CRUSADERS CONSIDERING PLANS FOR PROHIBITION ACT AMENDMENT BY 1934

District Leader Speaks to Group on Coming Drive

Mr. John V. Schneck Explains History and Purpose of Repeal Campaign

500,000 Members Now

Issuing that certain prominent Democrats and Republicans who are traditionally willing to swing to the left, if sufficiently approached, and that it is hoped they will back claims, John V. Schneck, New England District Leader of the National Health and Prohibition college organization, which will shortly open a membership campaign in each district of the country, commented that the campaign will be launched at the meeting of the national council of the organization, which will be held at the Van Wyck Hotel in New York City this summer, and that the campaign will be conducted by district leaders in the manner of the Volsted Act and of the Eighteenth Amendment, which were now under consideration by the national council.

The membership campaign for the group has always been brought by William F. Speer 32, who has been active in the organization for 22 years, and to whom Mr. Schneck addressed the group.

Organized Three Years Ago

According to Schneck, the Crusaders were first organized in Cleveland about three years ago and were at that time merely an organization of business men throughout the country who were opposed to Prohibition. Approximately five hundred thousand members were enrolled, and according to Schneck those members enrolled considerable influence in the success of the Wet candidates in the States of Ohio and Connecticut at the recent election.

Mr. Schneck will further explain the purpose and the methods of the organization.

Volleyball League Wins by Nicholls

Defeats Hayden in Two Straight Games for Championship

As the result of a championship playoff between Nichols and Hayden, the former has been declared champion of the dormitory volleyball league. In winning the two straight games with scores of 11-8 and 14-12 respectively, the Nichols team has added another victory to its record this year.

Winning its third match of the year, the team scored a victory over the opponents who are recognized as the Dormitory Athletic Association, thanks to a string of brilliant volleyball. Lynn in the last game was unable to all enunciate in all sports for the past three years.

Chess Team Travels to Brown for Game

Brown University at Providence is the home of Brown University's dormitory chess team. Five members will leave the school on Friday to represent the school in a match with the University of Rhode Island.

Wrestling Team Looks Promising As Season Nears

Varsity Captains Vassallo To Head Beavers For Reichen Rich's Coaches

With only one man last year's varsity wrestling team, Coach Reichen Rich's team is expected to be much stronger this year.

There are thirty candidates for the varsity team this year, and the team will be selected by a combination of practice and exhibitions. The varsity wrestling team of the Colle- age, under the direction of Coach Reichen Rich, who has the reputation of being the finest college wrestling coach in the country, will be well prepared for the season.

Weather Data Improved

Self-observation from the ground level to a height of more than three miles above Boston will be made possible with the purchase of a Gunand's ceilometer, which is in the process of being installed at the Massachusetts Institute of Technology.

For the purpose of measuring accurately the temperature, humidity, and relative humidity, it was announced yesterday by Dean Albert A. Marvel, Director of the Institute, that an apparatus equipped with thermometers, hygrometers, and anemometers, and able to make observations throughout the day and night, will be installed in the building.

In Special Airplane

Motorless airplane. During this time the place for three passengers in addition to the pilot has been made. A thin sheet of smoked aluminum foil on the tail and the wings of the aircraft, and the readings are automatically and continuously recorded throughout the flight on the instruments for barometric pressure and relative humidity, it was announced yesterday by Dean Albert A. Marvel, Director of the Institute, that an apparatus equipped with thermometers, hygrometers, and anemometers, and able to make observations throughout the day and night, will be installed in the building.

The device used for registering temperature, the instrument, and humidity is a portable one, and can be used in the field. The focus of the instrument is automatically and continuously observed by a special instrument for weather data.

There are also new models, and can be used in the laboratory and in the field. The device used for registering temperature, the instrument, and humidity is a portable one, and can be used in the field. The focus of the instrument is automatically and continuously observed by a special instrument for weather data.

A Record of Continuous Service

For over a month the committee, composed of Mr. John V. Schneck, Mr. Wendell Willkie, and Mr. John V. Schneck, has been meeting daily to plan the campaign, and has been working to arrange the details of the drive. Mr. Reichen Rich and his orchestra will be heard at the reunion, and three songs will be sung.

The hall will be decorated with palms, ferns, and other flowers. The audience will be entertained by several of the goals. The upperclassmen will take the floor to introduce the quartet. After the quartet has made its appearance, the upperclassmen will present the T.C.A. Corp's song of the year, and the T.C.A. Corp will present their annual game on the Coop Field to the audience.

Never parched, never toasted
CAMELS are FRESH
in nature's own mild way!

EVERYONE knows now that Camels are the fresh cigarette.

If inquiry went deeper, it would reveal that Camels are the natural moisture cigarette.

That's important, because in handling fine tobaccos, when you process out natural moisture, you sacrifice freshness and flavor too.

Camel smokers needn't worry about that, because Camels are blended of fine Turkish and mild Domestic tobaccos that are never subjected to violent processing. They need no parching or toasting to make them smooth, palatable, cool.

That's why the Camel Humidor Pack is such a boon to Camel smokers — it preserves the freshness, flavor, natural moisture, fragrance that are in this fine cigarette to start with.

Camels are fresh in nature's own mild way, and if you want to see what that means in unalloyed smoke-enjoyment, switch to them for just one day — then leave them, if you can!
