KEARNS RUNS MARVELOUS TWO MILE RACE IN 9.28 TO BREAK OLD RECORD

TECHNOLOGY STAR RANKS WITH GREAT DISTANCE RUNNERS

His Two-Mile Run Is Second Best Time in United States This Year

BOSTON, Mass., May 16, 1932

In a race at Harvard Stadium Saturday, John E. Keary of Boston, Mass., who holds the American record for two miles, tied the world's record for the distance today with a time of 9 minutes 28.2 seconds.

Keary, known to every Harvard student as a star in the track and field events, took his start at the flag at the sound of the gun and started his sprint at the half-mile mark. Twenty-five minutes later he won the mile race in 4 minutes 29.4 seconds.

Keary, who is a fourth-year student in electrical engineering, is ranked with the world's best distance runners.

For the first mile Keary was not alone; he had some company, but by the mile mark both of his competitors were shattered and Keary went on to win the mile race with a brand new world record.

Keary's time of 9:28.2 is the world's record for two miles, which was made by Mr. Hermann Pauli of Germany at the world's famous Berlin meet at the end of April. Pauli's time of 9 minutes 29.6 seconds is the record for the distance.

Keary's time of 9:28.2 is also the American record for the distance, which was made by Mr. Homer Leach of New York at the world's famous New York meet at the end of April.

Keary's time of 9:28.2 is also the American record for the distance, which was made by Mr. Homer Leach of New York at the world's famous New York meet at the end of April.

Here, MEN, smoke a man's smoke.

A DYSFUL of good tobacco is dis-
tinctly a man's smoke. The
women (long may they wave!) have
taken over most of our massed privileges. But
tobacco smoking belongs to us.

In every walk of life you'll find
that the men at the top are pipe
smokers. And most college men agree
that the pipe offers the finest pleasures
a man could ask of smoking.

When you smoke a pipe, be sure you
do the smoking that will do you the
greatest enjoyment. Get at one of

Why are other cigarettes silent on this vital question?

Do you inhale? Sevens out of ten people know they do. The other three inhale without realizing it. Every smoker breathes in some part of the smoke he or she draws out of a cigarette.

Do you inhale? Lucky Strike has dared to raise this vital question because certain impurities concealed in even the finest, mildest tobacco leaves are removed by Luckies' famous purifying process and that process. Only Luckies have it!

Do you inhale? Remember—more than 20,000 physicians, after Luckies had been furnished them for tests, having their opinions on smoking experience, stated that Luckies are less irritating to the throat than other cigarettes.

Do you inhale? Of course you do! So be careful. Safeguard your delicate membranes!
