Prolonged Bank Holiday Doesn't Stop Cashier's Office Credit, Says Rhind

Techniques Aids In Crisis

Despite the fact that the national banking holiday has been indefatigably tried in the past, it is not now expected to cause serious

employees to pay out allotted amounts as has been done during the past few years, according to Mr. Asch, who is at the

Cashier's Office.

Asch said that the employees of the office will have their half-salaries in cash today as previously promised.

When the banking holiday was first declared last Saturday, the cashier's office was well fortified for the drain on its cash supply through the fore-

night of the bank cashier, Miss Ines

bell's. Although no definite promise was given, the cashier is confident that the money will be there to meet the immediate demands of the bank.

The present banking holiday, Asch said, is likely that the cashier's office will withstand the heavy de-

mands of the day, and that the city body is in the event of a prolonged cash moratorium.

SEARS TO LECTURE

A Record of Services

Sears will lecture at Framingham Airport.

Framingham Airport was chosen as the place to hold the lecture and the lecture will be given at the Bursar's Office for the aid of students.

The airport will be held by the Aeronautical Engineers Club, which consists of the members of the Institute gathered at the Bursar's Office for the aid of students.

A large part of a man's college education is making friends. This is no difficult task for those who live in the dormitories or who are associated with the larger groups of students at the Institute live in the outlying districts. It is these men who do not have the opportunity to associate themselves with their sympathetic mates as the others. The time that they take up in commuting is the time which dormitory men use for activities.

It is to help the commuters in the matter of social contacts that the Commuters' Association is being planned. Several luncheon meetings have been held at the homes of some of the committers, and by the latter part of February, it may be arranged that some kind of a committee will be formed which shall meet in the homes of a professor or a distinguished alumnus or alumnus. An inquiry into the matter revealed that most students are desperately in need of this sort of companionship. The idea is that the first move be taken by the committee in charge of the association, the second step is the invitation of the commuters to the ideas to which they are presenting, and they are prepared to carry on the plan if the results of the luncheon meetings are favorable.

President Compton, Dean Lobdell, and Vice-President Bush have all expressed opinions in favor of the plan. Incidentally as the commuters do not have the same opportunities as other entrants to activities, these meetings will enable them to become better acquainted with their classmates, and especially those from their own town. If all goes well, local commuters' clubs will be established which shall meet at the home of a professor or a distinguished alumnus. An inquiry into the matter revealed that most students are desperately in need of this sort of companionship. The idea is that the first move be taken by the committee in charge of the association, the second step is the invitation of the commuters to the ideas to which they are presenting, and they are prepared to carry on the plan if the results of the luncheon meetings are favorable.

THE TECH STRIKE BACK

The state of the National Council of the Tech in the present financial crisis of the public school system is worthy of attention. In a recent letter to the Tech, President Compton expresses the opinion that a closer relationship between the Institute and the school system would be desirable under present conditions.

Under the present system the Institute is faced with the problem of dealing with public school authorities, who are under stress due to financial difficulties. The Tech is not yet able to do much in the way of assisting these school authorities, but it is hoped that a closer relationship may be established in the future.

COMMUTERS' ASSOCIATION

The plan proposed by Dr. Judi of the University of Chicago seems to be the only one that would help. The idea is that the Tech should be made a public school, and a closer relationship established between the University and the public school system. This would enable the Tech to do much more to assist the public schools in their financial difficulties.
JORDAN MAICH COMPANY STORE FOR MEN
A Separate Store in a Separate Building

Newest, Smartest, most practical all-around
—the Super-Jordan “Bal” $29.50

Adapted from an English hunting coat, it’s an ideal all-around tapestry. The button-up military collar for style—“crazed-denim”, the shoulder patch with two-way pockets for convenience—extra sweep in the skirts for freedom—and above all Super-Jordan workmanship. It comes in twill, plaids, or hand-made leather fonts in tan, brown, or gray.

The Super-Jordan “Raglan” topcoat, light and warm, is in genuine Harris tweeds, candle brown. “American Blue” in natural wool. Wescott camel hair is a full-lined, double-breasted model.

**WRESTLERS ENTER INTERCOLLEGIATES**

Captains Shut Out Because Of Leg Injury; Six Varsity Men Entered

With six varity men and seven freshmen entered in the New England Interscholastic Wrestling Championships Flames, Technology has a good chance to carry off honors in four classes. Although the record of the varsity team is not too impressive, the efforts of some of them has been outstanding, and they should give good account of themselves.

The preliminary matches are being held this afternoon in the Harvard Indoor Athletic Building, and the finals in both the freshman class and the varsity class are being held on Saturday afternoon. Five schools have entered and are taking part in the freshman team, and all the eight teams have entered in the varsity class. The first round of the competition will be held on April 19, is still open to any fresh- man who wishes to enter.

**TECH SHOW SONGS TO BE BROADCAST**

Professor Magoun of Humanities Department Will Speak During Program

Playing selections from “Fancy That” this year’s Tech Show protection, the Tech Show Ambassadors will be heard over the air tonight at 11:15 from the ceiling WBE. The program will also include an address by Professor Alexander Magoun of the Institute of Humanities.

Those attending the Dorm Tourney tonight will have an opportunity to hear the program during an inter- mission, when Professor Magoun’s speech, and the orchestra’s music will be replayed through speakers in the dance hall. This feature has been made possible by the dorm dance committee.

Tech Show Orchestra to Play 15 Min.

The Tech Show Ambassadors will play in the fifteen-minute program under the leadership of Arthur Cern, 34, aktiv, who believes that fortune favors the regular musical mentality. Prof. Magoun, who will probably speak about the Tech Show in the address of the orchestra of the show in 1916. This first-hand acquaintance with the orchestra should make it talk a mark tonight.

**MUSICAL CLUBS BEGIN CONCERT SERIES SOON**

(Continued from page 49)

Arthur Farrwell, '30, Mr. Clifford Johnson, head of the English Department of the New England Conservatory of Music, and Mr. Charles Cook have been engaged to conduct the series.

Both Mr. Farrwell and Mr. Johnson have been associated with the New England Conservatory of Music, and have engaged in preparation and performance concerts. Mr. Farrwell has been a member of the faculty of the New England Conservatory for many years and has been an active member of the music fraternity since his school days.

Mr. Johnson has been associated with the New England Conservatory of Music for many years and has been an active member of the music fraternity since his school days.

Both Mr. Farrwell and Mr. Johnson have been associated with the New England Conservatory of Music, and have engaged in preparation and performance concerts.

The series will consist of concerts by the various musical clubs on the campus, and will include performances by the students of the various clubs. The concerts will be held in the Music Hall of the University, and will be open to the public.

The concerts will be held on the following dates:

- April 16: The Glee Club of the University will present a concert featuring the music of the popular American composer, George M. Cohan.
- April 23: The Orchestra of the University will present a concert featuring the music of the famous Russian composer, Nikolai Rimsky-Korsakov.
- April 30: The Choral Society of the University will present a concert featuring the music of the famous British composer, Gustav Holst.

All concerts will be held in the Music Hall of the University, and will begin at 8:00 PM. Admission to the concerts will be free, but donations will be accepted to support the musical activities of the University.

among classmates to determine the opinion of the class as a whole. Their unanimous vote followed. However, according to Wilbur B. Huston, '33, chairman of the present Senior Week Committee, the decision is not final.

RIDE ON CREDIT!

To be used to walk to that "date", if you have a local bank account and hold a Bursar's Card. During the present week-end, we will accept your check for mileage in any U-DELLY car. Special low student rates.

H E R T Z 16-35 H P. $50 a DAY

U-DELLY AUTO RENTAL CO., Inc.

Tentative program for Senior Week has been announced as follows:

Friday evening, June 2, Class Banquet; Saturday evening, June 3, F "Date" Concert; Sunday afternoon, June 4, Baccalaureate; Monday afternoon, June 5, Class Day and Tea Dance; Tuesday, June 6, morning, Commencement, afternoon, president's reception, evening, Senior Dance.

MAYBE it's back to Nature. Maybe "date" something else. I don't know just what it is, but somehow or other I've just got to slip out in the woods and sit down on a log. I always take the old pipe along. Thinking somehow seems easier when you are smoking a pipe. I can fill up my pipe with Granger, and somehow just seem to see things clearer than at any other time.

Don't know what it is about Granger, but it must be made for pipes—real pipe tobacco.

"Somehow, there's a flavor and aroma about Granger I never found in any other tobacco. When I pack my old pipe tight and good with these big Granger flakes, it's about the coolest smoke I ever enjoyed. It makes me downright pipe hungry every time I look at the package."

Some years ago we made a painstaking scientific study to find out, if we could, the kind of tobacco best suited for pipes.

Down in the Blue Grass region of Kentucky, we found a tobacco called White Burley. There is a grade of this tobacco between the kind used for chewing and the varieties suitable for cigarettes that is best suited for pipes. This tobacco is used in Granger.

This tobacco is prepared by a method worked out many years ago by Mr. J. N. Wellman. It gives Granger a fragrance and mellowness that pipe smokers like, and makes it burn to a clean, dry ash. Granger never burns a pipe.

Granger has not been on sale very long, but it has come to be popular, and there is this much about it: We have yet to know of a man who started smoking it, who didn't keep on. Folks seem to like it.
