HOLLADAY BLAMES STUDENT BODY FOR LAX ENFORCEMENT

Appeals to Class Spirit

Joseph Dauber, President of the Club, Speaks on War

Details of war, its causes, effects, and future was yesterday a part of the discussion presented by Joseph Dauber, '34, president of the Club.

"In a time of war," said Dauber, "it is necessary that we stop and consider its effects upon the people of today. It has been said that war is the most destructive force upon the human race, and it is our duty to consider its effects before we take any action.

"We must learn to live with the knowledge that war is a part of our lives, and we must learn to adjust ourselves to it. We must learn to live with the knowledge that war is a part of our lives, and we must learn to adjust ourselves to it."

FALL SHOWING OF SENIOR RINGS ENDS

55 Sign-Ups Obtained; Others Who Want Rings Can Still Place Orders

Yesterday, the last day of the official fall showing of the senior rings, the total sign-ups numbered slightly fewer than 55. The ring, bearing a picture of a beaver on the face and the initials "A.T.C." on the inside, is a piece of jewelry which also serves to identify the wearer.

Three freshmen announced they will not be signed up for rings or may do by having their rings signed by Stephen K. Rhodes, '35, chairman of the senior ring committee. He can be found in the Main Lobby of the student center.

"The rings are a part of our tradition, and it is important that we continue to keep them in circulation," said Rhodes.

"The rings are a part of our tradition, and it is important that we continue to keep them in circulation," said Rhodes.

FALL APPEAL TUESDAY

Despite references to official action to that effect it was taken last night at the meeting of the Institute Committee. A motion authorizing the President to take action in the matter was passed without objection on the subject. The Quadrangle Club will be notified of the action and under the direction of the chairman of the Appeal Committee, Louis P. Hopkins, '34, will be in charge of the appeal and will be in charge of the appeal.

TICKETS FROM COMMITTEE

Those Seniors who have not already may be made there or in the T.C.A. Club, Speaks on War

In his talk on the causes of war, Dauber emphasized the importance of peace and the necessity of prevention. He stated that war is a constant threat to our way of life, and it is our duty to prevent it at all costs.

"We must learn to live with the knowledge that war is a part of our lives, and we must learn to adjust ourselves to it. We must learn to live with the knowledge that war is a part of our lives, and we must learn to adjust ourselves to it."

SOPHOMORES UNITE WITH NEW MEN TO RUN JOINT DANCE

Professor Greene Will Speak; Jimmy Green's King's English

"The November "Technology Review" will be a regional feature of the Institute's professional publications. The articles are specially selected to interest the pictures unusual. As usual, the complete issue of this feature reading to use in American engineering and education.

The cover, by Howard Lester, is an unusual, striking representation of a typical issue of the Institute Review, and includes a, signifying its appearance. The issue is due to be out in time for the next meeting of the Institute Committee.

We AREN'T SO DUMB

A MERICAN college students are said to be a group devoid of interest in public affairs and especially in politics. It may be true, but any quantity of political discussion in which students take part would indicate otherwise. Of course, to make a statement that two or three or most politics comes up would be a mistake, but the number of cases in which it does is no reason for an argument.

The number of students who listen to the radio addresses of the candidates is fairly large, and it is true that some students will listen to the radio addresses of all political parties, but when they would not stop to listen to some just band or to a concert. Without question, some students listen to the radio after certain hours is lifted so that the men may hear the views of both parties, and the campaign of the candidates for office of that Institute men listen to these speeches, let him listen to the conversations on the morning after a major personage has spoken. That is a good thing, but it is not logical for a student who has definitely political convictions and has decided which candidate they would vote for if they were eligible to cast a ballot large is. We are not quite so dumb as some pictures us. We read the papers, we listen to the radio, and in the end we do have some interest in politics and questions of the day.

BOXING TEAMS START Practice; Material For Varsity Is Good

For Every Varsity Class; Ten Men Signed Up For Freshman Team

With last year’s freshmen and veterans furnishing material for every class, the Institute’s varsity boxing team faces the 1932-33 schedule with high hopes, according to a statement given to THE TECH by Captain Carey yesterday.

The freshman team for this year’s class, composed of the same material and members, said Carey, with ten men already signed up for substitution, and opening up both boxing and Physical Training.

The following are the weights and the men who are expected to represent Technology in them:

<table>
<thead>
<tr>
<th>Class</th>
<th>Weight</th>
<th>Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>165 lb.</td>
<td></td>
<td>Wetherill</td>
</tr>
<tr>
<td>145 lb.</td>
<td></td>
<td>Captain Carey</td>
</tr>
<tr>
<td>135 lb.</td>
<td></td>
<td>Weatherill</td>
</tr>
<tr>
<td>125 lb.</td>
<td></td>
<td>Bradford and Brown</td>
</tr>
<tr>
<td>115 lb.</td>
<td></td>
<td>Brooks</td>
</tr>
</tbody>
</table>

The men who are expected to represent and Physical Training. With more expected to carry both boxing and Physical Training.

Substitutions: M. I. T.: Hertzel for Craig, Boyd for Hill.

The freshman section leaders for $1.25 per month. They are members of the dance committee and were urged to make final returns to Edward J. Guillain, ’32; Hal Remis, ’33; or Louis W. Platt, ’32, ’30, as soon as possible.

JOINT DANCE MARKS END TO HOSTILITIES

(Continued from page 3)

Dean Calvin’s orchestra filled great popularity last year by its broadcasts from radio station WEEI in Boston. It was also one of the orchestras which furnished music for North eastern University’s Junior Prom.

The Tech reporter was present at the dance tonight, the second one which furnished music for North eastern University’s Junior Prom.

The freshman team for this year, which has been practicing for some three weeks, has been given to THE TECH by Captain Carey.

The freshman team for this year, which has been practicing for some three weeks, has been given to THE TECH by Captain Carey.

The freshmen, however, will be inactive until the fourteenth of January. The varsity has been working out for two weeks, as the Harvard game is not until the seventeenth of this month. The freshmen, however, will be getting the men who are expected to represent Technology in them:

<table>
<thead>
<tr>
<th>Class</th>
<th>Weight</th>

WHAT IS IT... and how does it improve cigarette taste?

YOU’VE heard how fruit of one kind has been crossed with fruit of another to produce a new and more pleasing flavor. The loganberry, for example, is a cross between the raspberry and the blackberry.

Chesterfield’s Cross-Blending gets the same result—better taste—by a different method.

It melds together the different kinds of several varieties of tobacco. Many types of Bright tobacco, a great many types of Burley tobacco, and numerous grades of Turkish tobacco are all merged into one—Chesterfield tobacco.

This welding or Cross-Blending goes beyond ordinary blending or mixing tobaccos together. It actually makes every kind of tobacco in Chesterfield partake of the qualities of every other type.

It’s the Cross-Blending of fine Turkish and Domestic tobaccos that gives Chesterfield a distinctive, better taste.

They are milder. They have a flavor and aroma which, we believe, you will like.

RULES COMMITTEE WILL CONTINUE SAME POLICY

(Continued from page one)

Further on, the letter implies that the student body should take matters into their own hands and enforce the rules, as is claimed to be done in other schools. "Rules in other colleges are enforceable because the whole spirit is co-operative and any group of upholders may take the law into their own hands," reads the letter. It is to the point in the high seriousness where they truly reverse Technology tradition and make the old sword a new and never again will we hear of a freshman card and the consumer gray and vivid." Rules Must Be Enforced By Rules Committee

However the official statement of the rules is drafted by the Faculty handbook and as approved by the Student Body, and specifically governs the administration of the rules to the Freshman Rules Committee. As far as is known for the moment, the rules have been in existence at Technology, only two organizations of the Rules Committee itself have taken part in the enforcement of these rules, those being the Quadrange Club and the Committee of Ceremonies. Whether or not Holladay's attention will eventually lead to a decentralization of the enforcement of the rules in the present circumstances, the rules could not be altered by them.

A somewhat vague intimation that the rules of the Student Body in the recent Field Day events might have some stimulating effect in our section with wearing the class insignia by the students. It was not known for the moment, and the rules have been worked out.

The Quadrange Club Takes Action

What action the Quadrange Club takes upon this is not at the moment known, but the authority delegated to it by the Institute Committees is in all power. It is understood that this organization last year made several suggestions to the administration of the student body in an effort to determine offenders. It is possible that they will follow this course in the present circumstances.
