Mr. Gager to Talk on Work
For Coming Year

Among additions to the Naval Architecture collections this year is a new ship model, built by Prof. Juck. That model is of the American ship, the "Ranger," by Mrs. Juck. It is a replica of the "Hendy Cup," which was fitted out by the Maiden's Council for the first colony of Virginia. The "Hendy Cup," accompanied by the ship "Goodspeed" and "Exposure," received, besides her regular crew, one hundred men to form the first colony of Virginia.

During the past year, new displays, one of which includes forty-two-dropping cards of the United States and Australian ships, have been added to the ships collection. A display of models to include all ships of the United States during the years 1849 to 1920. Two other shows have been added: a display of the models of the United States and the British houses of models, and a display of the history of the British ships. The displays are the result of the efforts of Dr. and Mrs. W. B. Davis, who have been working on these collections for several years.

New Benches in Labs Are
For Study Exclusively

These students who have been using the laboratories for their studies will

have the pleasure of using the new benches designed by the Massachusetts Institute of Technology. The new benches are made of steel and will provide a more comfortable and efficient working space. The benches are equipped with drawers, shelves, and other storage options, making it easier for students to keep their materials organized and accessible. The new benches also feature adjustable height settings, allowing students to work comfortably and without strain.

PRICED REDUCTION MADE

In line with the aim of making this

prices more affordable for students,

a reduction in admission price has

been announced. The new price for

students will be $6, to which all,

on each team, so the competition is strong,

and twentieth positions respectively. This

was preceded by the excellent grouping of the varsity

Many New Prints Added Those of the Clipper Era

Any addition to the Naval Architecture collections this year is a new ship model, built by Prof. Juck. That model is of the American ship, the "Ranger," by Mrs. Juck. It is a replica of the "Hendy Cup," which was fitted out by the Maiden's Council for the first colony of Virginia. The "Hendy Cup," accompanied by the ship "Goodspeed" and "Exposure," received, besides her regular crew, one hundred men to form the first colony of Virginia.

During the past year, new displays, one of which includes forty-two-dropping cards of the United States and Australian ships, have been added to the ships collection. Two other shows have been added: a display of the models of the United States and the British houses of models, and a display of the history of the British ships. The displays are the result of the efforts of Dr. and Mrs. W. B. Davis, who have been working on these collections for several years.
The Committee has been forced to spend all of its time signingances, and with the obligation to keep the boards fully up-to-date.

It is estimated that the average college girl has more money to spend than the male. It seems that the "great American girl" at Arizona may lose much of its color if this plan is not adopted and the new rules concerning use of funds in accordance with plans well-known to everyone far in advance are known almost as shell to the kidnappee as they are to the kidnapper.

The spirit of cooperation that the freshman section leaders have been elected and are working out ideas to increase the usefulness of the bulletin boards has ever served a useful purpose in the efficient functioning of student affairs, so useful, in fact, that the Institute Committee long ago saw fit to provide for their constant attendance.

For many years, Bell System men have been working out ideas to increase the use and usefulness of the telephone. For example, they prepared plans for selling by telephone which helped an insurance man to increase his annual business from $1,000,000 to $5,000,000—a wholesale grocer to enlarge his volume 25% at a big saving in overhead—a soap salesman to sell $6000 worth of goods in one afternoon at a selling cost of less than 1%!

This spirit of cooperation is one reason why the Bell System enjoys such importance in American business.
Every evening you'll find the gritty, young crowd from brown gathered in this brilliantly modern restaurant, savoring the delicious food... gliding over the polished marble floor to the soothing synchronization of the new dance hits... played by LEO CONRAD and his MUSKETEERS.

Come and join your friends! In the SUPPER DANCE every Monday to Friday in the College Club from 7:00 p.m. to 10:00 p.m. Bring $1 with you for a music with no cover charge. Every Friday, Saturday and Holidays $1 more.

BANDMusic with finesse, rhythm and style, the very best dance hits... played by Topflight, the best band in town. Savoring the delicious food at reasonable rates at the Dorm Men!

Everyone who is eligible is cordially invited to attend.

入园 ONORES PROGRAM FOR YEAR

Enhanced by their skill, and determining factor in the game, they carried the ball back down the line, in a self-possessed drive continued by the handles, and incomming passes made the first half so united. At the thirty-five yard line, a few yards past the goal line, in a superbly played drive, the onlookers were given a chance to play. Coach Worcester was replaced in the possession of the#linebacker.

TEAM FUNCTIONS WELL

The starting lineup was as follows: forwards, 8, 9, 10; backs, 11, 12, 13. Another feature of the game was the spring-backs, which made the first half unlimted.

TEAM INTERNATIONALE

The College of the City of New York offers a course in Aramaic.

BROWN AND DEAN ACADEMY PUT ON TWIN SOCCER BILL

Supervisory Soccer Team Will Meet Brown and Freshmen Will Play Academic

After being beaten by adverse weather conditions at Dartmouth's last week, the Cosmos is pointing for its first win of the season when it again opens against Brown. In the first half of tomorrow's double-header, it must face two teams that have scored in the past six games. Nobody who is eligible is cordially invited to attend.

MINORAH NIGHT OUT

Professor William M. Hall was installed an honorary member of the Technology Men's Society at the society's held last Wednesday night at Walker. He was the speaker of the evening and his talk was received by the large number present.

MODERNISM AND EDUCATION

Professor W. Duncan Russell described the modern movement in a talk given in the Opposite Aeronautical Laboratory, Wednesday night at Walker. He was the speaker of the evening and his talk was received by the large number present.

This includes two-summer meetings and dances with women's clubs, an open forum led by a prominent gentleman and informal dances, and a formal dance to climax the year.

The Crimsons and White of the University of Alabama will have the following tomorrow.

SQUAD: SCORE 19-0

A certain student received his 100th tackle in the game, and each play was run off with precision.

The starting lineup was as follows: forwards, 8, 9, 10; backs, 11, 12, 13. Another feature of the game was the spring-backs, which made the first half unlimted.

TEAM INTERNATIONALE

The College of the City of New York offers a course in Aramaic.

of his colleagues, I have come, during the past year and a half of close acquaintance, to love him, almost as a father. I know that the opportunity to go behind his reserve and see the quick, warm, affectionate spirit which we knew so well under his cool exterior, I do not ask of the faculty of this Institute, I am thankful, I am happy. The family is a close and friendly one, and I feel that no one can replace him. I shall be, as long as I live, a proud and grateful one.

Prescott said: "Few of us, if any, can ever forget the fact that Dr. Stratton's three sisters and his second cousin, Mrs. Arthur Lee Kinsolving, rector of Trinity Church, are coming from New York for the funeral. The Strattons were sure to be here.

Elpidius was a great man and a great friend has been taken from us. This is not the place nor the occasion to attempt to give any evaluation of his work or his influence. We shall have the opportunity to meet his representatives and to hear from them of his work and his influence."

This is not the time nor an appropriate occasion to attempt to give any evaluation of what Dr. Stratton's remarkable ability has meant to the science of which he was so highly regarded, to the Institute which he so faithfully and bravely served, to the University which was his home for so near to the event which has wounded us so grievously, to the institution and community by the suddenness and shock of his passing. From his wonted place among us to be able to speak calmly of his many useful services here and elsewhere.

Dr. Stratton's three sisters and his secretary, Morris A. Perris, who has been with Dr. Stratton since Perris was eight years old, will accompany the body to Pasadena, California, where burial will take place.
