FOR ALL-TECH SMOKER

Deligent Fresh Will Be Disciplined Severely
by Captain Vassalotti

On Field Day theSophomore track team will be made up if a few more men report.
All freshmen who are interested in trying out for the team should come to Capt. Vassalotti in the
quarters at a quarter to three on Monday afternoon.

The Sophomore track team will be made up of the newmen who are interested in trying out for
the team. The team will be coached by Mr. Vassalotti, who will be the
coach of the team.

Field Day Football
Squads Prepare for
Impending Struggle

Both Classes Report a Fair
Turnout After Freshman
Start Slow

Freshman football men have been slower report-
ing this year than ever before. For the first time in
many years the freshman team was completely
organized before the season starts. The Sophom-
ero, under the leadership of Lou Vassalotti, has made
efforts to have a good squad this year. The team
will be made up of a few more men, and the team
will be ready for the season opener.

The Sophomore track team will be coached by
Mr. Vassalotti, who will be the
coach of the team.

Enthusiasm Runs HIGH at Meet
Prepared By Polly Makes ‘34 Meeting

Less than half of the Sophomore class attended the
Mass meeting in Room 350 last night, when plans for Field Day were formulated.

This activity was planned to give the students an opportunity to
see the progress of the team and to make suggestions for improvements.

Business Men Will Address

SPECTATOR

Drafting-Room ID

Wednesday, October 7, 1931

The Spectator is inclined to favor Dr. Little's phenomenon with a dash of mental reservation. The theme of the article is perfectly true, but not at all, and it has become the prevailing custom among mathematicians to read it into interpretations that lack both novelty and truth. Dr. Little exemplifies the blindness of Authority, and deaths at least on the simplicity of fundamentals. Whereupon modern youth will come along and, knowing nothing about either, will prove to argue that Authority should be chosen over hard and that fundamentalism is fundamentally foolish. Neither of these is strictly true. Bruno was born for the sake of making it clear that the Bible was not valid as a scientific evidence. It sounds a bit preposterous, but that is what we are told. If it had been really up-to-date, it is all the more significant, as Arthur D. Little points out rather strikingly, in his recent book, *The Tech*.

Bruno was a world-renowned philosophical and scientific spirit, and his work was one of the great achievements of the human mind. He was born in 1548 and died in 1600, at the age of 52. His writings are still read and studied today, and his ideas continue to influence modern thought.

Bruno's work was largely on the subject of freedom of thought and the importance of individual inquiry. He believed that the only way to understand the world was through observation and experimentation, and that the only true knowledge was that which was acquired through the senses. He was a strong opponent of the Church and its teachings, and was convinced that education should be based on the principles of reason and logic. Bruno believed that the key to understanding the world was not in the authority of the Church, but in the individual's own mind.

Bruno's ideas were not well-received by the Church, and he was eventually condemned as a heretic. He was imprisoned and tortured, and in 1600 he was burnt at the stake for his views. Despite this, Bruno's ideas continued to influence the intellectual community, and his work is still studied and admired today.

Bruno's ideas were ahead of their time, and his work was not widely accepted during his lifetime. However, they continue to influence modern thought, and his ideas are still studied and admired today. Bruno's work is a reminder of the importance of individual inquiry and the power of reason, and his ideas continue to inspire modern thinkers.

CALL FRESHMEN OUT FOR FALL TRACK WORK

(Continued from Page One)

The articles listed below were found at freshman camp and may be claimed at the T.C.A. office:

1. towel
2. helmet
3. batting suits
4. baseball caps
5. blue sweater
6. dress shoes
7. pair stocks
8. keys
9. pair football shoes

IMPROVEMENTS MADE IN CABIN OF T.C.A.

Alterations on the T.C.A. Cabin at Lake Mamaspur are now being made in preparation for the large number of vacation groups which are expected to adjourn to it throughout the year. Last year over sixty hundred people signed the register in the cabin.

A new radio speaker, more equipment, and better lighting facilities are listed among the improvements which are being made. The batteries in the little power-plant by the water's edge have broken down after fifteen years of service, and new batteries are being put in costing $85.

Any group connected with the Institute may use the cabin free of charge at any time providing they adhere to the rules and regulations and sign up at the T.C.A. office. Calvin H. Mohr '34 is in charge of his administration.

THE TECH

Lydia Lee Luncheon

At the luncheon given by Lydia Lee, the Junior Women's Club, the feature speaker was Mrs. T. W. History, who spoke on "The Pioneers and the West." Mrs. History was introduced by Miss Lee, who said that the luncheon was given in honor of the occasion of the national birthday of the United States.

THE TECH

Sisterhoods Held an Informal Meeting for Dance.

In order to discuss and outline this year's program, the Sisterhoods held an informal meeting for dance. Mrs. William E. Richards '33, shows a cluster of freshman heads and neckties against an appropriate background of bright green. Drawings by Richards and Richard V. Baldwin, also decorate the interior pages of the magazine.

"Filling the T.C.A. Book Exchanger," is the caption of the editorial page, and is desired by an editorial which strongly encourges the prevailing practice of issuing are editions of textbooks every two or three years. The editor states in his report that "the slight advantages to be gained by new students from a "revised" edition are not compensated for by the considerable loss to those who have been subjected to the exorbitant prices of the previous volumes. Financially handicapped students suffer from being unable to purchase the texts needed."
**THE TECH**

**Fresh Field Day Arrangements Will Be Discussed Today**

Sophomores Already Organized Are Out to Repeat Last Year's Victory

All freshmen who wish to occupy the best seats in the house have been favored with an opportunity to meet the sophomores and present their candidatures. The sophomores have already chosen their team and are now preparing for the big event.

**Early Morning Meetings**

The embryo Fraternity leaders will be organized tomorrow morning at 6:30 a.m. The meeting will be held in Room 1-10, followed by the B.O.M.A. meeting at 6:45 a.m. in Room 1-09. All freshmen are encouraged to attend these meetings to learn about the workings of these organizations.

**Smoker**

The Smoker will be held tomorrow evening in the basement of the freshmen dormitory. The President of M.I.T.A.A. will address the gathering on "The Effect of Structures on the Reactivity of Acyl Chlorides." The meeting will begin at 8 p.m. and is open to all freshmen.

**Theatre and Music**

The Theatre will present "Der Hampelmann" on October 11th. It's a fine arts show that promises to be entertaining. The performance will start at 8 p.m. in the Cyclorama Building.

**Art Exhibitions**

The Annual Art Exhibition is scheduled for October 10th. It will be held in the Fine Arts Building on the third floor. Students are invited to participate and present their work. The exhibition will feature paintings, sculptures, and photographs by M.I.T. students.

**Bowling and Concerts**

The bowling tournament and concerts are set for October 12th. The bowling event will be held in the gymnasium starting at 3 p.m. The concerts will take place in the Fine Arts Building at 8 p.m. Both events are free and open to all students.

**Keep Kissing'**

As the weather cools down, remember to keep kissing your significant others. It's the perfect time to express your love and affection. Make sure to share kisses before heading off to bed to ensure a sweet dream.
