Tickets on Sale

Ceiling of Main Hall Will Be Lowered With Aid of Decorations

The lower portion of the ceiling of the Ball Room of the Tufts Memorial will be a feature of the decorations at the annual Christmas dance. The Combined Men's Club, B.S.F., Physical Society, and The Tufts Engineering Society are cooperating in making the decorations. The committee, which is made up of a half dozen and a half includes members of the above-mentioned societies. The decorations will consist of a square and circular pattern. The decorations will be shown regularly on the Yankee Network.

The tickets for the event will be sold at the Main Lobby at the price of $1.00, a reduction of fifty cents from last year. As in former years, the proceeds will be turned over to scholarship funds.

DEBATING SOCIETY MEETS TOMORROW

Will Hold Election of Officers and Group Discussion

The newly-formed I. T. D. Debating Society will hold its first meeting tomorrow evening in School 106. This will be a semi-formal meeting for the purpose of electing officers under the direction of its new constitution. At the same meeting, a discussion will be planned under the title, "The California Experiment," which deals with the question of the success of the San Francisco city council. The members present must bring their new certificates and debate with each other.

The society was recently organized for the purpose of debating and participating in various oral debates at local high schools. Its first and only meeting was held in the auditorium. The society is open to all members of the tufts union, including students and teachers. The meeting will be followed by a group discussion, which will be held in the discussion room.

Mystery Coin Is \( T. E. N. \) EXHIBIT

Following the successful display last year of the famous coin of the same name, the Tufts student body is once again displaying the rare coin in a special exhibit. The coin, which is of the same denomination as the common coin, is expected to be of great interest to both students and visitors. The exhibit will be on display all week, and it is expected that many people will come to view this unique coin.

CONSONANTS AND VOWELS DETERMINE ADMISSION PRICE AT DORM DANCE

Girls From 28 Schools Have 93 Different Given Names; Average Cost Is \$1.332

Consonants and vowels determine the admission price at the dorm dance, according to a recent survey. Girls from 28 schools were surveyed, and each girl's name was analyzed for consonants and vowels. The survey revealed that the price of the admission ticket varies depending on the number of consonants and vowels in the name. The survey also found that the average price is \$1.332.

Krim States His Machine Is Not Yet Type-Writer

In view of the many misconceptions that have been spread by some writers on the subject of the Krim machine, the inventor, Professor Charles A. Krim of the National Research Council, has issued the following statement:

'"The first attempt to build a machine which obeyed a fundamental law of psychology was received in 1923 in the United States. It was true that a paper published several years ago has been incorporated into the original patent, but in the opinion of the author, this is not a new design.'

Professor Robert H. Smith

Who Died Yesterday

F. F. E. Student Convention Held for First Time

Norman B. Krinck, '34, described Electrical Analogies to Human Brain

EVENT WILL BE ANNUAL

The first meeting of this kind ever to come under the auspices of the American Institute of Electrical Engineers, the Technology chapter of that organization was held at a convention which was attended by most of the students chapters in the New England area on last Saturday.

The convention met with approval of all the chapters attending, and it was decided to make it an annual affair. The committee on arrangements, headed by Professor A. C. Jackson and Professor William H. Trutlie, of the Civil Engineering Department, commented on the success of the meeting.

Krim Demonstrates ‘Electric Brain’

At the afternoon meeting of the convention in the room of the Tufts Engineering Building, Professor Charles A. Krim, '34, read a paper describing his work on the Krim machine. He showed machine sections of two electric lights, each of which could be switched on or off and the light would be a physical analog to the human brain.

‘For the last year, in this country and in other countries, I have been conducting experiments on a machine which obeyed the fundamental law of psychology,’ he said.

During the hours of 12:00 to 2:00 p.m., the visitors were first shown the Spectroscopy Laboratory, the X-Ray Laboratory, the Materials Testing Laboratory, the Mechanical Engineering Laboratory, and finally the Main Library. The tour concluded with a visit to the City College laboratory.

The society is under the supervision of Dr. Erich Becker. The guest speaker, Rabbi Joseph Lubarsky, played by Robert C. Becker, '34, is the head of the course in psychology. The society is open to all members of the tufts union, including students and teachers. The tour will be conducted in a group discussion, which will be held in the discussion room.

The Tufts String Quartet Plays at the Menorah Club Banquet

The Tufts String Quartet played at the Menorah Club Banquet last Saturday evening in the main hall of Walker Memorial. The concert and dance to be held by the society will be held on the last Friday of the month, starting at 8:00 p.m. The society is open to all members of the tufts union, including students and teachers. The concert and dance will be followed by a dance continuing until the next day.

December T. E. AS NEW FEATURES

The Decennial issue of the Tech Engineering News, which appears now, is characterized by many changes, such as a new kind of type for the headings of articles in the "Engineering Digest" part of the News, which adds greater emphasis and importance of the issues.

As for the main body, there are new articles this month which promise to be in the news for the next few years. An article by Dr. William, professor of meteorology, concerns the problems of the meteorologists; particularly the forecasting of weather by means of aerial observations. This article explicates the necessity for such observations and describes its experimental beginning during the World War.

High-Speed Photography Described

The latest developments in high-speed photography are described by Robert S. editor of The Bulletin. This article is useful for those who wish to learn more about the methods of photography, and the development of equipment used in photography. It also includes a discussion of the future of photography, and the changes in the photographic industry.

Brother Alpha

The brothers who attend the Alpha Tau Omega house are divided into three classes of persons: those who believe in God; those who think that there is no God; and those who think that the whole idea is a waste of time. The Alpha Tau Omega house is located in the heart of the city, and is known for its friendly atmosphere.

The brothers at Alpha Tau Omega are divided into three classes of persons: those who believe in God; those who think that there is no God; and those who think that the whole idea is a waste of time.
Hockey Team Loses to Princeton 8-3
Millikan Makes Thirty-Eight Saves; Tigers Superior in Final Period

A spirited Technology hockey team (of which the backbone of a powerful Princeton six Saturday at the Hockey Bakers Memorial Stick at Princeton by the score of 8 to 0. The feature of the game from the Tiger standpoint was the splendid play of Captain Frank Millikan, who made thirty-eight saves during the three periods.

Organized Cheering Squad for Harvard Game

For the first time in a number of years the student body of the Institute will be out with spirit and enthusiasm, no doubt to be beaten only by the Harvard students, as the Harvard six now are, and the elements, as well.

(Continued from Page 1)

The results of the finals were as follows:

Brown: Chicke defeated Noxonham, 3:30
Harvard: Don McClelland defeated Helms, 7:30
Chicago: Chicago defeated Michigan, 6:30

Yale: Helms defeated Helms, 6:30

McCluney defeated Turner
Harvey defeated Pearson

Catholic Club Holds Breakfast

Reverend Father McKee, S.J., addressed the Technological Catholic Club last Sunday at its Communion Breakfast of the year, on the subject of "Science and Religion." The breakfast was held at the Catholic Club, the members were received by Cardinal Spellman.

Basketball Team Will Play Alumni

Game to be Held in Hangar Thursday; Freshmen Lose to Belmont

Thursday night the varsity basketball team will play its first game of the season when it faces the Alumni team, composed of former Institute men, in the hangar. With the excellence of the opposition, the game will, if not equal, be at least a walk-away for the latter.

The lineup for the grades will include Fred Feustel, Pat Amenta, Dick Hill, and others. The players are all well-known by the members of their classes as the basketball heroes of their day, and in spite of the fact that they have not for the most part played recently, they can be expected to offer plenty of opposition.

The game will not be played fast providing the annual Christmas Concert and dance of the Musical Club in Walker, the attendance should be heavy. This will be the first time this year that the school has had to meet the prospect of action in basketball.

The Biggest user of Fine Turkish Tobaccos

-why Luckies taste better, smoother

On certain mountains in the Near East is a limited collar of earth—called in Turkish, "Ncaca"—Tobacco grows high as 210 feet. Carefully they are examined, leaf by leaf. Often it takes a man a whole day to select two ounces of the finest tobacco leaves. Lucky Strike is the world's biggest user of fine Turkish tobaccos. For these reasons, delicate Turkish leaves are blended with choice tobaccos from our own Southland to make the best tobacco in the world.

Lucky Strike a cigarette that is fully packed—round and firm—free from loose ends. That's why Luckies taste better, smoother.

Always the finest tobaccos
Always the finest workmanship
ALWAYS Luckies please!

CALENDAR

Tuesday, December 12, 1933

6:30—Burton Club Dinner, Grill Room, Walker Memorial.
6:30—S. E. E. Dinner, Faculty Room, Walker Memorial.
8:00—M. I. T. vs. Harvard Hockey, Boston Arena.

Wednesday, December 13

4:00—Railroad Club Business Meeting, Room 4-239.
5:00—Combined Professional Societies Meeting, Room 5-225.
6:00—Defeating Society Meeting, Room 5-225.
6:00—A. E. C. E. Dinner, Grill Room, Walker Memorial.
6:00—The Graduate House Dinner, North Hall, Walker Memorial.
8:00—Alpha Chi Sigma Meeting, West Balcony, Walker Memorial.

Thursday, December 14

6:45 A.M.—Hockey Practice, Boston Arena.
5:00—Debating Society Meeting, Room 2-330.
8:00—M. I. T. vs. Harvard Hockey, Boston Arena.
7:30—M. I. T. vs Alumni Basketball, Hangar Gym.

Friday, December 15

4:30—Physical Colloquium, Room 6-120.
4:00—Tea in Fournier Jewett Morris Room, Room 6-321.
3:00—Theoretical Seminar, Room 6-120 (subject to be announced later).
6:45 A.M.—Hockey Practice, Boston Arena.
3:00—The Graduate House Dinner, North Hall, Walker Memorial.

Saturday, December 16

9:00—Alpha Chi Sigma Meeting, West Balcony, Walker Memorial.
5:00—Debating Society Meeting, Room 2-330.
8:00—M. I. T. vs. Harvard Hockey, Boston Arena.
6:30—S. A. E. Dinner, Faculty Room, Walker Memorial.

TECHNOLOGY MEN TO PLAY SANTA

Will Assist Boston Post Drive in Wrapping Packages

Technology students have been invited by the Boston Post to assist Santa Claus in the wrapping of packages for the poor. "Tech Day" will be celebrated next Sunday at two thirty o'clock at the Post Santa Claus Headquarters, 119 Federal Street, Boston.

Each year the Post collects funds and gifts, and asks the aid of various Boston student groups in assembling and wrapping these. Last week a large delegation of girls (from several of the women's college associations), and on Monday the Brain Hockey team did their part. Number one volunteers have also visited the Post Workshop.

Christmas Cards

This year we are featuring a set of real Technology cards. These are in black and white, and are copies of pen and ink drawings by Stuart Bruce.
