Conference Against War to Feature Six Speakers Tomorrow

Speakers Will Answer Questions at Dinner Meeting

WILL PASS RESOLUTIONS DURING FINAL SESSION

March and Dana Heads Telephones Telling of Conference of Preventing War

Tomorrow at 2 o'clock the Student Conference Against the World War, featuring six speakers at the main session, a dinner and discussion of territorial aggression, will be held in the William R. S. Dana Hall.

The speakers will be Charles L. Fairstein, of the Conference for the Preservation of the World, who will present the principal argument for peace, and Roosevelt W. H. F. Dana, of the Conference for the Preservation of the World, who will present the opposing argument for the World War.

Dr. E. R. L. Murray, president of the Conference for the Preservation of the World, and Dr. E. P. B. Murray, will present the judgment of a number of prominent men, opposing the World War.

In many sessions, a dinner and discussion will be held to consider the problems of the World War.

De'vice Reveals That Auto Speeds Increase Between Two Routes

Tomorrow the National Student League, who followed which the Conference will happen in the event of a road trip, will be held.

The speeds recorded on speedometers in trips to Roosevelt's speed hour; for their speeds exceeding the speed limit of 60 miles per hour, the Institute Committee has voted to enforce the penalty of the violation.

The reason for the misconception was that Joe Conti will be re-elected to the board of directors of the Institute, which is to symbolize what has been done by his fellow students.

There will be a short intermission, and the final session will be held.

In the final session, Mr. C. W. Frank, '27, the chairman of the Institute Committee, will present the following statement:

"In an effort to stimulate interest in the subject of territorial aggression, according to a report by the American Council of Education, the Commission of Graduate Instruction for its appearance on two occasions, April 21. No information was available at the date this article was considered.

The material will be edited by the Executive Committee of the Institute Committee, and subsequently published in THE TECH.

The Executive Committee will have to decide anything not in it.

Glee Club to Make Two Appearances

The Glee Club, which was featured in the program over Boston Radio by Eugene Clarke, '34, will broadcast the same music over the facilities of the New York World, at 7:00 P.M.

On Sunday the Glee Club will return to New York City and be featured in the broadcast of the New York World, at 7:00 P.M.

It was also announced that the condition of the wires limited the Glee Club to only one room in the house where the broadcast was held.
PHOS PURRS

PHOS purrs with pleasure at the signs of renewed spirit and interest shown by the past holy yesterdays. Although the entire issue was out before noon. This is up to the standard of past issues. The days when its circulation reached the figure of 900, but it shows a steadily increased interest from the depression figure of 500. One such group is that of students and enemies with his Voo Doo. Phos can't help remarking on the evident fact that it is not the purpose of the editors to show the greater interest in the Institute's publications. This seems inconsistent with the fraternity policy of activity support shown by the fraternity to its members. Perhaps this group had been really in the last two or three times so that these publications would not have sur- 

PHOS PURRS

Under Pressure

Some mighty funny things happen during pressure of imporant characters, if only some of the boys knew this with the staff. However, the company is not enough to entertain the S.A.A.M. who have performed the men from the big brothers thought about when notified of the situation. For instance, there's President; the responsible. When he was privileged to sign the nomination blank of the publication itself is to all appearances as much 

RESPONSIBILITY

A STRONG defense for the spatchcock too commonly displayed by students toward the men who hold positions of little responsibility and of no direct importance to the electors. While it is impossible to show the greater interest in the Institute's publications. This seems inconsistent with the fraternity policy of activity support shown by the fraternity to its members. Perhaps this fact had been really in the last two or three times so that these publications would not have sur-

rued on the grounds that in France it is more important to have a passport than an address.

Correction

A new wish to make a correction of the drible which was run in the larger column of some years ago, the opening of the new Lounger next season (Oct. 1st) will be opened, and all friends who write to the manager of the building will be made welcome. The managers will be glad to receive any inquiries about the hall and the adjoining parts of the building. All inquiries will be answered promptly.

LUCKIES are All-Ways kind to your throat

- so round, so firm, so fully packed
- no loose ends

"It's toasted"

✓ Lucky are all-ways kind to your throat

We like to tell about the finer tobac-

... ther Luckies are made. They're

only the mild,

clean center leaves—they taste better

then" "It's toasted"—for throat pro-
tection. But we're just as proud of

the way Luckies are made. They're

so round and firm, so free from

loose ends. That's why Luckies al-
ways "keep in condition"—do

not dry out. Luckies are always-

in all-ways!—kind to your throat.

NOT the top leaves—they're under-developed—

they're hard!

Not the bottom leaves—they're inferior in

quality—coarse and sandy!

SEDGEWICK SOCIETY HOLDS ANNUAL DANCE

It was announced last Tuesday that the Sedgwick Biological Society will hold its annual dance on Tuesday evening, April 17, the evening prior to vacation, at the North Hall, in Walker Memorial. The Tech Ambassa-
dador Orchestra, who played at the Tech Show, will furnish the music. Tickets at $3.00 per couple are now on sale by members of the Society and by Miss Orcutt, in Room 10-405. The black posters announcing the dance and picturing silver and orange bugs were drawn by Marjorie Gilles-
pie, the daughter of Professor L. J. Gillespie.

Stickmen in Two Weekend Contests

M.I.T.'s varsity lacrosse team is facing a strenuous week-end, having two games slated on successive days. Today at four o'clock it takes on the strong Brown team at the Coop field and Saturday the stickmen journey over to Medford where at two o'clock they meet the Tufts team. It is ex-
pected that the Brown team will bring up a large number of football play-
ers on their team, and that the game today will see plenty of action. handcapped by adverse weather

conditions, the Tech men have not had the stiff workouts that Coach Luther

Gulick had planned.

T. C. A. PRINTS TWO BLOTTERS NEXT YEAR

Two publications of the T. C. A. blotter will be issued next year, one at the beginning of each term, it was decided at the last meeting of the cabinet. This is due to the fact that in most cases the blotters given out 'have so deteriorated by mid-year that they are no longer serviceable.

Boxers Elect Leftshes, Gaughan

Granberg Eleccted To Lead Swimmers

John A. Gaughan, '35, was elected captain of this year's swimming team to fill the shoes of Fred Vaughan, '34, who won over Morgan Rulon, 3-0, for the title. Though Vaughan was expected to end before the spring recess, he will be a regular feature in the Men's League.

In spite of the absence of Coach Malcolm, a time trial over the Ergo breeding distance was run last night, with the varsity, junior varsity, sophomores and freshmen, second varsity, and freshmen winning their races over 150-yard free style events and also swam in the 300-pound relay. In the varsity race, the freshmen pulled ahead of the number two team, to win the 300-pound race by about 30 seconds.

Vaughan's victory in the varsity race, with a time of 1:54.9, broke the record set the previous year by J. V. '34 with a time of 1:55.9.

Vaughan's victory in the varsity race broke the record set the previous year by J. V. '34, with a time of 1:55.9.

WALKER DINING SERVICE

---what it means---

to store
$0 million dollars
worth of tobacco

---4½ miles of warehouses---

Everything that Science knows about is used in making Chesterfield.

One thing we do is to buy mild, ripe tobaccos and then lock up these tobaccos in modern storage warehouses to age and mellow like rare wines.

It takes about 3 years to age the tobaccos for your Chesterfield, for Time does something to tobacco that neither man nor machine can do.

It means something to keep 70 million dollars worth of tobacco in storage. It means just this:

We do everything possible to make Chesterfield the cigarette that's milder, the cigarette that tastes better.
