H. I. T. A. A. Reports That Lack of Funds is Due To Management

No NEW SQUASH COURTS

Because the alumnae have shown very little interest in a new squash court, Night, who had designed primarily to accommodate them with facilities of Technology, the Institute Committee evening voted to cancel this event from this year's calendar, and in I. T. A. A. had stated that the lack of interest was not due to faulty organization, but was due to the actual lack of facilities that would have served to win greater approval.

Lily, Gymn Open Sunday

A letter from Dean Harold E. Leibelt, who is in consultation with the Committee's petition the Walter Gym, has been received by the Committee. However, that since no request had been made, the committee did not wish to proceed with the petition. The Committee will not meet this week.

Library, Gymn Open Sunday

A letter from President Karl T. Compton was received by the Committee. The letter stated that the committee had been informed of the need for additional facilities, but that the committee had not been able to determine what facilities would be of greatest need.

New Undergraduate Branch Announced

A new Branch of the American Society of Mechanical Engineers is being established at the Institute. The Branch will be known as the A.S.M.E. Branch of the Institute of Technology.

President Compton Adresses Meeting of Research Council

Members of the Institute Faculty present at the meeting of the Research Council were present at the meeting of the Research Council. President Karl T. Compton, who was present at the meeting, presented a short address to the council.

The following Officers were elected: President, Collins; Vice-President, Zich; and Secretary, Grant.
THOUGH Field Day occurred two weeks ago, there is still a great amount of discussion and comment upon it, voicing considerable dissatisfaction and censure. As a matter of interest, it appears that the freshman-Sophomore group is well satisfied, considering its lack of enthusiasm in this particular meet, and that it was a decided letdown compared with previous attempts.

It seems evident that the Faculty, certain members of the Student Body, and the upperclassmen are of the same opinion. As a matter of interest, in the case of the freshmen only, it appears that the majority feel that the meet was a decided letdown, with only certain individuals disagreeing.

It seems evident that the freshmen only, it appears that the majority feel that the meet was a decided letdown, with only certain individuals disagreeing. This is a question which must be answered by the members of the upperclassmen.

CROSS COUNTRY TEAM TAKES SECOND PLACE

"Continued from Page One"

Friday, November 13, 1931

CROSS COUNTRY TEAM - that this last meet will make a marked difference in the way the team will run when it goes down to New York for the National Intercollegiates. Coach Hedlund is very pleased with the showing that his team made, and says:

Dick Bell is expected to have his second and Kearns, after the first few laps, will probably dominate the broad jump. The two-mile run will probably narrow down to a dual match between Don Gil and Wrigley, will probably win the 220. The annual fall interclass meet will take place tomorrow afternoon at 2 o'clock, on Tech Field, with what promises to be a record list of entries competing. Many men have already evidenced their intentions to enter, and many unannounced men are anticipated.

FIFTEEN usual events will comprise the meet, including all those in a regular dual meet.

Camels are never parched or toasted.

FRESHNESS and flavor in a cigarette trace right back to natural moisture.

If you overheat or process tobacco so harshly as to dry out all natural moisture you drive out freshness and flavor too.

Camel never parches or toasts the fine Turkish and mild Domestic tobaccos it uses—they are naturally smooth, cool, mellow, with natural moisture retained.

That's why the Camel Humidor Pack proves such a blessing to Camel smokers—it brings them a fine cigarette fresh to start with, and fresh to smoke. If you don't realize what natural moisture means in genuine freshness and flavor, switch to Camels and see.

Try this mild, slow-burning, throat-friendly favorite for just one day—then leave it, if you can!

Made FRESH—Kept FRESH

Don't remove the moisture-proof wrapping from your package of Camels after you open it. The Camel Humidor Pack is protection against sweat, dust and germs. In offices and homes, even in the dry atmosphere of artificial heat, the Camel Humidor Pack delivers fresh Camels and keeps them right until the last one has been smoked.

**VARSITY SOCCER TEAM LOSES TO ARMY, 5-1**

Four Goals, In Last Period, Win Game for West Pointers

Playing against a well-conditioned Army team, the Tech soccer team was defeated, 5-1, on Antifield Dome. The game was at 2:00 o'clock and was started at 2:30 o'clock. One goal was scored in the first half by each team. Base, outside, EDDIE DAVIS, and Fred Depenbrocker, forward, scored for the Bears. It was, however, the second goal of the game, being scored on the second, that the Tech team had been scored upon in eleven games.

In the second half, the Army team came on strong and this fact was made plain and clear when the Bears failed to obtain goals for the last forty-five minutes. The Tech team was out on its feet, but their opponents were still going strong. This period was played under floodlights and this may have handicapped the Engineers so they have never played under such conditions. Tech made one admission during the whole game, and the Army made two.
