CROSBY HIGH MAN IN THIRD HANDICAP RACES OF SEASON

New Entering Several Events Apt to Make Competition Good In All Classes

SOPHOMORES SCORE HIGH

Dropping from their staff schedule of sports for the fall track season, the Tech,
boys handed out a three, won by two and
the start in each event, but however
added weight to the list of entries
school. Dick had the high jump, the
of the races, and overhauled the men with
each case. Bell ran from scratch in both
of the races, and overhauled the men with
not unusual, but was good in the light of
Public School, and then some, the
like possible with the Institute and making
the students this morning.

as possible with the Institute and making
the students this morning.

COES in STODDER
10 to 14 SCHOOL STREET

"I liked Chesterfield right from the start."

"No, I don't know a blessed thing about how cigarettes are made. But, of course, I would want the tobacco to be pure. And then I've heard that the blending is very important. I'd want that to be done by people who really knew what they were doing."

"Then the paper. I don't like paper that you can taste—or smell when it's burning. I'd want that pure too."

"Another thing. I want to smoke when-ever I feel like it—without worrying about smoking too much. So I want my cigarettes mild."

"But the main thing, of course, is TASTE. I don't care for over-sweetened cigarettes. I much prefer those that are just sweet enough. Chesterfield seems to satisfy in every one of these ways. That is why I'd rather have a Chesterfield."

BOOTSY MURPHY Shoes at new lower prices

More Efficient Motor

With modern high vacuum technique and a source of voltage of the magnitude expected, calculations indicate that it should be possible to construct a motor working on electronic forces, which would be tremendously efficient.

Dr. Van de Graaff is less than thirty years old. He was graduated from the University of Alabama in 1922, and a year later received the degree of master of science from the same institution. In 1925 he was appointed a Rhodes scholar, and awarded the degree of bachelor of science at Oxford University in 1926, and the degree of doctor of philosophy in 1928. In the following year he was a National Research Fellow at Oxford, and was awarded a similar fellowship for study at Princeton from 1929-31. Dr. Van de Graaff conceived the idea for the develop-
