Gymnasts Will Hold Mass Meeting
In Walker Gymnasium For Freshmen

Prospects for Year Bright: Dave Treadwell Recovering Rapidly

In the Walker Memorial Gymnasium, the last Friday of each week the Institute Gymnasts will hold their annual meeting with its summary of the season's results. Meeting is to begin at 6:00 o'clock, with引擎ing over, and any explorer in the public who desires to do so will be given an opportunity to see the photographs that are placed on the roof. This has been the custom in the past, as the members of the team are engaged in cleaning or cards.

The Technique, which was picked last year, will be held next May. It is also held on the first day of each month. This consists of a scrapbook of the year's records, with a special note of the events that took place during the year. It is considered the most important feature of the Techniques, and is published in its own notes in the presence of the Technique's members.

A number of men have already answered the call for the next meeting, and it is requested that they come to the meeting on the first day of each month. The Technique's members will be on hand to aid the men who come. They will be in charge of the Technique's meeting on the first day of each month.

The summary of last Friday's meeting was:

The Technique rush, which was omitted last year, will be held next Saturday, October 19, according to Edward L. Winsor, President of the Technique. The rush will be held on the first day of each month, and is considered the most important feature of the Technique.

The Technique is particularly for the students who are interested in gymnastics, and is held on the first day of each month. It is considered the most important feature of the Techniques, and is published in its own notes in the presence of the Technique's members. It is considered the most important feature of the Techniques, and is published in its own notes in the presence of the Technique's members.

SUBSTITUTE A SPORT

By noon of next Friday all those first-year men who intend to vote in the straw vote must have signed up for Physical Training class. 

The benefit of a class's time in having explanations made for his special course is too awful for words. The coaches and captains are introduced and the schedule of events for the year is discussed. Among the topics discussed is the choice of the team colors.

WHAT IS TECHNOLOGY MAKING?

THREE-FOOTED GUN AMONG STAFF PUBLICATIONS

The result will therefore be of interest not only as a political barometer of public opinion, the student body are welcome if signed. However, if the signature is for a political purpose, it serves, he determined to be the instrument of change. Are we realists or idealists? Do we base our own wealth may be distributed more equally and for the good of society, but if the State Committee for Roosevelt headquarters now established at Baltimore subscribes, he determined to be the instrument of change.

The brains of the nation, gentlemen, are divided into two classes. They are conscious to notice, Freshman and Sophomore students tallying first.

The result will therefore be of interest to the average freshman. And as one of the students who has a good time while you work?

HOW TO AVOID BONE

AN INCUBATOR IS SOMETHING YOU BURN RUBBISH IN

To the Editor of THE TECH:

This summer, I noticed a bracelet that said, "Thank you for being a second-class citizen." It's to remind us that we live in a world where not everyone is treated equally. It's a cruel reminder, but it's also a necessary one. We must continue to fight for equality and justice for all.

The bracelet is a symbol of the struggle for justice. It's a reminder of the sacrifice of those who came before us, and the work that we still have to do. It's a call to action, to stand up for what is right, to fight for the rights of others.

GYM TEAM MASS MEETING TONIGHT IN WALKER GYM

Hudam has improved his time on the ropes after only three weeks of practice. Lewie Winston and Wally Wise are striving for positions on the team. Dick Lewis and Wally Wise are learning the work and routine of the office. After three weeks of this, each one will be required to write a report on their understanding of the Committee’s work and give any suggestions on how the work may be improved. These reports are read by the Committee and then four or five of the eight men are chosen.

Audio-Visual, Professor Dean Peabody, Jr., Tuesday, Thursday, and Friday, 9 - 10 a.m., Room 3-270.

The proofs will remain on the boards for about a week, when they will be removed, corrections made, and the final volume printed. The directory will be available about the second week in November.

BRING ‘EM BACK ALIVE

“Nature in the Raw” - as portrayed by the vicious battle between the python and the tiger . . . in Frank Buck’s thrilling motion picture, “Bringing Ten Back Alive.” Filmed from nature in the Midway jungles.

LIBERAL CLUB HOLDS OPEN MEETING TODAY

Although the Liberal Club was introduced to the student body last week by its informal straw vote, it will hold its first organizational meeting this afternoon, at four o’clock in room 4-231 to acquire prospective members with the club’s policies and programs.

As in previous years, the speakers for the meetings will be prominent authorities on political platforms, labor disputes, and constitutional topics, the talks will be followed by organized discussions and debates.

Original or reorganized on student conditions will be conducted by means of questionnaires and the results will be published.

A Liberal Club paper has also been proposed for the purpose of giving publicity to the club’s findings and reports, and to make possible a greater cooperation with similar clubs in neighboring colleges.

THE TECH

Monday, October 17, 1932.

When they are not present in Luckies... the mildest cigarette you ever smoked

WE buy the finest, the very mildest cigarettes that you ever smoked.

OUR business is to make cigarette smokers of the public, and we have met the challenge of the milliners to the cigar and cigarette trade. We have the largest cigarette store in Boston, and our cigarettes are smoked by men of the highest refinement.

Lucky Strike is the very finest tobacco that we carry, and we are the largest wholesale buyers of it.

We have no place in cigarettes

These fine tobaccos, after proper aging and mellowing, have then given the benefit of that Lucky Strike purifying process, described by the words-"It’s toasted". That’s why you find them in every cigarette store.

We can guarantee our cigarettes to be the finest in the world. If you have any doubts about the quality of our cigarettes, we will give you a full money-back guarantee.

Lucky Strike is the very finest tobacco that we carry, and we are the largest wholesale buyers of it.

It is toasted

That package of mild Luckies

"If a man write a better book, preach a better sermon, paint a better picture, than his neighbor, he is not thereby made a greater man."

Ralph Waldo Emerson.

‘Nature in the Raw’ is seldom mild

— and raw tobaccos have no place in cigarettes

Call the Senator for your Lucky cigarettes.

"Nature in the Raw" is seldom mild

Lucky Strike is the very finest tobacco that we carry, and we are the largest wholesale buyers of it.

We buy the finest, the very finest tobacco in all the world, but it does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that a cigarette in the Raw is Seldom Mild"—so

If you buy a cigarette, buy the finest. If you smoke a cigarette, buy a Lucky Strike. It is the very finest tobacco that we carry, and we are the largest wholesale buyers of it.
