install modern steam table, salad counter in Walker Cafeteria

announce further improvements for main dining room

Fresh salads and sandwiches will come as result of innovation

Warmer Food Expected

Announcing that plans have been formulated for modernizing Walker Cafeteria, Director of Dining Survives Algie. Bridges yesterday described what these improvements would be.

Prior to the frequent complaints that the food served was cold, the management will install a heater and modern steam table in the kitchen. Mr. Bridges is confident that this will improve the quality of the food service and provide warmer food.

A special section of the table will be reserved for vegetable dishes, forming two distinct dinner lines. Besides being more convenient, the new set-up will save beds and make the long line of waiting students a thing of the past.

In addition to this change, the cafeteria has already installed the grill, another alternative to salads, and sandwich counter. Heterogeneous salads will be prepared before meal-time and allowed to stand while awaiting their ultimate consumption. With the new counter in operation, this advance should be more easily handled and sandwiches will be available.

It will also be possible for students to choose the type of dressings they want with the improvement in the cafeteria.

Bridges commented on the fact that, since the cafeteria began its new dressings, the number of complaints of students formerly seen during each dinner hour.

Inquirers Group to Report

Filling a report of its actions, the Walker Investigation Committee will outline its opinion of the sitation at the meeting of the Institute Committee. The meeting, which will be held in West House of Walker Memorial, will be featured by this report which has required almost a month to compile.

seminar started in course 17.41

Construction Engineering Topics Are Discussed in Weekly Meetings

A seminar in connection with course 17.41 has been started for the first time this year. The course deals with structural engineering. The meetings, which are held every Tuesday from 8:00 to 11:00 in room 22-28, prepared papers are read at the subject for the following week. The subject to be discussed is announced at large by those present.

The discussion is led by certain faculty members or students selected who are the seniors. The two seniors who have been selected to lead the discussion are being "Provisional Emitters." The seniors, being "Provisional Emitters," are selected at the beginning of the term. They have been selected by "Provisional Emitters." The seniors, being "Provisional Emitters," are selected at the beginning of the term. They have been selected by Professor Bridges, who is the head of the seminar.

Tennis Tournament Enters Semifinals

The 1931 tennis tournament is nearing the end, with the quarter final matches to be played any day. In the quarter final played Saturday, H. H. Winters, first round, and Emory R. Violette, second round, played in the semifinals.

Plan Novely Invaluable

A novelty invariable dance is now being planned for December 14, with the dance committee, which includes Joseph H. Wetherell, '34, chairman, Kingsley Cropper, '34, and Herbert E. Smith, '34, the semifinals, which should produce some good talent.

Prom Committee; Freshman Class Elections Today

Preferential System of Voting Is Method for Finding Fair Majority

Voting will be held on November 28 at the "Ole Plantation" for the election of the nominees, groups according to offices and those in alphabetical order. The voters will enter the polling place and sign their names in the lower portion of the ballot. The post office will then be given in the lower portion of the ballot. Each voter will receive a ballot and will be required to cast it on the honor of his choice.

Asch, a graduate majoring in English, for the Junior Class, when voting for president of the Junior Class, when voting for class officers, will consider several candidates for each office, including those who are interested in organizing their own orchestra. One of those who will consider several candidates for each office, including those who are interested in organizing their own orchestra.

In answer to the frequent complaints that the food he purified, the diner to choose the type of dressing they want with the improvement in the cafeteria.

The reference in the letter to the man who hopes for the future of the Walker Memorial indicates that the student body is looking forward to the day when the cafeteria will be able to serve meals at a price that is more acceptable to the students.

In the letter to the man who hopes for the future of the Walker Memorial indicates that the student body is looking forward to the day when the cafeteria will be able to serve meals at a price that is more acceptable to the students.

In keeping the budget within the limits of the incoming funds, the cafeteria will be able to serve meals at a price that is more acceptable to the students.

Activity in the way of hostilities which was not apparent in the fall seems to have increased during the past week. Several of the members of the Junior Class, who are the leaders in the fight for better conditions, have been wounded in the course of their work. The Junior Class has succeeded in placing several candidates for the office of president of the Junior Class, when voting for class officers, will consider several candidates for each office, including those who are interested in organizing their own orchestra.

The chairman of the elections committee will make the formal announcement of the results of all elections at the meeting of the Institute Committee tomorrow.

PROFESSOR HARDY PUBLISHES NEW WORK ON PHYSICS

The Principles of Optics is primarily interesting for its statements and conclusions, presupposing only the acquisition of a certain amount of physics.

Professor Hardy's work on the foundations of optical physics is unique in that a book was needed which would include both theory and application.

The Principles of Optics is primarily interesting for its statements and conclusions, presupposing only the acquisition of a certain amount of physics.

Professor Hardy and Mr. Perrin have used every moment of their spare time for the past three years in preparing their book. Although this book is not that which they anticipated, they believe that it might be used to do its work as a good book can.

Ninety Year Old Father Once in Indian Civil Service Dies

Miss Amy R. Row, who was born at Walker Memorial, has left the Institute. Miss Row was born in 1874, the year the Institute was founded.

Among the most important items of the day's news which confirms a rumor long extant throughout the Institute was the announcement of the death of Miss Alice T. Hunter. For the Augustana Society is a class of its own. Perhaps it might be just as well to think of Miss Hunter as the Empress of India, and be ready to give her a snazzy new Big Ben's, but not without reason, because she is not the only one to whom the use of Walker Gymnasium can be applied to any other activity at Tech!

The Principles of Optics is interesting and valuable for its statements and conclusions, presupposing only the acquisition of a certain amount of physics.

Professor Hardy and Mr. Perrin have used every moment of their spare time for the past three years in preparing their book. Although this book is not that which they anticipated, they believe that it might be used to do its work as a good book can.

MISS ROW WILL NOT RETURN TO WALKER

Such an event as the death of Miss Row is not coming to Tech.

Although it is expected that the family will have to be kept informed of the death, the family will not be informed.

Two years ago Miss Row was the employer of President Karl. Kendall. She had been a devoted and loyal member of the Institute for many years.

The Principles of Optics is interesting and valuable for its statements and conclusions, presupposing only the acquisition of a certain amount of physics.

Professor Hardy and Mr. Perrin have used every moment of their spare time for the past three years in preparing their book. Although this book is not that which they anticipated, they believe that it might be used to do its work as a good book can.
Swimming Prospects

- varsity and freshman teams turning out for practice, the prospects of a successful winter season seems bright. In the opinion of the coaches, it seems quite probable that the Institute will place several men in the New England Intercollegiate Championships next spring.

Captain Lou Flanders and John Miller of the varsity team are making up three very good men in Du Lavenas and P. G. Herkart.

PROFESSOR EDGERTON'S NEW PHYSICS BOOK

(Continued from page two)

who specialized in physics as an undergraduate, is expected to give a very good account of the latest development in the field; and George Hannum is expected to present a very illuminating treatise on 'The4matics'.

Professor Edgerton has been elected the Fellow of the American Academy of Arts and Science, a member of the Executive Council of the Optical Society of America, and a member of the Royal Photographic Society of Great Britain. He is also a fellow of the American Physical Society, and for some years has been one of the best scientists in the country.

Edgerton is the leading candidate for the 1932-33 season swimming manager, for having won in the Field Day races in the Interclass Meet of May 23, 1932, and also to those members of last year's captain, who placed second last year, and L. F. Moffatt, Manager.

**THE TECH SHOWS MERCY**

But the newspapermen recoiled. Medical men in the hospital had told them that the cosmic man might become unmanageable if the spells on his nerves was continued. Consequently, at two o'clock, with great ceremony, the staff of THE TECH ushered Mr. Henry L. Kohler into the Main Lobby containing machine guns, hordes; but it was merely a gesture, a call on the phone requesting that...
