

Boit Prizes For Sophomore Themes Will Be Announced On Saturday

Announcement of the winners of the \$25 Boit prizes, awarded for the best themes submitted in E22, will be made by Professor Robert E. Rogers at the regular course lectures Saturday morning. These awards are given according to the will of Robert A. Boit, who in 1921 left \$5,000 to the Institute, the interest from which is to be used to stimulate interest in the best use of English. A committee consisting of members of the English Department will select what are in their estimation the best of the Sophomore themes turned in by the various instructors. Authors of these themes will each receive one of the prizes.

Schedule Final Dormitory Dance To Fall On Night With Full Moon

The Dorms are giving the last informal dance of the year in the Main Hall of Walker Memorial from 9 until 2 o'clock on Friday, May 20. Larry Floyd's Collegian Ramblers are to furnish the music, while Mrs. Compton, Mrs. Jack and Mrs. Hamilton are to be the chaperones. All the Dormitory dances have been very successful this year and it is expected that this final affair will be well attended.

Glee Club Phonograph Records On Sale Today In Trophy Room

Several phonograph records made by the Technology Glee Club will be exhibited and played in the Trophy Room on the second floor of Walker Memorial this afternoon at 5 o'clock. The records will also be on sale in the Trophy Room. The selections recorded are the following:

John Beebe, Fight, Sylvia, Volga Boatman, Plantation, Lullaby, Stein Song, Requiem, and Song of the Jolly Roger. There are also several solos, Dedication, Sacramento, and At Parting, by Albert S. Schulerud, G.

Professor Slichter Will Address Luncheon Meeting Of Faculty Club

Professor Louis B. Slichter of the Geology Department will speak today at 12 o'clock before a luncheon meeting of the Faculty Club in the North Hall of Walker Memorial on the subject, "Searching the Interior of the Earth." Before coming to the Institute as Associate Professor of Geology, Dr. Slichter was engaged in a study of the shallower depths of the earth's interior for the United Verde Copper Company. He was a member of the group of Wisconsin physicists whose combined researches have produced results of commercial as well as scientific value. The study of earthquakes in the deep interior of the earth has suggested the seismic method for the shallow depths; and the resistivity method devised for shallow exploration is beginning to reach into the abyss.

Youthful Navigators Capsize Canoe In Effort To Find Tipping Angle

Always after that critical angle. Two freshmen, not content with seeing one man's downfall while seeking the critical angle of a chair on Walker's floor, tried to find the critical angle of a canoe in Charles River water, Sunday afternoon. Their idea was scientifically sound, except that they found and exceeded that angle, landing themselves in the more or less limpid waters of the Basin. Fortunately a passerby in a motorboat was in the vicinity, and he came to the unfortunate navigators' rescue, fishing them out of the water and rescuing their canoe and paddles. Next time these freshmen undertake scientific investigations it is expected they will keep out of canoes.

Combined Professional Societies Will Meet Under New Directorate

The first meeting of the Combined Professional Societies, under the direction of the newly-elected officers, will be held tomorrow afternoon at 5 o'clock in the Societies' room. John D. Rumsey '33 is the new president, and Clarence R. Westaway '33 is secretary-treasurer. At the last meeting of the old members, the M.I.T. Student Chapter of the Associated General Contractors of America was admitted to membership in the group. The A.G.C. was organized by a group of students of the department of Building Construction and has held several luncheon meetings at which prominent members of the building industry have spoken.

"Rattlesnake" Reported In Vicinity Of Tech Cabin Is Only Black Snake

A rattlesnake was reported to have been seen in the vicinity of the Tech Cabin by a member of the second group which visited the Cabin last week. According to the observer, the snake was about two feet long. However, discussion among people acquainted with the territory there, has brought out the fact that rattlesnakes are not known in the territory. The best explanation that could be offered is that the reptile was a black snake, quite common in those parts.

Walker Dining Service Acquires New-Fangled Notion For Patrons

In order to keep the diners from perspiring too freely over their meals these hot days, the Walker Management has turned the terrace on one side of the Dining Hall into an out-of-door eating place. A canopy protects the diners from the hot rays of the sun. So far the innovation has proved very popular and will probably be extended to accommodate everyone.

MOVIES OF HOOVER DAM TEST WILL BE SHOWN AT INSTITUTE

John L. Savage, Famous Engineer
Will Present Films Of
Spillway Models

ALL STUDENTS INVITED

Unusual motion pictures of the hydraulic model tests for the spillways of the great Hoover Dam and the Madden Dam on the Chagres River in Panama, will be shown in the graduate course in high masonry dams in the department of Civil and Sanitary Engineering at the Institute next Thursday. The film will be presented by John L. Savage, chief designing engineer of the United States Bureau of Reclamation.

Because the Hoover Dam spillway has been designed for water velocities as high as two miles a minute, these pictures have aroused great interest among engineers. In addition to students and members of the staff, invitations have been sent to the members of the Boston Society of Civil Engineers to attend the showing, which will be given in the Pratt Building at 3 o'clock Thursday afternoon.

The course in high masonry dams has been offered at Technology for the purpose

Liberal Club Plans Greater Activity During Coming Year

New President Expects To Have
Active Participation
Among Students

According to Joseph Dauber, president of the Association, the Liberal Club plans to proceed next autumn on a basis which will insure greater activity than it has enjoyed in the past two years. Whereas formerly the Club policy was merely to secure speakers on such controversial topics as might be expected to be of interest to the student body, the tentative plans for the school year 1932-33 provide in addition for active participation by the students themselves. It is expected that some of these activities will be carried on in cooperation with the Liberal Clubs of neighboring colleges. Other matters of general and cultural interest will be introduced in accordance with the wishes of the membership.

GASOMETER TANK BEING INSTALLED

A small gasometer tank is being installed in the Mechanical Engineering Laboratory which was designed by members of the Senior Class as part of their thesis work. This gasometer is to be used for checking air or gas flow through meters and small orifices.

The lower half of the gas holder is supported on beams just above the basement floor so that pipe connections can be made through the bottom. The upper half is suspended from the ceiling of the first floor by roller chains running over sprockets and attached to adjustable counter weights at the free ends. When gas is drawn from the holder this upper section will float down, telescoping into the lower half.

Water will be used to seal the joint where the two parts telescope together. The change in buoyancy because of the change in depth of submergence of the tank in the water seal, if uncorrected, would change the pressure in the gas holder. In order to maintain a constant pressure inside the gasometer throughout its entire range of motion the supporting chains were selected of such weight per foot that they just counteract the buoyancy effect. The pressure can therefore be held constant at any desired value between zero and ten inches of water while either filling or emptying the holder.

1932 Techniques To Be Distributed At End Of Week

Elections To Junior And Senior
Boards To Be Announced
At Banquet Tonight

The 1932 *Technique* will be delivered from the booths in the Main Lobby on Thursday and Friday of this week from 10 to 5 o'clock. To obtain a book a purchaser must present his paid receipts. All difficulties will be ironed out in the *Technique* office in Walker Memorial on Monday, Tuesday, and Wednesday of next week between the hours of five and six in the afternoon.

Elections to the *Technique* Senior and Junior boards will be announced tonight at a formal banquet to be given in the Colonial Room of the Ritz-Carlton Hotel. After the banquet there will be dancing in the French Room to the strains of music made by Ruby Newman's orchestra. Mr. and Mrs. J. R. Killian, Jr., and Mr. and Mrs. A. J. K. Billings will act as chaperones at the affair.

MARCHAND'S BAND TO PLAY AT PROM

Individual Table Service Will
Be One Of Senior Prom
Features

Jackie Marchand's orchestra was the selection for this year's Senior Prom, which is to be held from 10 o'clock to 4 o'clock on June 7. Dinner will be served during the evening, but no special intermission will be arranged for it; tables will be scattered around the edge of the dancing floor with individual table service.

Illumination for the affair will be provided by candles. The entire entertainment will be furnished by Jackie Marchand, plus members of his orchestra. This band has achieved fame at the Copley-Plaza, has been employed at Bar Harbor, Maine, for the past four summers, and is already signed up for several debut parties next fall.

Reservations for tables can be made next Monday, Tuesday, and Wednesday, in the Main Lobby; at that time signups will be redeemed. Tables are available for two, three, four and five couples. The Prom alone will cost eight dollars, but blanket tickets for the whole Senior Week, covering the picnic, Prom, Pops Concert and banquet are \$14, a saving of \$1.00.

FOUR CREWS TRAIL IN NAVY REGATTA

Bill Haines Grooms Varsity For
Poughkeepsie Races On
June Twentieth

Never quite able to keep up to the terrific pace set by the leading boats, on Saturday the Engineer varsity dropped slowly behind to finish two lengths behind Navy and five lengths behind Penn and Harvard. After fighting it out bow to bow over most of the course, with Navy alongside until the last quarter-mile, Penn put on a last-minute spurt to nose out Harvard by three-tenths of a length. The winning time was 8:43, Harvard's was 8:43.3, Navy's 8:55.4, and Technology's 9:03.4.

Bill Haines does not expect to make any changes in the varsity boat before the Poughkeepsie races, but is out to bring back the power that was evident in the Harvard encounter. If he can manage to do that, the Engineers may still be expected to better their showing for the season.

The time for the other races and the order of the finishes were:

Lightweights—Penn, 6m. 50 6-10s.; Navy, 6m. 51 9-10s.; Tech, 7m. 1 8-10s.
Freshmen—Penn, 8m. 54 9-10s.; Navy, 8m. 57 3-10s.; Tech, 9m. 16 1-10s.
Junior varsities—Navy, 8m. 38s.; Harvard, 8m. 46 8-10s.; Penn, 8m. 53 4-10s.; Tech, 9m. 7s.

WESLEYAN LOSES TO INSTITUTE IN ONE SIDED MATCH

Score of 89-46 Made By Placing
24 Out Of 28 Men
Entered

M. I. T. RECORD BROKEN

Winning a meet and officially breaking a four-year-old Institute record, the Technology varsity track team came back from Wesleyan with another victory to its credit.

Walter Wrigley, crack jumper for the Engineers, cleared a distance of 22 ft. 9 1-8 in., to set up a new record for the Institute, breaking that set by Jack Weibe four years ago. The second place was taken by a Wesleyan man, and third place was won by Ball for the Beavers, who didn't touch ground for 21 ft. 11 1-4 in.

Bell Loses 100-Yard Dash

Dick Bell raced in the 100-yard dash and in the 220, both of which he lost by inches. In the hundred it seemed there was an injustice done when the judges gave first place to Wilcox of Wesleyan. The spectators, who were Wesleyan students, as well as the athletes on the Wesleyan team, including Wilcox, himself, felt that the race should have been given to the Engineer. Third place was taken by Snyder of the opponents. In the 220, Bell, who was unaccustomed to running on turns, lost to Wilcox. Lou Holladay took third place for the Beavers.

(Continued on page three)

Spring Elections Of T. E. N. Announced At Closing Banquet

Captain Frierson Speaks Before
Activity At Final Dinner
Tuesday

Capt. S. G. Frierson, head of the Reserve Aeronautical Course at Technology, spoke at the final banquet of the *Tech Engineering News* last Tuesday evening. After the dinner, the following elections were announced:

Gordon K. Burns '34 to the position of Associate Managing Editor, Frank H. Moore '34 to Contributing Editor, William R. Haseltine '34 to Contributing Editor, Howard E. Bernhardt '35 to Features Editor, Henry J. Ogorzaly '35 to Assistant Editor, Charles S. Sutton '35 to Assistant Editor, Frank J. Messman '35 to Assistant Managing Editor, C. Warren Bubier '35 to News Editor, Cecil E. Mann '35 to Assistant Publicity Manager, G. Donald Penton '35 to Assistant Advertising Manager, Alfred R. Johnson '35 to Assistant Advertising Manager, Kenneth D. Finlayson '35 to Assistant Treasurer, Albert B. Parks '35 to Assistant Treasurer, Henry B. Kimball '35 to Assistant Circulation Manager, Arthur W. Gilbert, Jr. '35 to Assistant Circulation Manager.

TWO GROUPS USE CABIN OVER WEEK

Two groups of Technology men used the Tech Cabin over the weekend. Wishing to contribute something towards paying the expenses they themselves caused the T.C.A. by their stay, they gave the T.C.A. \$5.50; this is the second time that users of the Tech Cabin have contributed something for the use of the Cabin.

Arrangements have been made with the T.C.A. for the use of the Cabin for the coming weekend. Saturday a group from the Boston Y.M.C.A. will occupy the Cabin; on Sunday, a party will be given there for the children of the Faculty.

From now on, dining facilities will be available to users of the Cabin, for the camp cook will provide the meals at a reasonable rate. A charge of 35 cents will be made for breakfast, 50 cents for dinner, and 40 cents for supper.

ONLY FIFTY MEN

TWELVE and a half years ago the Armistice came as a signal for great rejoicing among the people of the world, a world wearied by war and years of national strife.

To this end there have been numerous peace conferences, numerous parleys, and lately, numerous conversations, all of which have been remarkable for their lack of any very definite advances to the cause of preventing war.

Whether he is willing to admit it or not, everyone knows that the affairs of the world are directed by a comparatively few men, the recognized leaders of the world.

Controlling the affairs of the world as they do, these men who realize that the world would be the better if there were no war, could get together unofficially, decide there should be no more war, and there would be no more war.

To a democratic people a proposal that a single group dictate world policies sounds aristarchian. So far democracy has proved itself incapable of dealing with the problem of world peace.

THE PUBLICATION UNIQUE

AFTER several preliminary announcements and rumors, Technique will definitely appear next Thursday. As the only permanent record of student affairs at the Institute, this publication occupies a unique position among the undergraduate journals.

AW, WE'RE TOO BUSY

ONE of the more popular criticisms of American colleges and universities has been that, as one of the contributing causes to their failure to prepare the students for the world, they have not presented to them both sides of some of the great issues of the day.

These statements are neither true nor false, for all our colleges considered as a unit; policies vary. As for the Institute, they are probably falser than they are true.

For the presentation of novel political and economic ideas, we have the speakers occasionally sponsored by the Liberal Club. The attendance at these is not always indicative of intense student interest in the topic being discussed; perhaps the Technology man is too busy to be worried by problems of State ownership and such.

As We Like It

HOLLIS
"The Sea Gull"

Realism, made interesting by the high percentage of neurotics in the personae, characterizes the current drama at the Hollis. Written by Anton Tchekov as a comedy in four acts, it concludes with the suicide of the young idealist, Konstantin.

It takes nearly the entire first act to find the tempo Tchekov sets but once in, the second scene drags with the infatuated Nina's sycophancy. The third and fourth acts, however, are worth all the early struggles, and the round half-dozen curtain calls which the not too populous house exacted well atoned for the more sober receptions of the entr'acts.

A picture of frustration and of unrequited love running into many characters painted on a background of a gathering of writers and actors makes the story.

A fine balance of cast, a tastefulness in staging and directing contributed much to the effectiveness of the production. Phoebe Brand as Nina, though not among

(Continued on page four)

As We See the MOVIES

R.K.O.-KEITH'S
"State's Attorney"

Once again the producers label the work of John Barrymore as that of a "new John." in order to cover up certain and various faults of their own in choosing such a picture for Mr. Barrymore to present.

First as a lawyer defending criminals, and later as the State Prosecutor against these self same racketeers, the talented brother of a still more talented actor turns in an enjoyable but not realistic performance.

William Boyd as the hard-boiled and hard-hearted racketeer gives a nice and convincing performance. Then there is Helen Twelvetrees, who, if you like her turns in her regular performance, but if you don't, is plain terrible.

SUMMER EMPLOYMENT

I worked with Pictorial Review last summer and earned \$400 in ten weeks. Wanted - Six or eight M.I.T. men to join me this summer. Salary, Tuition, Bonus, and Transportation. See me (Jack Mather), Undergraduate Employment Bureau - Walker Memorial - 11 to 4 o'clock, Friday, or 10 to 12 o'clock, Saturday.

AND NEXT YEAR OR DURING THE SUMMER LYDIA LEE WILL BE AT YOUR SERVICE Opposite Aeronautical Laboratory

We know why men smoke PIPES

WOMEN don't smoke pipes. They're not the style for women. But pipes are the style for men, and more than that, a pipe and good tobacco gives a man greater smoking pleasure than tobacco in any other form.

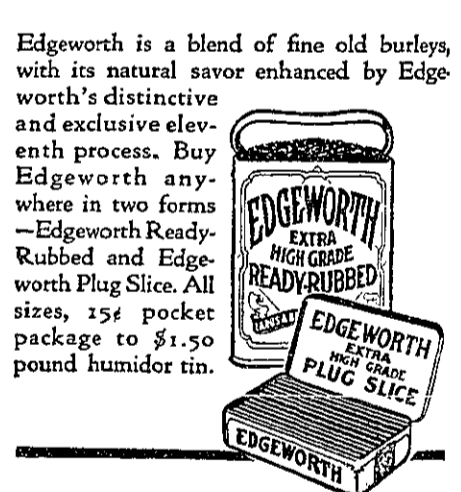

A pipe is not for girls

In 42 out of 54 American colleges and universities Edgeworth is the favorite pipe tobacco. Cool slow-burning burleys give this fine tobacco exactly the character that college men like best of all.

Try a tin of Edgeworth yourself! You can buy Edgeworth wherever good tobacco is sold. Or if you prefer, you can get a special sample packet free: write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va., and ask for it.

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive and exclusive eleven process. Buy Edgeworth anywhere in two forms - Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ pocket package to \$1.50 pound humid tin.

EDGEWORTH SMOKING TOBACCO

TRACK TEAM WINS WESLEYAN MEET

(Continued from page one)

First and third places were taken by Jewett and Schwarz in the quarter-mile. Schwarz was about seven or eight yards behind the winner, with Richard, of Wesleyan, coming between them for second.

Three total cleanups featured the meet. In the half-mile Smith won with ease, being backed up by Buresh and Mulliken. In the mile Kearns ran away for a first place, followed by Mann, with Barrett coming up fast at the end to a third place. The third walkaway for the Institute men came when Kearns won the two-mile, followed by Clark and Mann.

Dick Crosby and Coon finished first and second in the high hurdles, but Crosby clinched the race with a time of 16.8 seconds. In the low hurdles Hill found himself unused to turns, and, although he was leading the field to the last hurdle, he fell back to second place.

Following is the summary of the meet:

100-yard dash—Won by Wilcox (W); second, Bell (M); third, Snyder (W). Time—9-10.

120-yard high hurdles—Won by Crosby (M); second, Coon (M); third, Vila (W). Time—16-4-5.

One-mile run—Won by Kearns (M); second, Mann (M); third, Barrett (M). Time—4:29 9-10.

440-yard dash—Won by Jewett (M); second, Richard (W); third, Schwarz (M). Time—51.2.

Two-mile run—Won by Kearns (M); second, Clark (M); third, Mann (M). Time—9:58 9-10.

220-yard dash—Won by Wilcox (W); second, Bell (M); third, Holladay (M). Time—21 4-5.

220-yard low hurdles—Won by Snyder (W); second, Hill (M); third, Hayn (W). Time—26 1-5.

880-yard run—Won by Smith (M); second, Buresh (M); third, Mulliken (M). Time—2:01 3-5.

Dahl-Hanson (M), 89 ft. 10 in.

Javelin—Won by Robertson (M), 179ft. 9in.; second, Schlums, 158ft. 5in.; third, Bailey (M), 147ft. 6in.

Discus—Won by Walker (W), 122ft. 8 3-4in.; second, Etstein (M), 107ft. 4in.; third, Hanel (W), 106ft. 5in.

Hammer throw—Won by Wolaneck, 112ft.; second, Etstein, 108ft.; third, Bartlett, 107ft.

High jump—Won by Coon (M), 5ft. 11in.; second, Odell (W), 5ft. 9in.; third, Walker and Pierce (M), 5ft. 8in.

Broad jump—Won by Wrigley (M), 22ft. 9 1-8in.; second, Odell (W), 22ft. 3 1-2in.; third, Ball (M), 21ft. 1 1-2in.; Wrigley 22ft. 9 1-8in., M.I.T. record.

Pole vault—Won by Danforth (M); Pierce (M); second, Schlums and Vila (W), 11ft.

VARSITY NETMEN WIN OVER BROWN

Stretching their winning streak to three straight, the Institute's varsity netmen squeezed out a 5-4 victory over Brown last Saturday at Providence. After winning four of the six singles matches, the Engineers found the going a little rougher in the doubles, but Koerner and Hanley won their match to clinch the victory. Captain Fred Feustel did not take part in the singles, and the usually dependable doubles team of Feustel and Harris went down to defeat after a stiff battle.

After losing to the Harvard yearlings by 9-0, the freshman squad came back strongly against the Brown Cubs, hanging up a 7-0 triumph before rain interrupted the last two doubles match. The match with Harvard was a complete rout, every man losing in straight sets. Fisher, who carried his opponent to 8-6 and 7-5, came the nearest to winning a set. Against the Bruins, however, the freshmen showed a surprising reversal of form. Lytle, Newman, and Swan won their single matches in straight sets.

The summary of the varsity match:

Singles—Koerner (M.I.T.) defeated Butler, 7-5, 6-2; Hanley (M.I.T.) defeated Chase, 6-4, 2-6, 9-7; Harris (B) defeated Ross, 6-0, 6-0; Vreeland (B) defeated Regan, 6-3, 6-3; Eder (M.I.T.) defeated Scott, 6-1, 6-3; Spragen (M.I.T.) defeated Dunkerton, 6-4, 6-3.

Doubles—Koerner and Hanley (M.I.T.) defeated Chase and Harris, 6-4, 2-6, 6-4; Scott and Butler (B) defeated Ross and Regan, 6-3, 6-3; Dunkerton and Vreeland (B) defeated Harris and Feustel 6-4, 5-7, 6-4.

FRESHMAN TRACK TEAM LOSES 82-44

Winning four out of fourteen first places, six seconds, and five thirds, the Institute freshman track team bowed its head to the yearlings of New Hampshire by the score of 82-44.

Following is the summary of the meet:

120-yard high hurdles—Won by Funston (NH); second, Levansaler (NH); third, Rich (T). Time—16 4-5.

160-yard dash—Won by Bannon (NH); second, Sharpe (T); third, Rich (T). Time—10 2-5.

Mile run—Won by Darling (NH); second, Short (NH); third, Chalmers (T). Time—17 1-3.

440-yard dash—Won by Horton (T); second, Caldwellwood (NH); third, Sanborn (NH). Time—52 3-5.

220-yard dash—Won by Bannon (NH); second, Horton (T); third, Whird, Short (NH). Time—23.

Half-mile run—Won by Darling (NH); second, Short (NH); third, Rines (NH). Time—2m. 5s.

220-yard low hurdles—Won by Funston (NH); second, Snow (T); third, Shaw (NH). Time—26 1-5.

Pole vault—Won by Dixon (T), 11 1-2; second, Hooper (NH), 10ft. 3-4; third, Sparks (T), 9ft. 6in.

Discus—Won by Yall (NH), 119ft. 4-10in.; second, Greenlaw (T), 112ft. 6-10in.; third, Levansaler (NH), 111ft. 3-10in.

Shotput—Won by Lovering (T), 46ft. 5 1-4in.; second, Lawrence (NH), 42ft. 5in.; third, Gale (NH), 40ft. 3in.

Hammer throw—Won by Jensen (NH), 148ft. 3-10in.; second, Gale (NH), 137ft. 7-10in.; third, Crout (T), 128ft. 3-10in.

Javelin—Won by Jensen (NH), 150ft. 6in.; second, Lawrence (NH), 149ft. 6in.; third, Morse (NH), 149ft. 4in.

High jump—Won by Jorgensen (NH), 5ft. 7in.; second, Clapp (T), 5ft. 6in.; third, Levansaler (NH), 5ft. 2in.

Broad jump—Won by Sharp (T), 19ft. 5 3-4in.; second, Root (T), 19ft. 5 1-4in.; third, Jensen (NH), 19ft. 4 3-4in.

Faculty Club Luncheon Meeting **Dr. Louis B. Slichter**
Tuesday, May 17, 12.00 m., North Dining Room, Walker Memorial Building
Dr. Slichter, who, before coming to Technology as Associate Professor of Geology, was engaged in a study of the shallower depths of the earth's interior for the United Verde Copper Company, will speak on "Searching the Interior of the Earth."

Civil Engineering Department **Mr. John L. Savage**
Thursday, May 19, 3.00 p.m., Room 5-330
Mr. John L. Savage, Chief Designing Engineer, U. S. Bureau of Reclamation, will present motion pictures of "Hydraulic Model Tests of Spillways of the Hoover Dam."

Physics and Physical Chemistry **Massachusetts Institute of Technology**
Thursday, May 19, 3.00 p.m., Room 6-120
New Lecture Hall, George Eastman Research Laboratory
Seminar directed by Professor Linus Pauling: "Bond Wave Functions and Spatial Configuration of Molecules."
4.00 p.m. Emma Rogers Room, 10-300, M.I.T. Tea will be served.
4.30 p.m. New Lecture Hall
Physical Colloquium. "The 21-Foot Vacuum Spectrograph." Professor G. R. Harrison. "Portable Apparatus for the Study of Cosmic Rays." Professor R. D. Bennett.

C.A.L.E.N.D.A.R

Tuesday, May 17

5.00 p.m.—Class of 1908 Dinner, Faculty Dining Room of Walker Memorial.
5.00 p.m.—English Department Dinner, North Hall of Walker Memorial.
6.00 p.m.—Cashiers' Department Supper, Grill of Walker Memorial.

Wednesday, May 18

6.00 p.m.—Chemical Society Dinner, North Hall of Walker Memorial.

Thursday, May 19

5.00 p.m.—Institute Committee Meeting, West Lounge of Walker Memorial.

HOOVER DAM PICTURE SHOWN ON THURSDAY

(Continued from page one)

of presenting the methods in use by the United States Bureau of Reclamation in the design of such dams as the Hoover Dam, now under construction. In addition to being the first of its kind offered in an educational institution, the course is unique in the fact that the students enrolled have been privileged to carry out, under the direct supervision of the engineers in charge of the Hoover Dam, and simultaneously with the erection of the huge structure, design analyses which duplicated those made by the Reclamation Bureau. This work was carried on under the direction of Mr. Savage, who was assisted by Russell S. Lieurance, engineer of the Reclamation Bureau, and John B. Wilbur, instructor in Civil Engineering at Technology.

ANNOUNCE OFFICERS OF DORM COMMITTEE

At a recent meeting of the newly-elected Dormitory Committee, the following officers were elected. Fred P. Feustel '33 is chairman. He was elected by a general vote of all Dormitory residents. Werner O. Bachli '33 is secretary; Edward S. Goodridge '33, treasurer; Joseph H. Wetherell '33, chairman of dance committee; Adam J. Sysko, athletic chairman; Herbert R. Plass, editor of *Dorm Rumor*; and Italo M. Amenta '33, chairman of freshman committee.

BOIT PRIZES

CHEMICAL SOCIETY

At the annual meeting of the M.I.T. Chemical Society on Wednesday at 6.15 o'clock in the North Hall of Walker Memorial, Dr. Linus Pauling of the California Institute of Technology will speak on the "Electronic Structure of Molecules." The results of the elections that will be held Tuesday in front of Professor Keyes' office will be announced at the banquet.

T.C.A. MEETING

The last meeting of the year of the Technology Christian Association will be held at 5 o'clock this afternoon in the T.C.A. office.

NOTICE

All Crew Members, Supervisors, Team Captains and Student subscription salespeople who wish to avail themselves of the opportunity for free scholarships made possible through the courtesy of the Leading Magazine Publishers again this year are requested to apply to the national organizer M. Anthony Steele, Jr., Box 343, San Juan, Porto Rico, stating qualifications fully.

As We Like It

(Continued from page two)

those whose names appear in large black letters, was responsible for some fine acting. Barbara Bulgakov, playing under the direction of her husband, might have improved her contribution to the role of Irina by a little more restraint of a coloratura tendency.

REMEMBER YOUR DIVIDEND

DO YOU INHALE?

Certainly . . .
7 out of 10 smokers inhale knowingly . . . the other 3 inhale unknowingly

Do you inhale? Seven out of ten smokers *know* they do. The other three inhale without realizing it. *Every* smoker breathes in some part of the smoke he or she draws out of a cigarette.

Think, then, how important it is to be certain that your cigarette smoke is pure and clean—to be sure you don't inhale certain impurities!

Do you inhale? Lucky Strike has dared to raise this much-avoided subject . . . because certain impurities concealed in even the finest, mildest tobacco leaves are removed by Luckies' famous purifying process. Luckies created that process. Only Luckies have it!

Do you inhale? More than 20,000 physicians, after Luckies had been furnished them for tests, basing their opinions on their smoking experience, stated that Luckies are less irritating to the throat than other cigarettes.

"It's toasted"

Your Throat Protection—against irritation—against cough

O. K. AMERICA

TUNE IN ON LUCKY STRIKE—60 modern minutes with the world's finest dance orchestras, and famous Lucky Strike news features, every Tuesday, Thursday and Saturday evening over N. B. C. networks.
