SIMPLEX WIRE & CABLE Co., Boston

The compounding of rubber in the manufacture of wires and cables is a most important process because many physical and electrical requirements must be complied with. To insure satisfactory results we cooperate with our customers in selecting or designing rubber compounds to meet any unusual conditions of service.

For a period of over forty years we, as specialists in rubber compounds for insulating purposes, have devoted much time and energy to the development of rubber insulation. Electrical and chemical laboratories, shown in the photographs, are maintained where research work supplements practical experience. In this manner, we keep abreast of the times and prepare for the inevitable changes which must come with future progress in the art of compounding rubber. Simplex products are made in a factory equipped with modern machinery, manned by skilled workmen and supervised by engineers who know how to produce cables that are second to none. Ample testing facilities keep a check on materials and workmanship to insure highest possible success during construction as well as upon completion of the cables.

An efficient engineering staff is always available for consultation regarding wire and cable problems.

Two M. I. T. Crews to Row in Races at Poughkeepsie

Technology Participates For Third Time In Regatta On Hudson

NINE COLLEGES ENTERED

Varisty Crew Will Consist Of Men From Old Varsity And Jayveys

Participating in their third race in the Hudson River regatta, the Harvard and Bobolink crews leave today for Poughkeepsie to participate in the two races that will be held there Tuesday, June 16. It has been arranged to allow the varsity crew to sail the Senior Varsity but plans to sail the Bobolink crew entered will be sent in this morning. According to Dr. Ray L. Wilbur, instructor in team, the Bobolink crew is not as strong as the varsity crew, but they have won the regatta twice, but this was an unusual year.

Jayvess Were From Varsity Boat

An innovation has been effected in the boat name of the varsity crew. It has been changed to that of the Senior Varsity boat name. The reason for this change is that the Senior Varsity boat name now contains the name of the crew, but that of the varsity crew is not.

From all reports the Senior Picnic, held at their Horace S. Page, who lives in Evanston, Indiana, as a transfer from Antioch College, and obtained an ultimate knowledge concerning technical education. The Horowitz Scholarship has been awarded to a student in his senior year at the Institute. Beginning with the class of 1931 a week before this one, Dr. Ray L. Wilbur, instructor in team, spoke at the event.

According to Dr. Wilbur, the boat for the varsity crew picked up the Haines has picked the twenty-four men for the team. His boat was put into the Hudson River on Friday night last, when the varsity crew was to row over a thirteen-mile course. The river was rather rough, but the crew got through the race in twenty能在的clocks and second on the Varsity, and is second in the race of 1932, and second in the race of 1933.

Rough Water Expected

Not only is Coach Haines preparing for the race, but he is preparing for the boat. He has picked up the twenty-four men for the team. His boat was put into the Hudson River on Friday night last, when the varsity crew was to row over a thirteen-mile course. The river was rather rough, but the crew got through the race in twenty能在的clocks and second on the Varsity, and is second in the race of 1932, and second in the race of 1933.

WHERE

Can the reader who is fond of Sport find better pages of Sporting News than those which are printed every evening in the Boston Transcript? Where can he find later Sporting News, more Sporting News, better written Sporting News, better illustrations of Sporting News than in the Sporting News Pages printed every evening in the Boston Transcript.

The answer by those who follow Sports, who know something of what is to be found in other papers —

IT'S ALL DECIDED...

She'll be graduating, or getting married, or perhaps it will be her birthday. She will be among any one of these du Pont toilet sets shown below with their exquisite colors and designs that harmonize so nicely with her boudoir.

An attractive toilet set is a very appropriate and accepted gift, especially a set made by du Pont and when there are so many different colors, styles and designs to choose from.

When you are in town drop in to any one of the large department or jewelry stores and see these inexpensive sets. When you too will see how pleased she'll be to have a du Pont boudoir set. You must see them to appreciate their beauty and luxuriant appointments.

THE MEANINGLESS

The agony is over for another even seven months (for some of us; that is), the Lounger, having caught a glimpse of the future, is at last free to congratulate those who got by, and console those who didn't. Although the last will not officially cease until Friday. At these like this there is a tendency to philosophize, and to look back over even the Lounger, though bad fruit (that is, this year's edition) cannot be discarded with the brownbaggers, and wondering —

EXEUNT OMNES

EXAHS are over, the main festivities of Senior Week have passed, and today upwards of six hundred members of the Class of 1931 depart hence, wishes to all of them a prosperous later career; the Lounger could-
SOPHOMORE YEAR

Both to school in our Sophomore year with a new air of importance. At last filled with ambition and energy. All we had left, we had used wisely. Before each day we now had a definite plan. And when the day was over, we could still boast of something of which we were proud. The fresh air we allowed to disgorge itself into the room after hours was not in vain.

A year of study, a year of growth, a year of expansion. A year in which we learned to think for ourselves. To understand the world about us. To realize the importance of our actions. A year in which we developed our own individuality. A year in which we learned to live. A year in which we learned to love.

And yet, despite all this, we were still young. We were still learning. We were still growing. We were still expanding. We were still trying to find our way in the world.

But we were also beginning to realize that we could not do it alone. That we needed the help of others. That we needed the guidance of those who had been there before us. That we needed the wisdom of those who had lived through the same experiences we were now facing.

So we turned to the faculty. To the professors. To the counselors. To the advisors. To the guidance counselors. To the nutritionists. To the health educators. To the social workers. To the psychologists. To the psychiatrists. To the counselors. To the advisors. To the guidance counselors. To the nutritionists. To the health educators. To the social workers. To the psychologists. To the psychiatrists.

And we sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. We sought their guidance. We sought their assistance. We sought their support. We sought their understanding. We sought their compassion. We sought their wisdom. We sought their advice. We sought their counsel. We sought their help. President Compton to Present Diplomas To Graduating Class

The Tech, June 9, 1931

I: Include five Tramelling Fellowships

[Continued from Page One]

...and if Eddy Miller only has two jobs to hold him this way, that includes the garage that his son operates. All you have to do is keep some gas in the tank and you’re doing better than many pleasant dreams during the winter months. The depression is over, if you can keep the cash in the bank or pay the bills....

The work under the fellowships in business and engineering administration will be based on, and provided for a summer session and a following year of graduate work in a selected field of concentration in business and engineering administration. The fellowships will be administered by the department of business and marine engineering.

As for those who expect to return to the field, the Leopold wishes them a long and happy career in their chosen profession...

Bachelor of Science ill:
Aeronautical Engineering
Architectural Engineering
Biology and Public Health
Building Construction
Chemical Engineering
Chemical Engineering Practice
Chemistry
Civil Engineering
Electrical Engineering
Electrochemical Engineering
Engineering Administration
General Science

Graduate Courses leading to the degrees of Master of Science, Master in Architecture, Doctor of Philosophy, Doctor of Science, and Doctor of Public Health are offered.

The Courses leading to the degree of Bachelor of Science include Cooperative Courses in Chemical Engineering Practice and Fuel and Gas Engineering.

The better high schools and other preparatory schools in the United States offer adequate preparation for the required entrance examinations given by the College Entrance Examination Board in June, or by the Institute in September.

Graduates of colleges or of scientific schools of collegiate grade, and in general all applicants presenting satisfactory credentials showing work at another college corresponding approximately to at least one year's work at the Institute, are admitted to such advanced standing as is warranted by their previous training, and are given credit for our required subjects, including the entrance requirements so far as they have been satisfactorily completed.

The Summer Session, extending from June to September, includes most of the subjects given during the academic year, and in addition special courses for teachers.

Any of the following publications will be sent free upon request:
- Catalogue for the Academic Year (which includes the admission requirements).
- Summer Session Catalogue.
- Graduate Study and Research.
- Correspondence Should Be Addressed To

THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY
CAMBRIDGE

THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY offers Courses in Engineering and Science, each of four years' duration, leading to the degree of Bachelor of Science in:

The Walker Memorial Dining Halls

Will remain open during the entire Summer Session

"Coolest place in Cambridge for the students to eat"

GAS FOR HEAT WHEREVER HEAT IS NEEDED

MORE and more foundries are coming inevitably to the use of gas heat for core and mold drying. They know gas is quicker, more thorough, more dependable—and best of all, less expensive than any other fuels. The new book “Gas Heat in Industry” tells all. 

AMERICAN GAS ASSOCIATION
