OPEN HOUSE WILL NOT BE ALLOWED FOR SOPHOMORES

Decision Startles Committee After Unofficial Word It Would Be Given

FROM GIRL UNKNOWN

Requests from the committee in charge of the Dormitory Open House have been reported to the Friday night at Wellness Memorial, that Open House be declared the Dormitory for the evening for the reasons that the Dormitory Committee at their regular meeting last Thursday night expressed the opinion that the dormitory men would no longer be allowed for the evening for the reasons that dormitory residents will not subscribe to them.

Several Sophomores stated late last evening that such a decision was made in the dormitory committee after a discussion of the evening of the Sophomore Dance, to be held next term. It is reported that the Dormitory Committee will be called for the sale of all of the Sophomore Dance tickets at nine o'clock at the beginning of the Sophomore Dance.

While the smoke cleared away from the Lounger's topcoat last evening, its all-seeing eye beheld a sight worthy of being brought in, connected with the Clubs. The Committee which had been brought in, connected with the Clubs, was again considered. At this later time only its president seemed elated. The Tea Dance was given.

To the Editor of THE TECH:

I believe that we have been given to understand that a nominal charge will be complimentary to the undergraduate members of the Institute.

Sincerely yours,

Dr. Irving Langmuir, given First Prize in Scientific Advances

Culmination of Twenty Years of Bell Labs' Annual Award

IREVING Langmuir, research chemist and physicist, and associate director of the century. From the practical point of view, his outstanding achievement is the invention of the vacuum lamp and on radio tubes. Shortly after joining the staff of the Company, he began a series of studies with the hopes of improving the bulb's candle power. In the course of these studies, he discovered that the lamp could be made to burn indefinitely at a lower temperature, and he devised a method for making the lamp operate satisfactorily at this point.

The story deals with the usual scientist who, in his boyish propensities from upperclassman, has been known throughout the fair city of Boston as one of the most active and influential members of the scientific community. I feel like a new man. I have listened to the great confusions of the world, and in these studies discovered evidence following the splitting of the hydrogen atom. This discovery was the most important part of his work. His conclusion that the scientific career of Dr. Langmuir himself covers a period of a quarter of a century.

**Varsity Five Closer**

**Season Tonight With Jambos at Medford**

Technology's +11-point lead, 42-21, at the interval was whittled to 42-22 with the last 1:50 off the clock. This was the Jambos' second straight win at Medford, the first time in 15 years.

**Technology Preached To Defeat Those Misspent Days Of The Season**

Technology will be a strong team this year, despite the loss of some key players from last year. The team is expected to put in a strong showing in the upcoming season.

**FRESHMEN TRACK MEN AIM FOR HIGH MARK**

Match Report Set by Class Of '34 Last Year

With a match of seven record broken out of eight events as a precedent of last year's performance, this year's team will aim to break even more records.

**Liberal Club To Hear Address By Major Maddox**

**All Students Invited To Attend Meeting Of Council 12-2190 Tomorrow**

Major Rufus P. Maddox will be the guest speaker at a meeting of the Liberal Club to be held in Room 12-2190 on Tuesday, March 20, at 4:30 o'clock. The meeting will be open to all students and should be of special interest to those studying Military Science. Although the speaker's subject has not been announced, it is expected to center upon the importance of the German problem and the role of the German military in the future of Europe.

Major Maddox is connected with that department of the War Department which supervises the training of military officers and is in charge of the training of officers for the various foreign service corps. One of the chief duties of the chief of the training department is the training of officers for foreign service corps and the preparation of officers for service abroad. He is also a student of European political economy and speaks French fluently.

**Tobacco Cheering**

As Carnegie Tech is regarded in one of the greatest, if not the greatest, institutions of higher education in the United States, it is to be expected that a school spirit will be developed on the campus. The Carnegie Tech, a student paper, refers to the student body as "the men who smoke." The newspaper has been very active in promoting the sale of tobacco on the campus and has published articles on the health hazards of smoking.

**When the Shells Open**

When the shells opened (2-19) we began cutting to pieces men and women. Generally their patronage has increased we feel safe in asserting that students make the Shell their own New York house. One reason for this is the free entertainment features plus a desire to serve on the part of Shells. We have found them most generous. Rates from $1.00 and $1.25 per week. A room from $2.50 per week.

**FRESHMAN BOXERS DEFEAT B. U. 6 TO 1**

Boston University's freshman boxing team proved to be inferior to Tech's. The Tech team defeated the BU team 6 to 1 in the Haiger Gymnasium. The following students of the freshmen meet are as follows:

1. Linn, John (BU) vs. De, Joseph (Tech). Linn won a decision.
2. Sturh, Roy (BU) vs. Carrick, William (Tech). Sturh won a decision.
3. Morgan, Frank (BU) vs. Roper, Henry (Tech). Morgan won a decision.

**NEWS HOUNDS FINDS Apple Machine Very Unreliable**

Newspaper hounds find an apple machine very unreliable. It appears to be a machine that is supposed to produce apples, but it produces only a few apples a day. The machine was purchased from a reliable manufacturer and was expected to produce many apples. The newspaper hounds report that the machine is not worth the money spent on it.

**FRESHMEN BOXES**

The freshmen boxers defeated BU 6 to 1 on the campus. Linn, John (BU) vs. De, Joseph (Tech). Linn won a decision. Sturh, Roy (BU) vs. Carrick, William (Tech). Sturh won a decision. Morgan, Frank (BU) vs. Roper, Henry (Tech). Morgan won a decision.

SPORTS DESK

Coach Vic Duplanty can look back on his first season with a fair amount of pride. The Beavers have won seven games so far and have defeated Harvard, Stanford, Brown, the team started really badly, but they picked up speed over the last two weeks and now are riding a three-game winning streak.

After losing to Northwestern and B. R., the Beavers have a quick trip to Minnesota this week and with a win against Brown.

Coach Vic Duplanty and his Beavers have been in fine form the last two weeks. They are looking forward to the rivalry game with Brown.

collegE gIRLS LIKE THEM BIG AND UGLY

Express Their Ideas Concerning Masculine "Made-Up"

(Made-up from page 1)

For Fraternity Men

"It is very easy," writes a girl at Murray College, "to have the ideal. No one can do the ideal, but by using my imagination I can try to reach the ideal." The girl goes on to explain that making up is not only a form of self-expression, but also a means of escape from the pressures of everyday life.

Some girls use make-up as a way to express their personality and individuality. Others use it to enhance their beauty and confidence. Still others use it as a form of rebellion against societal norms.

For women, the act of putting on make-up is often tied to social expectations and cultural standards. It is a way to conform to the ideal of femininity and beauty, but also a way to challenge them.

Some girls use make-up as a form of self-care, a way to take care of themselves and their bodies. Others use it as a form of self-expression, a way to communicate their thoughts and feelings through their appearance.

不论如何，make-up is a form of self-expression and creativity that allows girls to explore the possibilities of their own identities and to challenge the expectations of society.

eight Boats Now Rowing on River

Coach Haynes Has Four Crews Each of Freshmen and Varsity

"With the prospects of much water and many races to look forward to, we are extremely pleased with the condition of our crew," says Coach Haynes.

The crews are practicing with the aim of improving their performance and getting ready for the upcoming races.

The eight boats are divided into two groups: the freshmen crew and the varsity crew. The freshmen crew consists of students who are new to the sport, while the varsity crew consists of experienced athletes.

The crews are working hard to develop their skills and to work together as a team. They are training together and competing against each other to improve their performance.

The crews are also working on their mental and physical conditioning to ensure they are ready for the challenges of the season.

The crews are looking forward to the upcoming races and are determined to give their best in every race.

"We are looking forward to the races and to the opportunity to show what we have been working for," says Coach Haynes.

The crews are confident in their ability to perform well and to improve their results in the upcoming races.

The crews are working hard to achieve their goals and to make us all proud.

The crews are looking forward to the upcoming season and are excited to see what the future holds for them.
