E. J. Demuth Named Industrial Airplane Mechanic in Aeronautical Engineering Course

Two members of the Byrd Antarctic Expedition, one of whom is Charles E. Millard, have been initiated as honorary members of the Tau Beta Pi engineering fraternity. They are the first students from the Institute to be selected for membership in this organization.

Edward A. Filene Opens Series of Aldred Lectures

Prominent Boston Merchant Will Speak at Institute Next Friday

Edward A. Filene, the noted economist and president of William Filene's Sons Company, will give a series of lectures at the Institute.

Assorted Chemical Warfare Cannot Be Outlawed By Pacts

Professor Keyes Tells Society Chemistry Must Be Made Effective

That pacts between nations to outlaw chemical warfare are useless was declared by Professor Frederick G. Keyes, head of the Chemistry department, in a talk "Applied Chemistry in the Last War" before a meeting of the R. E. T. Chemistry Society last Tuesday evening.

"Experience has shown that new weapons have had their day, and what people are looking for is something that is practical and useful," said the speaker. "What people are looking for is something that is going to be effective, and what people are looking for is something that is going to be a weapon of war.""}

Lobel's Attacks Fraternity Critics

Dean Speaking at Interfraternity Conference Says "No Fraternity Are Led Astra"

In an address before the annual meeting of the National Interfraternity Conference, Dean Donald E. Lobdell, '17, strongly attacked critics of the present fraternity system. Stating that the oft repeated stories of fraternities being led astray by their upper-classman fraternity brothers are merely tales, he said: "Not only are actual instances of boys being affected by upper-classmen extremely rare, but the films of any dean of men's office can furnish plenty of examples of a boy being influenced by the influence of his fraternity brothers from the campus of that office." He denied that affection led to any of these things. He then pointed out that each of the men before the camera and in the audience had some affection for the men before them and that that affection was a positive thing.

Freshman Cagers Prepare For The Opening Contest

Face Westward In Two Weeks; Several Stars Found To Inspire

With the first game of the season due to take place in two weeks, Coach E. P. McDouell has been gaining his freshmen football team, the Freshman Eleven, and interest and saving for the day when his team will meet the Columbia University.

Prominent among the players who have been brought in to prepare for practice at the Harvard Gym. Several of these men appear to be very promising and are expected to do well in the coming game.

Two Members Of Byrd South Pole Expedition Are Institute Students

Edward A. Filene, the noted economist and president of William Filene's Sons Company, will give a series of lectures at the Institute.

Hello Alice,

I hope this message finds you well. I am writing to discuss the upcoming project for our team. We need to finalize the design by next week to ensure we meet the deadline. Please let me know if you have any questions or concerns.

Best regards,
