ATTEND SOPHOMORE DANCE
steady settling of institute buildings measured from permanent markers

lead reference marks in each building are used with standard

since the (missing) buildings were constructed in 1911, this campus is old. no piles have been broken by the strike though a few basements have settled slightly due to the natural rain. if you dig a hole in the basement, you will find that the building is settling. in 1911, steve and webster, who built the building, speculate that the settlement of the building is about 1 inch per year, although this estimate is not altogether accurate. the building is set on piles, and there is a possibility that the piles may be moving. on the other hand, the building has been stable for many years.

only possible permanent marker is the location of foundation. as the building is settling, the location of the foundation is changing.

the ian b. smith 1939 business manager

in the crescent at cornell

there is another smoking tobacco

photograph of a man in a smoking jacket

a smoke for buck has been offered at new york university. a bag of tobacco can be given in exchange for a cigarette. the university of illinois has a similar offer. a similar offer at cornell has made 600 sales.

as in 42 other leading colleges, there is one favored smoking tobacco

recreational facilities vary across campuses. at new york university, there are facilities for swimming, bowling, and tennis. at cornell, there is a pool for swimming, a bowling alley, and a tennis court.

the most popular tobacco at new york university is edgeworth. it is popular due to its natural savor of fine burleys, and its price. at cornell, the most popular tobacco is london. it is offered at a lower price, and is considered to be of higher quality.

in the feature story, the tobacco department of edgeworth discusses the history of their product. they mention that their tobacco is grown in the south, and that it is aged for several years to develop its flavor. they also discuss the smoking process, and how it affects the quality of the tobacco. the article ends with a quote from an industry expert who says that the quality of tobacco is important, but that the price is also a significant factor for consumers.

the article also includes a feature on the tobacco industry, and how it has evolved over time. this is done through interviews with industry leaders, and historical data. the article ends with a call to action for readers to support the tobacco industry by buying their products.
Yearlings Have Stiff Workouts

Until Thursday

Men Chosen for Dartmouth Meet in Many Events; To Name Others Soon

Having finished the trials for the Dartmouth meet, the freshmen are preparing to work hard to make a good showing in their best events, and they will move for Monday, when the regular team, in approximately forty-nine, will come to the track.

The meet on Saturday was all that the freshmen could have asked for in the way of competition, but the team was disappointed in the absence of any record shows of the regular team.

Volley men are getting in shape for the inter-meet meets with a week from next Saturday afternoon, and are in better form than they have been since the season opened, many of them making second-class efforts.

On the other hand, the long race for the team to outclass Dartmouth has failed, but there is still some hope of it.

As such into the longer run, half, and it will be the same to all things, because the team had to cut the longer one first as well as if it were on the shorter. After such contest, at the events are certain to remain, there might not be the fair record which has been the case in prior years, when new terms were the order of the day.

The meet of the I. S. T. boxing teams has been moved for Thursday, in the same manner as the swimming meet last week.

The freshmen boxing team has also been shifted to the same day.

Relay Hard To Pick

With the senior league freshmen relay to come from the meet, it is hard to imagine what the team will do, and whether the season will prove a success for the freshmen as a whole.

There are unlimited possibilities for the team, as the seniors will be divided into four sections, and each section will have its own programme for the season.

The three events will be the quarter, half, and full mile, and the team will be divided into four sections, with the seniors in one, the sophomores in another, the freshmen in the third, and the ninth-men in the fourth.

Shifted Defense

Faces Dartmouth Team at Hanover

Joe Fisher Will Guard Rear Ice With Ben Hazenlne

In Tonight's Game

Originated by injuries and insufficienl-ly Tech Technology basketball team will have a shifted lineup when it takes shape on Saturday. Fisher has been moved to the wing, and the other men will be assigned to their usual positions.

Fisher has been transferred to the bench from his wing position to guard the defense for the junior varsity, and the other men will be assigned to their usual positions.

The meet of the varsity basketball teams in Dartmouth last Saturday was all that the team and the meet should be.

Members of the 268-year-old alumni of Dartmouth will have a shifted lineup when it takes the floor at Hanover.

The two teams will be lined up for the season.

The meet of the varsity basketball teams in Dartmouth last Saturday was all that the team and the meet should be.

The meet of the varsity basketball teams in Dartmouth last Saturday was all that the team and the meet should be.

The TECH Official Bulletins of General Interest

Geophysics
Hans F. T. Lundberg

Wednesday, February 25, 4 P.M., Room 10-275

Mr. Hans F. T. Lundberg, Vice-President of the Swedish American Geophysical Society, speaks on "Physical Geodesy and the Origin of the Earth's Magnetic Field." The subject covers the theory and practice of electrical potential measurement and some developments of the subject into practical applications.

Structures and Analogies of Alloys
Dr. Arne Westgren

Thursday, February 26, 4 P.M., Room 4-470

Reports will be presented on the following subject: "The paper of Beran and Stensel on the selection of a rule for the incident of angles in the analysis of alloys is correct in an often-quoted student's journal."

Alfred Lected
Mr. Henry I. Harriman

Friday, February 27, 3 P.M., Room 10-250

Mr. Harriman, a former member of the New England Power Company, Chairman of the Trustees of the Boston Elevated Railway, Chairman of the New Haven Corporation, and President of the Boston Chamber of Commerce, will speak on "The Meaning of the Major Business Trends of the Year 1931." Open to graduates, students and members of the instructing staff.

CALENDAR

Wednesday, February 25
5:00 P.M.—Basso Club rehearsal, East Louers, Walker Memorial.
6:00 P.M.—Gregg and Healy halten the ball.
7:00 P.M.—Lecture on new methods of measuring executability, Science Hall, Walker Memorial.
8:00 P.M.—Bitty Sunday in room 16-153.
9:30 P.M.—Roster of the Medical School, North Hall.
10:00 P.M.—Science Club meeting, Science Hall, Walker Memorial.

Thursday, February 26
8:00 P.M.—Music meet, Technology vs Dartmouth college, Walker Gym.

Friday, February 27
5:00 P.M.—Basso Club rehearsal, East Louers, Walker Memorial.
6:00 P.M.—Student-handicapped race, Hogg.
8:00 P.M.—Fossil and flute dance, Memorial.
9:00 P.M.—Courseville dance, Malia Hall, Walker Memorial.
