First and Second in Lows

Charlie Hill and Lockhart pulled way ahead of the rest of the low hurdle field and took their first and second without any great difficulty. Charlie Hill, after tying Mann for first in the mile, ran a close second to Stanley, of Northeastern, in the half mile, and lead Barrett by a few yards.

The 220 dash was won by Bell, who fought his way to about half way, and held the lead until the finish. Lockhart followed him in to give Technology second as well. Tomlinson and Walker were able to carry the high jump above the best efforts of Northeastern, and won first and second.

Millbrandt Takes Three Firsts

Millbrandt saved the day as far as Northeastern was concerned with his three firsts in the weights, beating the Engineers in the shot, the discus, and the javelin. Rimbach and Pratt surpassed by far the best that Northeastern produced in the hammer throw, and Wrigley and Allen did the same in the broad jump. Wrigley making the record mark of twenty-two feet.

Reamore won the pole vault by clearing ten feet nine inches and barely missed setting a new freshman record when he pushed the bar off at eleven feet.

(Continued on Page Three)

INSTITUTE COMMITTEE HOLDS FINAL MEETING

J. C. Noyes Selected Manager Of All Tech Smoker

At the last meeting for this term of the Institute Committee, held yesterday in the West Lounge of Walker Memorial, Joseph C. Noyes, Jr. '33, was appointed chairman and general manager of the All Technology Smoker Committee. The manager of track has been given the power to control Field Day in the future. All the work has previously been done by him so the position of Field Day Manager was given to him.

Eating in Lockers Questioned

Besides being uncomfortable, the eating of lunches in the locker rooms is becoming unhealthful, and a committee was appointed with Noyes again chairman to look into the advisability of a lunchroom in the basement of the Institute.

Following the old custom of printing the names of the absent and late members of the committee the names are here listed: Absent without proxy, Henry D. Humphries '34, Richard Bell '34, Thomas B. Rhines '32, Arthur N. Rinehimer '32, Edward D. Stevens, Jr. '32, and Frederick M. Moss '32. Late: Charles M. Thayer '32, Charles C. Bell '33, and Robert M. Emery '34.

Seniors Will Hear Talk by Dr. Rowe At Class Day Fete

Exercises In Walker Memorial
To Be Followed By Free
Tea Dance

Dr. Allan W. Rowe '01 will be the principal speaker at the Class Day exercises of the class of 1931 which will be held in the Main Hall of Walker Memorial on June 8, the day before graduation. The program will start at 3:00 o'clock and will be followed by the senior tea dance which will be free to the members of the senior class and their friends.

Horace S. Ford, Jr., will welcome the guests for the senior class after which a ring will be presented by Harold P. Champlain, the president of the retiring senior class to the leader of the incoming seniors, Donald B. Gilman.

Gifts Presented by Spruill and Dickinson

Theodore B. Spruill and Warren T. Dickinson will present to the Institute the gifts of the departing class which will be disclosed at that time. Following these formal talks there will be a snappy interlude taking all the high mucky-mucks of the senior class for one huge ride, bringing out all their true and false weak points. Dr. Rowe will give the address of the afternoon and the festivities will continue with a dance in the Main Hall.

Fun and relaxation after the stiff week of exams will start with the annual picnic to Harbor Island on Thursday afternoon, June 4. This will be followed by the Banquet on Friday night which will be held in the University Club with Robert E. Rogers of the English Department the speaker. President Karl T. Compton, Dr. Samuel W. Stratton, and Orville B. Dennison will be the guests of the evening. Songs and cheers mixed in with "Obie's" well known entertainment will live up the program.

Prom at Copley Plaza

At the Copley Plaza on Commencement night after the exercises are completed to finish up the year with one big celebration the Senior Prom will take place. Elaborate plans are being made and all those graduating are urged to take advantage of the opportunity.

The prices for the various events are: Blanket Ticket \$19.00; Combination \$9.00; Separate Tickets, Booklet, \$1.25; Banquet, \$3.00; Picnic, \$3.25; Pops Concert, \$1.50; Prom, \$12.00.

BILL JONES LOSES IN SEMI-FINAL PLAY

Finally the Massachusetts weather left off the rain long enough that the tennis teams were able to get in a match. Two Varsity matches and several freshman matches have had to be called off the past two weeks on account of the weather. The Varsity match with Harvard was the principal meet omitted.

In the New England Intercollegiate, Bill Jones, number two ranking of the Varsity squad, advanced as far as the semifinals. He was defeated only by four hard long sets in the semifinal match.

Wednesday afternoon the Freshmen tennis squad swamped the Boston College yearlings by a 7-1 score, the only loss being incurred by Charley Feuchter in a long match. Other members of the team did not have a great deal of difficulty in disposing of their opponents.

M. I. T. Crews Entered In Quadrangular Race

M. I. T. crews entered in the race tomorrow at Cornell:

VARSITY

Bow, Capt. McLeod; 2, Binner; 3, Miller; 4, Valentine; 5, Bennett; 6, Evans; 7, Glenn; stroke, Richardson; Cox, Whitaker.

JUNIOR VARSITY

Bow, Theiler; 2, Bearce; 3, Birdsell; 4, Regan; 5, Ayres; 6, Hapgood; 7, Pleasants. Stroke, Cummings; Cox, Dunlap.

FRESHMAN

Bow, Wing; 2, Bromley, 3, Murdoch; 4, Jerome; 5, Lucke; 6, Mowatt; 7, Lowenstein. Stroke, Westfall; Cox, Humphries.

Walker Committee Room Is Den for Card Sharks

Extra! Extra! Scandal in our midst. Walker Memorial Committee Room has lost the prestige of being a place filled with perspiring men unselfishly laboring for the best interests of the building, and is now being used as a hangout for card sharks. Late Thursday afternoon the door was found locked and even blocked by chairs as a heated session of bridge was in progress. Even our sometimes witty Phosphorus has never been able to visualize such a degradation of student positions.

STARRETT STRESSES CONSTRUCTION TREND

Organized Forethought is Now
Essence of Building

"There is one phrase that contains the essence of the construction of the modern skyscraper, and that phrase is 'organized forethought'," said Col. William A. Starrett, builder of the Empire State Building, in a lecture given Wednesday before a capacity audience.

"Preassembled units are gaining more and more importance in modern construction, but this is only a feature of the previously mentioned organized forethought." More and more are we using parts that are assembled in plants and come to the job to be placed in position and fastened to the building.

Building Profession

As this tendency to use preassembled units becomes more important, the work of organizing for the manufacture of the parts and of co-ordinating the production and delivery of the separate parts becomes an increasingly important part of the work of the builder. In view of this tendency for the work of builders to become one of management Col. Starrett gave his idea of the probable trend of the construction industry.

"My opinion is that building is on its way to become a profession and not a vocation. The men of managerial and professional ability will not let it remain a trade. Management has come to the fore in construction activity."

Visited Course XVII

While at the Institute, Col. Starrett was the guest of the Department of Building Construction. He spoke to the large audience in 10-250 at 2 o'clock and to students in Course XVII immediately after. Later he participated in a conference of the instructing staff of the department and a student committee.

SOPHOMORES RESCUE LEAD WITH VICTORY

Defeat Freshmen 4-3 To Take
First Place in Baseball

Again the Sophomores took the lead in the Interclass baseball league Wednesday afternoon, defeating the freshman nine 4-3 on the Coop diamond. The game was only five innings, and it was won in the last of the fifth.

Although they outhit the victors 7 to 5, and had three men on base every inning of the five, the first year men were unable to come through in the pinches. Coon, who did the hurrying for '33 was unbeatable in the tight spots.

Three Runs in First

Three runs were scored in the first by '33 on one hit by Newman. The freshman scored once in the third on hits by Sayles and Schneck, and twice in the fourth to tie it up on three successive hits by Emond, Cary and Sayles.

Going into the last of the fifth with the score tied at three all, Amenta drew a base on balls, and Wall followed with a single that brought Amenta around to third, where he scored after a fly out to the right fielder by Wehmiller.

Sophomores Again Lead

This win put the Sophomores back in undisputed first place with a record of three victories and one loss, after having gone into a tie with the Seniors Monday when they lost to '31. The game scheduled for yesterday between the Seniors and Juniors was called off because of the rain. Tomorrow, the Sophomores meet the Seniors in the deciding game of the year.

WILBUR, SECRETARY OF INTERIOR, WILL SPEAK COMMENCEMENT DAY

Manager of Track
Appoints New Men
For Coming Year

Captain Declares Prospects
For New England Meet
Very Bright

At the track banquet held last Tuesday night at Warmuth's on Devonshire street announcement was made of the appointment of Richard L. Fosssett '33, as Track Manager and Richard S. Morse '33 as Cross-Country manager for the coming year. The Sophomore assistant track managers will be William Sample Jr. '34, and A. Edward Webber '34.

For next year the track manager is the Vice President of the Junior Class. He is a member of the Beaver Club, the Beaver Key Society, the Radio Society, is in Course VI, makes his home in Albany, and is a member of the Delta Upsilon fraternity.

Morse Former Athlete

The manager of Cross-Country is a member of the Beaver Club, the Beaver Key Society, the Radio Society, is in Course VI, and makes his home in Worcester. A pole vaulter on the freshman track team during his freshman year, he also ran on the Field Day Relay Teams in his freshman and Sophomore years at the Institute.

About seventy people were present at the banquet, which started at nearly 6:30 o'clock with Peter H. Kirwin '28, former captain of cross-country, acting as toastmaster. "Doc" Johnson, trainer of the team, spoke for some minutes, stressing the importance of keeping in training. "Bob" Bowie, field coach, spoke next.

Grondal Speaks

Bror Grondal Jr. '31, captain of the 1931 track team and holder of the Technology shotput record was then introduced and spoke about the prospects of the team for the New England meet Friday and Saturday and then presented interclass meet cups and medals and numeral awards for the past season.

As the last speaker Coach Hedlund extended his best wishes to the graduates, commended the freshmen for their fine work this year, and expressed the hope that all those at school next year would come out for track. He cordially invited those who were graduating to come back and renew their acquaintance with the track house as often as possible.

GERMESHAUSEN WINS STUDENT PAPER PRIZE

Kenneth J. Germeshausen '31, was awarded the prize for the best student paper in the A. I. E. E. competition with his paper, "Illumination and Color". The subject matter, the mode of presentation and the ability to answer questions were the basis of the judgment and it was an extremely difficult task for the judges, Professors Dugal C. Jackson, William H. Timbie and Mr. Harold L. Hazen, to decide. The prize is twenty dollars.

Ohio Paper Gives Gory Details of Tech Riot

Losing nothing in the telling, the story of the Tech riot of Sunday Night has spread far and wide over the nation. As usual, it was wonderfully exaggerated. In fact, a college riot can take second place to nothing else but a sensational murder in the columns of a newspaper when it comes to publicity. We quote snatches from a Lorraine, Ohio, paper. To start with, they showed their crass disregard for our feelings by calling us a "University". Then they said that we kidnapped four. Several thousand dollars' worth of damage, they charged, was done by us. The police "powerless to halt the proceedings." All sorts of things made up those bonfires, such as "shrubbery, beds, mattresses, desks, chairs, tables, pillows, and other dormitory fixtures." First thing we know, we'll be making the world think that we're regular Joe Colleges!

EVENTS OF SENIOR WEEK WILL BEGIN ON JUNE FOURTH

Hon. Ray Lyman Wilbur Will
Address Graduates at
Symphony Hall

EXERCISES ON JUNE 9TH

The Hon. Ray Lyman Wilbur, Secretary of the Interior, will make the commencement address at the sixty-fourth graduation exercises of the Institute at Symphony Hall on June 9, it was announced today.

Col. Alexander Macomber of the class of 1907 will be the chief marshal at the commencement ceremony. The Class of 1881, the Fifty Year Class, will have a place of honor in the academic procession, and Dr. Samuel C. Prescott, chairman of the faculty, has been chosen as marshal of this class. Mr. Walter Humphreys, '97, secretary of the corporation, will be marshal of the corporation, and Professor George E. Russell '00, will lead the faculty.

Professor Eames Appointed Marshal

Professor J. J. Eames '02, will be the faculty marshal of the graduates, and the marshals of the Class of 1931 will be Horace S. Ford, Jr. of Brookline; Oscar G. Goodhand, New Rochelle, N. Y.; and Robert T. Leadbetter, Augusta, Me. Harold P. Champlain of Holliston, president of the class, will march at the head of the long procession of seniors.

Recipients of the doctor's degree will have as their marshal, Dr. Harry M. Goodwin '90, dean of graduate students, and the marshal of the recipients of the master's and bachelor's degree will be Professor A. L. Merrill '85, secretary of the faculty. Mr. Richard H. Frazier '23, has been chosen marshal of the audience. Presentation of degrees and the announcement of fellowships and prizes will be made by President Karl T. Compton, and Dr. Samuel W. Stratton, chairman of the corporation, will address the graduates.

Activities Begin June 4

Senior Week activities at the Institute will be opened with the class picnic on June 4. The dinner of the graduating class will be held on June 5, and on the following evening there will be a special Technology Pops concert at Symphony Hall. The Baccalaureate sermon will be given by the Rev. R. H. Stafford of the Old South Church in Boylston Street at 4 o'clock on Sunday afternoon, June 7. The seniors will meet at Rogers Building and march in cap and gown to the church. Class Day will be held on Monday, June 8, and following graduation on June 9, the Senior Prom, the last event of Senior Week, will be held at the Copley Plaza in the evening.

Arrangements for commencement are in charge of a committee composed of Professor Ralph G. Hudson '07, chairman, Professor J. W. M. Bunker, Col. Robert C. Eddy, and Professor E. F. Langley, who represent the faculty. The alumni members are Col. Alexander Macomber and Mr. Bradley Dewey, president of the alumni association. The undergraduate members are H. P. Champlain, president of the class, Oscar G. Goodhand, and Horace S. Ford, Jr.

ONE LENGTH OF FIRE HOSE NOT YET FOUND

Following a recount made by the fire department yesterday, it was announced that one length of fire hose is still to be found. A thorough search by certain members of the dormitories has failed to reveal its whereabouts. Certain participants in Sunday night's riot have expressed the opinion that it is probably in one of the chimneys or incinerators and further search will be carried on. In the meantime the Dormitory Committee continues to request that anyone knowing the whereabouts of the lost hose, report to them. The hose is valued at over a dollar a foot.

QUICK LUNCH

ALTHOUGH no definite action has as yet been taken, the Institute Committee made a gesture yesterday afternoon in a direction which has long been ignored,—the establishing of some center where those men who deign to carry lunches to school may comfortably eat them. Agitation toward providing such a center has been practically unknown in the past, primarily because it was generally believed that the men were more than contented to eat in locker rooms. Obviously, the condition should be remedied, and as soon as possible.

There are two reasons why an eating center should be established. The first, naturally enough, is to provide more comfortable and more sanitary surroundings, and the second, to bring these men into closer contact with Institute affairs. As it is, we feel that the best interests of a rather large portion of the undergraduate body are being neglected.

Where to locate this center, and then how to make it so pleasing that these men will want to use the facilities provided are questions hard to answer. With the crowded conditions in every section of the Institute plant, there is presented the extremely difficult task of selecting some point, centralized, yet somewhat separated from classes and laboratories, where a lunch room would be most appreciated. The possibilities are rare, but with the co-operation of the proper authorities, we may expect such a center, either in the buildings themselves, or, more appropriately, in Walker Memorial.

The Institute Committee has vested in its president, Donald B. Gilman '32, the power to appoint a sub-committee to investigate this need and to attempt, where possible, to make advances in acquiring the necessary space. We would especially urge the selection of conscientious men for this committee, the matter is of such extreme importance. Certainly no effort should be spared in carrying out the purposes for which the group is to be appointed. This done, we may expect that sometime in the fall the present "locker room eating clubs" will be disbanded, and that they will be replaced by a clean lunch room, equipped with adequate facilities.

SOMETHING FOR NOTHING

MODERN science has a habit of undermining ancient proverbs and destroying their value. No longer is it impossible to make a silk purse from a sow's ear, yet there are some old sayings which hold equally as well now as when they originated.

"There is no royal road to knowledge" claimed the ancients, and the statement still holds true. A flood of popular magazines and books is endeavoring to keep the public abreast with the latest advances in the fields of science and thought and to cultivate the masses without causing them too much discomfort in the process.

When the true explanation of a subject is too intricate it is the custom to resort to mechanical analogies for subjects which are physically impossible of interpretation in this manner, or, what is worse, to simplify to such an extent that wrong impressions are given.

Durant's "Story of Philosophy," Bertrand Russel's "ABC of Relativity" are all very well and good as far as they go, but they do not go far enough. What can be said for a volume which can discuss and dismiss, in a few hundred pages, all the great philosophers of the ages? How can one possibly hope to explain Einstein's theories without the use of higher mathematics and very little mathematics of any other kind? The persons who read such books are generally ignorant of the subject discussed, gain a half-knowledge, and are prevented from reading other books on the same subject because they are so much more difficult than the popularized treatment.

This is a plea for the "dull as ditch water" type of book, the unemotional, uninteresting hard-to-read, authoritative volume which really does justice to its subject. It is only by the diligent study of such material that one can gain a true understanding of a difficult subject. One cannot get something for nothing.

Intercollegiates

Freshman elections at Purdue University were called off by the Student Council, when it was found that 180 votes had been cast by the 132 frosh who were present. The quasi-elected candidates expressed rather strong opinions of the Student Council, but declared themselves agreeable to another election.

Believing that the five-day week is just as important an innovation in college life as it is in industry, The Red and Black, undergraduate newspaper at the University of Georgia, has started agitation editorially to keep Saturdays free from classes.

A male beauty parade is a quaint little custom that comes off on Campus Day at Oregon University.

One thousand students at the University of Denver attended the largest picnic ever given by the university. At this affair a student committee leases an amusement park for one afternoon and night. Students pay a nominal fee of twenty-five cents to enjoy dancing, lunching and an afternoon from school.

ENTRIES IN N.E.I.A.A. LEAVE FOR LEWISTON

(Continued from Page One)
 collegiates have been announced by the manager, and they will leave this morning at shortly after nine o'clock, for Lewiston, Maine, at Bates College, where the meet is to be held. Twelve Varsity men will make the trip, and four from the freshman team. The competition will cover both Friday and Saturday, the finals in most events being held over till Saturday. Allbright, Gilman, and Mulliken will be the only middle distance men going, as Bill Hall, Johnny Jewett, and some others are not able to take the time from classes. Pierce, Coon and Benjamin will all enter the high jump, Coon also being slated for the high hurdles with Ross, who has been bettering his time constantly. The field events will find Robertson in the javelin, Captain Bror Grondal in the shot and the discus, Moody in the hammer, and Hazeltine in the pole vault. Each of these men has made a creditable record in his event during the season, and may be predicted as a possible scorer.

Fraternity Rushing of mid-year freshmen at Brooklyn Polytechnic Institute has been discontinued.

One of the disturbing questions discussed at the recent conference of deans of men was the fact that college men were becoming owners of an increasing number of airplanes so fast that they would soon have to be regulated the same as automobile-owners on the campus.

On his recent trip through the Southwest in behalf of the drought-stricken farmers, Will Rogers stopped for lunch with a fraternity at Oklahoma State College. Will had previously requested bacon and beans, so the menu was a constant round of cornbread, beans and bacon.

The Interfraternity Council at Alabama Polytechnic Institute had decided to send each prospective freshman, before he enters college, a booklet giving a brief history of the fraternities in the council, their officers, and the relative expenses of belonging to them.

Smoke a FRESH Cigarette

JUST as the proof of the pudding is the eating, so is the proof of a cigarette in the smoking.

And millions of men and women are now discovering a brand new enjoyment since Camels adopted the new Humidor Pack.

The mildness and the flavor of fine tobacco vanish when scorching or evaporation steals the natural moisture out of a cigarette.

Now, thanks to the new Humidor Pack, which keeps the dust and germs out and keeps the flavor in, Camels, wherever you find them, are always factory-fresh and in perfect mild condition.

Air-sealed in Camel's moisture-proof Cellophane is all the goodness of finest Turkish and mellow Domestic tobacco expertly blended.

No harsh, dried tobacco to burn the throat. No peppery dust to sting delicate membrane — just the cool mild aroma of fine tobacco, properly conditioned.

Camel smokers have already discovered that their favorite cigarette is better now than ever before.

If you haven't smoked a Camel recently, switch over for just one day, then quit them, if you can.

Smoke a fresh cigarette

CAMELS

It is the mark of a considerate hostess, by means of the Humidor Pack, to "Serve a fresh cigarette." Buy Camels by the carton—this cigarette will remain fresh in your home and office

OFFICIAL BULLETINS OF GENERAL INTEREST

Building Construction Mr. Thomas F. McSweeney '16
Monday, May 25, 10 A. M., Room 1-134

A course of illustrated lectures on "The History of the Art of Building" is being given under the auspices of the Department of Building Construction during the second term by Mr. McSweeney '16. Open to students and members of the instructing staff.

Welding Mr. Peter P. Alexander
Monday, May 25, 4.00 P. M., Room 4-156

A series of lectures on "The Metallurgy of Welding and Its Industrial Application" is being given during the second term under the auspices of the Department of Mining Metallurgy, by Mr. Alexander, Research Engineer, Thomson Research Laboratory, General Electric Company. Open to students and members of the instructing staff.

UNDERGRADUATE

NOTICE

Seniors desiring a photostat copy of their complete scholastic records at the Institute should make application at the Records Office, Room 3-106. There is a charge of \$1.00 for each photostat. Photostats will be mailed about July 1st.

Students taking advantage of spring weather to cut classes and study unassigned courses raised a parking problem along the river bank at the University of Minnesota.

New York University and the Catholic University of Washington have established an air law academy, which will make possible the research and study of aeronautical and radio law.

Dr. Walter Janes, geologist, tells us that women of today are no different than those of ten thousand years ago. Of six hundred ancient skeletons dug up in Alabama, all the women had their mouths open; those of the men were shut.

The dean of women at the University of Minnesota has proposed a time clock for co-eds going out on dates. Space would be left on the card to place the name of the fellow, the occasion, and other desired information.

Green caps will be seen no more and sophomores will no longer torment their first year rivals at Ohio University by virtue of new laws passed by the Junior-Senior Governing Board.

PROF. HARDY LEAVES FOR MEETING IN WEST

Society of Motion Picture Engineers Convenes

Professor Arthur C. Hardy of the Department of Physics left last night on a two weeks trip to California where he will attend the Hollywood meeting of the Society of Motion Picture Engineers. Professor Hardy is chairman of the Standards Committee which has been at work for two years on the problem of fixing a new width for standard motion picture film.

With the advent of sound film, the old 35 mm. width has proved unsatisfactory in the larger theatres because the utilization of a portion of the film for the sound track reduces the amount of film available for the picture area, and therefore, requires an undesirably high magnification in projection. The new width with which the Committee has been experimenting provides for a sound track of adequate width and a picture of more satisfactory proportions than the old 35 mm. film, but can be used interchangeably with 35 mm. film in existing projectors during the transition period.

One of the entrance requirements at Princeton in 1748 was an oral examination in the classics given by the President of the institution.

A professor at Western Reserve University has recently announced that all those who wish to take his snap courses would ease matters considerably if they would sign up for them early.

A psychology professor at Colgate University is requiring his pupils to sleep in class so that he may determine the most effective pitch for the alarm clock bell.

At Swarthmore College they really take their May day seriously. This year's ceremony started at six in the morning and reports have it that there was a good student attendance.

George Washington University continues to present each registered student with two automobile stickers.

The Carnegie Tech Tartan reserves a special column in each issue for "clan" news. Clans are the university designation for alumni clubs. There are men's and women's clans alike.

Senior men students at the University of Denver have recently started a mustache growing contest which will be awarded to the man who grows the lengthiest herbage on his lip. Two bars of shaving soap and a tube of shaving cream are second and third prizes respectively. Coincident with this announcement comes one to the effect that all the senior women at the school were immediately cast into depths of gloom.

Biology students at a mid-western college recently received a specimen of a "sacred African lily." Not being acquainted with its properties they left it open over night. The lily was found to emit hydrogen sulphide odors constantly, and in large volumes. The students believe that this sacred flower will soon become a fixture in chemistry labs in order to produce that atmosphere.

Students aren't the only ones who are arrested these days. Even the president of a large eastern college was recently taken up for improper parking of his car.

McGill University now offers a course in Chinese language and culture.

Half the co-eds at Purdue University are enrolled in intermural athletics.

WHERE

Can the reader who is fond of Sport find better pages of Sporting News than those which are printed every evening in the Boston Transcript? Where can he find later Sporting News, more Sporting News, better written Sporting News, better illustrations of Sporting News than in the Sporting News Pages printed every evening in the Boston Transcript

The answer by those who follow Sports, who know something of what is to be found in other papers is—

NOWHERE

College Men's Suits and Dress Clothes

We want you to see our new clothes for College men—to see the distinctive new Scott & Company models—the fine imported and domestic fabrics—the exclusive patterns and colors.

336 to 340 Washington Street, Boston

42 out of 54 colleges choose this FAVORITE pipe tobacco

and Yale agrees

LOOK UP at the windows of L Harkness to find out what the Yale man smokes. In the spring-time you'll see him sitting in his window seat with a pipeful of Edgeworth between his teeth.

On Chapel Street... out at the Bowl... everywhere the Yale man goes, his pipe and Edgeworth go with him. And at 42 out of 54 of the leading colleges and universities Edgeworth is the favorite tobacco.

A tobacco must be good to win the vote of so many discriminating smokers. And Edgeworth is good. To convince yourself try Edgeworth. You can get it wherever tobacco is sold... 15¢ a tin. Or, for a generous free sample, write to Larus & Bro. Co., 105 S. 22d St., Richmond, Virginia.

EDGEWORTH SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive eleven-step process. Buy Edgeworth anywhere in two forms—"Ready-Rubbed" and "Plug Slice." All sizes, 15¢ pocket package to pound humidor tin.

GO HOME BY BUS

LESS COST

MORE PLEASURE

Everyone can use a few extra dollars—even as you and I. One way to have more is to spend less for your trip home by going the Greyhound way. Best of all, it's more fun! Remember this when planning your summer trips, too.
