LEADING LADY AND FOUR PRINCIPALS OF "MR. ANTONIO," TO BE GIVEN BY DRAMASHOP ON THURSDAY, FRIDAY, AND SATURDAY.

SECOND BIBLE CLASS WILL BE HELD TODAY

The second act of the evening will be played tonight. The play will be given at 8:30 in the Main Hall of Walker Memorial, and will last until 11:30. The cast includes members of the Drama Club and other students.

RAILWAY TICKETS IN LARGE DEMAND

Tickets for the railway trip are selling out quickly. Many students have already purchased their tickets, and the demand is expected to continue.

DRAMASHOP WILL PRESENT COMEDY OF TARKINGTON'S "MR. ANTONIO"

"Mr. Antonio" will be featured by Dramashop on Thursday night. The play will be presented in the Main Hall of Walker Memorial.

WILL RUN THREE NIGHTS

This comedy is directed by Mr. Antonio, and promises to be a hit with the student body. The play will run for three nights, with performances on Thursday, Friday, and Saturday.

December Issue of Engineering News Is On Sale Today

New Cover Design Makes Big Improvement In Cover Appearance

Changing from the old dark cloth cover to a new lighter, more pleasing one, the issue of the Yearbook of the Engineering Societies, a map of the bulletin district of Beacon has been presented to the students. The new cover has made the magazine more attractive and saleable. The management also announces the erection of the new Engineering Centennial and Magazine Office, which will be the central location of all the Engineering Societies publications.

The elections that have been announced for the Student Senate, the student body's representative body in the administration of the University, are scheduled for the week of November 25.

In this month, in his article on "A Century of Engineering Education," Professor J. B. Whitehurst, head of the department of mechanical engineering, has produced six full-length plays, five of which are in production. Furthermore, Professor W. B. Smith, head of the department of electrical engineering, has given a series of lectures on the principles of electrical energy, which have been well received by the students.

Dramashop Finishes Four Successful Years On Presenting "Mr. Antonio"

Has Produced Six Full Length, Three One-Act Plays In This Time

With the presentation of "Mr. Antonio," Dramashop has brought to a close four years of successful dramatic work at the Institute. In all this time the company has produced six full-length plays, five of which are in production. Furthermore, Professor W. B. Smith, head of the department of electrical engineering, has given a series of lectures on the principles of electrical energy, which have been well received by the students.

There's a new type of instrument that will surely interest you, the first class, the stainless steel, the precision-engineered "UTB" device for measuring ground movement of quakes. This wonder of the modern age will revolutionize the way we understand the world's seismic activity. The "UTB" is precision-engineered to provide unparalleled accuracy and reliability. It's the ultimate tool for geologists and seismologists alike. Make sure to check it out today!

BUSINESS MAN SPEAKS AT A S.C.E. MEETING

James M. Barker, Jr., vice-president of the Bank of America National Trust and Savings Association, delivered the keynote address at a meeting of the M.I.T. Student Branch of the American Society of Civil Engineers tonight at 6:30 o'clock in the North Hall of the Massachusetts Institute of Technology. His topic was "Engineering in Business." President Charles W. Austin served as moderator.

Mr. Barker graduated in 1913 in the M.I.T. class, and began his engineering career in the Eastern National Bank of St. Louis. He is now in charge of the Engineering Department of the Bank of America National Trust and Savings Association, in charge of the Engineering Department.

According to the Chief of Police in the town where University of Iowa is located, the crowd with their lighted cigarettes is one of the city's worst fire hazards. They always throw the sand "out" into waste paper baskets.

fine arts and theater

REALISTIC THEATER

Again the question of cooperative labor, as practiced by Russian Socialists, has produced a sincere interest in Russia by Americans. A companion by Mr. Barker, who is a Russian by profession, is supposed to be represented, and, unlikewise, the Russian Katyn Massacre, which, if an American company has made severe attacks on the producers, is supposed to have been done in the workroom.

It is highly probable that the workroom department in the American theater is not as much of an American theatrical department as it was in the old days. Yet, the question is being seriously entertained in the minds of the hopeful thespians. It is not only a question of the character of the character, but of the character of the character and the character of the character itself.

DRAMASHOP FINISHES FOUR YEARS OF WORK
Has Produced Six Full Length, Three One-Act Plays

Students at Columbia University are to have photograph records of their voices made when they enter as freshmen and when they are graduated as seniors. The records of the voices will be used in the English department to show students what their speech manners are, and to aid them in correcting any defects which may be presented.

Students at the University of Alabama are becoming increasingly interested over the telephone feature section into the University portion of the towns. At one store has been constructed on the campus, and the proprietors thereof has featured a lot on the other side of the street for an interest handguns and his eye-paw wires.

At a debate at McGill University, one side argued that Al Capone could govern the United States better than anyone else.

President Compton Welcomes Visitors

Charles M. Thayer, professor of the Student Chapter of the A.S.C.E., opened the meeting by introducing President Compton, who welcomed the visitors to the Institute. Professor Charles M. Thayer told that the Massachusetts Institute of Technology, seats 76 of the technical knowledge of the Massachusetts Institute of Technology.
