McCarthy Names Lineup for First Basketball Game

Four Veterans Comprise Basic Squad of Eight for Start of Season

DANCE LOWES GAME

Basket ball starts the winter sport season at Technology with a game against St. Gregory Academy team advantage, 51 to 24. Harvey Glyn, an experienced team member of Winter Hill, will handle the ball. Only one of the quintet of players who offered a difference in the game to the Institute, Dr. George R. Harrison, will continue his play at center. President Compton was high scoring Technology in the game last season, although Compton left the court late in the game, losing more experience now, should roll in the points tomorrow night.

Two other players round out the Beaver quintet. Fred Peabody placed next in the points last season, Fred Peabody handled the ball very well, and Charles A. Johnson was high scorer for the Institute.

Dinner in New York

Dr. C. W. Rice Made Honorary Member In Recognition of Long Service

Dr. C. W. Rice, a graduate of the Institute of Technology, and a professor in the Massachusetts Institute of Technology for over five years, was given a dinner in New York last night at the Hotel Continental. Dr. Rice was a student of Prof. W. H. Milstead, the chemistry professor at the Institute of Technology, and a well-known chemist.

The dinner given in New York last night was attended by many people, including Prof. W. H. Milstead, the chemistry professor at the Institute of Technology, and a well-known chemist.

KODAK RESEARCH DIRECTOR IS TO START LECTURES

Lecture of Today Marks Start Of Ninth Series of Annual Aldred Lectures

SUBJECT: "REMINISCENCES"

As the first speaker of the ninth annual Aldred lecture series, Dr. C. E. E. Compton, research director of the Eastman Kodak Company, will speak on the subject of "Reminiscences of the Growth of Photography". Dr. Compton is an executive of the Eastman Kodak Company and a member of the Institute of Technology. The lectures will be given at the Institute of Technology.

After six years with Wright and Wurzel, Ed. Rice was brought to the United States, where he became associated with the Eastman Kodak Com- pany.

Institute Committee Votes Revival of Famous Carnival After Two Years' Inactivity

MUSICAL CLUBS ARE TO BROADCAST FROM WABA

All the constituent groups of the Carnival Committee, representing a band of its members, have made arrangements to present a series of eight operatic numbers from WABA from 9 to 9:30 o'clock in the evening of Wednesday, December 18, to begin the winter season of the Civic Music Association. A vote was taken unanimously that the Civic Club will sing the State Song.

PRES. AND MRS. K. T. COMPTON WILL BE HOSTS AT DANCE

Hold Reception Tomorrow Night In Homes for Advanced Student Group

Graduate students in the Institute will be received a reception by President and Mrs. Karl T. Compton at their residence, 111 Charles River Road, at 9:30 o'clock, Tuesday, December 17. The reception is first in the series of events planned by President and Mrs. Compton for the students in the Institute. A dance will be given in connection with the reception, with President and Mrs. Compton also entertaining the graduate students.

PASS MOTION IN MEETING ABLAZE WITH DISCUSSION

Dean Lobdell Approves

Charging that the logs of the 1926 Circus caused the tremendous expense, was charged by the large expense of the original equipment, the Compton Club, with Dr. C. E. E. Compton in the Institute. In the evening excitement, the body passed the motion and empowered the Executive Committee to appoint a group to begin work on the affair.

Never before at these regular meetings as the governing body. Three times,ailing at times to pass, with much discussion, the motion passed the meeting to begin at 10.45 o'clock, December 11, at 7.30 o'clock.

All the graduate students in Technology have been invited to the reception and it is expected that about five hundred will attend. This will be the first social function for graduate students as a group over the year, and the students are expected to attend.

Music will be furnished for those who wish to dance, and refreshments will be served at the reception. Music will be furnished for those who wish to dance, and refreshments will be served at the reception.

Light and Atoms To Be Discussed in Science Talk

Professor George B. Harrison will Deliver First of Popular Series

"Light and the World of Atoms," will be the subject of the address in the annual series of Popular Science Lectures given under the auspices of the Society of Arts and Sciences of the Massachusetts Institute of Technology. Dr. George R. Harrison, professor of physics, will deliver the lecture Tuesday, December 13, in Room 18-200, at 4 o'clock.

Slides, models and experiments will illustrate the evening's talk. Admission will be free, but in order to obtain reserved seats a stamped, self-addressed envelope must be sent to the Society of Arts, Room 1-11A. Requests for tickets should not be made more than a week in advance of the date of such lecture. Tickets will be for the use of all the members of the lecture society, and all will be seated for the lecture. The lecture society will close to four hundred members.

In charge of the dance in the social event that will be the highlight of the New Year's Eve festivities is Dr. C. E. E. Compton. B. 317, with Dickie Selig, Cyrus R. Harropp, Charles G. Bell, and Samuel P. B. Semple, will be in charge of the dance. Chaperons for the dance will be selected from the members of the Institute, Mr. Horace S. Peck and Mrs. Wallace E. John.

Music will be furnished by the famous Ceci Orchesis orchestra, and refreshments will be served at 11 and 11:30 o'clock. The tickets, which cost three dollars for couples, and two dollars for singles, may be obtained from the various fraternity treasurers.

ALL-TECH TOURNAMENT BEGINS NEXT MONTH

Medals in Each Weight Will Be Given by Dr. Rockwell

Getting under way next Monday, the All-Club Tournament in weight lifting will be run off by the four football teams. Monday and Thursday of next week, eight classes of weightlifting, or world college-club, will be open to any member of the undergraduate body who has not entered in a weightlifting competition.

Medals will be presented to winners in the different matches at the conclusion of the final in the heavyweight class. Dr. John A. Rockwell, '96, chairman of the Advisory Board on Athletics, will make the awards. The medals will be given by the Advisory Board and will largely be the result of Dr. Rockwell's interest in weightlifting. Intention of competing must be indicated to either Coach Jay Rickes or Mr. William F. McCarthy on or before December 8. Monday, December 8. The process of registering for the tournament will begin Tuesday morning at 10 o'clock, and the preliminary bouts will get under way that afternoon. Registration will be taken care of by Coach Rickes with the assistance of the members of the various teams.

Combined Musical Clubs Plan To Give Christmas Concert

Novel Decorations And Music By Technicians Will Be Feature Events

Xmas Song.

Announcement was made yesterday that the Combined Musical Clubs have been authorized to hold their annual Xmas concert at the laboratory of the Boston Musical Society on December 20, for the usual program of the program. The concert will be given at 8 o'clock, time by the Techtonians, which will last until 12 o'clock.

Unusual decorations in the form of groups of small Christmas trees, brilliantly lighted with incandescent bulbs, will be placed in the lobby of the Boston Musical Society. The first and second floor of the Boston Musical Society will be decorated by the members of the Institute. A concert will be given by the Combined Musical Clubs, which will be broadcast from the Boston Musical Society.

We feel the capacity of the new equipment

And even so, unless sounds like so much apple sauce, unless makes the point that the future developments of health science is largely determined by the response of the public to its service. If the public is not satisfied, the work of the health professional is unnecessary, regardless of how well it may be done.

We feel the need for a new, more vigorous, more realistic, more helpful training program for health professionals. Such a program should be based on the principles of preventive medicine, and should emphasize the importance of the individual in the health care system. It should also provide adequate training in the use of modern scientific methods for the detection and control of disease. Finally, it should be designed to prepare health professionals for service in all areas of public health, including preventive, diagnostic, and therapeutic activities.

We feel the need for immediate action to improve the health care system in the United States. This includes the establishment of a national health insurance program, the provision of adequate financing for medical education, and the development of a comprehensive system of health education. Only by taking such steps can we hope to ensure that all people have access to the care they need, and that the health of our nation is improved.
well, well. Does the eminent professor have his observation on the technological couch? If so, he is possibly right, but there are other roads. Wallailey, for instance, probably rests equally the implications. So does the Lounger. They understand Tubby has some choice of B.U., but that's something else again.

Our esteemed contemporary, the His., old, makes some very unusual remarks about his sense of public utility. Of course, every little bit helps when one has a library book, but they can't have it in their library. We are sure that his primary purpose was to amuse the Pittsburghers. The Lounger sympathises.
