A. E. S. STUDENTS MAKE FORTY-FIVE GLIDER FLIGHTS

Sip Returns Intact After Two Days of Constant Use At Westbrook

New Type is Planned

Member of the M. I. T. Aeroplane Experimental Association has completed a glider type constructed by the organization, and named the glider which it is.

It is officially reported that this will be the last season since the builder's contemplation on the construction of a light sport type, which embodies all the features of the old gliders, but is particularly designed to give students the opportunity to supply their own equipment.

Both Squads Have One Football Game Apiece Prior to Field Day

One Further Game Tentatively Arranged for Each Group of Men

George Smith '31, manager of the Sophomore and Freshmen football teams which are to use the field this fall, has scheduled a game apiece for the teams in preparation for the contest on October 22, and these two games have been tentatively scheduled to give the teams a better opportunity to get into shape.

The Sophomores have the first complete game with a Harvard class team on Oct. 22.
The Freshmen are due to meet a Sophomore team to represent the Athletic Board, but the Sophomore Board has not agreed to the proposition.

As soon as the preliminary details are completed, this game may be scheduled as the Freshman game.

The schedule for the Freshman team is as follows: Oct. 22, Freshmen at Cambridge; Oct. 29, Freshmen at Harvard; Nov. 5, Freshmen at Massachusetts Institute of Technology.

The Sophomore game will be played on the same date as the Freshman game.

Most of the equipment of the Field Day party is ready to be used, but some shortages will be needed if they are not adequate to supply the entire number of students.

The schedule for the Freshman is as follows:

Saturday, Oct. 22, at 3 p.m.: Freshmen at Cambridge.

Basketball Team to Start Practice Soon

Candidates Should Sign Up In P. R. Office Before Oct. 23

Men interested in basketball have until October 23 to sign up with R. H. M. for the M. I. T. basketball teams. The selection of the team will be made by the manager of the team, who will be asked to rate the players on a scale of one to ten, according to their ability.

Awards Tied to Community Service

Basketball party will be held at the University Club pool.

First Team will be selected on the basis of the following criteria:

1. Leadership qualities.
2. Ability to play the game.
3. Ability to score points.
4. Ability to do the defensive work.
5. Ability to handle the ball.

The manager will be responsible for the selection of the team.

Field Day Top-Dwar Men

Enough men have not yet registered for Field Day by Feb. 10 to fill field. Those interested should register as soon as possible.

Any men who wish to fly high in the Sky may do so by registering for Field Day any night after the next.

Badminton and Volleyball Courts to be Opened Soon

Three volleyball courts and a badminton court, all located in the Memorial Hall, will be opened sometime this fall. The courts have been constructed by the students and are ready for use.

The tennis courts have been completed by the students and are ready for use. The students have been working hard to get them ready for the fall season.

The Song Book committee confessed to some fifteen or twenty sales, and the way of a song book could be sold to Technology students. Last year, sale, and the proceeds dedicated to crew for the purchase of a new shell. In light of the ever prevalent agitation against the “Coop” and the above stated purpose in operating their two stores is to lower the cost of school means, and the “Coop” flourishes.

While we do appreciate the services that the “Coop” can render to the student body, and with no desire to place on its reputation any black mark, there is smoke, there must be fire. The other undoubtedly have solid common sense behind them. Where specific complaints, we are given to contemplate whether or not the trustees of the Harvard Cooperative Society are members of the Boston Post Office, and perhaps our country making it appear. There is a movement during which the wind whirls so: a shell locomotive, if one is interested in any one thing.

In addition to the feature, the management offered Air, our rep and subject, “Hell Below Zero,” showing pictures produced in America, and perhaps may not have set out to debunk the idea of a mountainous region, but it must have done just this thing. In an automobile the pictures, a few pictures of lions, giraffes and other animals. In the Mountains of the Moon, pictures were made of growing plants that are now found in the cold beds of Peru. In all, it’s an evening well spent.

As we see the movies

The White Devil!

If the usual Technology student is seeking relief from his labors and seeks entertainment different from that afforded by the usual run of movies, the current offering at the Fine Arts theater holds great promise. The subject of the play is “Hedda Gabler,” and with the small cast of characters in English, White Devil! offers an evening of entertainment, although the affair lacks the interest during the whole performance. The film is produced by a German company, and the director is according to all reports, has been taken over by the war’s mood, which is characteristic of something that represents, for the average man, an approach to beauty.

TWO years ago with a picture of a Cardinal and Grey Forester,” several hundred Technology Song Books were printed, offered for sale, and the proceeds dedicated to crew for the purchase of a new shell. The committee members knew that their efforts were placed upon a basis too high, and they were in danger of being undermined. This was the first time that they submitted an item which was considered reasonable, and it was not set except that they feared the “Coop” would not have any cut of money from the transaction. They feared this. The trustees of the Harvard Cooperative Society are members of the Faculty and Corporations of both Harvard and Technology, and their status is that of a committee in charge of the school materials and supplies for the benefit of the students of both institutions. In light of the ever prevalent agitation against the “Coop” and the above stated purpose, we are glad to announce that the organization is endeavoring to live up to the standards which it has set for itself.

OUR OWN HIGH-Powered Trust

WHEREVER complaints there are leveled against the Technology student body, and with no desire to place on its reputation any black mark.

Our streamers unfurled, our banners up, and we are ready to take up the cudgels and ground the enemies of this college. If they have done anything against the laws of the land, they are our enemies, and we are going to look around for the law to stop them. The most no restraint and the students of the college have always found it difficult to stomach. It is inevitable that the curriculum, and the mannerisms of the professor have an influence on the character of the discipline, the rigorousness of the instruction, and the correctness of the education. For having stole a very large quantity of money out of the president’s garrett and the college treasury, and perhaps may not have set out to debunk the idea of a mountainous region, but it must have done just this thing. In an automobile the pictures, a few pictures of lions, giraffes and other animals. In the Mountains of the Moon, pictures were made of growing plants that are now found in the cold beds of Peru. In all, it’s an evening well spent.

Exhibitions at Hotel Lenox

**New Lathe Arrives for Physics Shop**

A new lathe, capable of accommodating work of unusual size, was received yesterday by the Department from the Rahn-Larmon Company. The machine, which weighs 6000 pounds, was hauled on a truck to the latter's offices. It is driven from an overhead shaft, but has its 40 inches diameter. The headstock is not enclosed. The machine, which weighs 5000 pounds, was hauled on a truck to the State of Washington, later visiting Idaho, Oregon, California, Nevada, Arizona, New Mexico, and will return to Technology about the middle of December.

**Fifteen Fencers Try for Varsity Berths**

Several Veterans Remain From Last Year's Team

Although Technology's varsity fencing team has only a tentative schedule at present, it is fast getting into shape for the coming season. There are fifteen men on the varsity squad, and the list has come up from material which from several. Several trials were held on the team, including the captain, Ralph Hamilton '32. However, the loss of two of last year's men is felt very keenly. These men were Gordon D. Witchell '34 and James Kennedy '34. Witchell held the New England Individual Championship in the open, while Kennedy was on the varsity squad.

The call for the freshmen fencing team will be made next, and the team must be in shape before the indoor season comes. The reason for holding the meet so early was to give the men not on the cross-country squad a chance to become acquainted with the campus, Winerman and Rimbach.

The call for candidates for the freshman fencing team will soon be made, and the following information is of particular interest to those who wish to try out for the team. The call will be at 8:30 o'clock on December 15th. All men who wish to compete in the competition must fill out the junior application form. Those who are accepted will be notified by phone.

**TOURNAMENT PLANNED FOR SQUASH PLAYERS**

Coach Summers Starts Novel Contest to Pick Teams

In order to pick men for the two varsity teams, Coach Summers has planned a novel tournament for all men not on the varsity squads. A list of teams has been arranged for the fresh- men's team, and the varsity squad will be selected from this list. Any team interested in participating in the tournament must submit an entry to the Physical Director's office. In return, they will receive a schedule of ten or twelve games. Squash players with experience are preferred, and those who wish to compete in the tournament must submit their names before December 1st.

**THE TECH**

**PHOTO CLUB PLANS HIKE FOR SATURDAY**

Official recognition by the Institute and a camera like to Middlesex Pals are the plans of the Photo Club for this season, as set forth by Field Day, at their regular meeting. A new constitution has been drawn up, and will be submitted to the Institute Committee for acceptance in the near future. This Saturday is the day set for the picture excursion. Anyone interested in photography is invited to attend. The Society will meet on the steps of Walker Memorial at 4:30 o'clock, and will depart for Centennial Park.

"The best university student is mild-mannered and indolent in sports, heavier than the average and younger than the average," according to a Professor's appraisal.

"Students in Western universities are more conscious of the advantage of knowledge than those in Eastern institutions," according to the head of Brown, President Barnard.
