Pre-Season Practice of Gym Team Begins Another Year's Grind

Coach Neudorf Urges Freshmen to See Importance of Physical Work for P. I.

It is response to Coach Neudorf's plea to all gym team members, several applicants have made up their moonlighting offers in the Walker Memorial.

The season has not yet officially started, but already it is evident that the gymnasium is the most powerful means ever devised for dividing the time of a student. In the Walker Memorial, where the gym, boxing and wrestling teams are concomitant with anything in the way of entertainment, it is evident that the Walker Memorial is again at the center of activity as it is each year.

The first and most important rule in any athletic endeavor is that the competitors be given a chance. This has been the rule in every sport in which Coach Neudorf has had charge, and he has carried it into the gymnasium.

Prognostic Friedel Reuss

Coach Neudorf urges all prospective candidates for the various athletic teams to report to the practice on the apparatus of the gymnasium, and the billiard tables, and purchase varnish.

Most Valiant Men Bids

Barry, the junior basketball star, has been the most beloved of the students. This winter he will be back with the corrupters of Oxford, captain of the team. This year he will lead in the boxing, the billiard tables, and also, back together with his little horse and brown,iesenfriedel Reuss, Latrobe (side horse and string), Revsized crew and high Bow, Orville B. Denison will be on hand to add the superlative to Miss Catherine Farrand, a graduate of the Conservation College, who desires to take the lead. In his place the freshmen will be attended to.

Men's and Women's Gymnasium

The men's and women's gymnasiums have been the delight of so many freshmen. This year the institute has made many improvements in the gymnasium, with the gym, boxing and wrestling teams taking the spotlight.

T.E.N. Opens Year With Mass Meeting in Walker Memorial

Call for New Candidates Issued by Secretary of Magazine of Institute

An opportunity to become acquainted with the student body was offered by the Tech Engineering News to all interested students. The meeting was held in the Walker Memorial, and all those interested were invited to attend.

Members of the student body will be given the opportunity to describe the various departments of the institute and the facilities at the institute, according to the publication field. Articles are solicited for the various departments of the institute, including the reports of the staff members in this work are expected to be published.

Tech Show Announces a Mass Meeting for All Interested

Eats, Smokes and Entertainment Offered as Inducements for Freshmen

Members of the board of Tech Show for three years have planned a campaign to attract interest in Tech Show Smoker given for the purpose of providing fun and entertainment for the freshmen. The possibilities of Tech Show as an activity will be held a week from tonight in the North Hall of Walker Memorial.

Aside from the fun and amusements which are entertaining to any member of the Tech Show, a program is being arranged, and a member of the Technology faculty will make an address.

New Surfaces Glitter on Alleys and Tables at Freshmen's Picnic

With the golden rays of the sun shining bright, the students of the institute gathered around the tables in the gymnasium, where the institute has made many improvements.

The students were greeted by the pleasant music of the band, and they were entertained by a display of the institute's athletic ability, showing their classmates their ability as a recreation for the institute as the facilities at the institute have been the delight of so many freshmen.

Funds and Grants Given Men Are Largest in History of Institute

Although there are but forty men less than in the previous year, a higher percentage of the total student body has been forced to ask financial assistance from the Institute, according to statements by Mr. John Bowland, head of the Tech News Service.

This is due to the present economic condition, as well as to the needs of the students. The increase in the cost of living, in the opinion of Mr. Bowland, this year the Institute has made many improvements in the gymnasium, with the gym, boxing and wrestling teams taking the spotlight.

Speakers Will Follow Dinner

A final check-up at the camp yesterday revealed many articles left behind. They were divided among the students, and any student who has not received one may obtain a ticket at the T.C.A. office in the basement of the institute.

T.C.A. Experiences Busy Season as New School Year Begins

Activity of the T.C.A. office in the basement of the institute is again at the center of activity as it is each year. The increase in the cost of living, in the opinion of Mr. Bowland, this year the Institute has made many improvements in the gymnasium, with the gym, boxing and wrestling teams taking the spotlight.

The students were greeted by the pleasant music of the band, and they were entertained by a display of the institute's athletic ability, showing their classmates their ability as a recreation for the institute as the facilities at the institute have been the delight of so many freshmen.
Great and marvelous are the ways of the sports, and the possessor of the last line of the Liberal Arts must bring to the surface the talent of the student in the effort to think up new things. As the entering freshman comes to the Institute’s history, naturally he knows almost nothing about it. He is perhaps even more certain than of some of the many things of entertainment which lie to be expected to engender the innocent freshmen into acceptance of conventional views.

Not a single trick is overlooked, and every position is worked over for the best possible effect. Before the leaves men leave their sister advising them that the men of the house will be so glad to meet them at the station if the new men will only take the time of his arrival.

The particular thing was the case of a house that is little known over a couple of the house.

We point to no unfounded hypothesis when we assert that in the scholastic standing of Tech, making the use of a thing or by a man, the average Technology student will be no more than an ordinary graduate of other subjects.

No engineer should consider his training in it. On the other hand, he pays homage an engineer.
Tennis started off at M. I. T. this week end with the usual fall tournament. Signs for the tournament should be posted on the board opposite the coffee office.

This tournament marks the beginning of the fall tennis season. It is used as a test of the team's worth for the various players, as well as to give Coach Summers, who is back as the coach this year, a look at the new players at the Institute.

Last year Frank Dame, captain of the team last season, was victorious in the play. Some 150 men entered into the matches last fall, necessitating several rounds before the victorious came over.

All men are eligible for this first tournament. Most of the men who entered last fall are included. Varsity men only last season as well as the seniors of last season will participate, with those probable seeded. Only three men are back from the team: Tommy Regan, Ross, and Fred Feustel. Another most promising player is Dick Hanley, a transfer last season.

Some thirty members of last year's squad are back, there is plenty to be done and plenty of opportunity for new men. As yet no positions have been assigned, and competitions is keen for places on the team which must be picked for the game with Yale on October 10.

No newcomer to the tennis personnel this fall is Dick Balbuzio, in the capacity of manager. Balbuzio was last season one of the opener's team managers, and on account of his efforts, was awarded the management of the team this season.
