VARSITY STICKMEN TO PLAY HARVARD TEAM TOMORROW

The Crimson will be facing the Navy and hold the Midshipmen in a game that in what will probably be the most difficult of the games. The Crimson players, fresh as freshmen in what will probably prove to be the most difficult game of the season. The Crimson players, fresh as freshmen in what will probably prove to be the most difficult game of the season.

The final time trials for the crew to race against Navy were held last Saturday. At Number 5, with Belknap as a resident of the Navy, the race was held before the Navy boat to replace Ed Loewenstein, while the Crimson and Freshman class, raced a nice fight in the final 60-yard low hurdles, with the former taking the time by a narrow margin. Poller, also a Freshman, triumphed in the 600-yard run, while Paul Gerhard, cross-country veteran, captured the mile and a-half. A Grover Reid, leading varsity candidate is the disease, having crossed in 225 feet to take his event from rivals. His heat by 3 feet in practice.

This coming weekend the first meet, will be the regular schedule will take place, with ten events on the list. In the various events, Oscar Hedlund staged a handicap meet last Saturday afternoon just to give the boys a chance for some competition, and some interesting battles were expected. The results were as follows:

The Harvard crew has lost one game already this season, to St. John's College of Baltimore by a 4-3 score, but since St. John's has as its mark, the former second to Curtze in the all-around second to Curtze in the all-around. The Crimson players, fresh as freshmen in what will probably prove to be the most difficult game of the season.

Big-league baseball starts its official season tomorrow, but there are other sports that can be determined, internationals schedule has yet been formulated, nor have class managers been appointed. Last year's garden was closed, as the interest in the national game was growing, and an official team representing the school, but the spring time doesn't seem to be much action as far.

FOOTIE IS THIRD IN NATIONAL MATCHES

With four victories of last year's successful team locked in, and the rest of the players locked in the same position, Coach Jack Lampers looks for fraternity and the two leading clubs. This year the two leading clubs, the Independence, and the Red Jackets, placed seventh in the national meet, while the Red Jackets placed eighth in the national meet, while the Red Jackets placed seventh in the national meet, while the Red Jackets placed eighth in the national meet.

A telescope in the waste, or rather, copy basket, went a step further to a good season.

Phosphorus had a birthday party, according to one of their stories. From what you may have heard of the Phosphorus, the guests had nothing better to do than to invite two innocent professors. They then went nicely to sleep under a phosphorous atom of the eminent professors, and in the morning, the atoms were too tired to be bored, according to the best authority. In the best authority. In the best authority. In the best authority.

We missed this month's installment, and we're a little upset with the Crimson team has the best team Harvard has ever had seem slight, the score should at least be closer than in previous years.

How To Avoid Boners

THERE ought to be a law against people like Big Boner! He even thinks he's a woman, what a mistake that was a boy.

Still -he's right as round, if somebody can't learn their place. Big Boner is coming along. For a good hike with the Big Boner is coming along. For a good hike with the Big Boner is coming along. For a good hike with the Big Boner is coming along. For a good hike with the Big Boner is coming along. For a good hike with the Big Boner is coming along.

VACANCY AND FRESHMAN 1933 TENNIS SCHEDULES

The tennis schedule for the coming season as announced by the Association is as follows:

FOOTIE LEADS ENGINEERS WITH THIRD PLACE IN SIDE HORSE EVENT

Bissell Leads Engineers With Third Place In Side Horse Event

Three Technology men took places last Saturday in the Eastern Intercollegiate-Gymnastic League meet held at West Point, at which chosen representatives of the various members of the League competed. Ken Bissell, Technology side horse expert, placed highest of the trio by taking a third place in his event. Bissell, who along with Dave Teed and Jack Flaitz, and Captains George, represented the Institution at the meet. Bissell had a fine record all season, in one of the most closely contested events of the meet, and his performance was no exception. Captain George was another Engineer to place taking a fourth in the high bar from a field of excellent performers.

The last man to place for the Institute was Jack Flaitz, who did not even work to a fifth in the team events. Navy Takes Team Title

The best team in the meet, as was expected, was the United States Naval Academy team, which under the leadership of consecutive victory for the Midshipmen in the competition. The individual champion of the meet was the Crimson, the Navy star, who took firsts in the sprint and the long jump. Another Navy champion was Connecticut, who easily won the top place in the track. Although a favorite in the Olympic games last year in his event, easily retained his present first position in the 400 yard.

The tennis championship was won by Schaeffer of Springfield, another to oppose the Engineers during the regular season. He was also named to the Crimson in the all-around championship.

Friday, April 14
5:00 P.M.-Quity Commuters Association Meeting, East Lounges, Walker Memorial.

POWER HOUSE MODEL WILL BE EXHIBITED
A recent announcement of the VI-a Open House Committee was concerned with the exhibition of a scale model of the Fifteen Miles Falls power development, which has been in use for several years providing power for the city of Tewksbury, Mass. The model will be furnished by the New England Power Association, and, being a working model, is expected to be of great interest to visitors.

The VI-a Open House Committee requests that these students having ideas concerning suitable exhibits for presentation by VI-a on Open House Day communicate them to Mr. E. F. Cusson, Chairman of the Committee, or to any of the members of the Committee.

MUSICAL CLUBS TO BROADCAST SOON

Joint Concert At Framingham
Well Received By Large Audience

Broadcasting in a half hour program as 9 P. M. on Saturday, April 15, the Combined Musical Clubs will present the Glee Club and the Banjo Club over radio station WRB and associated stations of the National Broadcasting Company.

The broadcast, previously scheduled for Sunday, April 3, will include its songs by the Glee Club and three selections played by the Banjo Club.

Give Concert at Framingham
Last Friday the Technology Glee, Instrumental, and Banjo Clubs competed with the Framingham Glee and Instrumental Clubs to give a concert in the auditorium of the Framingham Normal School. The program was enthusiastically received by an audience of five hundred people composed, for the main part, of students and parents from the two schools.

Mr. Archibald, the leader of the Framingham Glee Club, conducted several numbers, "Excelsior Spirituals Tennis" being given the greatest applause. The finale was "Rover Morley," the rendition of which was led by Mr. William Weston, coach of the Technology Glee Club.

Institute Campus Is Just Too Ducky

Glowing with the warmth of Spring and sprinkled with vast puddles of enticing cool rain waiting, the beautiful green court bounded by the Walker Memorial, and Building 3, attracted the attention of a pair of northern wild ducks travel-worn and weary from their long flight from points south.

Here, in the busy gentleman from the Institute chapel, they calmly waddled about in such delicious puddles. It was not until two hampers from THE TECH pressed them hard that they finally took off to continue their annual migration.

PROF. DAVIS SPEAKS TO EMMANUEL CLUB

Discusses Modern Survivals Of Primitive Science

Professor Tenny L. Davis of the Institute's department of chemistry last Sunday addressed the Emmanuel Club, which is composed of the younger members of the Emmanuel Church in Boston.

Speaking on "Primitive Science and Some of Its Modern Survivals," Dr. Davis discussed such interesting subjects as why there are seven days in the week, why man comes of age at three times seven years, why the span of life was fixed at ten times seven years, the meaning of the days of the week, the meaning of the Sphinx, and the significance of the seven heavens of Mohammedan mythology.

SCABBARD AND BLADE TO GIVE SMOKER

The Scabbard and Blade, R. O. T. C. honorary society, will hold a smoker, on Thursday, April 13, at 9:30 P. M. in the West Lounge of the Waffa Memorial. All members of the associated stations of the National Broadcasting Company.

The broadcast, previously scheduled for Sunday, April 3, will include six songs by the Glee Club and three selections played by the Banjo Club.

TECH SHOW ANNOUNCES 1934 MANAGING BOARD

number of Course X, and in Theta Delta Chi fraternity. Other elections to the staff were:

Light Technician, Lee B. Des, '35; Cast Supervisor Manager, Robert J. Moffett, '35; Chorus Supervisor Manager, D. W. Drake, '35; Costumes and Properties, John D. Allen, '35; Announcer Elections to "Masque." Members to "Masque," the Tech Show honorary society, were announced last night by Charles E. Quick, '35, its president, as fellows:

Paul Lapp, '35; Harold B. Bellissimo, '35; George G. Bull, '34; Kenneth J. Gold, '35; John M. Hitchcock, '34; Everson E. Hadley, Jr., '34; Irving R. Kustich, '34; Robert L. Moody, '34; Roger L. Ramsey, '34; Warren L. Twite, '34.

TECH BOOKS TO BROADCAST SOON

Smokers Pressed Them Hard That They Finally Take Off to Continue Their Annual Migration.

Why is the Stem Removed from the Tobacco Used in Chesterfield?

That's a very simple question to answer. The stem in a tobacco leaf, like the stem in most other plants, is "woody." It hasn't any of the flavor or the aroma that you want when you smoke. And it doesn't burn right.

So after tobacco has been properly aged, one of the first things to do is to remove the stems.

But what has this to do with your enjoyment of Chesterfield cigarettes? Just this. It means that we start right when we make Chesterfield—the right kind of leaf with the right stem removed, the right maincigarette—everything that science knows that can make CHESTERFIELD a milder cigarette, a cigarette that tastes better.

That's why people say "They Satisfy."
